American Railroad Journal.

Saturday, November 9, 1878.

Financial and Commercial Affairs.

Since our last issue the city and State in common with a large number of States have passed through the stimulating excitement of local elections. The two leading parties have been so evenly balanced for a considerable time past that the addition of a third party, (Greenback) now made the contest unusually sharp and vigorous. Again, the new party coming into existence upon an avowedly financial basis, and holding doctrines in common to a considerable extent with each of the other parties necessarily drew alike upon each for its strength. The great leading questions now agitating all parties alike are those concerning the management of the national finances. Out of this agitation a final settlement upon a policy, wise or unwise, must come. Had there been a decided preponderance in favor of either one of the old parties the rise of a new party unless coming from a split in the stronger party would have small effect. As it is, the new Greenback party although insignificant in strength now, may with but slight additions hold the balance of power, since the other parties are so evenly balanced. Out of the large number of new Congressmen elected on the 5th inst. let us hope there is a greater weight of brains, more practical common sense, than characterized the last Congress; so that we shall be spared the mortification of such blundering as the Bland Silver Bill. At a Cabinet meeting held on the 5th inst., it was decided to recommend Congress, when assembled, to either raise the standard of the present silver

dollar or to check its further coinage. To stop further coinage of a debased money is only like applying a blister to cure an existing pain. The first pain is not removed. It is idle to expect eighty-five cents worth of silver with the goddess of Liberty stamped on it to pass in trade at home or abroad for a hundred cents worth of gold with or without the goddess. Equal value is the one great law of commerce and money.

From abroad we have now to report a more quiet and healthy condition of financial affairs. The panicky feeling of the London money market having subsided, with the continued gain in bullion by the Bank of England, there is more confidence and the rates asked for money have declined. Exportation from our ports has assumed its former activity; and, while prices generally have shown but slight improvement, the market is decidedly more active for domestic produce and cotton.

On the Stock Exchange the volume of business has been large considering the drawback of a holiday, (Tuesday,) and the greater drawback of active electioneering for some days prior to election. A movement in Western Union Telegraph stock was peculiar and deserving of comment. The company has a surplus of about fifteen millions invested in leased lines and various other ways not uniformly profitable. It has been a favorite move of those interested to promise eager and innocent buyers a stock dividend of those fifteen millions. On the 17th ult. we quoted the stock at 88. Just prior to our last issue it had touched 102. The fruit being ripe was promptly plucked. The fifteen million dividend was declared premature, as usual, and the stock dropped back into the nineties; not however until some 50,000 shares had been thrown upon the market at a profit of 10 or 12 per cent to the manufacturers of imaginary dividends. Sales on the Stock Exchange on Saturday were 237,000 shares; Monday, 189,000; Tuesday, none, and Wednesday, 119,000.

Boston advices are of a generally favorable nature. Trade for the past month, October, however was not equal in amount to September, owing to a number of disturbing causes. It is now reported that merchants are making fewer losses than heretofore, collections are easily made, and Western payments, especially, are more prompt than usual. In the Money market the demand for discounts has fallen off somewhat. The supply of funds is now reported greater than the amount of choice paper offering. Prime business names are done at 4@5 per cent. Manufacturer's paper rating A–1 is done at 3½@4 per cent. Call loans are made at 4@5 per cent. Clearing House loans at 2½@3 per cent.

From Philadelphia latest advices we have to report a dull and drooping stock market. There is a general absence of speculative feeling. Coal stocks are reported dull and lifeless, and must remain so until after the continuation of the Board of Control has been definitely settled. Pennsylvania Railroad shares were quoted at 32⅝@32¾, closing at the latter figure. Reading Railroad, dull, at 18⅛@18⅜, the latter the closing price. Money was easy. Call loans were made at 3@4 per cent. Prime commercial paper was discounted at 4½@5 per cent for short dates. Four months paper and longer dates ruled at 5@5½ per cent. Loans on Government collaterals were made at 3½@4 per cent. Loans on choice miscellaneous collaterals at 6 per cent.

Baltimore reports quote a quiet Money market with rates unchanged from our last report. Baltimore and Ohio Railroad, common stock, quiet at 80@81. Small sales of the scrip were made at same figures. Northern Central Railroad sold at 14. The general market was dull during the week increased somewhat by political causes and the elections.

The business on the New York Stock Exchange for the past week, as during the month of October, has been fairly active. While fluctuations in values, with one or two exceptions, have not been extreme, there has been a general firmness in the whole list and prices have been fairly sustained. Government securities ruled firm with moderete advances toward the close. Subscriptions to the new 4 per cents continue in moderate amount without material change. We now quote all issues as follows:

United States 6s, 1881, registered, 108½@108¾; do. coupon, 108½@108⅝; 5-20s, 1865, new, registered, 103½@103¼; do. conpon, 103½@103¼; do. 1867, registered, 106⅜@106⅝; do. coupon, 106¼@106⅜; do. 1868, registered, 108@108½; do. coupon, 108½@109; ten-forties, registered, 107@107¼; do. coupon, 107@107⅛; 5 per cents, 1881, registered, 105½@105⅝; do. coupon, 105⅜@105½; 4½ per cents, 1891, registered, 104¼@104⅜; do. coupon, 104¼@104⅜; 4 per cents, 1907, reg., 100@100⅛; do. coupon, 100@100⅛; sixes, currency, 121⅝@122.

Money has been in somewhat better supply. The last Bank statement is favorable. There has been a large increase in specie, and legal tenders for the first time in several weeks show an increase, small indeed, but indicating that the tide has turned. Deposits also show a considerable increase. The Banks now hold a surplus of reserve amounting to $10,502,250, against $7,376,575 at the same time last year. Call loans are lower, and 3@4 per cent was the closing rate. Prime mercantile paper is discounted at 5@6 per cent. Money is easier than at our last report, and the tendency is toward lower rates,

Gold has shown very slight fluctuation since our last. At the close 100¼, and quiet. Silver is dull. A rumor from London that India is about to adopt a gold standard made silver heavy, but we cannot quote material change in bar silver in this market.

The Foreign exchange market was weak and lower. Commercial bills were offered more freely and rates fell. The fluctuations during the month just ended were considerable, but prices at the close were not materially different from those ruling at the 1st October. Actual business at the close was at 4 80@4 80½ for prime 60 day bills, and 4 85@4 85¼ for sight drafts.

Domestic Produce from better European advices has shown more activity and closed with a firmer tone. Speculative confidence at the West served to strengthen the market here to some extent also. Exportation continues with a slight improvement over last week. Exports for the week $5,986,068.

Cotton has been irregular and at times panicky, both in this market and Liverpool. British spinners make a gloomy exhibit of present and future profits. This more than any other cause has unsettled the market. Middling up'lands may be quoted at 9¼@9⅜ and dull. Futures are heavy and variable. Prices at the close were 8@10 points lower than our last quotations. Receipts at all the ports since Sept. 1st, 1,109,792 bales.

Metals are unchanged. The only sales reported have been small lots in a retail way. While the stock of Iron in first hands is certainly not diminishing, it is noteworthy that many holders are more confident than heretofore.

Ocean freights may be quoted fairly active, and in some instances better rates for tonnage and berth room have been obtained.

Engagements to Liverpool, by steam, for grain were made at 8d. per bushel of 60lbs. Cotton, at 9 32d. compressed. To London, by steam, grain, 8¾d. by sail, grain at 8½d. To Bremen, by steam, cotton at 11-16@¾d. To Bordeaux, grain, 5s. 6d. per quarter; other French ports, grain at 6s.@7s. per quarter.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—East Tenn., Va. and Ga. 1st mort., 100½; Central of New Jersey 1st consol. ass., 70; Lehigh and Wilkesbarre consol., ass., 39; Clev., Col., Cin. and Ind. 7s, consol., 88½; South Pacific 1st mort., 84¾; Toledo and Wabash 2d mort., 95@100; do. consol., 60; Louisiana and Missouri River 1st mort., 100; Chicago and Northwestern Int. bonds, 105; Syracuse, Binghamton and New York 1st mort., 101; Louisville and Nashville 2d mort., 87; Iowa Midland 1st mort., 8s, 101½; Buffalo, New York and Erie 1st mort., 1916, 109½; Chicago, St. Paul and Minnesota 1st mort., 81; New York Central 6s, sub., 102⅛; St. Louis, Kansas City and Northern Real Estate and 2d mort. 7s, 85¾; Chicago and Alton Income, 104; Belleville and Southern Illinois 1st mort., 90½, Toledo, Peoria and Warsaw 1st W. D. pur. com. receipts, 94; Kansas Pacific 1st mort. 7s, Denver div., with coup. certif., 73¼; Hannibal and Central Mo. 1st mort., 93½; Missouri, Kansas and Texas 4½; do. 7s, consol. ass., 42⅞; do. 2d, 10¼; Missouri 6s, H. & St. J. issue, 1886, and 1887, 103¾; Louisiana 7s, consol, 76; Virginia 6s, def., 7; Missouri 6s, 1886 104½; do. 1887, 105; do. 1888, 105½; do. 1889, 105½; North Carolina 6s, old, J. & J., 16; do. A. & O., 15½; South Carolina 6s, non fund., 1½. The latest quotations are: Adams Exp., 106@107; American Exp., 48½@50; Atlantic and Pacific Telegraph, 28@29¼; Central Railroad of New Jersey, 29@29½; Chicago, Burlington and Quincy, 112⅜@112¾; Chicago and Alton, 80@81; do. pref., 103@—; Chicago and Northwestern, 42¾@42⅞; do. pref., 75½@75⅝; Chicago, Milwaukee and St. Paul, 31⅝@31¾; do. pref., 67@67⅛; Chicago, Rock Island and Pacific, 116½@117; Cleveland, Columbus, Cincinnati and Indianapolis, 81¾@82; Cleveland and Pittsburg, 83@83⅜; Delaware and Hudson Canal, 46⅜@47; Delaware, Lackawanna and Western, 50½@50⅝; Erie, 19⅞@20; do. pref., 82½@—; Hannibal and St. Joseph, 14⅞@15¼; do. pref., 38¾@29½; Illinois Central, 79¼@79¾; Kansas Pacific, 11¾@12¼; Lake Shore and Michigan

Southern, 68⅝@68¾; Michigan Central, 69½@69¾; Morris and Essex, 81¼@81⅞; N. Y. Central and Hudson River, 111¼@111¼; New York and Harlem, 138@140; Ohio and Miss., 7¼@7½; do. pref., 18½@—; Pacific Mail, 15⅝@15½; Panama, 120@125; Pittsburg, Ft. Wayne and Chicago, 98@98¾; Quicksilver, 11@12; do. pref., 30½@34; St. Louis, Kansas City and Northern, 4¾@5; do. pref., 21@21¼; Union Pacific, 68⅜@68⅝; U. S. Express, 47½@49; Wells Fargo Express, 97½@98; Western Union Telegraph, 97½@97⅝; Wabash, 22¾@22⅞.

Philadelphia.—Northern Central R. R. 5s, 50; Shamokin Valley and Pottsville 7s, 100; Oil Creek 1st mort., 75; Philadelphia and Reading R. R., 7s, 101¼; Sandusky, Dayton and Cincinnati 6s, 1900, 87½; Cheshire 6s, 1898, 99½; Brookline 7s, 118¼; Providence 5s, 1900, 106⅝; Chicago 7s, 1888, 105⅞; do. 6s, 100⅜; Boston 5s, 1887, 106½; Toledo 6s, 1891, 100; Duncan Silver Mining Co., 5¼; International, 57⅛; Osceola, 11.

☞ On the 1st inst. the New York and New England Railroad Company paid its note of $250,000 to the Treasurer of the Commonwealth of Massachusetts from the proceeds of the sale of the new bonds. There is now no debt whatever due from that company to the State, and the only relation the State bears to the railroad is that of a stockholder to the amount of 36,000 shares.

☞ Leland Stanford, President of the Central Pacific Railroad Company, has been elected President of the Oriental and Occidental Steamship Company at San Francisco, to succeed the late David D. Colton.

American Manufactures.

The remarkable progress that American locomotive manufacturers are making is a subject of serious concern to the British manufacturers. It is not long since England exported locomotives to this country. Now we not only supply ourselves with all we require, but actually furnish the British colonies with a considerable part of their rolling stock and locomotives. Wilmington, Del., sends a large number of railway cars annually to Canada, and the factories of Rhode Island and New Hampshire furnish her with locomotives. The railway nut and bolt trade of Birmingham is suffering severely from American competition. In fire arms also our Rhode Island manufacturers have built up a large export trade to Russia and Turkey entirely at the expense of the English manufacturers who formerly had the monopoly of those markets. This list might be indefinitely multiplied, but in these items alone we find a reason for the present stagnation of British trade.

☞ At a meeting of the directors of the Pennsylvania Railroad Company on the 1st inst. a cash dividend of two per cent was declared payable on the 30th of November. In connection with the declaration of the dividend the Board adopted resolutions repealing their action of August 2, 1875, under which the system of paying quarterly dividends was inaugurated, and declaring that hereafter such dividends as may be deemed advisable shall be declared semi annually in the months of May and November.

☞ The Pittsburg Chronicle says that the rails have been purchased for the Montour Run Railroad, which is to connect with Pittsburg and Lake Erie Railroad, that the laying of the track will begin in about three weeks, and that the line willbe ready for business in the fall.

☞ Mr. Theodore M. Vail, General Superintendent of the Railway Mail Service, has tendered his resignation, to take effect upon the appointment of his successor, in order to accept the position of General Manager of the Bell Telephone Company of New York.

☞ Judge Dick of the United States Circuit Court at Greensboro', N. C.; has appointed Col. James Anderson temporary receiver of the Spartansburg and Ashville railroad, upon application of creditors representing $650,000 in gold bearing first mortgage bonds.

☞ C. F. Crocker has been elected President of the Arizona branch of the Southern Pacific Railroad Company, vice General D. D. Colton, deceased, and David Nesbr member of the board of directors in place of Mr. Crocker.

☞ Isaac H. Johnson and Wm. C. Longstreth have accepted the position of Auditors of the accounts of the Trustees selected to carry out the Sinking Fund Scheme of the Pennsylvania Railroad Co.

New York Canals.

The following is a comparative statement of the expenditures on the canals for the eight months commencing February 1 and ending October 1, 1878, and for the corresponding period of last year:

	1878.	1877.
Erie Canal	$144 863 54	$302,457 33
Champlain Canal	84,460 82	85,872 72
Oswego Canal	18 744 93	25,382 76
Black River Canal	18,910 60	27,538 84
Genesee Valley Canal	19,207 15	30,645 28
Cayuaga & Seneca Canal	6,520 57	9,828 94
Chenango Canal	1,909 04	2,474 86
Chemung Canal	8,368 56	12,143 65
Totals	$242,085 18	$496,333 38
Eastern Division	$102,091 98	$247,122 24
Middle Division	64,902 60	101,517 33
Western Division	75,090 60	147,694 81
Totals, as above	$242,085 18	$496 333 88
Expenditures by Superintendents—repairs, February 1 to October 1, 1877, eight months		$496,333 88
Expenditures by Canal Commissioners, including salaries and traveling expenses		41,611 13
Total		$537,945 01
Expenditures by Superintendents—repairs, February 1 to October 1, 1878, eight months		$242,085 18
Expenditures by Superintendent of Public Works, February 1 to October 1, 1878, eight months		55,819 29
Salaries and traveling expenses of Superintendent of Public Works and assistants, February 1 to October 1, 1878, eight months		10,937 72
Total		$308,842 20
Total amount saved in the eight months over the corresponding period the previous year		$229,102 81

The following shows the tonnage of boats and the tolls received from the opening of navigation to September 30, for the years 1877 and 1878:

	Tonnage.	Tolls.
1877	3,404,503	$589.921 34
1878	3,698,910	712,463 21
Increase	294,407	$122,541 57
Amount available for repairs of canals for the fiscal year 1878, as per appropriation, chapter 309, 1877, and chapter 269, 1878		$851,000 00
Amount expended 1878		605,273 39
Amount saved and applicable to payment of interest on debt		$245,726 61

The Narrow Gauge System.

At the meeting of the Narrow Gauge Convention held in Cincinnati October 23d, representatives of railroad interests from all parts of the Union were present, and reports from committees appointed at the previous meeting were read and accepted.

As the members of the Convention were all favorable to the system, no time was lost in debating its merits; the attention of the meeting being exclusively directed to the discussion of the statistics gathered by the sub-committees.

After a session of two days the convention reorganized its executive committee with General J. L. Neagly as chairman, and Major John Byrne Secretary, and adjourned until June next.

From the able opening address of Colonel Hurlburt we take the following narrow gauge line statistics:

On January 1st of this year there were 3,082 miles of narrow gauge roads in operation, the Denver and Rio Grande, with 300 miles, being the longest.

There are 1,255 counties of the different States through which no railway yet passes; these are inviting fields for narrow gauge enterprises.

Massachusetts has 4½ miles of road for every square mile of her territory: A legislative committee, specially appointed to consider the subject of providing more railway accommodation, has recommended the building of narrow gauge lines in parts of the State "remote from existing lines."

The report of the committee on rolling stock objects to the small size of the crossties now in use on narrow gauge roadbeds: they should be six inches wide, eight inches thick and six feet long, with 2,800 to the mile.

It recommends that locomotives with four driving wheels should not exceed 16 tons to a 30 pound rail or 18 tons for a 35 pound rail.

A locomotive on a narrow gauge line hauls more paying weight than one of the same power on a broad gauge.

Narrow gauge passenger coaches are now made with too much overhang. Seven feet should be the standard width. These weigh 8 tons, and carry 32 passengers, while the ordinary gauge coach weighs 18 tons, and carries 56 passengers. This gives 714 pounds dead weight per passenger, ordinary gauge, compared with 500 pounds narrow gauge.

The dead weight per passenger on New York roads, for 1870, was 2,748 pounds, not counting baggage. Each car averaged 18 passengers.

The ordinary box freight car weighs ten tons and carries ten tons. The narrow gauge freight car weighs five tons and carries eight tons.

The narrow gauge stock car, loaded with nine head of cattle (12,600 lbs.) weighs 1,400 lbs. less than the ordinary gauge stock car when empty.

The committee recommend three ton weight freight cars, carrying six tons load, with 20 inches only of overhang, The six ton capacity simplifies transfer.

A resolution was passed adopting three feet as the national standard gauge.

On the Denver and Rio Grande Railroad a 17 ton locomotive hauls 24 cars, weighing with load 280,000 lbs., up a seven mile grade, 4 miles, being 75 feet rise per mile.

A 12 ton passenger locomotive hauls up the same grade, at 15 miles per hour, five platform cars with their loads, weighing in all fifty-five tons.

The same class locomotive runs 180 miles with an average up grade of 40 feet, hauling train of baggage car and two coaches, consuming only 2,340 lbs. of coal.

Passenger trains on this road frequently run 35 miles per hour.

The opponents of the narrow gauge designate it as "the isolating gauge."

☞ The extension of the Franklin and Pittsylvania Narrow Gauge Railroad to Rocky Mount, Va., is to be commenced at once. This road is a feeder to the Washington City, Virginia Midland and Great Southern Railroad from the mineral fields in the Southwest, and will add materially to the freight list of the Midland.

Imports of Dry Goods at New York.

The imports of foreign dry goods at New York for the month of October, were:

ENTERED FOR CONSUMPTION.

☞ Work was begun on the 21st ult. on the grading of the two miles of track which is to connect the Pittsburg and Lake Erie Railroad with the New Castle and Franklin Railroad.

☞ Robert Harkness has the contract for the construction of the Fort Gratiot and Lexington (Michigan) Railroad this fall. Work has already been commenced.

The Coal Trade.

The total tonnage of anthracite coal from all the regions for the week ending October 26th, as reported by the several carrying companies, amounted to 478,183 tons, against 548 816 tons in corresponding week last year, a decrease of 70 633 tons. The total amount of anthracite mined for the year is 13,810 786 tons, against 16,016,526 tons for same period last year, a decrease of 2,705,763 tons. The quantity of bituminous coal sent to market for the week amounted to 77,093 tons, against 77,122 tons in corresponding week last year, a decrease of 29 tons. The total amount of bituminous mined for the year is 2,771 272 tons, against 2,779,043 tons for corresponding period last year, a decrease of 7,771 tons. The total tonnage of all kinds of coal for the week is 555,276 tons, against 625,938 tons in corresponding week last year, a decrease of 70,662 tons, and the total tonnage for the coal year is 16,082,035 tons, against 18,796,569 tons to same date last year, a decrease of 2 718.534 tons. The product of the mines of the Cumberland coal region for the week ending October 26 was 45,741 tons, and for the year to that date 1 837 996 tons, an increase of 60,480 tons as compared with the corresponding period of last year. The shipments to the Baltimore and Ohio Railroad were, for the week, 19,654 tons; for the year, 712,677 tons, an increase of 62,224 tons as compared with 1877. The shipments to the Chesapeake and Ohio Canal were, for the week, 19,854 tons; for the year, 509,166 tons, an increase of 11,105 tons as compared with 1877. The quantity of coal and coke carried over the Pennsylvania Railroad for the fourth week in October was 108,031 tons, of which 84,876 tons were coal, and 28,155 tons coke. The total carried for the year is 3,957,932 tons, of which 3,040,428 tons were coal and 917,504 tons coke. These figures embrace all the coal carried over the road, east and west. The Reading Railroad reports a tonnage for the week ending November 2 of 171,000 tons, of which 60,000 tons were sent to Port Richmond. The shipments thence during the week amounted to 57,000 tons. —*Phila. Ledger, Nov. 4.*

☞ The receipts of the Worcester and Nashua Railroad for the year ending September 10, 1878, were $508,396; expense of operating the road, $304,888; interest paid, $71,841; rent of Nashua and Rochester Railroad, $120 448; net earnings, $11,718. The earnings for the three months from July 1 to October 1 show an increase of $14,499 over the same time last year.

☞ The University of the City of New York have elected Charles Butler, William Allen Butler, Morris K. Jesup, Aaron J. Vanderpoel, William A. Wheelock, Hon. Abam S. Hewitt, and Rev. S, M. Hamilton, members of the Council for the term of four years.

☞ The traffic of the Victorian Government Railways for the year ending June 30, 1878, amounted to £1,199,058, against £1,073,532 in the previous year—the mileage being respectively 967 and 803.

☞ The period up to which sealed proposals will be received for the grading and masonry of the Baltimore and Delta railway is 12 M. on Thursday, November 14 inst. Wm. H Waters is the president of the company.

☞ A certificate of incorporation has been filed in the office of the Secretary of State of Ohio of the Cincinnati and Walnut Hills Railway Company, capital stock $150,000, in shares of $50 each, by B. F. Evans and others.

☞ One of the objects of the Convention of State Railroad Commissioners which is to meet in Columbus, Ohio, on the 12th inst., will be to establish a uniform system of railroad accounts, as the present variety of systems causes much inconvenience.

☞ The officers of the Waltham and Newton Horse Railroad, recently elected are: President, R. E. Robbins, Treasurer, H. J. Olney. The receipts for the year were $7,717 66, and the expenditures $6,965 09. The profits were $752 57, against $517 05 for last year.

☞ Coffin Colket, Edwin A. Benson, Winfield S. Wilson, Daniel Longaker and Lewis Elkin have been elected directors of the Philadelphia, Germantown and Norristown Railroad Co.

☞ There are now open 340 miles of railroad in New South Wales, 600 in Victoria, 300 in South Australia, 270 in Queensland, 550 in New Zealand, 150 in Tasmania and 40 in West Australia.

A HISTORY
OF THE
GROWTH OF THE STEAM-ENGINE.
By ROBERT H. THURSTON, A. M., C. E.,
Professor of Mechanical Engineering in the Stevens Institute of Technology, Hoboken, N. J., etc.,
With 163 Illustrations, including 15 Portraits. 1 vol., 12mo. Cloth. Price, $2 50.

CONTENTS.
I. THE STEAM-ENGINE AS A SIMPLE MACHINE.
II. THE STEAM-ENGINE AS A TRAIN OF MECHANISM.
III. THE DEVELOPMENT OF THE MODERN STEAM-ENGINE.
IV. and V. THE MODERN STEAM-ENGINE.
VI. THE STEAM-ENGINE OF TO-DAY.
VII. and VIII. THE PHILOSOPHY OF THE STEAM-ENGINE.

"This is the most exhaustive, lucid and trustworthy account of a most interesting subject. There are two features of the work to which we would direct particular attention. One is the full and careful synopsis of the records and traditions relating to the first discovery and gradual development of the essential principle of heat-engines."—*New York Sun.*

"Prof. Thurston almost exhausts his subject; details of mechanism are followed by interesting biographies of the more important inventors. If, as is contended, the steam-engine is the most important physical agent in civilizing the world, its history is a desideratum, and the readers of the present work will agree that it could have a no more amusing and intelligent historian than our author."—*Boston Gazette.*

"The 'International Scientific Series' is to be congratulated upon the advent of a new member presenting a grand subject scientifically treated and admirably adapted to popular comprehension."—*Providence Journal.*

Progress of Lighting by Electricity.

The age of steam is past—the age of electricity has come. The wonderful powers and uses of steam are an old story; we are now waiting impatiently for that display of new wonders which we are told is in store for us. Wind and water as motive powers yielded to steam. This in turn is about to give place to electricity. Heating and lighting will be presently monopolized by electricity as they are now by steam and gas.

The Paris Exposition has lately shown to the world some of the curious results of invention in lighting by electricity. Here in America but one single display, within the writer's knowledge, upon a large scale has ever been made. The City of Boston in 1862 desirous of taking a patriotic step in advance of the well-worn Fourth of July institutions—fire works and fire crackers—gave an exhibition of the electric light from the dome of the State House. The exhibition was successful both as a grand patriotic demonstration, and as a fine display on a large scale of a novel light. But the worthy people living fifteen miles or so in the country, when the powerful rays of light were thrown by a reflector into their very bed rooms lighting them up like mid-day, thought surely the Day of Judgment had come. The new light was more alarming than novel to them.

Among the apparatus, new and novel for electric lighting, exhibited in Paris were the dynamo-electric machines for generating the electricity; peculiar lamps for regulating the light, and the carbon "points" or "wicks" which yield the light. Of the machines, that of Jablochkoff, a Russian, although clumsy and costly, is the one now in use for lighting a portion of Paris, and is an assured success. Other machines were those of Lontin of Paris, Siemens of London, and the Brush machine from America. The carbon burner or "wick" used in Paris is Jablochkoff's also; but others of different patterns, ingredients, and value, were exhibited by Foucault, Servin, and Dubosq, all French.

The "wicks," as the English prefer to call them, are generally made of fine willow and poplar charcoal dust, which is nearly pure carbon. This dust is mixed with molasses or a similar cohesive substance and baked until hard. Jablochkoff's candle consists of two "wicks" or sticks of carbon placed side by side. Between these carbon sticks and separating them is a slip of fine kaolin or porcelain clay. The current of electricity is made to flow up one carbon stick and down the other; thus making a complete circuit. When the current passes from one stick to the other across the kaolin, this latter is heated to an intensity that yields the light; while all three substances, the two carbon sticks and the kaolin, are slowly consumed. There is no flame, however, from this combustion; only a white, glowing light, nearly equaling that of the sun at mid-day.

Jablochkoff surrounds his candles with opal lamps, so that in lighting the Place de l'Opera, the square in front of the Grand Opera House, also the Avenue de l'Opera leading to the same, the immense space is brilliantly lighted without glare or too great intensity. It is more like a bright moonlight greatly magnified in intensity. The gas lights burning near have a yellow hue and an insignificance in lighting power that is hard to realize.

The apparatus for electric lighting, at the date of the Paris Exposition had been perfected to that extent that only two difficulties remained to be overcome, "dividing" the light, and lessening its cost. Edison and others have within a few days past taken out patents here and in Europe for the first difficulty, dividing the light, so that many candles may be supplied and fed by a single current. The only obstacle remaining is the cost, and it is believed with good reason this will be easily overcome.

An idea of the present cost of electric lighting as compared with gas may be gathered from negotiations now going on in London, where gas is much cheaper than here. It was desired to light by electricity the Chelsea Embankment. This is lighted at present by 109 gas lamps at a cost of 2s. 1½d. per hour. Lontin of Paris, through his London representative, offered to contract with the authorities to light an area of 1540 yards long by 44 yards wide, with 36 electric lamps, having an illuminating power equal to 2000 gas burners, at a cost of 10s. 6d. per hour. This area is a little greater than the Chelsea Embankment. The quantity of light to be furnished it will be seen is nearly 20 times greater at a cost only about 5 times greater.

In conclusion it may be said that the possibilities in electric lighting are so great that English gas stocks are greatly demoralized. Values have in many instances shrunk one-half. Here, in America, our gas companies have rather laughed at the dangerous possibilities of electric lighting to their stocks and dividends. Our gas companies may be secure against electric competition. Here is a problem, however, which both inventors and capitalists will be trying to solve: If electric lighting supersedes gas in Europe where gas is much cheaper than here, why should it not do the same thing here under more advantageous circumstances?

☞ The Post Office Department has completed the adjustment of the amounts to be paid the Union Pacific and Central Pacific Railroad Com-

panies for mail service during the regular term of four year from the 1st of July, 1878. The amounts are computed upon the basis of the average weights of mail matter transported by the respective companies during 30 successive days. The allowance for the Union Pacific will be $376,000 per annum, and for the Central Pacific $289,000 per annum, being an increase of about $50,000 a year for each company over the preceding term.

Car Trust of New York.

The Car Trust of New York, which has just been incorporated, has entered into an agreement with the New York, Lake Erie and Western Railroad Company by which the former is to manufacture and lease 2,500 box freight cars to the latter company for five years, from January 1, 1879. The Railroad Company is to pay as rent $1,301,538 10 in twenty quarterly payments, and binds itself to keep the cars in good order, and to replace any that may be destroyed. The Car Trust was incorporated by John Lowber Welsh, Homer Ramsdell, John A. Hardenbergh, George R. Blanchard and C. R. Woodin. It has a capital of $3,000,000. Edwin D. Morgan and Alfred W. Morgan are named as trustees under the lease.

Central Pacific Railroad.

The earnings of this road for the year ending December 31, 1877, were as follows:

	Coin.	Currency.
From freight	$6,624,163 65	$3,113,935 55
" passengers	3,298,534 91	2,185,169 44

Earnings over operating expenses	$2,918,661 72	$5,778,064 63

The following is a recapitulation of the earnings and expenses for the year 1877, together with a comparison of the same with the year 1876:

EARNINGS.	1876.	1877.
Gross earnings, coin	$10,201,133 43	$10,637,328 64
Gross earnings, currency	6,793,082 27	5,833,815 47
Total earnings, coin and currency	$16,994,216 30	$16,471,144 11
OPERATING EXPENSES.		
Operating expenses, coin	$7,842,153 43	$7,718,666 92
Operating expenses, currency	115,058 14	55,750 84
Total expenses, coin and currency	$7,857,211 57	$7,774,417 76
Earnings over operating expenses	$9,137,004 73	$8,696,726 35
Percentage of operating expenses to gross earnings	46.23	47.20

The percentage of operating expenses to gross earnings as shown above, was 0.97 per cent more than in 1876.

The earnings over operating expenses for 1876, were	$9,137,004 73
The year ending Dec. 31, 1877	8,696,726 35
Being a decrease of	$430,278 38

The California Pacific Railroad and the Stockton and Copperopolis Railroad for the last six months of 1877 are included in the above.

The amount of capital stock authorized is $100,000,000; of which $62,608,800 is subscribed, and $54,275,500 paid in. Of the amount subscribed, there is held in trust for the company $8,333,300.

The debts of the company are: funded debt $54,885,000, less sinking funds, $2,967,557 43—leaving $51,917,442 57; to which add United States subsidy bonds, $27,855,680, and balance of accounts $5,618,228 07—making a total of $85,391,350 64. Of the land bonds there were 8,704 outstanding December 31, 1877.

The assets of the company, as given in the annexed balance sheet, amount to $149,253,680 66; to which add farming lands, (estimated value) $30,000,000; undivided half of 60 acres of land in Mission Bay, in San Francisco, 500 acres water front at Oakland, and about 140 acres and water front at Sacramento, (estimated value, independent of improvements) $7,750,000—making a total of $187,003,680 66.

The number of engines owned by the company at the close of the year was 227; and the number belonging to leased roads as follows: Southern Pacific, South of Huron, 18; California Pacific, 12; Stockton and Copperopolis Railroad, 3; Los Angeles and Independence Railroad 2. The number of miles run in 1877, as compared with the preceding year, is as follows:

	1876.	1877.
Miles run on passenger trains	1,570,435	1,946,199
Miles run on freight trains	3,859,107	3,441,614
Miles run on switching trains	710,474	720,903
Miles run on miscellaneous trains	556,238	505,678
Totals	6,196,254	6,614,394

—being an increase of 418,140 miles. Cost of repairs per mile run, 3.94 cents; extraordinary repairs, 2.62; wiping, 0.83; enginemen, 7.18; fuel, 17.47; stores, 0.65; watching and despatching, 0.43—total, 33.12, against 35.75 cents in 1876. Miles run to ton of coal, 39.76; to cord of wood, 28,24; to pint of oil, 16.93; lbs. of waste 100 miles, 0.77. Tons of coal consumed, 118,688½ cords of wood, 67,999½; pints of oil, 390,653; lbs. of waste, 50,914. Cost of coal per ton, $6 71; wood per cord, $5 28. Total cost of maintenance, $2,190,818 38.

At the close of the year, the number and kind of cars were as follows: 117 first-class passenger, and 72 second-class and smoking, 41 sleeping, 22 mail and express, 27 baggage, 2 directors', 1 superintendent's, 1 pay, 1 engineer's, 2,510 box, 31 fruit, 2 powder, 1,711 platform, 8 oil, 73 caboose, 217 section, 225 hand, 110 dump, 9 track laying, 7 derrick, 1 tool, and 9 snow-plows.

There were also in service on the Southern Pacific Railroad south of Huron, leased, 11 first-class and 3 second-class passenger, 2 baggage, mail and express, 2 baggage and smoking, 208 box, 157 platform, 93 hand, and 43 section cars. On the Los Angeles and Independence Railroad, between Los Angeles and Santa Monica: 1 parlor, 3 first-class passenger, 1 baggage and smoking, 16 box and 62 platform cars. On the California Pacific: 12 1st and 4 2d class passenger, 6 baggage, 36 box, 152 platform, 3 caboose, 20 hand, 21 section and 2 iron cars. On the Stockton and Copperopolis: 3 first-class passenger, 1 smoking, 1 baggage, 4 box, 41 platform, 6 hand and 3 section cars. On the Amador Branch: 5 hand, 4 section and 1 iron car. On the Berkeley Branch and Northern Railway: 7 hand and 3 section cars.

The number of miles run by cars in 1877 was: sleeping, 1,727,252; passenger, 5,011,547; baggage, mail and express, 3,388,146; emigrant, 2,384,931; officers', 89,800; freight, 56,189,846; foreign, 2,859,516—total, 71,651,038, against 61,599,570 for the previous year—an increase of 10,051,468. Central Pacific cars made on foreign roads in 1876, 7,473,888 miles, and in 1877, 6,303,358. Average cost per mile run of all cars for repairs in 1876, 1.03 cent; in 1877, 1.07 cent.

The company have 9 steamers employed in the ferry service between San Francisco and Oakland. Also, 15 river steamers and 19 barges. The Superintendent, A. N. Towne, Esq., in his report, from which the above is obtained, says:

As per my previous report, the number of miles operated, including leased lines, December 31, 1876, was 1,660.46 miles; since which time there has been laid a short piece of track between Fruitvale and Fernside 0.18 of a mile. Additions have been made and roads opened up to business at different times during the year, as follows:

	Miles.
Northern Railway:	
January 15, 1877, Shell Mound to Delaware Street (Berkeley)	2.46
Southern Pacific Railroad:	
February 1st, 1877, Huron to Goshen	40.00
March 8th, 1877, Indio to Dos Palmas	30.70
April 29th, 1877, Dos Palmas to Pilot Knob	79.10
May 23d, 1877, Pilot Knob to Colorado River	8.00
September 30th, 1877, Colorado River to Yuma, Arizona	1.40
Los Angeles and San Diego Railroad:	
December 17th, 1877, Anaheim to Santa Ana	6.90
California Pacific Railroad:	
(Including steamer line between San Francisco and South Vallejo)	139.62
Los Angeles and Independence R. R.	17.01
Northern Railway:	
Between Woodland and Williams	39 24
Stockton and Copperopolis Railroad	49.00
Making total miles operated December 31st, 1877, 2,074.07.	

From the report of the General Freight Agent, J. C. Stubbs, we learn that the number of pounds of freight transported during the years ending December 31, 1876 and 1877, were as follows:

	1876.	1877.
Local freight	1,850,622,684	1,751,080,390
Through freight	376,547,969	346,478,461
Company's freight	658,000,681	733,618,130
Total	2,886,171,174	2,831,176,981

Of the local freight there were forwarded to the general markets, from the agricultural districts, 160,462,250 pounds, as follows:

	1876.	1877
First six months	46,372,889	75,010,410
Last six months	284,641,675	85,451,840
Total	331,014,564	160,462,250
From which we earned, in coin	$565,113 88	$280,076 40

Exhibiting for 1877, as compared with 1876, in Local Freight, a decrease of 5.39 per cent, or 99,542,294 pounds, and an increase in tons hauled one mile of 5.54 per cent.

In Through Freight a decrease of 8.23 per cent, or 31,069,498 pounds, and a decrease in tons hauled one mile of 8.23 per cent.

Company's freight hauled, increased over previous year 11.41 per cent, or 75,087,130 pounds, and in tons hauled one mile 70-100 of one per cent.

Exclusive of grain forwarded to the general markets, the local traffic shows an increase in 1877 of 4.67 per cent, or 71,001,131 pounds.

There was a decrease in grain traffic of 51.52 per cent tonnage, and 50.44 per cent earnings of 1877, compared with 1876.

The number of tons hauled, per mile operated, on a basis of 14.24 miles in 1876, and 1,783 miles in 1877, (average) was:

	1876.	1877.
Commercial freight	781.93	588.11
Company's freight	230.91	205.67
Total	1,012.84	793.78
Average length of haul in miles per ton	251.9	253.6

The freight earnings per mile, on a basis of 1,424 miles in operation in 1876, and 1,783 in 1877, (average) were as follows:

	1876.	1877.
In coin and currency, mixed, as earned	$7,037 82	$5,342 90
In coin, at an average rate of exchange	6,793 91	5,266 11
In currency, at an average rate of exchange	7,561 55	5,508 41

As reported by T. H. Goodman, General Passenger and Ticket Agent, the number of passengers carried east was 3,259,124; do. west 3,561,432—total, 6,820,556; of these 78,682 were through, 1,080,253 local, and 5,661,621 rail and ferry. Average number of miles traveled by each passenger, 26.64. Average charge per passenger per mile 3.02 cents. In 1876, the total number of passengers carried was 5,772,659; the average number of miles traveled by each passenger 29.90; and the average charge per passenger per mile, 3.24. Decrease in rate in 1877 as compared with 1876, 6.79 per cent. Increase in passengers, 1,047,897.

The Trustees under Land Grant Mortgage of the Central Pacific Railroad Company, in their report dated July 1st, 1878, say: "Our report of July 2d, 1877, showed a balance of cash on hand of $331,066 75; we received from the Land Department of the company $524,976 06, during the six months ending December 31st, 1877, the end of the fiscal year of your company; and we will also state that during the last six months, ending June 30th, 1878, we have received $297,861 25, and have on hand this date $1,153,404 06."

STATEMENT OF PROFIT AND LOSS FOR YEAR 1877.

Interest		$3,716,988 65
Taxes		330,345 62
General and miscellaneous expenses		482,558 53
Legal expenses		146,112 04
Civil engineering		22,045 46
Discount on currency receipts		510,397 39

President.—LELAND STANFORD.

Vice Pres't & Gen'l Agent.—C. P. HUNTINGTON.

Second Vice Pres't.—CHARLES CROCKER.

Directors.—Leland Stanford, Mark Hopkins, E. H. Miller, jr., S. T. Gage, Chas. Crocker, David D. Colton, of San Francisco, Cal., C. P. Huntington, of New York City.

Treasurer.—MARK HOPKINS, San Francisco.

Secretary.—E. H. MILLER, jr., San Francisco.

Gen'l Sup't.—A. N. TOWNE, San Francisco.

Assistant Gen'l Sup't.—JOHN CORNING, San. F.

Division Superintendents.—E. C. Fellows, Oakland, Cal.; J. A. Fillmore, Sacramento, Cal.; Frank Free, Wadsworth; G. W. Coddington, Carlin, Nev.; R. H. Pratt, Ogden, Utah; of River Steamers, W. H. Moor, San Francisco, Cal.

Chief Engineer.—S. S. MONTAGUE, San Fran.

Master of Machinery.—A. J. STEVENS, Sacramento.

Purchasing Agent.—J. B. WATSON, Sacramento.

Land Agent.—B. B. REDDING, San Francisco.

Improving the Water Highways of Brazil.

Col. W. MILNOR ROBERTS has been appointed by Dom Pedro II, Emperor of Brazil, through Senor Borges, Minister at Washington, to take charge of the improvement of the water ways of that empire, with a salary of $20,000 a year for three years, or if less than three years $25,000 a year. Col. Roberts, who is at present engineer-in-chief of the Northern Pacific railroad, has been actively engaged in his profession for forty years, and has two sons, each in charge of engineering work on important railroads. He is President of the Society of Chief Engineers, also member of the Royal Institute of Civil Engineers of Great Britain. He was in charge for one year of the St. Louis bridge; also, under the Government, in charge of the improvement of the Ohio river. He is a member of the Board of Engineers who designed the Keokuk bridge over the Mississippi river, and a member of the Commission of Engineers in 1874, charged with the investigation of the practicability of the problem of opening the mouth of the Mississippi by means of jetties. Col. Roberts has accepted the position, and will immediately close up his relations with the Northern Pacific railroad, and depart for Brazil at the earliest practical moment.

☞ The New York, Lake Erie and Western Railroad Company is building two new slips at the foot of Chambers street, which will be fifty feet beyond the line of the old slip. A new pier is also to be constructed, which is to be 600 feet long and 100 feet wide, so as to extend 150 feet further into the river than the present pier. The new ferry slips and houses will probably be ready for use by January 1.

☞ The Cleveland, Tuscarawas Valley and Wheeling Railway Company have filed a supplemental certificate of incorporation for a small branch from Massillon to a coal mine.

The Coal Trade.

The total tonnage of anthracite coal from all the regions for the week ending November 2d, as reported by the several carrying companies, amounted to 351,631 tons, against 423,043 tons in corresponding week last year, a decrease of 71,412 tons. The total amount of anthracite mined for the year is 13,662 394 tons, against 16,439,569 tons for same period last year, a decrease of 2,777,175 tons. The quantity of bituminous coal sent to market for the week amounted to 75,940 tons, against 82,486 tons in corresponding week last year, a decrease of 6,546 tons. The total amount of bituminous mined for the year is 2,847,211 tons, against 2,862,220 tons for corresponding period last year, a decrease of 15,009 tons. The total tonnage of all kinds of coal for the week is 427,591 tons, against 505,529 tons in corresponding week last year, a decrease of 77,958 tons, and the total tonnage for the coal year is 16,509,605 tons, against 19,301,889 tons to same date last year, a decrease of 2,792,284 tons. The product of the mines of the Cumberland coal region for the week ending November 2 was 52,586 tons, and for the year to that date 1,390 582 tons, an increase of 69,887 tons as compared with the corresponding period of last year. The shipments to the Baltimore and Ohio Railroad were, for the week, 24,229 tons; for the year, 736,897 tons, an increase of 70,975 tons as compared with 1877. The shipments to the Chesapeake and Ohio Canal were, for the week, 23,175 tons; for the year, 532,312 tons, an increase of 11,012 tons as compared with 1877. The shipments to the Pennsylvania Railroad were, for the week, 5,190 tons; for the year, 121,343 tons, a decrease of 12,105 tons as compared with 1877. The quantity of coal and coke carried over the Pennsylvania Railroad for the last three days in October was 57,313 tons, of which 45,708 tons were coal, and 11,605 tons coke. The total carried for the year is 4,015,245 tons, of which 3,086,136 tons were coal and 929,109 tons coke. These figures embrace all the coal carried over the road, east and west. The Reading Railroad reports a tonnage for the week ending November 9 of 173,500 tons, of which 55,000 tons were sent to Port Richmond. The shipments thence during the week amounted to 51,000 tons. The receipts of coal at Perth Amboy during the week ending November 9 were 18,954 tons, the shipments 19,530 tons, and the amount on hand at that date 61,300 tons. At the same date last year the amount on hand was 115,866 tons.—*Phila. Ledger, Nov.* 11.

Taxing Power of the States.

The recent decision in the Supreme Court of the United States overruling the opinion of the Supreme Court of Pennsylvania, relating to a refusal to pay a tax for selling imported goods at auction in the original packages and for account of the importers, is of interest as illustrating the limitation of the taxing power of the States. The Pennsylvania Supreme Court decided that property under the circumstances named should be subject to a tax; but this is objected to on the ground that it is forbidden by the Constitution, which provides that "no State shall, without the consent of Congress, lay any imposts or duties on imports or exports." It has generally been held, under this provision of the Constitution, that articles brought into the country from abroad shall be regarded as imports, and therefore not liable to taxation, so long as the goods remain in their original packages. The Courts have gone so far in construing this feature of the Constitution as to declare that a State law which for the purposes of revenue compelled a merchant to take a license and pay $50 before he could sell a package of imported goods was equivalent to laying a tax on imports and therefore void. In another case it was held that a stamp duty imposed by the Legislature of California upon bills of lading for gold and silver, transported from that State to any port or place out of the State, was, in effect, a tax upon exports, and for this reason unconstitutional and void. By way of further limiting the taxing power of the States it has been laid down that no State can tax the agencies or instrumentalities of the Federal Government, for to have authorized a state tax upon "national agencies" would have been equivalent to permitting the exercise of a right to destroy, as, in the opinion of Chief Justice Marshall, "the power to tax involves the power to destroy." On the other hand the Courts have held that a well defined limit exists in the taxing power of the Federal Government in respect to the States. To illustrate, it has been held by the United States Courts that the salary of a State official could not be legally subjected to assessment for an income tax under the internal revenue laws of the United States. In a similar case the Supreme Court pointed out that the theory must be so, as otherwise "the State may be annihilated at the pleasure of the Federal Government." Again it is maintained by some of the best legal authorities in the country that the taxing of the instrumentalities or agencies of one State by another State is also unconstitutional.

A Scientific Diamond.

An inspection of the numerous portable and other steam engines of comparatively small power, now on exhibition at the Fair of the American Institute, proves that our Engineers could not permit so valuable a servant as steam is, to be monopolized by the wholesale workers of our manufacturing community.

They knew that steam could be used with advantage wherever manual labor is called for in however small a degree, and so they tasked their ingenuity to build an engine which should be so simple and safe in construction that ordinary care would suffice to run it, and so inexpensive that men of small means would be able to purchase it.

How thoroughly these conditions have been complied with is seen in the type of the Baxter Steam Engine exhibited by Mr. Thomas J. Fales, of 118 Liberty street, under the name of the Diamond Self-contained Portable Steam Engine, and which illustrates, better than any of the other varieties exhibited, the perfection to which engines of small horse power have been brought.

The first thing that strikes the inquirer is the remarkably convenient and compact form in which all the mechanism is arranged, the term portable being most strictly appropriate.

In shape it is a small upright cylinder which contains fire place, boiler, steam chest and all necessary appliances for burning the fuel and controlling the steam generated. On the top of the cylinder are fixed the crank, driving wheel, governor, steam gauge, and other portions of the machinery by which the steam is converted into motive power.

This engine, small as it is, not in fact occupying more space than an ordinary stove, though nominally of one horse power and priced as such, works up to two horse power. In other words it will do as much work in one hour as twenty able bodied men could do by mere strength in the same time. The contrast is still greater when it is calculated that the engine will give this work for two scuttle fulls of coal a day, costing a few cents, while the manual labor, not half so direct and sustained, would cost certainly not less than ten dollars. The $200 such an engine costs is paid for many times over in a few months.

In dealing with so powerful an agent as steam, its operation in a small compass is attended with less risk than where large quantities are generated, but Mr. Fales gives as much strength of resistance to his boiler plates as if the "Diamond" were a twenty-horse instead of a two-horse power. The boiler will stand with safety a pressure of 400 pounds to the square inch, and in addition to the safety valve a fusible metal plug is inserted in the crown sheet, so that explosion under any conceivable circumstances is practically impossible.

We may add another point to the many which combine to render the "Diamond" the best portable engine extant: as we have remarked, the working apparatus is all fixed on the cylinder head, independent of the boiler. This arrangement enables the engine to be worked apart from the boiler. We think that the foregoing brief description conclusively proves that Mr. Fales has solved, as near to perfection as may be, the problem of how to make a self-contained steam motor, portable, safe and sold at a price which puts it within the easy reach of every one. The "Diamond" also illustrates the point we purposed demonstrating which is how thoroughly our engineers have subordinated the Titanic workman of the age as the Steam Engine may not inappropriately be called.

Chicago, Danville and Vincennes Railroad.

A question of considerable interest to persons concerned in railroad property, whether as stockholders, bondholders, or as general creditors, will soon be before the United States Supreme Court on appeal from the United States Circuit Court in Chicago. The Chicago, Danville and Vincennes Railroad was sold in February, 1877, under a decree of the Circuit Court, and subsequently transferred to the Chicago and Eastern Illinois Railroad Company. An appeal from the original decree has now been taken. It is claimed, among other reasons, that the court erred in cutting off the right of redemption secured to the company and its creditors by the statutes of Illinois. Also, in setting aside the funding contract extending the time of payment of the interest coupons, and decreeing that such interest should be paid within 20 days from the date of the decree, when in fact, its payment had been extended for five years, and it had not then become due. The Trustees of the second mortgage bonds, by cross bill, set up a lien upon four miles of the road connecting the Illinois and Indiana Divisions, and a portion of the rolling stock. This issue was not settled by the final or any other decree. The Trustee of the chattel mortgage is also a party, and claims, under his mortgage and the State laws and Constitution of Illinois of 1870, a prior lien upon all the rolling stock over the first mortgage bondholders. Now,

that the appeal from the final decree has been perfected, it will be seen that the practice and the law of railroad foreclosures in Illinois will be fully settled.

A Great Aid to Correspondence.

"Manifold Writers" as the duplicating letter books are often called, offer the most ingenious and convenient method known of preserving fac-simile copies of correspondence without the writer being compelled to go through the tedious process of rewriting his letters. Every man, whether in or out of business, should, and doubtless most would, keep copies of their correspondence if it were not for the trouble that copying entails; and the employment of a clerk for that purpose is often a distasteful means of publishing matters that the letter-writer would prefer should be entrusted to his correspondent alone. Hence it arises that not one person in a hundred has anything but his memory to refer to when matters of correspondence are called in question; and loss, vexation and misunderstandings are a frequent and certain result of relying on a treacherous memory.

But it may be said that duplicating presses and manifold writers have long been in use, and are accessible to all.

Partially this is true and partially it is not. Most people who have had occasion to refer to duplicates made on thin wet paper under pressure, have found out that they were illegible; while the originals, which had been put to press in damp sheets before the ink they were written with was dry, have given their receivers no small trouble to decipher. Take it altogether this amateur press work is a failure. As to the manifold writers hitherto, their liability to smudge what was traced on the paper forwarded, made the copy retained more comprehensible than the original despatched. The principle was excellent, but its practical working was so faulty that it was more convenient to forego than to use it. We were not aware, until a recent visit to the American Institute put us in possession of the fact, that the only objectionable feature in the Stylus and Carbon paper method of duplication, had been wholly removed.

Our attention was attracted to a display of manifold writers on the visit we refer to. The attendant, a remarkably intelligent young man, was exhibiting the capacities of the letter book to some inquirers, and to our surprise we saw him deliberately pass a wet finger over some words he had written on a sheet of paper with the Stylus, and then polish off the moisture with his handkerchief, leaving the writing as clear and legible as if it had been engraved on enamel. Here we saw was the one improvement exhibited which was required to make the carbon paper letter book a really invaluable accompanyment to every man or woman who uses a pen to convey an idea to a follow being, whether in the shape of a bill of charges, a love letter, or a request for a remittance.

Curiosity at first became genuine interest at last, when we recognized the really great importance of Shipman's invention which renders the carbon paper so far preferable to ink that even without duplication those who once use it would never return to the pen and inkstand.

But the Shipman Duplicating Letter Book we found will give as many as ten black and indelible copies at one writing, and that moreover it can be carried in the pocket and used in Railway Cars, on Steamboats, in fact anywhere and everywhere; that the pen never wants renewing and the covers last a lifetime.

With these claims to the notice of a people to whom correspondence is the first necessity of existence, we are not surprised to hear that companies and business men are ordering the new books in lots of ten and twenty-five each.

The attention of the heads of Railroad offices is especially called to the Duplicate Letter Book a pattern of which is made with exclusive reference to their requirements. The carbon paper as improved can be handled the same as any other kind of writing paper without leaving any trace of blackness on the fingers or any other object which it touches.

We cordially concur in recommending Shipman's Duplicating Letter Book to our readers as the best of the kind extant, and if our railway officers are not yet supplied the sooner they apply to No. 8 Reade street, the better it will be.

Iron or Steel?

An interesting question to iron and steel manufacturers and importers, already under discussion for several years, as to the proper classification under our tariff laws of the products of the Martin-Siemens process, is about to be revived in the United States Court. "Steel" made by the Martin Siemens process was assessed and required to pay duty as such; but in 1874 a firm of importers appealed to the Treasury Department to have refunded to them an excess of duties paid the United States, claiming that the product of the said process which they had imported was "iron," and not steel. In December, 1874, the Treasury Department decided that the Martin-Siemens process is, "in all its distinctive characteristics, a steel making process, designed only to produce an article having the quality of steel," and, therefore, refused to allow the claim of the importers, "even if the quality (of the product) should prove deficient in the requisites of the best steel." The same Department, however, reversed this decision in July, 1876, and left it to the judgment of appraisers to determine whether particular products of the process should be classed as iron or as steel. The American Steel and Iron Association thereupon entered a formal protest against the 1876 decision, supporting it by the submission of several papers by metallurgists, designed to show that the products of the Martin Siemens process, like those of the Bessemer process, should be classed as steel. Among the papers submitted was an extract from the address of Dr. C. W. Siemens, as President of the British Iron and Steel Institute, in 1877, in which he invariably speaks of the product of his process as steel. Following this protest came a decision of the Treasury Department in May, 1878, reversing that of July, 1876, partly because the same metals imported at New York and Boston were being assessed as steel in one port and iron in another.

Thus the matter has rested until the present time, when notice is given by the Globe Nail Company of Boston of an appeal to the United States Courts, the grounds of which are that the metal produced by the Martin-Siemen's process and imported by them is iron and not steel.

As to the proper classification of this metal, the American Iron and Steel Association has collected evidence, which is seemingly conclusive, as to the products being steel and not iron. The inventor, Dr. Siemens, started out to make steel, he met with difficulties, but persisted until he obtained the product he wanted, which was steel, and as late as 1877, in telling the story of his invention, he invariably calls the product steel. The latter is an old term, which may have been improperly applied to new products, such as the soft metals made by the Bessemer, Martin-Siemens, and other processes, but it is a noticeable fact that an International Committee of experts, reviewing the nomenclature as it now stands, without any regard to tariffs, but simply to obtain clearer expression in their discussions, agreed that "homogeneity due to fusion is usually recognized as the most definite characteristic of both hard and soft steels." The product of the Martin-Siemens process, however soft, is homogenous in consequence of fusion, and, under this definition of the term, is steel. But leaving such nice technicalities, it appears that the products of the Bessemer and Martin-Siemens processes are interchangeable, that they are hardly distinguishable from each other by practicable tests, and that, as a matter of fact, they are used for the same purposes.

The question which has been raised again by an appeal to the Courts is of interest outside of the business circles that may be affected by its decision. It serves to bring out sharply the difficulties to be met with in the preparation of tariff legislation, and the necessity for a very careful consideration by representatives of all trades of the rates to be levied and the language to be employed in new laws on the subject.—*Public Ledger.*

Mining.

Attention is again being turned to the hill districts of Virginia and Georgia as favorable localities for renewing the mining enterprises which were found so profitable before the war caused their abandonment.

We learn that a large amount of valuable placer ground in Hall county, Georgia, is about to be worked by a company recently formed. It abounds in free gold, and promises highly remunerative results. In the neighboring mines in White county nuggets of 100 to 175 pennyweights are frequently found.

In Morrisville, Va., some remarkably favorable developments have been made by the Randolph Mining Company. The average result of 88 assays taken from every part of the property which has been developed to the depth of 88 feet, is no less than $143 per ton. As these assays have been made by chemists of the highest repute all question is removed respecting a fact which would otherwise be hardly credible. The Kelly mine in the same district is actually earning $50,000 per year with a ten stamp mill crushing fifteen tons daily.

Some magnificent specimens of the gold ores of this district can be seen at No. 5 Wall Street, the offices of the Randolph Company.

☞ At Nashville, Tenn., on the 1st inst., Judge Baxter rendered a decree ordering the sale of the Tennessee division of the St. Louis and Southeastern Railroad for the benefit of creditors.

☞ The St. Vincent extension of the St. Paul and Pacific Railway was finished to Pembina, D T., on the 9th inst.

Wall Street Investments.

Of the various methods of gaining and losing in Wall Street speculations none is open to fewer objections than that indicated by Messrs. Baxter & Co, of 17 Wall Street.

Their plan is equally adapted to ten dollars as to ten thousand, and renders it possible for the smallest capitalist to realize a large profit with the fluctuations of the market: it also limits the amount of loss to the amount invested and no responsibility is incurred by the speculator. On the other hand if the investment be fortunate, it realizes the largest amount attainable after the limit given in the contract is once reached.

Messrs. Baxter & Co, operate for correspondents in all parts of the country, and investments received per mail in the morning are frequently returned by them in the evening with the profit accruing from a successful venture.

Statement of the Public Debt of the United States, November 1, 1878.

DEBT BEARING COIN INTEREST.

	Amount Outstanding.	Accrued Interest.
5 per cent. bonds, 1858	$260,000 00	$4,333 33

Central Branch Union Pacific bonds, 1862-64	1,600,000 00	32,000 00
Western Pacific bonds, 1862-4	1,970,560 00	39,411 20
Sioux City and Pacific bonds, 1862-64	1,628,320 00	32,566 40
Totals	$64,623,512 00	$1,292,470 24

Interest paid by United States, $39,835,039 84; interest repaid by transportation of mails, &c., $10,416,104 50; balance of interest paid by United States, $29,418,935 36.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, October 31, 1878.

JOHN SHERMAN,
Secretary of the Treasury.

* This amount includes $30,500,000 Five-twenty called Bonds not yet matured, against which a like amount of 4 per cent Bonds have been issued and are embraced in this statement, and the amount included in the coin balance.

Railroad Convention.

Railroad Commissioners representing Massachusetts, Illinois, Iowa, Michigan, Virginia, Vermont, Missouri, Connecticut, Maine, and Ohio, met in convention at Columbus, Ohio, on the 12th inst. to consider matters connected with official duties. A special committee was appointed to consider the subject of accounts and mature a system of uniform railroad book keeping. The committee was instructed to invite the co-operation of the leading railroad accountants of the country in the performance of this duty. A committee was appointed to report on matters of taxation as respects railroads and railroad securities in various States, as well as foreign countries, and report a plan for an equitable and uniform system of such taxation at the next convention.

☞ Special treasury bonds to the amount of £1,000,000 are to be issued by the Peruvian Government to enable it to complete the great railway enterprises begun under the government of Col. Balta and contracted for by the late Harry Meiggs.

American Railroad Journal.

Saturday, November 16, 1878.

Financial and Commercial Affairs.

The week has not been an active one; yet it has been marked by the most important financial movement of the season. The 2d day of January is near at hand, when the long talked of resumption will become a fact. In spite of legislative blundering, in spite of wild and absurd financial schemes, in spite of all opposition, resumption in *gold* will begin on the day named.

The New York Clearing House Association, composed of fifty-eight banks, held a meeting on Tuesday, the 12th inst., fifty banks being represented, and agreed to act in agreement with the Government in all movements to facilitate resumption. On and after the date of resumption gold will be received on deposit in common with paper—it having been received heretofore only on special deposit—and will be paid on depositor's checks in the same manner. Silver, however, will only be received on special deposit to be paid in kind. The action of the banks may be briefly summed up in their own words: "The associated banks of this city after the 1st of January, 1879, will:

1. Decline receiving gold coins as 'special deposits,' but accept and treat them only as 'lawful money.'

2. Abolish special exchanges of gold checks at the Clearing House.

3. Pay and receive balances between banks and Clearing House either in gold or United States legal-tender notes.

4. Receive Silver dollars upon deposit, only

under special contract to withdraw the same in kind.

5. Prohibit payments of balances at Clearing House in silver certificates or silver dollars, excepting as subsidiary coin in small sums (say under $10.)

6. Discontinue gold special accounts by notice to dealers on January 1st next to discontinue them."

This movement settles the fate of the standard silver dollar. One of the first acts of the next Congress should be to send this dollar of eighty-five cents back to the melting pot and let it come out again a dollar of full weight and value. These dollars have been coined from silver bought in open market by the Government, and costing little if anything more than the present bullion value of the dollar, say eighty-five cents. Now, it is plain to see what a stupendous swindle the free coinage of silver, as first proposed in Congress, would have been. It is creditable to the Government that, feeling the unworthiness of a debased coin, it has made but a feeble effort to circulate it. The new dollar has remained in the Treasury vaults, and the masses have thereby been spared from considerable loss. If our political financiers would only conclude now that there is no new patentable way of paying old debts, it would be a good thing for both public and private interests.

The news from abroad is more favorable. The Bank of England has not lowered its discount rate, but the street rate for money is only 4 to 4½ per cent against the Bank's rate of 6 per cent. The cotton spinning districts still give very gloomy reports, but it is hoped the worst pinch has been felt. The Bank of Germany. from steadily losing in coin for some time past, now reports a gain of more than a million marks in the last week.

The city bank statement shows an increase of $2,229,100 in specie, with a loss of $1,063,600 in l·gal tenders. There is a reduction in loans of $4,287,600. The surplus reserve is now $12,844,200. Money has shown greater ease during the past week, and rates are somewhat lower. At the close call loans were generally made at 3 per cent. Discounts of prime commercial paper may be quoted at 5@6 per cent.

Business on the Stock Exchange has been less in volume than for the preceding week. Operators complain of a general dullness and want of speculative inclination. Prices, however, have been generally well maintained. No new features occurred worthy of note. At the close there was a feeling favorable to the coal stocks; but inasmuch as nothing definite is yet known as to the future operation of the Board of Control, there is small ground apparent for speculation. The sales of stocks on Saturday were 129 000 shares; on Monday, 157,000; on Tuesday, 119,000, and Wednesday, 189,000.

From Boston we are advised of a steady Money market, with ample capital and no increase in demand for money.

Rates are scarcely maintained. Prime business paper is done at 4 per cent. This is for 4 months and shorter dates. Prime manufacturer's paper passed at 3½ per cent. Clearing House loans are plenty at 2½ per cent. The distribution of merchandise continues fair, and the general trade is good for the season.

Philadelphia reports a dull and quiet general market. The Money Market is without noticeable change since our last report. Call loans are made at 3@4 per cent. Prime commercial paper is passed at 4½@5 per cent for short dates. Four months and longer dates at 5@5½ per cent. Loans on Government securities are made at 3½@4 per cent. Loans on stocks were made at 6 per cent. Transactions in railroad shares were limited from a total absence of speculative feeling. Pennsylvania Railroad shares were quoted at 82⅜ at the close. Reading Railroad dull and nominal at 13⅛@¼.

Baltimore financial advices repeat the old story of more lenders than borrowers. The offerings of prime commercial paper are light, while funds are in excess of the demand. Loans are quoted at 4@5 per cent. Discounts are made at 4@6 per cent; the first named rate for strictly choice names. Transactions in stocks limited with slight disposition to operate. Baltimore and Ohio Railroad, common stock, was quoted at 80@81, with 83 generally asked. Scrip quoted at 80 bid. Northern Central nominal, no sales reported. With the disappearance of Yellow Fever the distribution of merchandise has been quite free, in many cases orders having been duplicated.

Government securities have been in good demand, prices have been sustained and the market closed firm. Subscriptions continue without material change to the 4 per cents. Just prior to the close there was a slight advance in currency sixes, sixes of 1881, and registered 4½s. We now quote all issues:

United States 6s, 1881, registered, 108⅞@109; do. coupon, 108⅞@109; 5-20s, 1865, new, registered, 103⅜@103½; do. coupon, 103⅜@103½; do. 1867, registered, 106⅛@106⅝; do. coupon, 106⅜@106½; do. 1868, registered, 108; do. coupon, 108½; ten-forties, registered, 107⅜@107⅝; do. coupon, 107⅜@107⅝; 5 per cents, 1881, registered, 105¾@105⅞; do. coupon, 105¾@105⅞; 4½ per cents, 1891, registered, 103⅜@103¾; do. coupon, 104⅜@104¾; 4 per cents, 1907, reg., 100⅛@100¼; do. coupon, 100⅛@100¼; sixes, currency, 121½@122.

Gold has been quiet throughout the week. Dealings have been very moderate. The action of the banks in conjunction with the Government concerning the treatment of gold as "lawful money" in unison with legal tenders will doubtless bring gold to par before the date of resumption. At the close 101⅛ was still bid.

Foreign exchange towards the close was higher. The temporary scarcity of commercial bills in the market enabled dealers to raise the prices. The quotations are 4 81½ for prime 60 day bills, and 4 86 for sight drafts. Actual business was at 4 81 for 60 day bills, and 4 85¼ for sight.

Domestic Produce has shown a fair activity throughout the week with considerable fluctuation and irregularity. Foreign advices at the close were less favorable; exportation, however, continues without change, and will continue unless checked by some serious break in foreign markets. English wants are now known definitely, and will be supplied principally from this side. Shipments of wheat are still made for French account. The exports for the week (exclusive of specie) have been $6,891,896, against $5,481,408 for the same time in 1877.

Cotton continues irregular. English advices are not more favorable, but light receipts with the probability that the common estimate of the crop, 5½ million bales, is too great have served to maintain prices here. At the close spot cotton was firm but less active. We now quote middling uplands at 9 5 16c. Futures closed at the following prices bid: November delivery, 9.30; Dec, 9.35; Jan., 9.47; Feb., 9.59; Mar., 9.71; Apl., 9.88; May, 9.94.

In Metals there is but a single feature worthy of notice. Steel Rails are in brisk demand at full prices. The mills are generally running full time with orders in advance.

Ocean freights are quiet and unchanged. Engagements to Liverpool, by steam for grain, 7¾@8d.; by sail, 7¾d.; Cotton, by steam, ¼d. To London, by steam, grain, 8d. per bushel and 5s. 7½d. per quarter. To other British ports 8½d. per bushel of 60lbs. To Havre, by steam, cotton, 11-16c. compressed; by sail, grain, 5s. 9d. @6s. per quarter. To Bremen, steam, cotton, ¾c. compressed.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—Denver and Rio Grande 1st mort., 82; Southern Pacific of Cal., 1st mort., 94; Delaware and Hudson 1st mort. ex., 100; South Pacific 1st mort., 85½; Central of New Jersey 1st consol. ass., 72; do. conv., ass., 70⅞; Clev., Col., Cin. and Ind. 7s, consol., 89½; Winona and St. Peter 1st mort., 103¾; do. 2d mort., 88; Toledo, Peoria and Warsaw 1st mort. The Plumas Mine.

We note that the Plumas Mine of California is now paying its sixth monthly dividend of ten cents per share at its New York Office, 77 Cedar Street.

This mine is not only one of the most promising of the Western enterprises which have been brought before Eastern investors, but its actual net returns during the few months it has been actively at work, place it high in the list of dividend paying mines and give it a present as well as a prospective value.

In dealing with all mining property, two classes of facts engage the attention of speculators and investors. The one class is what the engineers and mining experts say with regard to the character of the vein and the probable results to be derived from working it. The other is what the cash account of the Treasurer demonstrates the actual condition of the property to be financially. We need hardly say that the latter is the most satisfactory and the most unimpeachable proof, and it is in this that the Plumas will commend itself to favorable attention.

We find on referring to this crucial test that the company is out of debt and that by its last report it has earned a gross total of nearly $70,000, and a net total of $43,000 of which about $4,000 has been divided amongst the stockholders.

This is better than the most sanguine promoters of the mine had expected, and it foreshadows results which will make the mine one of the best known in its district.

Turning to the immediate prospects of the company we observe that the veins now being worked are 'true fissures' : that is, the deeper they are worked the richer the ore is found to be, since the ejection of the metalliferous ore comes from below and there is no limit to its yield except the working capacities of the machinery employed.

The shareholders are to be congratulated on their excellent prospects and also that the management of the mine is in such respectable hands as its present board of directors who are some of the best known and most influential residents of the State of California.

The sole agents for the company in New York are the well known firm of L. P. Bayne & Co., of 54 Broad Street, who have placed the stock in the hands of some of the best men in the city. The dividend notice of the company will be found in our advertising columns.

A Clever Capture.

Mr. T. E. Lonergan, the New York member of the private detective firm of Lonergan & Thiel of this city and St. Louis, has just made a clever capture of a number of employees of the C., C., C. and I. R. R., who have been systematically plundering the company for many years past. The amount of property stolen is very large in the aggregate, but being taken in small quantities it baffled all endeavors to trace the leakage until detective Lonergan's services were called in. After long and patient watching Mr. Lonergan hit the right clue and the result has been the arrest of two clerks two watchmen and a number of other employees.

☞ The Buffalo and Lockport Railroad Railroad Company has succeeded in laying its track across the track of the New York Central Railroad at Tonawanda.

DIRECTORS' REPORT.

The accounts for the half year ended July 31, 1878, having been duly audited, are now presented to the proprietors, the figures, as usual, being reduced to a uniform gold basis.

The following figures exhibit a comparison of the half year's working with that of the corresponding half year of 1877 :

	1877.	1878.
Gross receipts	£370,514	£377,485
Cash working expenses, including renewals (being at the rate of 76.05 per cent, as compared with 74.41 per cent in the corresponding period)	275,716	287,098
	£94,798	£90,387
Loss on working leased lines, transfer to fire insurance fund, interest on bonds and debenture stocks, &c.	97,995	92,118
	£3,197	£1,731
Balance from previous half-yr		2,478
Deficiency	£3,197	
Surplus		£747

The tranfers to the renewal funds, as was the case in the half year ended July 31, 1877, have been suspended, the revenue of the half year, after providing for interest on bonds and debenture stock, not admitting of the full credits to the funds on the usual basis ; but the actual expenditure on renewals has been charged to revenue, amounting in the present half year to £26,603 (as against £9,762 in the corresponding half of 1877), and in addition the usual credit to the fire insurance fund of £552 has been maintained and charged to revenue account. The dividend on the preference stock for the half year, amounting to £12,644, will remain a charge against future revenue.

The average rates for through freight traffic compare very unfavorably with those of the corresponding period of 1877 ; for, although the tonnage of through freight and live stock carried on the main line and branches has increased by 169,000 tons, or 39 per cent, the gross earnings from this traffic show only an increase of £8.977, or 6 per cent. Since the termination of the half year the rates have materially improved.

The gross receipts on the main line and branches compare with those of the corresponding half year as follows :

Increase in through passenger earnings		£1,432
Do. through freight	"	9,597
Do. local live stock	"	621
Do. mails, express freight, & rents		1,219
		£12,869
Dec. in local passenger earnings	£1,923	
Do. local freight "	3,356	
Do. through live stock "	619	
		5,898
Total increase		£6,971

The percentage of working expenses to the gross receipts has been, as shown in Revenue Statement No. 9, at the rate of 76.20 per cent against 74.41 in 1877, being an increase of 1.79 per cent. The increased charge for renewals is, however, alone equivalent to 4¼ per cent of the gross receipts ; and the proportion of the other expenses to receipts has been necessarily increased by the serious reduction in the through freight rates. The working expenses, including renewals, exhibit a marked reduction per train mile, being at the rate of 88d. per mile as compared with 42.79d. in the corresponding period of 1877. This is conclusive evidence of the real economy effected by the management during the half year. The directors have much pleasure in quoting the following passage from a report received from the General Manager on the half year's operations :—"Our accidents have been very few ; none to passenger trains, and those to freight trains of a character which were unavoidable. It is very satisfactory to find that with a train mileage of nearly two millions, the total damage to rolling stock during the half year was under $5,000. This speaks well for the staff, who are becoming more and more reliable. I am pleased to be able to report that those to whom is entrusted the working of the trains display a high average of care, sobriety, and prudence." The earnings and working expenses on a gold basis for the last eight half years are shown in the following statement :

Half years ended—	Earnings. per train mile. s.	d.	Cash working expenses including reserve and other funds. Per. train mile. s.	d.	Per ct. of gross receipts.
January 31, 1875	6	8¼	4	11¼	74.38
July 31, 1875	4	11¼	4	6	90.32
Jan. 31, 1876	5	7	3	11¼	70.99
July 31, 1876	4	10¼	3	6¼	73.63
Jan. 31, 1877	4	9	3	8¼	78.11
July 31, 1877	4	9¼	3	6¼	74.41
Jan. 31, 1878	5	2¼	3	8¼	63.19
July 31, 1878	4	2	3	2	76.05

With the exception of the Fire Insurance fund, which has been credited with its usual half yearly increment, the funds remain as on 31st January 1878, in credit as follows :

	Balance Jan. 31, 1878.	Debit or credit during half-yr.	Balance July 31, 1878.
Ferry steamers renewal fund	£15,547	.....	£15,547
Locomotive renewal fund	120,944	.....	120,944
Car renewal fund	44 297	.....	44,297
Rail and bridge renewal fund	23 536	.....	23,536
Insurance fund	1,104	552	1,656
Leased lines suspense account	Dr.46,751	Dr.1,451	Dr. 48 202
	£158,678	£899	£157,779

The amount at the debit of Leased Lines Suspense Account has been, as mentioned in the last half year's report, increased by a further outlay for renewal of bridges on the London and Port Stanley railway. These debits will be gradually charged to revenue, spread over the remaining terms of the leases.

The loss on working leased lines of the company has been reduced from £9,204 in the half year to the 31st July, 1877, to £5,041 in the present half year, or an improvement of £4,163. The arrangement with the Galt and Guelph Railway Company, referred to in the last half year's report, and authorized by the shareholders at the general meeting held on the 30th April, 1878, has not yet been completed, that company not having been able to comply with their part of the agreement. Under the traffic agreement with the Wellington, Grey and Bruce Railway Company the sum of £2,738, being equal to 20 per cent of the half year's earnings derived from additional traffic interchanged with that railway, will be applied on the 1st January, 1879, to the acquisition of the bonds of that company at par. The total bonds drawn amounted on 31st July, 1878, to £43,300. Though, as was intimated in the report of the last half year, the Brantford, Norfolk, and Port Burwell railway has been worked as part of the Great Western system, it has only been in partial operation ; the physical connection with the loop line not having yet been completed. The contract has been let for this extension, which will be ready for traffic in November next.

The receipts on capital account during the half year consist of the remaining instalments on new shares, and on 5 per cent perpetual debenture stock, the issues of which have been announced to the shareholders in previous reports. During the half year the directors have taken advantage of an improved credit of the company, by offering to the holders of short dated bonds bearing 7 per cent interest, the option of exchanging their bonds for 5 per cent perpetual debenture stock, on terms effecting a saving of interest to the company of about 1 per cent per annum. This option has been exercised by the Bondholders to a considerable extent : £61,400 7 per cent bonds having been surrendered and exchanged for 5 per cent debenture stock to 31st July, 1878, and a further amount of £11,700 having since that date been similarly converted. The expenditure on capital account amounts to £29,989, the details of which are given in account No. 5. There is a further charge to this account, for discount on the final instalments on new shares and debenture stock, amounting to £135,440, making a total debit of £165,379 to capital for the half year.

DETROIT AND MILWAUKEE RAILROAD.

Effect is now being given to the agreements with the mortgage Bondholders of the company, which were approved by a resolution of the special meeting of Shareholders on 30th April last. The sale of the road, under the foreclosure decree, took place on the 5th September, and it was acquired by the purchasing committee appointed under the agreements. The reorganization of the company, under the title of the Detroit, Grand Haven and Milwaukee railway, is being proceeded with, and at an early date this valuable western connection will be worked as part of the Great Western system.

CANADA SOUTHERN.

Negotiations for a traffic arrangement with the Canada Southern Company, which were in abeyance pending its recent reorganization, were renewed during the summer, and have resulted in an arrangement, taking effect from the 1st August, under which, by the award of Mr. Scott, President of the Pennsylvania Railroad Company, the through competitive East bound and West bound traffic passing through Detroit has been apportioned ; the Great Western receiving 60 per cent of the total through passenger, and 55 per cent of the through freight traffic, with provisions for the excess over these percentages carried by either company, and for notices determining the agreement. Mr. Scott in arriving at this decision states that he believes "the results to be attained will be highly beneficial to each company both in gross receipts and in decreased expenditure." A formal resolution will be submitted to the general meeting sanctioning this arrangement.

The directors regret to announce that Mr. George Cockburn, to whom during the last four years they have been indebted for much valuable assistance based on intimate acquaintance with American affairs, has found himself unable any longer to devote his time to the business of the company, and has retired from the Board. Mr. Thomas Chilton of Liverpool, has been elected a Director of the company to fill the vacancy caused by the retirement of Mr. Cockburn. Mr. James Bald and Mr. Thomas Chilton go out of office by rotation, and being eligible offer themselves for re-election. Mr. John Young and Mr. Thomas Adams, the Auditors in London, and Mr. John James Mason, the auditor in Canada, also go out of office and are eligible for re-election.

On behalf of the Board of Directors,
HUGH C. E. CHILDERS, President.
London, 21st October, 1878.

☞ The earnings of the Central Pacific Railroad for the month of October, 1878, were $1,834,000, against $1,806,382 for the month of October, 1877. For the first ten months of 1878, the earnings were $14,771 368, against $13,840,820 for the first ten months of 1877.

☞ It is expected that the new Lebanon Valley Railroad bridge over the Schuylkill River will be finished this month. Nearly all the material for the entire structure is on the ground.

Chicago, Rock Island and Pacific Railroad.

The following is the official statement of the gross earnings, operating expenses, net earnings, etc., of the Chicago, Rock Island and Pacific Railroad for the six months ending September 30, 1877 and 1878:

CHICAGO, ROCK ISLAND & PACIFIC R. R. Co., Treasurer's Office, N. Y., Nov. 12, 1878.

Statement of earnings and disbursements for the first six months of the current fiscal year:

Earnings of April	$710,028 12
Earnings of May	762 937 94
Earnings of June	618,671 40
Earnings of July	656,884 90
Earnings of August	871,284 41
Earnings of September	858,338 24
Gross earnings for six months	$4,473 095 01
Operating expenses for same period	2,333,137 96
Net earnings for six months	$2,144,957 05
Payments for interest on bonds, rents, etc. $537,500 00	
Dividends: May 1 and August 1 944,091 00	
	1,481,591 00
Surplus earnings for six months, 1878	$663,366 05
Surplus earnings for six months, 1877	248,454 37
Increase surplus earnings over 1877	$414,911 68

Comparative statement for same period, 1877:

Gross earnings, six months, 1877	$3,873,357 20
Operating expenses, six months, '77	2,202,048 33
Net earnings for six months, 1877	$1,671,308 87
Payments for interest on bonds, rents, etc. $583,662 50	
Dividends, May 1 and August 1, 1877 839,192 00	
	1,422,854 50
Surplus for corresponding six months, 1877	$248,454 37

FRANCIS H. TOWS, Treasurer.

Railroad in Mexico.

John M. Dunn, of Wilmington, Del., will sail for Vera Cruz, Mexico, on the 16th inst., to take the initial steps in the construction of a railroad from Vera Cruz to Valparaiso. The road was originally projected by the government of that country, and President Diaz has appointed Don Santiago Myers, formerly of New Castle, Del., chief engineer of the enterprise. The contractors are some half a dozen gentlemen of Wilmington, who will be represented by Mr. Dunn, the latter also being employed as superintendent of construction. Benjamin Morris, of the same city, is a sub contractor, and most of the work will, in all probability, be done by Wilmington parties.

☞ The gross earnings of the Wabash Railway for the month of September, 1878, were $540,023 57, the expenses $330,427 07, and the net $209,596 60; for the month of September, 1877, the gross earnings were $462,900 66, the expenses $328,182 65, and the net $134,718 01—showing an increase in gross earnings of $77,123 01, in expenses of $2,244 42, and in net of $74,878 59.

☞ The Commissioner of Patents, with the approval of the Secretary of the Interior, has issued an order providing that the fee of $25, required by law to be paid for the registration of trade marks, shall hereafter be payable in two installments—the first, of ten dollars, on the filing of the patent, and the remainder when the registration is granted.

Union Pacific Railroad.

The following is the official statement of the earnings and expenses of the Union Pacific Railroad for the month of September—

	1877.	1878.
Gross earnings	$1,159,382	$1,302 507
Operating expenses	603,388	544,722
Surplus earnigs	$555,993	$757,785

—showing an increase in gross earnings of $142,175, a decrease in operating expenses of $58,616, and an increase in surplus earnings of $201,792. The percentage of operating expenses in 1877 was 52.04, and in 1878, 41.82—a decrease of 10.22.

International Commerce.

At this moment, more than any other for a long period past, it is well to scrutinize the facts now verified of our trade relations with other nations. Our long and costly civil war left us nearly bankrupt at home and abroad. Of that debt then made, we now owe but very little abroad, and not a burdensome amount at home. We have reached the point of solvency; from the position of debtor we are now assuming that of creditor—we are selling much more than we are buying, and the balance represents net profits.

This being the actual condition, with a fair probability of its continuance, it is proper for all to consider in what way and how the foreign trade interests of the nation may be best promoted.

Our greatest foreign trade is with England. This trade is very largely reciprocal, and its permanence is best assured from that fact. Up to 1870 we had paid England a large yearly balance due her, because we could not bring our wants down to the limit of home production in manufactures, or the limit of exportation in reciprocal trade. Since 1870 there has been a wonderful change in our favor. Our manufactures have greatly increased—in many things surpassing home wants—while our products of cereals, cotton, etc., heretofore exportable, have increased in an equal or greater ratio.

The result is we are able to sell England much more than we can buy from her, and her political economists are alarmed at the present tendency of trade with us.

Mr. Frederick Brittain, of Sheffield, England, who has made trade statistics a study, gives some figures which are valuable and instructive.

In 1872 England sent us of cotton manufactures $29,855,000. This had fallen off in 1876 to $18,042,000. In 1872, Pig Iron from England to America amounted to $5,122,000, and bar, hoop, and other iron to $5,814,000; a total of $10,936,000 for iron exclusive of railroad bars. In 1876 the pig iron exports had fallen off to $1,918,000, and bar, hoop, etc., to $1,584,000; a total falling off of $7,434,000. In railroad bars, both iron and steel, there is a much greater falling off. In 1872 iron railroad bars amounting to $15,776,000, and of steel bars $6,277,000 were shipped to America; a total of $22,055,000. The figures for 1876 show but $6,000 for iron railroad bars, and $314,000 for steel bars; a falling off of $21,635,000. In cutlery and manufactures of steel, while $6,368,000 was shipped to America in 1876, a large amount of American cutlery was sold in English markets as an offset.

From these statistics, necessarily brief, an idea may be gained of the rapid changes now taking place in our trade relations with our principal customer. And the same holds good in a greater or less degree of our trade with other nations. In particular is this true of our trade with Canada. In the fiscal year 1867-8 the imports into Canada from the United States were $28,053,000. In 1876-7 they had increased to $51,312,000. On the other hand Canadian trade with the mother country fell off at a serious rate. British exports into Canada for 1878 were $68,522,000. In 1876 they were only $40,734,000; a falling off of $27,788,000 in three years.

While this trade exhibit is gratifying to American commercial pride there is another side to be carefully considered, also. England is dependent almost wholly upon her manufacturing interests for existence. We are almost as dependent upon England for a market for our enormous surplus of breadstuffs. If we drive the English manufacturer from our own and other markets we are taking away his ability to buy our breadstuffs. If he suffers we must suffer, too, because we are mutually dependent upon each other. So, while studying first our own interests, we must not forget wholly the interests of our neighbor nations, since the existence and continuance of healthy trade requires a degree of reciprocity.

We have nothing to-day that can be called a foreign trade policy. We were about to have said further, that until a Congress of competent legislators are born or trained, there is small hope of those discreet and wise laws necessary for the desired end. We have now more than enough of laws, but not enough of practical legislation. We have a superfluity of lawyers in Congress, but a dearth of intelligent business men. But at this moment more than at any time previous we need wise and judicious tariffs which will assist the home producer without destroying his foreign consumer. Free trade is a vision not yet realized. Reciprocity under equitable limitations is what modern political economy teaches, and this is the lesson for the nation to study.

☞ The Spencer Branch Railroad has been graded the whole distance, 2½ miles, and the rails laid from the Boston and Albany depot to Cranberry brook, a distance of about three quarters of a mile. It is expected that the whole will be completed and the trains running by the 1st of January.

☞ The Shepherdstown (W. Va.) Register states that the directors of the Shenandoah Valley Railroad Company, at a meeting held on Tuesday last, decided to put the branch road from that place to Bedington, in Berkeley county, (where it will connect with the Cumberland Valley railroad,) under contract at once, with a view of having it

completed by the first of March next, thus affording an outlet for the road from the Clarke line via the Cumberland Valley.

Fraudulent Transfer of Stock.

A decision of interest to brokers and joint stock companies was rendered in the United States Supreme Court at Washington on the 18th inst. in the case of the Western Union Telegraph Company against Henry W. and Katharine J. Davenport. The question involved was whether or not a joint stock company is liable to an individual stockholder for a certificate of stock which had been stolen and which the company, upon a forged power of attorney, has transferred on its books to another party. The Court held that there could be no question as to the right of such a stockholder to have his stolen shares replaced and a proper certificate issued to him therefor and to receive all the dividends which shall have accrued thereon since the unauthorized transfer. The forgery, it is held, cannot confer any power or transfer any right. The officers of the company are the custodians of the stock books and it is their duty to see that all transfers of shares are properly made, either by the stockholders themselves or persons having authority from them. If, on the presentation of a certificate, the company is in doubt as to the authenticity of a conveyance or the identity of a person, it can require the genuineness of the one or the identity of the other to be satisfactorily established, but in either case it must act upon its own responsibility. Neither the absence of blame, on the part of the officers of the company in allowing unauthorized transfer of stock, nor the good faith of the purchase of stolen property, will avail as an answer to the demand of the true owner.

Baltimore and Ohio Railroad.

FIFTY-SECOND ANNUAL REPORT.

OFFICE OF BALTIMORE AND OHIO R. R. Co.,
BALTIMORE, October 1, 1878.

The President and Directors submit to the stockholders of the Baltimore and Ohio Railroad Company the following statement of its affairs for the fiscal year ended September 30, 1878:

THE REVENUE.

The revenue of the Main Stem, including the Winchester and Potomac, Winchester and Strasburg, the Strasburg and Harrisonburg, the Metropolitan Branch and the Washington City and Point Lookout Railroads, and of the Washington County Railroad for three months to January 1, 1878, have been	$8,568,956 86
Of the Washington Branch	276,879 40
Of the Parkersburg Branch	659,698 77
Of the Central Ohio Division	829,252 77
Of the Lake Erie Division	657,682 04
Of the Chicago Division	1,057,658 96
Of the Wheeling, Pittsburg and Baltimore (formerly the Hempfield) Railroad	40,984 25
Of the Newark, Somerset and Straitsville Railroad	135,295 06
Of the Pittsburg and Connellsville Railroad (Pittsburg Division)	1,544,021 89
Total	$13,765,279 99
Showing an increase as compared with 1877, of	556,419 91

I.—OF THE MAIN STEM.

The expenses of working and keeping the roads and machinery in repair amounted to $4,524,344 98, being 52.83 per cent upon the earnings, showing a decrease of 2.90 per cent compared with the previous year, and of 8.35 per cent compared with 1876.

The following analytic statement is given, in order to furnish particulars of expenses in comparison with the preceding year:

MAIN STEM.

Statement of the earnings and working expenses for the fiscal years 1877 and 1878, including the Winchester and Potomac, Winchester and Strasburg, the Strasburg and Harrisonburg, the Metropolitan Branch, and the Washington City and Point Lookout Railroads, and the Washington County Railroad for 1877, and for three months to January 1st, 1878:

	1877.	1878.
Earnings	$8,262,045 29	$8,568,956 85
Expenses:		
General expenses	$125,855 14	$118,379 00
Losses by accidents, etc	47,185 83	87,860 86
Expenses of transp.	1,668,747 46	1,672,086 17
Repairs of railway	808,869 21	613,302 16
Repairs of water stations	14,982 42	11,087 27
Repairs and construction of depots	80,048 84	73,522 78
Repairs of bridges	114,109 85	84,540 01
Repairs and construction of telegraph lines	16,097 79	19,004 34
Repairs of stationary machinery	90,380 97	80,199 17
Watching cuts	41,306 32	43,672 66
Watching tunnels	3,388 23	3,947 12
Watching bridges	24,149 20	22,581 26
Pumping water	28,872 48	25,299 49
Repairs of locomotives	496,172 89	459,649 41
Repairs of passenger cars	226,781 57	198,119 58
Repairs of burden cars, including construction new cars	385,582 55	626,919 86
Cleaning engines and cars	91,187 31	80,893 90
Contingent expenses of the machinery department	5,098 86	4,688 69
Fuel	312,334 25	275,306 01
Preparing fuel and filling tenders	24,500 70	23,835 72
	$4,605,151 87	$4,524,344 98
Earnings more than expenses	$3,656 893 42	$4,039,611 87
Working expenses	55.73 per ct.	52.83 per ct.

It is shown that the earnings of the Main Stem and the branches stated, in comparison with the fiscal year 1877, have increased $301,911 56, and the working expenses have decreased $80 806 89, making a comparative increase in the net profits of $382,718 45.

The sinking fund for the payment of the loan of the city of Baltimore, which was originally $5,000,000, increased during the year $108,487 91, making the payment in advance, and in reduction of that loan, which will mature in 1890, $2,061,908 91.

The payments for investments on account of the sinking fund, for the redemption of the sterling loans due in 1895, 1902, 1910 and 1927, during the year amounted to $458,048 51, which, at $4 84 per pound sterling, make £94,688 2s. 5d.

The principles upon which the sinking funds of the Baltimore and Ohio Railroad Company are based will cause the entire indebtedness with which they are connected to be met, by the period of the maturity of the respective loans, from the annual appropriations made for these funds, together with the interest accruing from their accumulations.

In accordance with the agreement with the city of Baltimore, the third annual payment, namely, $40,000 of the principal of the bond for one million dollars, given for the purchase of the interest of the city in the Pittsburg and Connellsville Railroad Company has been made, thus reducing this obligation to $630,000.

The investments for the sinking funds, and the payment of part of the principal of the bond for the purchase of the interest of the city of Baltimore in the Pittsburg and Connellsville Railroad, amount for the fiscal year to $601,536 42.

Of the mortgage loan payable in 1880, $120,500 have been anticipated, leaving $579,500 to be paid. $790,000 have been paid in anticipation of the loan redeemable in 1885, which was originally $2,500,000, leaving the remainder of this loan $1,710,000.

Of the bonds for $500,000, indorsed by the Baltimore and Ohio Railroad Company, under the contract of July 18, 1864, of the Northwestern Virginia Railroad Company, due in 1885, $360,000 have been anticipated, reducing the sum unpaid to $140,000. Upon this road, now known as the Parkersburg Branch, which cost upwards of nine millions of dollars, the $140,000 stated is the only remaining mortgage indebtedness—the Baltimore and Ohio Company having paid off the entire first and second mortgages, amounting to $2,500,000, and $360,000 of the third mortgage, making the aggregate of these payments $2,860,000.

The following statement shows the payments made and the increments in sinking fund during the fiscal year for account of the respective debts:

Increment of city sinking fund	$108,487 91
Increment of sinking funds for the redemption of the sterling loans due in 1895, 1902, 1910 and 1927	458,048 51
Payment on account of the principal of debt to city of Baltimore for the purchase of interest in the Pittsburg and Connellsville Company	40,000 00
For the Pittsburg and Connellsville sinking fund	44,585 43
For the Baltimore and Ohio and Chicago Railroad Companies' sinking fund	40,965 76
Total	$687,087 61

The following statement shows the payments made on account of the principal, and the investments for sinking funds on account of the respective debts:

On account of the mortgage loan payable in 1880	$120,500 00
On account of the mortgage loan payable in 1885	790,000 00
On account of the bonds of the Northwestern Virginia Railroad Company, for $500,000, indorsed by Baltimore and Ohio Railroad Company, payable in 1885	360,000 00
On account of the loan of the city of Baltimore	2,061,908 91
On account of the sterling loan redeemable in 1895	854,303 00
On account of the sterling loan redeemable 1902	996,318 65
On account of the sterling loan redeemable 1910	447,658 10
On account of the sterling loan redeemable 1927	40,965 76
On account of the purchase of the interest of the city of Baltimore in the Pittsburg and Connellsville Railroad Company	120,000 00
On account of the sinking fund of the Pittsburg and Connellsville Railroad Company	44,585 43
Total	$5,836,234 85

The subjoined statements exhibit the reduction of the indebtedness stated during the fiscal year:

REPORT OF OCTOBER 1, 1877.

Sterling debentures due in 1878, 1880 & 1881	$3,872,000 00
Bills payable	2,967,491 67
Obligations maturing Jan. 1, 1878, & loans	1,555,689 08
Total	$8,395,180 78

REPORT OF OCTOBER 1, 1878.

Sterling debentures due in 1880 & 1881.	$2,420,000 00	
Bills payable	2,563,302 29	
Sterling obligations & loans	2,554,959 33	
Total		$7,538,261 62
Shewing a reduction during the year of		$856,919 11
Add payments on account of the principal of debt, and of the sinking funds during the fiscal year..		687,087 61
Making		$1,544,006 72
Add payment of cash dividend on November 15, 1877		894,326 00
Showing payments and investments for the objects stated, during the year, from the net earnings of the company, of		$1,938,332 72

On the first of January, 1878, £850,000 of debentures were paid in London. These debentures were negotiated in January, February and March, 1875, when the premium on gold was 14⅛ to 17 per cent. In paying this debt an advantage to the company was realized, in consequence of the decline in the premium on gold, of upwards of 12 per cent.

A semi-annual dividend of three per cent upon the capital stock was paid in cash on the fifteenth of November, 1877, and on the fifteenth of May, 1878, a stock dividend was made of four per cent.

In view of the indebtedness incurred by the company having furnished the means to construct the Baltimore Short Line and the Cincinnati and Baltimore railroads, and for the aid of the Marietta and Cincinnati and Pittsburg and Connellsville companies, and other important connecting lines, it was deemed wise to use the net earnings of the road for the reduction of the indebtedness. A dividend of four cent, representing part of these earnings, was therefore declared in stock, and the sum used in the payment of the said indebtedness.

It is shown by the report of the transportation department that the tonnage of through merchandise east and west has been 1,149 499, whilst in the preceding year it was 1,047,645 tons. For 1876 this traffic was 1,093,893 tons; for 1875, 872,101 tons; for 1874, 752,256 tons; for 1873, 640,265 tons; for 1872, 557,609 tons; for 1871, 435,207 tons. 778,211 barrels of flour and 20,639,654 bushels of grain were brought to Baltimore during the fiscal year, being an increase of 186,509 barrels and 4,259,793 bushels, respectively. Of this aggregate of grain 9,365,233 bushels were wheat. The receipts of wheat for the preceding year by the Baltimore and Ohio railroad were 2,500,600 bushels, showing an increase of 6,864,633 bushels, and an increase over 1876 of 8,744,933 bushels.

The receipts of corn for 1875 by the Baltimore and Ohio railroad were 5,591,633 bushels; for 1876, 15,948,107 bushels; for 1877, 13,290,714 bushels, and for 1878, 10,164,285 bushels, showing a decrease of 3,126,429 bushels compared with the preceding year. The decrease in corn arose in a large degree from the fact that the rates during a portion of the year were so low, in consequence of the action of some competing lines, as to cause absolute losses, and at several periods the Baltimore and Ohio company declined to carry this commodity at rates that were not only unremunerative, but which did not repay the actual expenses connected with its transportation. Another reason for this decrease was the diminished crop, caused by damage from protracted rains in the territory traversed by the Baltimore and Ohio road and its connections.

In live stock the traffic has been 132,462 tons; in lumber brought to Baltimore 41,270 tons, and in petroleum 601,907 barrels.

The passenger earnings exhibit a decrease from $1,364,804 38 in the preceding year to $1,200,846 72. This reduction was caused by the decrease of travel compared with that connected with the centennial exhibition for October and November, 1876, the passenger revenue for those two months having been $397,675 82, whilst for the corresponding months of the present year it is $205,588 42, showing a decrease of $192,087 40, being $28, 129 74 more than the decrease for the year.

The coal trade of the Main Stem shows an aggregate of 1,483,076 tons, which includes 358,689 tons for the company's supply, being an increase of 42,811 tons over the preceding year. Of this quantity, that transported for the public, delivered in Baltimore, is 1,057,675 tons, and delivered at local points upon the line 71,712 tons. The protracted depression of manufacturing and steamship interests has continued to affect injuriously the coal trade. During the fiscal year of 1878, 1,363,061 tons of coke and coal were transported on the Pittsburg division, and 216,998 tons of coal on the Trans Ohio divisions. The aggregate of coal and coke thus transported, including all divisions, was 3,068,135 tons, showing an increase for the year of 191,364 tons.

II.—OF THE WASHINGTON BRANCH.

It will be seen by statement E that the earnings were $276,879 40, showing a decrease, compared with the previous year, of $30,230 15. The cause of the comparative decrease on the Washington Branch is the same as on the Main Stem, namely, the large travel of October and November, 1876, connecting with the centennial exhibition.

The expenditures charged, according to the system explained in previous annual reports, amount to $76,850 49, being for improvements and for repairs of railway, depots, water stations and bridges, and for pumping water.

The partial expenditures charged being deducted from the revenue stated, there remained the sum of $200,028 91, a decrease of net earnings compared with the preceding year, of $18,650 37.

III.—OF THE PARKERSBURG BRANCH RAILROAD COMPANY.

Statement G of the treasurer shows that the earnings of this road for the fiscal year were $659,698 77, and the working expenses $473 675 57, showing net $186,028 20. The earnings were $34,020 19 more than in the previous year, whilst the expenses decreased $36,443 49, showing a net increase compared with the previous year of $70,463 68.

One thousand two hundred and forty-eight tons of steel and iron rails were used on this road during the year.

(To be continued.)

The Pittsburg Bond Case.

In the Pennsylvania Supreme Court on the 18th inst. Judge Paxson delivered an opinion in the case of the commonwealth ex rel. Henry Wheeler, agent, against the Councils of the City of Pittsburg, in which he holds that the municipality is liable for the $5,800,000 bonds issued under the Penn Avenue act. The lower court decided that the bonds were not city bonds, and the city could not be held liable for their payment. The Supreme Court reverses this in the following language:

We are all of opinion that the bonds in controversy are the bonds of the city of Pittsburg and a part of its funded debt; that they were issued by lawful authority and for sufficient consideration, and that honor, good faith and the law of the land alike require that the city should provide for their payment. The judgment is reversed, and judgment is now entered for the relator upon the demurrer, and it is further ordered that a writ of peremptory mandamus issue to the Select and Common Council of the city of Pittsburg, commanding said Councils to forthwith make full and ample provision for the payment of all interest now due on said bonds and the interest as it shall become due, and further commanding the said Councils to assign and appropriate out of the revenue derivable from all sources sufficient moneys for the payment of the interest of the funded debt of the city so, as aforesaid, in arrear and to become due, giving preference, if any deficiency should arise, to payment of said interest before payment of the salaries of the city officers and the ordinary current expenses of the city.

Northern Pacific Railroad.

The Northern Pacific Railroad Company will receive proposals up to and including the 17th day of December, 1878, for grading, bridging and completing, ready for the track superstructure, that portion of its line extending from the west bank of the Missouri River, opposite the present terminus of its railroad at Bismarck, to the Yellowstone River, at or near the mouth of Glendive Creek; being a distance of about 200 miles. Separate bids to be made on sections of 25 miles each. The first, or easterly section, to be completed by July 15, 1879; the second section, by Aug. 1, 1879; the third section by Sept. 1, 1879; the fourth section, by Oct. 1, 1879; and the other sections before Jan. 1, 1880. Bids for each section may be either in gross or by measurement. Proposals are also invited for ties, of same size, quality and number per mile as those now being used by this company for renewals of its track superstructure in Minnesota and Dakota; to be delivered for each section on or before the completion of the grading thereon. Maps and profiles of the line may be seen and information obtained at the office of the company, No. 23 Fifth avenue, New York city.

☞ The Trust created by the Pennsylvania Railroad Co. for the purchase of certain securities gives notice that it has been organized, and that offers will be received by the Managers of the Trust for the sale to them of the bonds and shares of other companies, the principal, interest or dividend upon which is guaranteed by the Pennsylvania Railroad Co. The offers are to be addressed to Wistar Morris, Chairman of the Managers of the Trust, at the office of the Pennsylvania Railroad Co. This system is adopted by the Trust so as to give all holders an opportunity to make offers and at the same time prevent them from running prices up above market values, which might be the case were the Trust to announce the intention of buying any particular obligation.

☞ The Georgetown, Leadville and San Juan railroad, with a capital stock of five million dollars divided into fifty thousand shares of one hundred dollars, to run between Georgetown and Leadville, the southern boundary of Colorado, has been incorporated, with Jay Gould, Sidney Dillon and Russell Sage, of this city; Fred. L. Ames, of Boston; W. A. H. Loveland, C. C. Welch and E. L. Berthond, of Colorado, incorporators. It is designed to continue this route into New Mexico and Arizona.

☞ Operations were commenced on the 5th inst. at Fort Yuma on the extension of the Southern Pacific Railroad from Fort Yuma to Maricopa Wells, a distance of 157 miles. The work will be vigorously pushed. By the time Congress meets it will be well under way, and it is expected that fifty miles will be completed by January. Early in the spring the line will have been laid to Maricopa Wells. Mr. J. Strobridge is Superintendent of the work.

More Coal for the Winter.

At a meeting of the Board of Control, held at the office of the Philadelphia and Reading Railroad Company in Philadelphia on the 16th inst., all interests being represented, it was unanimously agreed to make the entire quota for the year 17,000,000 tons, allowing the several interests to ship their quota in such times of November and December as may best suit their particular requirements. The meeting adjourned to hold its next session in New York. The amount to be shipped by the different interests in the months of November and December is as follows: Philadelphia and Reading Railroad Company, 832,587; Lehigh Valley Railroad Company, 589,596; Central Railroad Company of New Jersey, 433,837; Delaware, Lackawanna and Western Railroad Company, 442,009; Delaware and Hudson Canal Company, 493,642; Pennsylvania Railroad Company, 208,674; Pennsylvania Coal Company, 223,644. Although this amounts to 3,223,989 tons, it is an additional allotment of only 2,200,000 tons over last year's. The general impression was that the market would rapidly absorb the entire amount. The meeting between the representatives of the Lehigh Valley operators and the committee from the Board of Control resulted in nothing save an adjournment. The prevailing opinion was that the present Board of Control would be continued until the 1st of next April, and that in the meantime some other arrangements would be perfected.

Central Pacific Railroad.

LAND AGENT'S REPORT.

LAND DEPARTMENT, CENTRAL PACIFIC R. R. Co.,
SAN FRANCISCO, CAL., July 1, 1878.

To the President and Directors of the Central Pacific Railroad Company:

GENTLEMEN:—In former reports I have shown that:

The land grant from the United States Government to the Central Pacific Railroad Company of 12,800 acres per mile, for 742 miles, is.....	9,497,600
Deduct for lands previously granted and reserved, say.....	1,500,000
Leaves	7,997,000
The land grant to the California and Oregon Railroad of 12,800 acres per mile, for 291 miles, is.....	3,724,800
Total.....	11,722,400
The grant to the C. and O. R. R. Co., provides that where lands are lost to the company by reason of previous grants or reservations, they can be made good from an indemnity grant of ten miles wide on either side of the twenty mile limit, which insures to the railroad company the full amount of land granted. The value of these lands, at the Government minimum price for adjoining lands, $2 50 per acre, would be.....	$29,306,000

A large portion of this is the choicest agricultural and timber land in the country, and will sell for a much greater price.

The policy of the company and of the trustees under the Land Trust Mortgage has been to sell the farming lands at low prices, and on easy terms of payment, to actual settlers, believing the best interests of the company and the bondholders are promoted by selling in limited quantities to those who will cultivate the soil, and who will own the land they cultivate. By this means an industrious agricultural population is invited, whose improvements and the product of whose labor tend to enhance the value of the unsold lands.

Most of the lands that have been sold were purchased for gold, on a credit of five years; a payment of twenty per cent being made at the time of purchase, the remainder to be paid at the end of the term, with annual interest, payable in advance, on all sums remaining due.

No sales have been made during the past year except for gold.

There were sold prior to October 1st, 1870, 127,687.55 acres, for $295,065 50, averaging $2 31 per acre; and up to December 31st, 1877, there has been sold the timber on 6,758.90 acres of land reserved by the Government for mineral, for $16,161 60; and there has also been received for stumpage $19,273 25.

Of the lands in the California and Oregon Railroad grant, there were sold prior to the consolidation of that company with the Central Pacific Railroad Company, 9,760.87 acres, for $18,443 36.

There remained due and unpaid December 31, 1877, on lands sold prior to October 1, 1870, $4,093 94 coin, and $120 currency.

Since the execution of the Land Trust mortgage, October 1, 1870, there have been sold to December 31, 1877, 403,751.47 acres of land, for $2,926,363 31, being an average of $7 25 per acre—as follows: from October 1, 1870, to December 31, 1872, 122,765.09 acres, for $484,227 97, averaging $3 94 per acre; from December 31, 1872, to December 31, 1873, there were sold 58,733.60 acres, for $410,314 92, being an average of $7 per acre; from December 31, 1873, to December 31, 1874, there were sold 63,846.99 acres, for $388,824 26, being an average of $6 09 per acre; from December 31, 1874, to December 31, 1875, there were sold 29,254.76 acres, for $163,725 27, averaging about $5 60 per acre (this includes 160 acres of granite quarry donated to the State); from December 31, 1875, to December 31, 1876, there were sold 36,503.68 acres, for $275 400 75, averaging about $7 54 per acre; from December 31, 1876, to December 31, 1877, there were sold 92,647.35 acres, for $1,203,870 14, averaging about $12 99¼ per acre.

There were also received from December 31, 1875, to December 31, 1877, $6 25 from leases of railroad lands, and $5,246 06 from stumpage of railroad trust lands.

There has been paid to the trustees under the Land Trust mortgage, up to December 31, 1877, the sum of $1,894,983 88 coin and currency; deducting $925 24 discount on currency, leaves a total of $1,894,058 64 coin.

There remained due and unpaid December 31, 1877, on the lands sold since October 1, 1870, $1,503,640.19 in coin.

It will be seen from the above statement, that as population increases, the value of the company's lands is gradually advancing. Lands which in 1870, at the time of their conveyance to the trustees under the Land Trust Mortgage were considered worth from $5 to $7 per acre, now readily sell for $10 and $12 per acre, and lands which at date were considered by intending purchasers as too remote from settlements are now sold without difficulty.

The recent passage by Congress of an act to provide for the sale of timber lands in California, promises to be of much advantage to the company. Heretofore it has been difficult to obtain title to the Government timber lands of our mountains. The necessities of building, fencing and mining, created a large demand for lumber, and this demand has been supplied from the public lands in defiance of law. As a consequence of lawless cutting, the timber lands of the Government have been wasted, the people demoralized, and it has been difficult to obtain recognition that there is any ownership to timber lands. With the passage of this law, containing provisions which permit the purchase and ownership of these lands, the proprietors of saw mills will feel that they are pursuing a legitimate and honorable business. These lands will be purchased and protected, the timber will be economically preserved and used, and the timber lands of the company will be in increased demand at fair prices.

The drought in the southern counties, during the past year, has turned the tide of emigration to the north, where the annual rains are always more than sufficient to produce crops of the cereals. More than five hundred families have settled on the lands of the company in the counties of Colusa and Tehama during the year. When the northern road shall have been completed from Williams to the Willows, an increased area of valuable farming land will be brought into market.

The so-called desert lands along the Humboldt river, in Nevada, are being rapidly occupied by settlers; they are found to be very productive when water from the river is brought to them. These lands are now being examined in detail and prices fixed upon them, and large sales will be made during the present season. As the State fills up with population and experiments are made, it is found that lands once considered as fit only for grazing, are really valuable for grain and orchards. Ten years since only prairie lands were ploughed for wheat and barley; now the low foot hills bordering the plains are found equally productive.

It will be but a few years when all the lands of the Sierra below an elevation of 3,000 feet, and within reach of transportation by rail, will be filled with homes and planted in grain and fruits. The lands of the Central Pacific Railroad Company may be regarded as among its most valuable assets.

Respectfully,
B. B. REDDING,
Land Agent.

A Virginia Bonanza.

We made some comments last week on the new era in mining industry which has been inaugurated in Virginia by the remarkable developments of the Randolph Mining Company, in which it appeared that a vast bulk of gold ore within easy reach of the pick and the drill gives an average assay value of nearly $70 per ton.

We have since seen at the office of Mr. J. A. Hoyt, 31 Broad street, a pile of ore amounting to several cartloads, extracted from the auriferous veins running through the property adjoining the Randolph mine and which under the name of the Stringfellow mine is about to be worked by a party of capitalists in this city whose interests are represented by Mr. Hoyt.

All that has been said respecting the value of the Randolph property is equally applicable to the Stringfellow developments, as the same veins run through both, and the ore extracted from the various shafts of the Stringfellow mine, amounting to above a thousand tons, maintains the same unvarying characteristic of a large quantity of free gold interspersed with sulphites assaying above $1,000 per ton.

Captain J. G. Riley, one of the most eminent mining experts of San Francisco surveyed the property and tested the value of the ore, at the request of Mr. Hoyt. His report is that the vein is of the geological character known as a true fissure which increases in value the lower it is penetrated, that many thousand tons of ore are now exposed and that the lowest milling value of the ore per ton is between $16 and $17, exclusive of the sulphites. Captain Riley adds to his remarkably graphic and detailed report that the intrinsic merit of the property ranks it amongst the foremost gold mines of this or any other country. Captain Riley has the reputation of being one of the

most conservative of men in his branch of science and one whose estimate may be accepted without the slightest reservation. Mr. Hoyt has nevertheless reinforced Captain Riley's report by the further examinations and assays of Professor M. H. Stowe and Dr. Endlich of the Smithsonian Institute, both of whom fully confirm the Captain's report in every essential feature and also give as the result of no fewer than twenty-five assays from different points, an average assay value of $29 per ton. From these independent conclusions it is reasonable to expect that the milling value of the ore as calculated by Captain Riley will be considerably in excess of the $16 at which he puts it.

Taking the uncovered ore at 50,000 tons and its value per ton at the cautious estimate of $16, we have an aggregate value of $800,000 actually in sight, from which 25 per cent has to be deducted for cost of working, leaving a net profit of $600,000, which may be regarded as a guaranteed return for the preliminary expenditure.

If all mining business were conducted on the principle pursued in this case of not inviting the investments of the public until it is demonstrated beyond peradventure that a certain annual minimum return for their capital is secure, mining investments would stand in far higher estimation. The only speculative element in the Stringfellow and Randolph mines is simply as to how much the actual will exceed the minimum return which the statements of experienced and able mining experts such as the gentlemen mentioned above, give a reasonable certainty of obtaining.

Of course in every business unexpected events occasionally occur which the widest margin will not cover, but as a matter of fact these unforeseen mischances happen less frequently in honestly conducted mining adventures than in any other industry, and where there is integrity in management, the income derived from a good mine is less subject to vicissitude than that arising from any other from of business investment.

Detroit, Grand Haven and Milwaukee Railway.

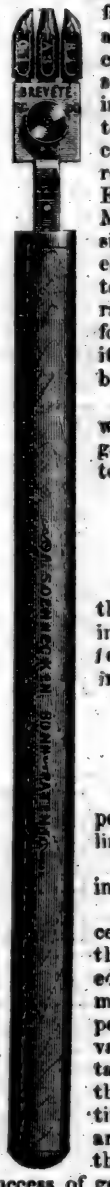
A complete reorganization of the Detroit and Milwaukee Railway Company was effected at a meeting of the governing powers held at the general office of the company in Detroit, Mich., on the 9th of October. The new corporation will be known as the Detroit, Grand Haven and Milwaukee Railway Company, with a capital of $1,500,000 issued to the Purchasing Committee appointed under the reorganization scheme, when it was decided to buy in the bonds. The following gentlemen constitute the new board of directors: Samuel Barker, Edward Martin, Francis Pavey, Sir Hugh E. C. Childers, Thomas Wilde, Geo. E. Davies, George Jerome, R. P. Toms. The officers are: President, Samuel Barker, Hamilton; Secretary, James H. Muir, Detroit; General Manager, F. Broughton; Solicitor, George Jerome. The new management will be continued until the bonds are issued and guaranteed by the Great Western Railway Co., and when that shall have been consummated the stock will be transferred to the Great Western. The bonds are to be issued and bear date Nov. 15, 1878. They will be interest-bearing. Some months must elapse before the bonds can be actually delivered, as they will have to be sent to London, England, to receive the official guaranty of the Great Western.

The Plumas Mine.

A typographical error in our comments on this valuable property last week made it appear that of the $70,000 earned by the company at the date of their last half yearly report only $4,000 had been applied to dividends. This latter amount should have been stated at $40,000. Since the date of that report $30,000 more have been paid to the shareholders out of net profits, the dividend now paying being at the rate of one per cent monthly on the par value of the stock with the prospect of its being largely increased as soon as the new stamps now being erected enable a larger amount of the ore to be utilized. The latest advices received from the mine by Messrs. L. P. Bayne & Co., of 54 Broad st., the New York agents of the company, report that information just received from the Manager, Mr. Bedwell, is to the effect that "Plumas is doing remarkably well," turning out very rich ore.

The amount of ore in sight is estimated at 50,000 tons of an average milling value of $16 per ton. As the cost of removing and working it is found to be $4 per ton, an easy calculation shows that a net minimum profit of $600,000 is available as soon as the mills can work it up, without any further development of the numerous veins which intersect the property.

We note that the mine is stocked at only a million dollars, which in face of these facts appears to be an unreasonable undervaluation, offering a large inducement to investors of small means who would like to increase their income.



☞ The earnings of the Denver and Rio Grande Railway for the second week of November, 1878, were $27,000, against $19,232 28 for the second week of November, 1877—an increase of $6,767 72, or 40.28 per cent. From January 1, to November 14, 1878, the earnings were $969,565 16, against $658,926 68 for the corresponding period of the previous year—an increase of $310,639 48, or 47.14 per cent.

☞ The Receiver of the Ohio and Mississippi Railroad Company will pay the interest on the first mortgage bonds of that company, due 1st of July last, at the company's office in New York on the 30th inst. The amount to be disbursed is about $230,000.

☞ The receipts of the Brooklyn City Rail road Company for the year ending September 30, 1878, were $1,494,639 86 and the expenses $962,368 48, leaving a surplus of $532,276, which may be used for interest, dividends, &c. The capital stock is $2,000,000 and the debt $375,000.

Round Writing

The new ornamental lettering by F. Soennecken, Bonn, of which Messrs. Keuffel & Esser are the publishers, is gaining the general favor although introduced only about a year ago. Thousands of copies have already been sold and several prominent technical and business colleges have commenced to teach it, meeting with favorable success. In Germany and England round writing is used by almost all Engineers, Architects, Lawyers and Merchants, as no other script is so simple and plain, and so well adapted to write matter which is meant to be prominent. Several of our railroads have adopted this script for plans and maps, and before long it will be used in all branches of business.

Practice has proved that a pupil who has but little ability for Calligraphy can learn to write it in fourteen hours or less.

The steel pens specially made for this script have broad nibs and vary in breadth and number to suit the letters required, being from ½ of an inch to one inch in size.

There are also three sizes of steel pens furnished which make a double line producing a shaded letter.

The latest novelty is the writing instrument.

This is a holder arranged to receive on the same line one, two or three small pens and specially adapted for large letters. These instruments are furnished with nine small pens, by the interchange of which a variation of 882 figures can be obtained. Taking in consideration that by this method a great deal of time can be saved by parties who are particular about a legible hand there is no doubt that a complete success of general introduction is to be expected.

Messrs. Keuffel & Esser have published several pamphlets in relation to the round writing, both for information and explanation. They also furnish for the trade a very attractive show card to draw the attention of customers to it.

☞ The directors of the Third Avenue Railroad Company, recently elected, are: Samuel L. Phillips, Henry Hart, William Remsen, Thurlow Weed, Robert George Remsen, Moses Mitchell, Henry Morrison, Frederick B. Noyes, John M. Samler, Samuel Willets, Lewis Lyon, Maltby G. Lane and George A. Heyl.

☞ The Central Railroad Company of New Jersey adjustment mortgage bonds, amount $5,550,000, dated May 1, 1878, payable May 1, 1903, interest 7 per cent coupons, payable May 1 and November 1, have been placed on the regular call of the New York Stock Exchange.

St. Paul and Pembina Railroad.

J. P. Farley, of St. Paul, Minn., Receiver of the St. Paul and Pembina Railroad, secured in Davenport, Iowa, on the 15th inst., an order from Judge Dillon of the United States Circuit Court for the issuing of $1,016,300 in bonds, to be given the parties who furnished the money to build seventy-five miles of the main line to Pembina, Dakota, and the forty six miles branch to Alexander, Minnesota. The money for building the extension was furnished by the Bank of Montreal. Not until the fact that the road was completed was certified by Governor Pillsbury of Minnesota could Judge Dillon allow the issuing of bonds to pay for it.

☞ Rails are laid on the Eastern Extension railway of Nova Scotia, from New Glasgow to Sutherland's River, some ten miles.

Statement of the Public Debt of the United States, November 1, 1878.

DEBT BEARING COIN INTEREST.

Sioux City and Pacific bonds, 1862-64	1,628,320 00	32,566 40
Totals	$64,623,512 00	$1,292,470 24

Interest paid by United States, $30,835,039 84; interest repaid by transportation of mails, &c., $10,416,104 50; balance of interest paid by United States, $20,418,935 36.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, October 31, 1878.

JOHN SHERMAN,
Secretary of the Treasury.

* This amount includes $30,500,000 Five-twenty called Bonds not yet matured, against which a like amount of 4 per cent Bonds have been issued and are embraced in this statement, and the amount included in the coin balance.

☞ At the annual meeting of the stockholders of the Baltimore and Ohio Railroad Company, held in Baltimore on the 18th inst., the report of the directors for the year ending September 30, 1878, was read and unanimously accepted and approved. The old board of directors was unanimously re-elected. President Garrett then stated that, by the use of the earnings represented by the dividend in stock which had been declared, namely, $546,472, and from additional net earnings, the floating debt has been further reduced since the close of the fiscal year (30th of September last) more than $1,000,000.

☞ The gross earnings of the New York Lake Erie and Western Railroad Company for the month of August, 1878, were $1,445,929 08, the working expenses $876,125 51, and the net earnings $569,803 57; for the month of August, 1877, the earnings were $1,271,130 88, the expenses $829,592 85, and the net earnings $441,537 98—showing an increase of net earnings for the month of $128,265 59. The net earnings for the first 11 months of the financial year exceed those for the same period last year by $1,041,823 96.

American Railroad Journal.

Saturday, November 23, 1878.

Financial and Commercial Affairs.

The burden of taxation is a financial problem that must of necessity enter into the calculations alike of statesmen and private citizens. We have been told from time immemorial that two things in human life were inevitable—death and taxes. Accordingly human ingenuity has been striving for many generations to escape from the inevitable, and at last we are shown the beginning of the desired end. Taxation in the future is provided for, and sovereign States may now run into debt without fear of defaulting in payment of interest coupons. The very simplicity of the new plan for paying taxes is the most remarkable feature about it, and coming from the State Assessor of New York, as it does, it has the merit of absolute truth.

In a paper read before the Bar Association on the 19th inst. at Albany, Mr. James A. Briggs, State Assessor, after going into the details of taxation as applied to personal and real property, and after showing that the railroads and real estate, as a rule, were assessed for an amount that would produce the State taxes, leaving the personal property untaxed, he then made the following curious statement:

"A thorough investigation into the sources of wealth of any State reveals some strange facts, as well as very interesting statistics. Among them I presume none will surprise you more than when I state that with the exception of seven counties, (naming them) the returns in the State census of 1875 of the value of *eggs* sold in 1874 is within

$9,456 of the amount of the State taxes in the fifty-three other counties for the year 1878. Add to the value of the eggs sold the value of poultry sold in 1874, and we have the sum of $1,762,628 more in amount than the State taxes in these fifty-three counties in 1878."

It seems scarcely possible that the hens can show so large a balance to their credit as the sum named after paying the State taxes; but the State Assessor ought to know. The only comment possible is this advice to taxpayers: Keep as many hens as you can, and save the eggs.

Unfavorable weather hindered the transaction of outdoor business during a part of the current week, and indoor operations sympathized to an extent and dragged.

Foreign Monetary advices are more favorable. In London money is easier than at our last report. Although the Bank of England's rate remains at 6 per cent the rate for money in open market is only 4½@4¾ per cent. The Bank continues to gain moderate coin balances and by its high rate of discount plainly intends to hold those balances if possible. Berlin advices report a gain of 8,100,000 marks specie for the past week by the Bank of Germany.

We have been accustomed to consider only exports from the Atlantic ports in our trade statistics, but it seems this has been an oversight. The *St. Louis Republican* gives some figures for grain exports to foreign ports via the Mississippi River, for the current year from January 1 to November 14, inclusive. The shipments have been of wheat 1,341,736 bushels; of corn, 2,558,796 bushels; of rye, 525,308 bushels, and of oats, 108,867; a total of 4,534,707 bushels. Freights to Liverpool or other European ports via this route from St. Louis, as compared with all-rail to New York and thence by steamer, are decidedly in favor of the Southern route, taking the all-rail rates on the basis of 35 cents per 100 pounds from St. Louis to New York. A difference of some five days time, however, stands in favor of the Northern route. It is easy to see that this all-water route, when assisted as at present by low prices for grain at home and abroad, may become a powerful winter competitor of the trunk lines.

Business on the Stock Exchange has not been large; strictly speaking, only a "brokers" business. A few of the low priced Western railroad stocks, hitherto wholly neglected, have shown some activity. In two or three instances a marked advance has been made, but the general tone of the market must be quoted very dull. The sales were 159,000 shares on Saturday, 122,000 on Monday, 136,500 on Tuesday, and 114,000 on Wednesday.

Boston Monetary advices are somewhat peculiar. Loans by the banks are now so much reduced that at the Clearing House almost no borrowers at all are reported. The only rate named is 1 per cent, with small dealings even at that low figure. In the discount market the rates range from 3½ to 5 per cent, with only choice factory names at the first named rate. Prime commercial names are passed at 4@4½ per cent. Boston Banks following the initiative of the New York banks have agreed to exclude silver from current deposits.

Philadelphia advices show a very easy Money market with more lenders than borrowers. Call loans are made at 3@5 per cent. Prime commercial paper is done at 4@6 per cent, according to quality and date. Business on the Stock Exchange was quiet and dealings were not large in amount. Fluctuations in railroad stocks were slight. We now quote Pennsylvania Railroad shares at 33@33⅛. Reading Railroad dull at 13⅜@13½. Coal stocks prior to the close suffered a decline from sympathy with a similar movement in New York.

From Baltimore there is no change reported in the condition of the Money market. The supply of money is liberal and it is easily obtained upon good security at low rates. The trade of the city is reported satisfactory for the season. Exports of grain are not fully equal to expectations. At the Stock Board business was fairly active and prices were generally firmer. Baltimore and Ohio Railroad, common stock, was active and higher. Sales were made at 84¼@84½ Dividend scrip was sold at 84½. Considerable lots of both stock and scrip were taken at these quotations. Northern Central Railroad quiet at 13@14½. Miscellaneous stocks quiet.

Government securities in this market have ruled firm. The subscriptions to the 4 per cent loans have been exceptionally large amounting on Saturday to $1,872,800; on Monday to $1,180,400; on Tuesday to $1,208,950. We now quote all issues as follows:

United States 6s, 1881, registered, 108⅞@109; do. coupon, 108¾@108⅞; 5-20s, 1865, new, registered, 103½@103¾; do. coupon, 103½@103¾; do. 1867, registered, 105⅞@106⅛; do. coupon, 105¾@106; do. 1868, registered, 108½@109¼; do. coupon, 108½@109¼; ten-forties, registered, 107⅜@107⅝; do. coupon, 107⅜@107½; 5 per cents, 1881, registered, 105¾@105⅞; do. coupon, 105¾@105⅞; 4½ per cents, 1891, registered, 103½@103⅝; do. coupon, 104⅝@104¾; 4 per cents, 1907, reg., 100¼@100⅜; do. coupon, 100¼@100⅜; sixes, currency, 121.

Gold has been quiet and unchanged since our last report. We still quote at 100⅛ and dull. Bar silver in London was lower at 50@50½d. per ounce.

Foreign exchange remains dull, with scarcity of commercial bills offering, and a limited demand for remittance drafts. Sterling is not quotably different from our last week's rates, 4 81½ for 60 day bills, and 4 85½@4 86 for sight drafts.

Domestic Produce has been fairly active. Dealings in wheat were liberal both for export and speculation. Of the latter, it was rumored on the Produce Exchange that some well-known Wall street operators were operating for a "corner" in December delivery. Chicago was the field chosen and the amount of wheat bought was said to be 5,000,000 bushels. This amount is probably exaggerated. The week's exports exclusive of specie, were $6 865,550.

Cotton continues irregular. A fair demand exists for export and consumption at moderate prices. Receipts, however, are lighter than estimated although in excess of last year's receipts for the same time. Receipts at all the ports since Sept. 1, 1878, 1,445,814 bales against 1,232,101 for same time in 1877. We now quote middling uplands at 9 7-16 cents per pound. Futures may be quoted at 9.33 for November delivery; December, 9.37; January, 9.50; February, 9.61; March, 9.73; April, 9.84.

Ocean freights are steady. Engagements to Liverpool, by sail, for grain, 7½.; and by steam, for grain, 7½@8d. To London, by steam, grain, 8d. by sail, grain, 7½d. To Cardiff, by steam, grain, quoted at 9d. To Hull, steam, grain, 8d. From Baltimore to a French port, by sail, grain, 5s. 9d. per quarter. Philadelphia to French port, by sail, grain, 5s. 9d. per quarter.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

Mining.

The Empire Gold Mining Company is now paying its fourth monthly dividend, the amount being increased to one per cent per month on the par value of the shares. The product of the mine during the four months preceding November was $147,290, out of which four dividends have been paid, additional machinery erected, and a substantial basis for a reserve fund carried over. We learn from Mr. White, the Treasurer, that a shipment of $17,000 on account of the first ten days of November is now in transitu. This indicates an ascending ratio of dividends and a highly satisfactory outlook for the stockholders.

Attention is directed to some remarks in another column respecting the Plumas Mine of California and the Stringfellow Mine of Virginia.

Investment Securities.

Messrs. John J. Cisco & Son are offering for sale the first mortgage Bonds of the Keokuk and Des Moines Railway at 87½ and interest.

These bonds bear five per cent interest, have 45 years to run and are guaranteed by the Chicago, Rock Island and Pacific Railroad Co. The total bonded debt is $2,750,000 which is at the low rate of $17,000 per mile on the 162 miles of line operated.

The amount returned on the investment at the price the Bonds are offered at, is close on six per cent, which considering the excellent character of the guarantee and the low rate at which the road is bonded, render these securities a most desirable investment for trust or other funds where absolute security is a primary consideration.

The same eminent firm has also for sale a small parcel of the Second Mortgage Gold Bonds of the Louisville and Nashville Railroad Co., payable in 1883, fifteen years before the maturity of the First Mortgage Bonds. The total amount of this Second Mortgage issue is $2,000,000, the interest of seven per cent being payable May and November in this city.

A reference to the last published Balance Sheet of the road shows that the ratio of bonded debt to total length is about $16,000 per mile, and that after taking care of its interest and meeting every other liability, it was in a position to pay a dividend to its stockholders of about 6 per cent.

With this exceptionally favorable showing the lot offered by Messrs. Cisco are not likely to remain long in the market. The price at which they may now be purchased will speedily lead to their being taken in bulk and withdrawn from the market. With every prospect of permanent ease in the money market prudent investors will not neglect this opportunity of securing a handsome return on their capital for the next five years.

Redemption of Five-Twenty Bonds.

The Secretary of the Treasury issued on the 16th inst., the seventy-second call for the redemption of 5-20 bonds of 1865—consols of 1865. The call is for $5,000,000, of which $2,000,000 are coupon and $3,000,000 registered bonds. The principal and interest will be paid at the Treasury on and after Feb. 16, 1879, and the interest will cease on that day. The following are the descriptions of the bonds:

Coupon bonds, dated July 1, 1865, namely: $100, Nos. 140,001 to 142,000, both inclusive; $500, Nos. 99,001 to 102,000, both inclusive; $1,000, Nos. 193,001 to 197,000, both inclusive.

Registered bonds, redeemable at the pleasure of the United States after the first day of July, 1870; as follows: $50, No. 2,486 to No. 2,493, both inclusive; $100, Nos. 19,151 to 19,222, both inclusive; $500, Nos. 11,251 to 11,279, both inclusive; $1,000, Nos. 88,651 to 89,000, both inclusive $5,000, Nos. 12,101 to 12,350, both inclusive; $10,000, Nos. 23,541 to 24,120, both inclusive.

☞ The Boston Journal says that the Boston Revere Beach and Lynn Railroad will pay a dividend of 3 per cent on the 1st of January, with a fair prospect of 6 per cent dividend per annum hereafter.

The Coal Trade.

The total tonnage of anthracite coal from all the regions for the week ending November 9th as reported by the several carrying companies, amounted to 458,402 tons, against 526,301 tons in corresponding week last year, a decrease of 67,899 tons. The total amount of anthracite mined for the year is 14,173,510 tons, against 17,048,924 tons for same period last year, a decrease of 2,875,414 tons. The quantity of bituminous coal sent to market for the week amounted to 85,068 tons, against 84,700 tons in corresponding week last year, an increase of 368 tons. The total amount of bituminous mined for the year is 2,932 309 tons, against 2,906,923 tons for corresponding period last year, an increase of 25,368 tons. The total tonnage of all kinds of coal for the week is 543,500 tons, against 611,001 tons in corresponding week last year, a decrease of 67,501 tons, and the total tonnage for the coal year is 17,105,819 tons, against 19,955,847 tons to same date last year, a decrease of 2 850,028 tons. The product of the mines of the Cumberland coal region for the week ending November 9 was 50,873 tons, and for the year to that date 1 441 456 tons, an increase of 11,730 tons as compared with the corresponding period of last year. The shipments to the Baltimore and Ohio Railroad were, for the week, 23,292 tons; for the year, 760,190 tons, an increase of 78,882 tons as compared with 1877. The shipments to the Chesapeake and Ohio Canal were, for the week, 19,897 tons; for the year, 552,239 tons, an increase of 12,896 tons as compared with 1877. The shipments to the Pennsylvania Railroad were, for the week, 7,684 tons; for the year, 129,025 tons, a decrease of 10,161 tons as compared with 1877. The quantity of coal and coke carried over the Pennsylvania Railroad for the first week of November was 99,850 tons, of which 77,718 tons were coal, and 21,682 tons coke. The total carried for the year is 4,114,595 tons, of which 3,163,854 tons were coal and 950,471 tons coke. These figures embrace all the coal carried over the road, east and west. The Reading Railroad reports a tonnage for the week ending November 16 of 180,500 tons, of which 52,000 tons were sent to Port Richmond. The shipments thence during the week amounted to 53,000 tons. The receipts of coal at Perth Amboy during the week ending November 16 were 15,592 tons, the shipments 19,611 tons, and the amount on hand at that date 54,382 tons. At the same date last year the amount on hand was 101,706 tons.—*Phila. Ledger, Nov.* 18.

United States Supreme Court.

The following decisions, among others, were rendered in the United States Supreme Court at Washington on the 18th inst.:

No. 48. The Chicago and Northwestern Railway Company, appellant, vs. Thomas Sayles—Appeal from the Circuit Court of the United States for the Northern district of Illinois. This was an action brought by Sayles, the present appellee, for an alleged infringement of letters patent granted in 1852 to one Henry Tanner upon an improved car brake originally invented by Thompson and Bachelder in 1847. The Court holds that the Stevens brake used by the railway company is not an infringement of the Tanner patent, now owned by the present appellee, because when Thompson and Bachelder, Tanner's assignees, filed their original application in 1847, at least two other kinds of double brakes, similar in construction to theirs, were already in use; that the construction and mode of operation of the Stevens brake are altogether so different from those of the brake owned by the present appellee that they must be regarded as indepeodent inventions. The decree of the Circuit Court is therefore reversed, with costs, and the cause remanded, with directions to enter a decree dismissing the bill of complaint.

The opinion was delivered by Justice Bradley.

No. 59. The city of Nauvoo plaintiff in error vs. George A. Ritter—In error to the Circuit Court of the United States for the Southern District of Illinois. The question in this cause is whether a city, which has bonded itself in order to make a subscription to the capital stock of a railroad, can decline to pay the matured coupons of its bonds on the ground that the latter had been issued without a previous submission of the question to the people in a general election. The Court holds that the recital referred to on the face of the bonds and printed on their backs that the election required by law was duly held, is sufficient in the hands of an innocent holder to estop the municipality from offering to show that there really was no such election. The judgment of the lower court is affirmed, with costs and interest.

Chief Justice Waite announced the decision of the Court.

Commerce of New York.

The foreign imports at New York for the month of October, 1878, are officially stated as follows:

	1877.	1878.
Entered for consumpt'n.	$10,525,096	$12,606,886
Do. for warehousing	5,658 350	4 222,608
Free goods	9 094,680	7,431,612
Specie and bullion....	807,292	2,564,960
Total entered at port...	$26.085,368	$26,825,566
Withdrawn fr. wareh'use	9,685,551	5,584,884

The foreign imports at New York for ten months from January 1, were:

	1877.	1878.
Entered for consumpt'n	$117,021,494	$115,902,258
Do. for warehousing ..	77,168,882	56,910,565
Free goods	77,178,592	66,127,790
Specie and bullion	12,490,284	17,925,406
Total entered at port..	$283,854,252	$256,866,014
Withdrawn fr. wareh'se	71,563,566	58,806,606

The duties received at New York for ten months ending with October, were:

	1877.	1878.
January	$8,058,938 72	$7,154,924 85
February.....	8,224,434 61	7,914,953 48
March..	8,695,637 63	8,571,501 20
April	7,569,482 75	7,696,248 39
May	7,054,082 33	6,527,083 58
June....	6,102,426 72	5,957,135 22
July	7,132,747 46	8,103,513 74
August	10 018,122 33	10,149,191 69
September	9,068 929 44	9 080,936 88
October	8,892,221 85	8,349,904 94
Total.....	$80,317,023 84	$79,505,388 97

The exports from New York to foreign ports in the month of October, were:

	1877.	1878.
Domestic produce.....	$30,258,630	$28,838,012
Foreign free goods.....	143,721	174,135
Do. dutiable....	749,029	392,404
Specie and bullion.....	951,297	487,022
Total exports.....	$32,102,677	$29,891,573
Do. exclusive of specie.	31,151,380	29,404,551

The exports from New York to foreign ports for ten months from January 1, were:

	1877.	1878.
Domestic produce.....	$234,417,703	$285,812,860
Foreign free goods....	1,786,750	2,872,905
Do. dutiable.	4 209,543	4,555,465
Specie and bullion....	25,782,435	11,801,397
Total exports	$266,196,431	$305,042,627
Do. exclusive of specie.	240,413,996	293,241,230

☞ The Philadelphia and Reading Coal and Iron Company are encouraged in their efforts to introduce anthracite coal into the Mediterranean markets, from the fact that England sent out to that region last year 14,880,899 tons of coal, 333,640 tons of cinders and 205,511 tons of patent fuel. The vessels which took out the cargoes obtained return freights, which paid the expenses o both trips. Mr. W. H. Schenck, the United States Consul at Barcelona, expresses his firm belief that anthracite would be one of the main items for the cargo of a line of steamers to the Mediterranean.

☞ The gross receipts of the Grand Trunk Railway of Canada for the month of September, 1878, were £160,787, the working expenses £111,844, and the net profit £49,443; for the month of September, 1877, the receipts were £179,452, the expenses £125,929, and the net profit £53,523—showing a decrease in receipts of £18,665, in expenses £14 585, and in net profit of £4,080. For the three months ending September 30, 1878, the gross receipts were £439,361, the working expenses £338,398, and the net profit £100,968; for the three months ending September 30, 1877, the receipts were £485,102, the expenses £363,613, and the net profit £121,489—showing a decrease in receipts of £45,741, in expenses of £25,215, and the net profits of £20,526.

☞ The number of passengers carried on the New York Elevated Railroad from January 1 to October 1, 1878, was 5,959 355. The average passenger traffic per day during the month of October was 63,478½. Mr. Cowing, Secretary of the company, states that an additional section, from Sixty-seventh to Eighty-ninth street, will be running during the present month; that another from Eighty-ninth street to Harlem will be running in December, and that on January 1, 1879, another section will be in operation on the west side, from Fifty-ninth to Eighty-third street, as well as the branch from Chatham square to the City Hall.

☞ The call for Five-twenty bonds issued on the 16th inst. by the Secretary of the Treasury is the seventy-second in regular succession, and is the first issued since 16th September last. The amount of 5 20s of 1865 outstanding and not called is $12,168,500 coupon and $9,629,900 registered bonds—total, $21,798,400.

☞ Mr. John Bradshaw, master of road on the lines of the Baltimore and Ohio Railroad between Cumberland and the Ohio River, has been appointed master of road for the entire main line and branches between Baltimore and Washington in the East, and Parkersburg, Bellaire and Wheeling in the West.

☞ Mr. John L. Wilson has been appointed superintendent of terminal tracks and structures of the Baltimore and Ohio Railroad at Baltimore in which position he will have charge of the important works at Locust Point, stations, tracks i n the city, etc.

☞ By order of the Court of Chancery, the Bridgeton and Port Norris (N. J.) Railroad will be offered for sale on Saturday, 30th inst., at Bridgeton.

☞ Mr. Thomas B. Lee, of Newark, N. J., has been appointed Assistant Engineer of Hydraulic Improvements of the Brazilian Empire, Sou America.

☞ The reducible debt of the State of Oh now aggregates $6,476,805 30, of which $4,07 640 30 will fall due Jan. 30, 1881, and the remainder, $2,404,165, in 1881.

☞ At a meeting of the Wabash Railway Company, held on the 19th inst., C. K. Garrison and A. M. Billings were elected directors in the place of W. Colburn and W. S. Gurnee, resigned. The board as now constituted is as follows : C. K. Garrison, Cyrus W. Field, H. A. V. Post, M. K. Jesup, E. H. R. Lyman, Solon Humphreys and W. M. Bliss, of New York ; Jas. Cheney, of Fort Wayne ; A. L. Hopkins, of Toledo ; C. Ridgeley of Springfield, Ills., and A. M. Billings, of Chicago. C. K. Garrison was elected President in place of James A. Roosevelt resigned.

☞ The Milwaukee Wisconsin says that 500 men are now at work upon the Sparta and Viroqua Railroad, extending from Sparta to Viroqua, in Vernon county, Wis., and it is expected, with reasonably fair weather, that twelve miles of it from Sparta south will be completed before the weather becomes so severe as to stop work. If this expectation be realized the whole distance of thirty miles will be in operation by the end of June next. This road will prove a valuable feeder to the Chicago, Milwaukee and St. Paul Railway, of which it will practically form a branch.

☞ The directors of the Ashtabula and Pittsburg Railroad Company have executed a mortgage of $1,500,000, bearing six per cent interest to replace the old seven per cent bonds. They have also agreed to expend $10,000 in building new docks at Ashtabula. The company now have enough money on hand to pay the semi-annual interest and $20,000 over. The officers of the company are : Warren Packard, President; D. B. McCoy, Superintendent ; A. F. Hubbard, Secretary and Treasurer ; J. F. Brooks, Attorney.

☞ It is stated that the directors of the Eastern Shore Railroad Company have consented to the sale of the road under the bill filed in the United States Court a few months ago. The Somerset (Md.) Herald thinks that when the road passes into other hands it is likely that first class steamers will be placed upon the route between Crisfield and Norfolk, and a through line will be established between the Northern cities and the South.

☞ A receiver has been asked for the Galena and Southern Railroad. This road is now completed from Galena northwardly to Platteville, in Wisconsin, a distance of about forty miles, and has another extension of ten miles, extending north, which is only partially equipped. It is declared that no amount of the loan has been repaid, and that the amount now due is $568,000.

☞ Articles of incorporation were filed with the Secretary of State of Illinois on the 6th inst. of the Danville and Pekin Railroad Company with a capital of $2,800,000. The company is formed for the purpose of operating the Indianapolis, Bloomington and Western Railroad, which was recently sold under decree of the United States Court.

☞ A certificate of incorporation has been filed with the Secretary of State of Ohio of the Youngstown and Cannotton Valley Railroad Company, branch line to run from a point near Minerva, Stark county, to Canton, in the same county eighteen miles, by Joseph L. Rue, President.

☞ The engineers engaged in making surveys across the Maryland and Delaware peninsula for the proposed ship canal are rapidly advancing with their work. No less than six different routes have been proposed and one or more surveys have already been made. One party is now engaged in the survey from Queenstown to Lewes, and the other from the Mispillion to Wye river.

☞ The Pittsburg and Lake Erie Railroad Company has contracted with Messrs. Riehle Bros', Philadelphia, for the Railroad Track Scales, also Scales for Depots and Stations, along the whole line of the road.

☞ Ground on the line of the Brattleboro' and Londonderry Narrow Gauge Railroad was formally broken at Brattleboro', Vt., on the 12th inst.

☞ Six shares of the Delaware Bridge Company, at Frenchtown, were recently sold at $125 25 per share. The par value is $50 per share.

London and Frankfort Investments.

The failure of Spain, Egypt, Turkey and several of the South and North American States to pay interest on their funded indebtedness has cost English investors very dearly. During the past fifty years over three thousand million dollars has been paid by Englishmen for the bonds of States in doubtful credit. Of this sum seven hundred and seventy millions, or twenty five per cent of the whole sum is a dead loss. The balance remains in partial default. A greedy desire for large rates of interest has induced the purchase in large blocks of such doubtful securities as the bonds of Costa Rica, Honduras, Paraguay, San Domingo, Poyais and Liberia, to say nothing of the Confederate debt and the dishonored bonds of some of the Southern States. With their hands full of the notes of these defaulting Governments, of late years investors have found it prudent to place their money in home undertakings. But the failure of the Glasgow Bank, and the resulting crash in commercial and manufacturing business, has created great distrust in this line of investment.—*Phila. Record.*

The comment on the above is obvious enough. The greed for high rates of interest—the haste to double the capital—is at the bottom of much of this unsound borrowing and lending. So long as there are buyers for cheap bonds, or, what is the same thing, high rates of interest, so long there will be offerers. It is the good fortune of the United States Government that it is no longer a borrower of this class; but it is equally the misfortune of the national reputation that our market is rarely without some such wild cat enterprises in hand. Of bonds that are "made to sell," there are always plenty. This circumstance does not arise, as our British cousins imagine, out of any uncommon development of the cheating disposition of our people, but because of the crop of over-sanguine speculators and visionaries which our continent produces in such abundance. Such is the fertility of our soil, such the adaptability of our people to invention and labor-saving machinery, and such the general average of trading intelligence that the many industrial successes present with us only serve as stimulants to a spirit of imitation, rivalry, and emulation. We have been quick to build duplicate roads in order to divide a fairly profitable traffic. It is in this sense, more than in any other, that we may be said to have built "too many railroads in the United States."

There are not, however, too many miles of road for our present population and resources; but many of the new ones are badly placed. Even now there are places and traffic for not less than 5,000 miles of new road, which would absorb say 10 to 12 millions of European capital at moderate rates of interest. This is exclusive of the 1,200 or 1,400 miles of the Southern Pacific Railroad required to connect the California system with that of Texas, which is probably the most colossal work now in progress in this country. There are pieces of needed through lines, and branches and short connecting links to be filled, which would pay a fair rate on the investment. Some of these are on the Atlantic slope, others are in the Gulf States, and the remainder in the West and Far West.

One feature in connection with our American Railroad financing ought to be noticed here: it is the futility of attempts to make new roads, which are, for inevitable reasons, built chiefly on borrowed capital, pay full interest from the start. This, in all but the most favored instances, (now very rare) is impossible. If our home and foreign investors would but consent to a form of bond with graduated rates of interest for a few years of the infancy of operation we should not hear of so many breakdowns. For instance if a new road had to earn no interest until after completion; and afterwards commencing with one per cent, and increasing yearly by one per cent, until the maximum six was reached, many roads could be enabled to escape bankruptcy. This is what many of them virtually do after years of receiverships.

Warning to Locomotive Engineers.

Drs. Charles M. Cresson and Robert E. Rogers, of Philadelphia, well known as experts in chemistry and dynamics, were appointed by the Philadelphia and Reading Railroad Company to inquire into and report upon the causes of the recent explosion of the boiler of the express locomotive "Gem," at Mahanoy city, by which five lives were lost. Their report, which is designed to cover the whole scope of a most careful investigation, is not yet made public, but they have arrived at the following specific conclusion, which we give in their own language:

"We are therefore of the opinion that the explosion of the boiler of the locomotive 'Gem,' was produced by the projection of foam upon the heated crown bars of the furnace caused by suddenly and widely opening the safety valve, at a time when the water had been permitted to get so low as to overheat the crown of the furnace."

This is an important matter, that should be carefully noted by locomotive and other engineers, for it will show them that there are conditions in which the sudden and wide opening of a safety valve, or of a throttle valve, may produce disastrous explosions instead of relief to the boiler.

☞ The Eastern Railroad Co. of Massachusetts and the Maine Central Railroad Co. propose to run a line from Danforth to Houlton, a distance of 30 miles. If this is done it is expected that the New Brunswick R. R. Co. will continue their narrow gauge Railroad from Woodstock to Houl-

ton; all transfers of freight to be made at Houlton. This would make nearly an air line connection between Fredericton, Woodstock and Madawaska Valleys with all the western roads.

Baltimore and Ohio Railroad.

(Continued from page 1445.)

The aggregate earnings, working expenses and net results of the Main Stem, including the Winchester and Potomac, Winchester and Strasburg, the Strasburg and Harrisonburg, the Metropolitan Branch, and the Washington City and Point Lookout railroads; the Washington Branch and the Parkersburg Branch railroads; of the Central Ohio, Lake Erie and Chicago divisions; the Wheeling, Pittsburg and Baltmore, and the Newark, Somerset and Straitsville railroads, and the Pittsburg Division for the fiscal year, and the Washington County Branch for three months to January 1, 1878, viz:

	Earnings.	Expenses.	Net earnings.
Main Stem, including the Winchester and Potomac, Winchester and Strasburg, the Strasburg and Harrisonburg, the Metropolitan Branch Roads, and the Washington City and Point Lookout Railroad, and the Washington County Railroad for three months to January 1, 1878	$8,568,956 85	$4,524,944 98	$4,039,011 87
Washington Branch	276,879 40	76,850 49	200,028 91
Parkersburg Branch	659 698 77	478,675 57	186,023 20
Chicago Division	1,057,558 96	628,010 57	429 548 39
Central Ohio Division	829 262 77	563,804 84	265,447 93
Lake Erie Division	657,692 04	423,404 73	234,227 31
Pittsburg Division	1,544,021 89	956 501 57	586,520 32
Wheeling, Pittsburg and Baltimore Railroad	40,984 25	36,162 82	4,821 43
Newark, Somerset and Straitsville Railroad	135,295 06	84,545 79	50,749 27
Working expenses 56.44 per ct.	$13,765,279 99	$7,769,401 36	$5,995,978 63

The net revenue of the Main Stem and branches including the Central Ohio, Lake Erie and Chicago divisions, the Wheeling, Pittsburg and Baltimore, the Newark, Somerset and Straitsville railroads, and the Pittsburg Division, was $5,995,978 63.

The net earnings of the Parkersburg Branch Railroad Company, and of the Chicago Division, and of the Wheeling, Pittsburg and Baltimore Railroad Company, and the excess over rental of the net earnings of the Lake Erie Division have been credited to the accounts for interest on advances made to those companies respectively.

It is shown that the net earnings of the Central Division were $265,447 93. Under the lease of the Central Ohio Railroad thirty-five per cent of the gross earnings are paid annually to that company. The working expenses, in consequence of the very low rates for transportation during a portion of this year, was 67.98 per cent. The loss on this division for the year, under the agreement, was $24,790 54, which has been charged in the profit and loss account. It will be seen that the net result on this division, compared with the previous year, shows an improvement of $92,455 66.

The aggregate working expenses of the Main Stem, with all branches and divisions were 56 44 per cent of the whole gross revenues, being 5.88 per cent less than the preceding year.

Six hundred and twenty-four miles of track of the Main Stem are now laid with steel rails. The entire increased cost of the large quantity of steel rails thus continuously substituted for iron rails has been charged to the repair account. The economy and advantage of the substitution of steel for iron rails so generally upon the line continue to be shown by the further important reduction, which is mainly due to this change, stated by the road department in the cost of the "repairs of railway," of $195,067 05.

The condition of the entire line, its roadbed, tracks and structures, has not only been fully maintained, but improved. The great regularity of its trains, and its successful working, with the absence of accidents, are noteworthy.

OF THE WASHINGTON COUNTY RAILROAD COMPANY.

The contract for the working of the Washington County railroad, made on the 10th of December, 1868, for ten years from the first day of January, 1868, contained a provision under which the agreement could be continued for ten years on the same terms, or cease upon one year's notice prior to the expiration of the contract, namely, January 1, 1878. As, in consequence of the competition for the business of Hagerstown and Washington county, of the Chesapeake and Ohio canal, of the Western Maryland railroad, and of the Cumberland Valley railroad, it has been impossible to secure satisfactory results, the Baltimore and Ohio Company availed of the option reserved in the said agreement, and, in accordance therewith, gave the proper notice to the Washington County Railroad Company that the lease of the road would not be continued after January 1, 1878. The Baltimore and Ohio Company continues to be interested in this road as an original subscriber, and now owns 38,464 shares of its stock, representing at par $769,280.

The earnings and working expenses for the three months from September 30, 1877, to January 1, 1878, were merged, as heretofore, in the statement of the Main Stem. Since that period, namely, for the nine months ended September 30, 1878, the gross earnings of the Washington County Railroad Company have been $25,778 01.

THE PITTSBURG AND CONNELLSVILLE RAILROAD.

The earnings for the year ended September 30, 1878, were	$1,544,021 89
The working expenses for the same period were	958,501 57
Being 62.07 per cent.	
And showing the net earnings for the year	$585 520 32

The earnings were $154,415 31 more than the previous year, and the expenses decreased $7,271 43, showing a net increase over the preceding year of $161,686 74. The decrease in the ratio of working expenses has been 7.43 per cent as compared with the preceding year.

The interest on the first mortgage of the Pittsburg and Connellsville road is 7 per cent on $4,000,000, namely $280,000. After the payment of this amount from the net earnings it will be noted that $305,520 32 have been earned, which is applicable to the interest on the sterling loan of the Pittsburg and Connellsville road. The amount of this interest, including the interest on the sinking fund of that company, is $379 282 40. It will thus be seen that with this gratifying improvement the Pittsburg and Connellsville Company not only has earned the interest on its first mortgage bonds, but within $73,742 08 of the entire interest upon the sterling bonds issued by it also. The large development of important interests upon its road and branches, and the heavy business of the great manufacturing and commercial centre, Pittsburg, its present terminus, promise a continuance not only of equal, but of steadily improving results.

BALTIMORE AND OHIO AND CHICAGO RAILROAD COMPANIES.

The earnings of these companies, known as the Chicago Division of the Baltimore and Ohio Railroad Company, for the fiscal year were	$1,057,558 96
And the working expenses for the same period	628,010 57
The surplus credited to the account of this division is	$429,548 39

The working expenses being 59.38 per cent.

The earnings were $99,823 56 more than in the previous year, whilst the expenses decreased $266,404 64, showing a net increase compared with the previous year of $366,228.

The rapid improvement of the business upon this valuable line meets the expectations formed in regard to it based upon its singular directness, low grades, excellent character of the country through which it passes, and the important centres of traffic which it so effectively reaches. As the interest paid upon the five per cent sterling loan of £1,600,000 taken for account of this company amounted during the past year, including the premium on gold, to $397,895 71, the line already shows its ability to pay from its net earnings more than the entire sum, exclusive of taxes. The taxes paid for these companies, $52,189 98, being deducted from the earnings, $429,548 39, leave $377,358 41, which sum has been credited to the interest account of the Main Stem, in which is charged the interest and premium on gold paid for the Baltimore and Ohio and Chicago Railroad Companies' sterling five per cent loan of 1927. Whilst this powerful line commands a heavy trade for the Baltimore and Ohio road and its trans-Ohio divisions, it adds immensely to the resources of Baltimore and to the strength of its commercial position, and promises to realize in the future results that will fully approve the wisdom of its construction.

Improved results are shown on the following lines worked by this company:

Chicago Division	$429,548 39		
Straitsville Division	50,749 27		
Central Ohio Division	265,447 93		
Pittsburg Division	585,520 32		
Wheeling, Pittsburg and Baltimore Railroad	4,821 43		
Parkersburg Branch	$186,023 20		Net earnings in 1878.
	$1,522,110 54		
Chicago Division	$429,833 58		
Central Ohio Division	149,287 51		
Pittsburg Division	423,833 58		
Wheeling, Pittsburg and Baltimore Railroad	87 73		
Parkersburg Branch	$115,559 52		Net earnings in 1877.
	$862,676 06		
Chicago Division	128 280 39		
Straitsville Division	50,627 33		
Central Ohio Division	116,160 42		
Pittsburg Division	161,686 74		
Wheeling, Pittsburg and Baltimore Railroad	4,733 70		
Parkersburg Branch	$70,463 68		Increase in 1878.
	$659 484 48		

A decreased result is shown on the Lake Erie Division, as follows:

Net earnings 1877	$249,556 45
Net earnings 1878	234,227 31
Decrease in 1878	$15,329 14

The rental of the Sandusky, Mansfield and Newark road (Lake Erie Division) is $175,350 per year. The excess of net earnings over the rental is $59,877 31, which has been credited in the interest account of the Main Stem on account of advances made for the permanent improvement of that road.

The extensive and liberal arrangements heretofore made in constructing piers, docks, elevators, warehouses and all practicable and economic facilities for the protection and promotion of the interests of steamships and sailing vessels, have attracted a great increase of tonnage to the port of Baltimore. The vessels entered and cleared

for the year ended September 30, 1878, embraced 2,315,481 tons, whilst for the same period of 1877 the tonnage was 1,734,670, showing an increase of 580,811 tons, equal to 33 48-100 per cent.

The board expresses with pleasure their appreciation of the successful management of the business of the company through the faithfulness and efficiency of the officers and employes in all departments of the service.

By order of the board,

JOHN W. GARRETT, President.

Railroad and Manufacturing Notes.

The Washington and Ohio Railroad Company has received 100 tons of new iron rails, which will be used to replace those along the line which have worn out.

The Pittsburg and Lake Erie Railroad, which is now nearing completion, will connect north of the first named place with forty-nine rolling mills and blast furnaces.

The Eggemoggin Silver Mining Company of Maine has leased its mine and smelting works at Sedgewick for a term of twenty years, and the Van Wyck Smelting Company of New York will hereafter take charge of the entire works. This company owns the celebrated Perth Amboy Smelting Works in New Jersey.

The Pennsylvania Coal Company have completed a forty ton Barker train scale at their immense pockets on the Lehigh and Susquehanna Railroad at Pleasant Valley.

At the railroad shops at Reading, Penn., a new six-wheeler coal dust burning engine has just been sent out. The building of coal-dust burner passenger engines is being carried on extensively.

A contract has been made with the Philadelphia and Reading Coal and Iron Company to supply rails, etc., to lay a branch road from Landisville, Lancaster county, Penn., to Chiques Furnaces in the same county.

In the iron and steel works of Pittsburg and Allegheny county, Penn., there are 804 ordinary single puddling furnaces. In the rolling mills in Pennsylvania there are 2,187 such furnaces.

There are cheering reports from the iron workers of Trenton, N. J., and the prospects of a busy season are bright. The rolling mill is now running on full time, and their orders for work seem to increase as the winter comes on.

Activity in the Iron Trade.

The Philadelphia Record says that the iron operators of the State of Pennsylvania speak in encouraging terms of the outlook for their industry, and then adds:

On every hand there are signs that the prolonged stagnation is to be succeeded by a period of great activity. Furnaces which have long been idle have now their fires lighted and accumulated stocks are going off at a lively rate. Pig iron is largely in demand, and large orders for all classes of iron are coming in from all parts of the country.

Ten thousand tons of pig iron have just been sold from the Catasauqua furnaces at an advance in price. The Riney furnace has relit another stack in order to cope with its orders. The Thomas iron company, at Hohendauqua, has also blown in an additional stack.

An improved state of affairs is reported from Pittsburg and its vicinity. Of the twelve furnaces in the city eight of the largest are in blast. The production of these is stated to be the largest ever known. Three new furnaces are to be built by the Edgar Thomson Steel Works, and another by the Cambria Iron Company. The latter corporation are also about to put in blast one of their old furnaces, which has been idle for several years.

Schuylkill county is feeling the effects of the revival. The Pottsville Spike and Bolt Works are filling an order for six miles of portable railway track for Cuba; Potts' Orchard Iron Works are building several engines; Allison's Franklin Iron Works, at Port Carbon, are busy on Western orders; the Atkins Brothers are putting in a new 400-horse power engine at their Fishbach Rolling Mills, and propose to extend their works both in the form of new buildings and new departments; the Coalesville Mills are running on full time, and are unable to keep up with orders.

Work is brisk through the Lehigh and Lebanon Valleys. The Thomas Iron Company have sold 1,000 tons of iron on private terms. Orders have been given out for 1,000 tons of North River iron and 400 tons of Crane iron, to be delivered previous to the closing of navigation. A car load of plate iron has just been shipped from the Lebanon rolling mill to San Francisco.

Smoke-Burning Furnace.

Dr. S. G. CLARKE, of Cleveland, Ohio, has patented a Smoke Burning Furnace, which the Cleveland Steel Casting Co. say saves forty per cent in their coal bills, and of which the Trade Review gives the following description:

At the rear of the grate bars is a small auxiliary furnace with grate and ash-pit. Over this rear furnace is thrown an arch of fire brick, the base of the arch resting against the bottom of the boiler. The coal is fed in the usual way at the front of the furnace; as the smoke is burned off the incandescent coal is gradually moved back toward the rear of the grate bars, where it falls with the cinder into the rear furnace, where sufficient air is admitted to cause a most intense heat immediately under the arch, where all the smoke and gases are instantly decomposed. The advantages of this furnace are, a perfect combustion, freedom from smoke, and consequently a saving of fuel. The fire is at all times in a bright and lively condition, and evenly distributed over the grate bars. There is no necessity of drawing the fires to remove the ashes and clinker, as this is all deposited in the rear furnace, where it is easily disposed of without disturbing the fire on the grate bars. Also the heat is equally distributed over the bottom of the boiler, the most intense heat being in the rear furnace, immediately under the arch, and the farthest from the bottom of the boiler. There being but little smoke, there will be no deposit of soot or dirt in the flues.

Foreign Finance, etc.

The Rothschilds of London and Paris have introduced a new Egyptian Loan of $41,000,000 on the English and Continental money markets. The Bonds bear interest at five per cent, and are offered at 73, rendering the interest equivalent to $6 85 per cent on the selling price. As this financial operation is the first of the series which will naturally result from the protectorate which England has established over the Turkish Empire and its dependencies, the nature of its reception by the investing public will be regarded with great interest as indicating in great measure the sympathy or the antagonism of the commercial classes with respect to the aggressive tendencies of British policy in Eastern matters.

The loan, though under no formal guarantee of the British or French Governments, is secured by the public domain recently transferred by the Khedive to the Treasury, the revenue of which is administered by a commission of three, one appointed by England, another by France and the third by Mr. Rivers Wilson, the Egyptian Minister of Finance. The American public have an interest in the success of this and kindred loans so far as they represent an investment of surplus capital which might otherwise have been made available in developing American enterprises.

The enormous export of American farm produce to England is causing a general depression in the value of land in that country. Mr. Caird, the great agricultural authority there states that the produce of wheat in England has steadily declined during the last ten years. On the other hand farm labor has become much dearer and a decline in rents is the inevitable effect of the combined causes. The annual rental by the last Income Tax return is $385,000,000, an apparent increase of ten million dollars in the last ten years, but an actual decrease when compared with the diminished purchasing power of the precious metals. The adaptation of our steam machinery to the more economical use of fuel has become a most important factor in diminishing the cost of transportation of grain and other food and has intensified the competition between the American and the English farmer in the market which would seem naturally to belong to the latter.

Boston and Providence Railroad.

The annual meeting of the stockholders of the Boston and Providence Railroad Company was held in Boston on the 20th inst., at which the annual report of the directors was presented showing that the balance carried to profit and loss account amounted to $293,358 88.

The report of the Auditing Committee was submitted by William G. Russell, Esq., and the same committee, consisting of William G. Russell, Wilson Smith and John A. Hawes, was appointed for the ensuing year.

The President commented upon various items in the report of the directors. The expenses have been constantly decreased as far as practicable. The transportation of coal has been 17,000 tons less than the quantity carried in 1877, and a similar falling off in this item of business has been reported by other railroads.

In the coming year a great saving will be made in the bridge account, and the estimate made in the annual report for the maintenance of way will hold good for the next six or eight years.

An election of seven directors was held and resulted in the unanimous choice of the following gentlemen, the Board of last year: Henry A. Whitney, Thomas P. I. Goddard, J. Huntington Wolcott, William R. Robeson, Francis M. Weld, Joseph W. Balch, Royal C. Taft. The meeting was then dissolved.

At a subsequent meeting of the directors Henry A. Whitney, Esq., was re-elected President; B. B Torrey, Treasurer; and A. A. Folsom, Superintendent.

☞ The Continental (Paris) Gazette says that Mr. Quintard, a representative of the Philadelphia and Reading Railroad Co. at the Paris Exposition, has been very successful in developing a European market for American anthracite coal. Italy and Switzerland promise to be the largest customers, large orders having been given by both countries.

☞ Track laying has commenced on the Cincinnati and Eastern (narrow gauge) branch south of New Richmond, Ohio, on the Ohio river.

RAILROAD EARNINGS—MONTHLY.

	January.	February.	March.	April.	May.	June.	July.	August.	September.	October.	November.	December.	Total.

Mining.

The output of the mines of Queensland Australia for last year was—by the Colonial Report recently issued—873,266 ounces of gold, which at an average price of $17 per ounce represents $6,345,522. The average yield of the ore was two ounces per ton or $34; the mining population was 17,903, including over 13,000 Chinese. The average per man was $354 78.

The Southern Nevada Mining Company as we learn from its agent in New York Mr. H. C. Bean, will soon withdraw from the market the shares it is now offering, as all the assistance it required to develop its remarkably rich ledges has been secured on favorable terms. Our information is to the effect that a better property is not possessed by any existing company. Six thousand lineal feet of ledge, of ore yielding an average of $400 per ton such as this company possesses has not yet been paralleled.

The gold deposits of the Southern States are beginning to attract an active attention to which they have long been strangers. During and since the Civil war they have been entirely ignored, and while all the appliances of capital and science have been brought to develop the mines of the Far West those so much nearer to us have remained in absolute obscurity so far as their intrinsic value is concerned. Their day, however, is now near at hand to judge by the indications of renewed activity we note, both in bringing their merits before the Eastern public and also in the actual work of development.

Amongst the Virginia group of mines we learn that the Randolph and the Stringfellow are pushing their works vigorously. Mr. Lawrence, the Superintendent of the former, returned this week from the property and reports a highly favorable development in the vein which the Newman shaft penetrates, the metallic percentage which was excellent before being largely increased at the depth of 60 feet which had been reached.

This Newman shaft strikes the same vein on which Shaft No. 6 of the Stringfellow mine is located and the managers of that company reasonably expect to find a similar improvement in their average when they get down below their present surface level.

Mr. A. S. Morrow, a resident of Buckingham County, Virginia, now visiting this city, favored a representative of the JOURNAL with an interesting description of the general character of mines and mining in that district. As Mr. Morrow has a large extent of auriferous land which he is working on his own account without having any intention of selling it, his testimony is valuable. The general grade of ore in that portion of the State, says Mr. Morrow, averages about $16 to the ton and exceptionally higher. The cost of extracting and milling is about $4 per ton or less. A great deal of mining is being done quietly by men who work their ledges as they would their farms, without any of the appliances that make mining fully profitable. They dig shafts till they reach water and then, rather than buy a pump, begin on another hole. Instead of mills they use the Mexican plan of an arastro. Mr. Morrow believes that when enterprise and capital ever get a foothold there the developments will astonish those who are now accustomed to regard the West as the only valuable mining region in the States.

The mining interests of Arizona are well represented in this city by the Isabella Mill and Mining Company. The last advices received from the property by Mr. Holbrook, the Vice President, report very favorable progress. The "Happy Jack" shaft is now 32 feet deep and the latest assay from that level gave an average of $2,000 per ton. This rate cannot of course be expected to be maintained but the whole ledge is unquestionably of a very high quality ore. Wood and water are abundant and as there is no chemical combination between the rock and the gold requiring an expensive amalgamating process to extract it, the cost of extraction is reduced to a minimum.

We are compelled to defer our notice of the gold mines of the Carolinas until next issue.

☞ The St. Elmo Hotel, Nos. 317 and 319 Arch St., Philadelphia, Pa., has been recently refitted and refurnished throughout, and is complete in all its appointments. The rooms are large and airy, and the Table D'Hote replete with the delicacies of the season. The gentlemanly proprietor, Col. Joseph M. Ferger, is always on the alert to provide for the comfort and ease of his guests. The St. Elmo is located in the immediate vicinity of the business centres and places of amusement, and accessible to all the Railroad Depots and other parts of the city by street cars constantly passing it doors. The rates have been reduced to $2 per day. We take pleasure in recommending Col. Ferger's Hotel to our friends and the traveling public as possessing all the essential requirements of a first-class house.

☞ The Burlington and Missouri River Railroad Company in Nebraska has declared an extra dividend of $2 25 per share out of the net income of the unpledged third of the lands, payable Dec. 16 to shareholders of record Dec. 7.

☞ A new railroad between Indianapolis and Chicago is projected, to strike the Indiana State line at Dyer, and run through Newton, Benton and Clinton counties. It will nearly follow the course of the Kankakee line.

☞ A certificate of incorporation has been filed with the Secretary of State of Ohio of the Winslow Safety Car Stove company, Cleveland, capital stock, $125,000, in shares of $100 each, by A. D. Winslow and others.

☞ There is a project on foot to construct a branch railroad from Mansfield, Pa., to McKee's Rocks, to connect with the Pittsburg and Lake Erie Railroad, at the mouth of Chartiers creek.

☞ The Columbus and Marysville (narrow gauge) Railroad Co. are laying track on the portion of the road between Hillsboro and Sardinia, a distance of about fifteen miles.

☞ Work has been commenced on the Stillwater Valley (Ohio) Railroad. It will, when completed, open up a large and rich country heretofore inaccessible to the people of Dayton.

American Railroad Journal.

Saturday, November 30, 1878.

Financial and Commercial Affairs.

Wet weather throughout the whole of last week prevented outdoor business and cast a gloom upon indoor trade. This week, a holiday (Thanksgiving) in the middle of the week, is equally unfavorable to business. Visions of roast turkey and good cheer are for the moment more attractive to the bulls and bears of the Stock Exchange than "puts" and "calls." Then, after the Thanksgiving dinner has been eaten, there is little disposition for immediate business; so this week like its predecessor will scarcely be reckoned a profitable one in a financial view. A singular feature of the Money market was a disposition to operate in gold for delivery during each month of 1879. The effect of this movement was to send gold up ⅛ and make a dull stock market. The last named result was doubtless what was desired; for it is easy to see that speculation in gold, present and future, neither has nor can have any substantial basis. With its vaults full to overflowing with coin the Treasury could make gold at par to-morrow if it wished.

On Monday of the present week the Sub-Treasury of this city began its currency settlements with the banks through the Clearing House. The settlement in this way will be a decided convenience to all parties concerned. Gold clearings, however, will not be made in this manner. After the 1st January there will be but one kind of account to settle, and it was not considered worth while to make a change for this short time.

The trunk railroad lines have done an extraor-

dinary business in grain and other freights Eastward. At a meeting of general freight agents held in Chicago on the 24th inst. it was agreed to fix fourth class freights from Chicago to New York at 40 cents per 100 pounds; to Baltimore, 37; to Philadelphia, 38; to Boston, 45; grain rates five cents per 100 pounds less than the above. This winter freight tariff is a considerable advance on summer rates.

Foreign Monetary advices are again more favorable; and while occasional failures are still occuring to disturb English trade circles, the general tone of business is more confident and hopeful. On Thursday, the 21st inst., the Bank of England reduced its rate from 6 per cent to 5. In open market money in London is worth only 4¼ to 4½ per cent. The Bank continuing to gain in coin balances now doubtless feels prepared to meet the demands soon to be made upon it for gold for American account. A sale of £250,000 silver was made by Germany for export to British India.

Among the new enterprises reported in home business circles is a new steamship line from New York to China. The first steamer of this line, the "City of Santiago," will sail on the 20th December. It is claimed by those connected with the enterprise that freights can be carried at 25 per cent less than rail and steamer rates, but requiring 12 days more time. For heavy freights not requiring quick dispatch this line may offer good facilities.

The "Fidelity Association of New York" is the corporate title of a new company about to commence business in this city. The capital of this company, as announced, is $200,000 in shares of $100 each. The business of the company will consist in issuing bonds on the fidelity of persons in positions of trust and responsibility. In Great Britain companies of this kind have been in operation for many years. There is a good field in this city for the establishment of such a business; and from the names of the incorporators there is no doubt of the stock being readily taken.

Boston advices indicate a quiet Money market. Loans have fallen off leaving abundance of idle capital; yet there is small disposition to cut the rates for money. Prime commercial paper is done at 4@4½ per cent, with light offerings. Some choice factory acceptances are done as low as 3½ per cent, but the banks as a rule demand more. Call loans to Bankers range from 3 to 3½ @4 per cent. At the Clearing House there are few borrowors at the only rate named 1 per cent. Exports from Boston for the last week amounted to $1,135,788 against $1,165,484 for the same week last year.

Philadelphia reports show a steady Money market with slight change in amount of business done or in rates. As a rule, the banks manage to keep their funds employed; and the rates are fair. Call loans are done at 3@4 per cent. Prime commercial paper passes at 4½@5 per cent for short dates. For four months and longer date paper 5@5½ per cent is asked. Loans are made on Government securities at 3½@4; on miscellaneous securities at 6 per cent. Pennsylvania Railroad shares are quoted at 32¾ bid and 33 asked. Reading Railroad 13@13½.

Baltimore Money reports show a larger business done in bank clearances; but it is said this increase must be very generally distributed since it is not apparent in any particular branch of business. Money continues abundant. The rate is scarcely discussed whilst the character of the security offered is closely scrutenized. Loans may be quoted at 4@5 per cent. Discounts are made at 4½@6 per cent. There is an active demand for good investment securities and prices are not only firm but generally higher. Baltimore and Ohio Railroad, common stock, is now quoted at 87½, an advance. Limited quantities of both stock and scrip sold at the same price. Northern Central unchanged. Very few leading securities offering.

Business on the Stock Exchange opened on Monday with more activity. There was a plain disposition to cover short interests, the known amount of which was large. In concert with this bear movement was the speculation in gold already mentioned. Sales on Saturday were 110,500 shares; on Monday, 211,000; on Tuesday, 000.

Money continues very easy. Call loans are made at 2@3 per cent on Government bonds, and on stock collaterals 3@3½ with occasional loans at 4 per cent. Prime commercial paper is discounted at 4@5½ per cent. Only small offerings of strictly prime paper.

Gold may now be quoted at 100¼. Silver in London is higher at 50¾d. per ounce. This rate would make our standard dollar worth about 85½ cents.

Government bonds continue active and firm. Subscriptions to the 4 per cent loan on Monday amounted to $1,080,000. The Secretary of the Treasury estimates the issue of this loan by the 1st January next at $175,000,000. The whole amount authorized to be issued is $1,000,000,000, all of which he hopes to succeed in placing. In his coming annual report to Congress he will recommend the issue of a $10 bond bearing 3 65 per cent interest. This is the preliminary movement for a general system of savings, either through the Post offices or some similar uniform plan, for the benefit of the poorer classes. We now quote all issues of bonds as follows:

United States 6s, 1881, registered, 109¼@109¼; do. coupon, 109@109¼; 5-20s, 1865, new, registered, 103⅝@103¾; do. coupon, 103⅝@103⅞; do. 1867, registered, 106¼@106¼; do. coupon, 106@106¼; do. 1868, registered, 109@109⅛; do. coupon, 109¼@109¼; ten-forties, registered, 107⅛@107⅜; do. coupon, 107⅜@107¾; 5 per cents, 1881, registered, 106¼@106¼; do. coupon, 106@106¼; 4½ per cents, 1891, registered, 104@104¼; do. coupon, 105⅛@105¼; 4 per cents, 1907, reg., 100¼@100⅜; do. coupon, 100¼@100⅜; sixes, currency, 121½.

Foreign exchange is dull. A slight advance during the week was lost again and we quote as at our last report. 4 81½ for 60 day bills and 4 85½@4 86 for sight drafts.

Domestic Produce has been fairly active. In wheat a considerable speculative feeling has been exhibited and prices of both wheat and flour have been irregular. Indian corn was dull and depressed. Other cereals quiet and steady.

Cotton is not quotably lower than at our last report, but the market is dull and depressed both here and in Liverpool. Quotations for middling uplands remain at 9⅜ cents. Spot cotton is quiet. Futures are lower 6 to 8 points than at last week's report. Receipts at the ports since September 1, 1,597,213 bales, against 1,396,337 bales last year.

Ocean freights have shown but slight changes. Business was moderate. Engagements to Liverpool, by steam, grain, were at 7¾d. per 60lbs. To London, by steam, grain, 7¾d.; by sail, grain, 6s. 3d. per quarter. To Bremen, by sail, grain, 7½d.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

London and Port Stanley Railway.

It is stated in the Report of the Great Western Railway Company of Canada that during the half-year the sum of £1,246 7s. 10d. was expended on this line, a reduction of £1,047 18s. 8d., giving a profit from the working of the line of £981 8s. 7d. In respect to the "Lease Account" of the railway, Mr. Hobson, the Chief Engineer, remarks:

"The whole amount charged to this account has been expended in the renewal of three large bridges; one of these over Zavitz's mill pond, is a wooden structure, the other two are iron bridges, one of which over the Thames River, near London, is completed, and the other, over Kettle Creek, near Port Stanley, will be before the beginning of the winter. The renewal of the large bridges on this line will then be finished."

Pittsburg, Cincinnati and St. Louis Railway.

The following is an approximate statement of results in the operations of the Pittsburg, Cincinnati and St. Louis Railway Company for the ten months ending October 31, 1878:

Gross earnings (including interest received on equipment hired), January 1 to November 1, 1878		$2,616,035
Expenses (including interest on car trust cars and rent of Monongahela extension) for same period		1,680,828
Net earnings		$935,711
The interest on the bonds for these ten months is:		
$3,000,000 Steubenville and Indiana Railroad 6 per cent.	$150,000	
$775,000 Steubenville and Indiana Railroad 7 per cent.	45,208	
$6,222,000 Pittsburg, Cincinnati and St. Louis Railway 7 per cent	362,950	
		558,158
Surplus		$377,553

Pennsylvania Railroad.

The following statement of the business of all lines of the Pennsylvania Railroad Company east of Pittsburg and Erie, for October, 1878, as compared with the same month in 1877, shows

An increase in gross earnings of	$5,381
A decrease in expenses of	48,893
An increase in net earnings of	$54,274

The ten months of 1878, as compared with same period of 1877, show

An increase in gross earnings of	$819,041
A decrease in expenses of	603,525
An increase in net earnings of	$1,422,566

All lines west of Pittsburg and Erie for the ten months of 1878 show a deficiency in meeting all liabilities of $82,939, being a gain over the same period in 1877 of $213,358.

Houston and Texas Central Railroad.

The following is a comparative statement of earnings and expenses of the Houston and Texas Central Railway for the months of October, 1877 and 1878:

	1877.	1878.
Earnings	$361,649 74	$426,882 58
Exp's (including taxes)	149,665 05	146,792 48
Net	$211,984 69	$280,040 10
Increase in gross earnings (18 per ct.)		$65,182 79
Decrease in expenses (2 per cent)		2,872 62
Increase in net earnings (32 per cent)		$68,055 41

☞ The Waynesboro' (Pa.) Gazette says the grading of the Baltimore and Cumberland Valley Railroad is now being pushed forward with an earnestness which bespeaks its early completion to Waynesboro' from its junction with the Western Maryland Railroad. Five large gangs of men are at work on the Maryland end of the line, and Walton & Lee, contractors on the Pennsylvania side, were largely reinforced a few days since.

☞ Navigation on all the Canals of the State of New York will be closed on the 7th of December.

Canada Southern Railway.

The stock of the Canada Southern Railway has been placed on the regular call of the Stock Exchange. The following is an abstract of the report of the Committee on Stock List:

LIABILITIES.		
Capital stock		$15,000,000
New 1st Mortgage bonds actually issued	$10,862,686	
Do. held for exchange under refunding scheme, viz:		
For $537,500 C. S. firsts at par	537,000	
For $354,465 C. S. seconds at 31½	111,657	
		11,511,843
Unpaid vouchers	307,498	
Unpaid wages (October, 1878)	80,679	
		388,177
Sundry accounts payable provided for by new first mortgage bonds		624,088
Income account		394,905
Total		$27,919,013
ASSETS.		
Construction		$22,839,453
Capital stock Canada Southern Bridge Co	$225,000	
Capital stock Toledo, Canada Southern and Detroit Railway Co	858,000	
Capital stock Erie and Niagara Railway Co	100,000	
Capital stock Michigan Midland and Canada R. R. Co	204,125	
		1,387,125
First mortgage bonds Canada Southern Bridge Co.	$940,000	
First mortgage Toledo, Canada Southern and Detroit Railway Co.	1,451,256	
First mortgage Erie and Niagara Railway Co	600,000	
First mortgage Michigan Midland and Canada R. R. Co.	189,495	
First mortgage Chicago and Canada Southern Railway Company	35,000	
		3,215,751
Capital stock New York Central Sleeping Car Company		25,000
Materials on hand		287 150
Cash		164,584
Total		$27,919,018

Memorandum showing application of the new first mortgage bonds:

Total issue		$14,000,000
Applied to the refunding scheme, as above set forth	$11,511,844	
Held for purchase of bonds of the Canada Southern Bridge Company, Toledo, Canada Southern and Detroit Railway Company, and Michigan Midland and Canada Railroad Company	145,662	
		11,657,506
Remaining to provide for the above item of accounts payable ($624,087 43) and for the general purposes of the company		$2 342,494

☞ The Pennsylvania Railroad Company are considering the project of building a branch railroad from Warren to Ravenna, Ohio, to connect the Ashtabula, Youngstown and Pittsburg, and Cleveland and Pittsburg Railroads, thus securing a short and direct line from the Mahoning Valley and Pittsburg to Cleveland.

Philadelphia and Reading Railroad.

Comparative statement of gross receipts, tonnage and passengers, of the Philadelphia and Reading Railroad Company, for the month of October:

	1878. Month.	1878. Year to date.
Gross receipts:		
Railroad traffic	$1,205 872 97	$10,182,762 16
Canal traffic	149,472 63	790,407 40
Steam colliers	40,171 77	487,201 40
Richmond coal barges	13,686 73	92,728 19
Total Railroad Co.	$1,408,674 10	$11,553,099 15
Reading Coal & Iron Company	910,521 12	7,062,996 18
Total of all	$2,319,195 22	$18,616,095 28
Tonnage and passengers:		
Tons of coal on railroad	695,332 10	5,105,332 07
Tons of merchandise	298,818 18	2 898,806 10
Passengers carried	571,250	5,906,221
Coal transported by steam colliers	41,436 00	526,157 00
Tons of coal mined:		
By coal and Iron Co	299,068 02	2,349,017 07
By tenants	133,297 06	956,128 05
Total mined from lands owned and controlled by Co. & from leasehold estates	432,565 08	3,305,143 12

	1877. Month.	1877. Year to date.
Gross receipts:		
Railroad traffic	$1,830,857 05	$11,208,252 36
Canal traffic	127,106 33	893,080 02
Steam colliers	54,745 97	586,374 15
Richmond coal barges	15,064 93	117,884 35
Total Railroad Co.	$1,527,774 28	$12,805,540 88
Reading Coal and Iron Co.	1,129,021 90	9,052,645 95
Total of all	$2,656,796 18	$21,858,186 83
Tonnage and passengers:		
Tons of coal on railroad	802,939 16	6,589,837 11
Tons of merchandise	305,875 16	2,904,779 19
Passengers carried	612,263	6,185,254
Coal transported by steam colliers	59,650 00	542,597 10
Tons of coal mined:		
By Coal and Iron Co.	441,902 05	3,422,281 03
By tenants	165,220 01	1,255,167 16
Total mined from lands owned and controlled by Co. and from leasehold estates	607,122 06	4,677,448 19

The mines of the company worked but 21 days this month as against 27 days in October of last year.

Manufacture of Cast Steel.

The Johnstown Tribune says that the statement that the manufacture of cast steel in Pittsburgh was first attempted in 1840 by Messrs. Shoenberger & Co., is a mistake, and adds:

As early as 1829 an Englishman named Broadmeadow and his son made blister steel there, and about 1831 they melted cast steel of low grade in pots of their own manufacture. The establishment was located in Bayardstown, near the old Fifth avenue market house. Josiah Ankrim & Son, filemakers, at Pittsburgh, are said to have succeeded in making their own steel in 1830. In 1831 Messrs. Whitmore & Havens successfully produced blister steel at Pittsburgh. In this year there were in the country fourteen steel furnaces for the manufacture of low grade steel—two in Pittsburgh, one in Baltimore, three in Philadelphia, three in New York, one in York, Pa., one in Troy, two in New Jersey, and one in Boston. It was in the year 1841 that the firm of G. & J. H. Shoenberger attempted the manufacture of crucible cast steel, but they only added another to the list of failures.

The Electric Light in Mines.

The London Mining Journal says that, aside from its other advantages, the success of the electric light would solve a most important problem affecting the lives of many persons now working in the mines. "There appears to be no reason," says the Journal, "why electricity should not be made applicable for mining instead of lamps, and this would effect what our mining engineers and foremost chemists have long been looking for. It would give the men such a light as they have never dreamed of, enabling them to get a much larger quantity of coal in a given time than it is possible for them to bring down by the light of the lamp, which barely suffices to make the blackness of the working places visible. It would also benefit both masters and men, and greater safety would be insured, for explosions would be all but impossible, whilst the miners would be better able to guard against falls of roof and coal."

☞ The Luzerne (Penn.) Union says that engineers have been at work several days on the proposed route for a new railroad from the Wyoming coal fields near Pittston, to intersect the Honesdale branch of the Erie railway at Hawley. This new road, if ever completed, will shorten the distance about eighty miles for shipping this coal to the New York market, and moreover may, before long, perfect a through route to the great West, three or four hours shorter than that by the Erie or New York Central. Should this new road be made it will increase largely the coal freight over the Delaware and Eastern divisions of the Erie, and at the same time bids fair to divert through freight and travel from the Erie to the Lehigh Valley road, north and west of Pittston.

☞ A circular issued from the Treasury Department states that the transfer books for the new 5s, 4½ and 4 per cents, will be closed for one month before each interest payment is due. The circular further states that if bonds forwarded for transfer are not received prior to closing the transfer books interest checks will be drawn in favor of the party in whose name the bonds stood at the closing, and the assignee must look to the assignor for the accrued interest for that quarter.

☞ The Osceola Revielle says that the best opening in that region for a new coal road, is along the upper Moshannon. A narrow gauge railroad from the head of Moshannon creek to Osceola, would furnish more freight than any other branch on the Tyrone and Clearfield road. Something of that kind is needed to develop the agricultural and mineral wealth of that much neglected territory.

☞ The total number of immigrants arriving at the port of New York from January 1 to November 1 of this year was 66,648, against 48,122 for same period of 1877.

☞ The Car Trust of Pennsylvania announces a dividend of 1½ per cent, payable on series C and D stock December 2.

The Coal Trade.

The total tonnage of anthracite coal from all the regions for the week ending November 16th as reported by the several carrying companies, amounted to 510,401 tons, against 525,997 tons in corresponding week last year, a decrease of 15,596 tons. The total amount of anthracite mined for the year is 14,682,909 tons, against 17,565,663 tons for same period last year, a decrease of 2,882,754 tons. The quantity of bituminous coal sent to market for the week amounted to 89,451 tons, against 89,243 tons in corresponding week last year, an increase of 208 tons. The total amount of bituminous mined for the year is 3,021 764 tons, against 3,186,293 tons for corresponding period last year, a decrease of 104,529 tons. The total tonnage of all kinds of coal for the week is 599,852 tons, against 615,240 tons in corresponding week last year, a decrease of 15,388 tons, and the total tonnage for the coal year is 17,704,673 tons, against 20,751.956 tons to same date last year, a decrease of 3,047,283 tons. The product of the mines of the Cumberland coal region for the week ending November 16 was 48,063 tons, and for the year to that date 1,489 519 tons, an increase of 93,645 tons as compared with the corresponding period of last year. The shipments to the Baltimore and Ohio Railroad were, for the week, 23,116 tons; for the year, 783,306 tons, an increase of 89,432 tons as compared with 1877. The shipments to the Chesapeake and Ohio Canal were, for the week, 20,646 tons; for the year, 572,885 tons, an increase of 15,301 tons as compared with 1877. The shipments to the Pennsylvania Railroad were, for the week, 4,301 tons; for the year, 133,328 tons, a decrease of 11,088 tons as compared with 1877. The quantity of coal and coke carried over the Pennsylvania Railroad for the second week of November was 119,937 tons, of which 96,091 tons were coal, and 23,846 tons coke. The total carried for the year is 4,231,882 tons, of which 3,259,945 tons were coal and 974,-317 tons coke. These figures embrace all the coal carried over the road, east and west. The Reading Railroad reports a tonnage for the week ending November 23 of 190,000 tons, of which 76,000 tons were sent to Port Richmond. The shipments thence during the week amounted to 59,000 tons. The receipts of coal at Perth Amboy during the week ending November 23 were 21,871 tons, the shipments 22,173 tons, and the amount on hand at that date 52,991 tons. At the same date last year the amount on hand was 94,852 tons.—*Phila. Ledger, Nov.* 25.

Highland Railway.

At the annual meeting of the Highland Street Railway Company, held in Boston on the 19th inst., the annual report of the President was presented, from which it appears that the company carried during the past year 5,940,999 passengers, an increase of 1,035,332 over last year. The number of horses owned by the company is 569, an increase of 55; number of cars, 97, an increase of 12. The company has charged to depreciation of horses $5000. The track in Shawmut avenue has been relaid with steel rails at an expense of $4,637 50. The Shawmut avenue cars have been repainted and supplied with new wheels and centre lamps at an expense of $6,214 90, which items form an extraordinary expenditure of $15,747 42, which will not occur again for at least five years. The snow expense occasioned by the great storm of Jan. 31 last amounted to $2,721 48, besides the loss on receipts.

New tracks have been laid in Eliot and Dudley streets with steel rails and new patent switches over the entire route. The track on Shawmut avenue between Waltham and Dover streets has been laid to a new grade and paved with granite blocks. A new brick car house has been erected on Northampton street to accommodate 18 cars. A line of coaches has been established between Grove Hall and Mt. Hope Cemetery, which has proved a success. The general equipment of the road has been largely increased by the addition of new harnesses, snow plows, levelers, sleds, wagons and coaches.

The old Board of Directors was re-elected, as follows: Donald Kennedy, Jacob Pfaff, S. S. Rowe, Charles J. Hayden, J. H. Chadwick, Henry Pfaff, Samuel Little, Moody Merrill. At a subsequent meeting of the directors Moody Merrill was re elected President; Samuel Little, Treasurer; John L. Swift, Clerk; J. E. Rugg, Superintendent, and Thomas W. Clarke, Counsel.

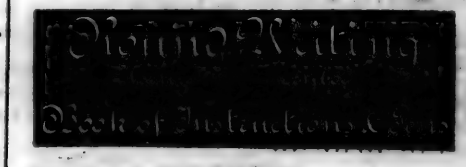
Potomac and Ohio Railroad.

The projectors of the Potomac and Ohio Railroad are actively engaged in putting their projected enterprise on a level footing. The proposed line will be of the narrow gauge pattern, and will run from Quantico, situated on the Potomac river, thirty-three miles below Washington, to Charleston, the capital of West Virginia. At Quantico the line will connect with a branch of the Pennsylvania railroad. The road when completed will be 325 miles in length. Several counties through which it is to pass have already made liberal grants of land and money, and the work of construction is to be commenced within a week.

☞ The bill of the Boston, Hoosac Tunnel and Western Railroad Company, which passed both branches of the Vermont Legislature on the 23d inst., authorizes the company to use the rights of way of the Troy and Boston Railroad for their cuts, slopes and embankments, confirms their location as they are now building their road, and authorizes them to take the depot grounds at Pownal, and to come within seven feet of the rails at the State line of Massachusetts and Vermont. This bill disposes of the suit of the Troy and Boston Railroad in the United States Court for an injunction, and the company have now all the legislation they require in Vermont.

☞ The Boston Journal says that a company is to be organized under the charter of the Aroostook Railroad company to build a branch railroad to Houlton from the European and North American Railway at Bancroft, and the opinion is expressed that it will be built within the coming year. The contemplated branch road will pass through Amity and Hodgdon, making the length of line about 30 miles. The Maine Central and Eastern Railroad Companies will aid in the enterprise. A contractor has already offered to build and grade the road ready for the rails for the sum of $300,000.

☞ The third rail on the Western Pennsylvania Railroad for the Pittsburg, New Castle and Lake Erie Narrow Gauge Railroad has been laid from Etna to a point known as "Willow Grove." It is expected that trains on the new road will enter the city of Pittsburg within a week.



☞ The income to the State of Massachusetts from the Hoosac tunnel this year will be about $160,000, or the interest on about one-fifth of the cost.

☞ The gross earnings of the Philadelphia and Erie Railroad Company for the month of October, 1878, were $352,695 03, the gross expenses $207,060 49, and the net earnings $145,634 54.

New York, Saturday, December 7, 1878.

The Progress of Trade.

There are many things for which we ought as a nation, and also as individuals, to be thankful. Unprecedented crops and great agricultural prosperity have brought us up, not without severe trials, to a sound, solvent, financial condition. This alone deserves a day of national Thanksgiving. And, while our government wisely ignores petty creeds and religious distinctions, there is a peculiar fitness and propriety in the whole nation joining in thanks to a common Creator for common benefits and blessings. This is the true spirit of national unity and of patriotism.

Agricultural prosperity is the basis upon which trade and manufactures must rest. That basis being now a substantial one the future cannot but be hopeful. There has been a recent check to trade movement caused by failures and financial disturbances in England. The worst seems to have past, confidence is being restored, the momentary alarm of the Bank of England has subsided, and its high rate for money has been lowered from 6 per cent to 5. Still there is and will be depression in English manufacturing interests, which must to some extent react upon our trade and our markets. In consequence of this depression we may look for low, even lower, prices for some things because failures and commercial distrust inevitably lead to sacrifices, "slaughtering" of merchandise.

The low price of cotton has aided materially in fixing a low price for domestic wool. It is said, indeed, that our wools will now compete with Australian fleeces in the English market. An English buyer is reported in the New York market with orders to buy for export to London.

During thirty years past the prices of mess pork and lard have never been so low as now. And there is reason to fear there is "no bottom" to the market. The surplus hog product for the year ending October 31, is 60,000,000 pounds greater than the year before. On the 1st November, 1877, Chicago carried over from the summer packing season 13,000 barrels of pork and New York 24,000 barrels. This year, at the date named, Chicago carried over 72,000 barrels and New York 50,000 barrels. Again, an exhibit of the increase in the hog product gives for the first week of the packing season in Chicago commencing Nov. 1, in 1876, 94,000 barrels; in 1877, 110,870 barrels; in 1878, 200,753 barrels. For the packing year of 1877, according to the Cincinnati *Prices Current*, the number of hogs packed in the West was 7,645,000; for 1878, 9,905,000—an increase of 2,260,000 hogs. Of this hog product was exported in 1877 750,000,000 pounds; exported in 1878, 980,000,000 pounds. With a corn crop of 1,300,000,000 bushels this year, and not less than 10,000,000 hogs for packing, nothing short of a European war will make a satisfactory market for our hog products.

This is not an encouraging outlook for one most important branch of production and its attendant trade interests. But there is a partial remedy in the fact that when the market price of hog products falls below the cost of production the farmer can at his pleasure carry over his corn crop to next year without much inconvenience. As for the hogs, their number can be increased or diminished in a single year almost indefinitely.

In other lines of trade there is a more encouraging outlook. In the dry goods trade it was feared that the heavy stocks of woolens would be slaughtered in order to realize; but at the sales by auction in this city good prices and a small profit were the rule.

Massachusetts reports a fair activity in the boot and shoe trade. The manufacturers turned out the greatest number of boots and shoes in September last ever made in one month. When it is remembered that to-day the manufacture of boots and shoes ranks second only in American industries it will be readily seen that the prospect is favorable.

In conclusion it remains only to say that, while the volume of trade is not large there is a promptness and satisfaction in current dealings not seen before in a long time. There is now in all the money centres a superfluity of capital seeking investment at lower rates than ever known before in the history of our finances. With resumption of specie payments established there is no reason to doubt that our trade, domestic and foreign, will continue to thrive and prosper.

A New Brazilian Railroad.

The financial troubles in England are not of so serious a character as to prevent the introduction and successful placing of foreign Government loans and Railroad enterprises when they promise her capitalists an annual interest somewhat higher than their domestic investments can afford. We regard this fact as a substantial contradiction to the pessimist reports that form the staple of our cable correspondence, and we congratulate our transatlantic neighbor that adverse trade balances have not deprived her of the power of opening fresh markets for the sale of the goods that we have ceased to take from her.

The most recent of the new projects inviting English capital is that of a railway from Pernambuco on the Atlantic coast of Brazil to fifty miles in the interior; making, with a short branch line, sixty miles in all. The Brazilian Government guarantees an annual seven per cent on a share capital of $2,722,000 and a contract company has been organized which undertakes to build and stock the line and pay all preliminary expenses for that amount. As this sum is equiv-

alent to more than $45,000 per mile, there can be but little doubt that the line can be rapidly built if the money is raised. As the state of the trade between this country and South America has been receiving a good deal of public attention here lately, it is interesting to know that the new line calculates on an export business of 90,000 bales of cotton and 300,000 bags of sugar in addition to other native products; with a return traffic of imported goods sufficient in all to pay a ten per cent dividend. It rests with the enterprise of our merchants to show how far American dry goods and hardware will help to supply the demand this undertaking will create. The country the new line will open up is populous and rich, and certainly not less accessible to American than to British enterprise.

Potomac and Ohio Railroad.

The Potomac and Ohio Railroad Co. was organized in Washington, D. C., last July, with Hon. John Lynch, of Maine, as president. The road was designed to run from Quantico, on the Potomac, to Charleston, W. Va., a distance of 225 miles, and is to be of three feet gauge. We now learn from the Philadelphia Ledger that at the La Pierre House in that city on the 22d ult. a contract was given to build 21 miles from Charleston, W. Va., eastward along the Elk river, to be completed in 180 days. The counties along the line have voted subscriptions in bonds, which are to be delivered as sections of ten miles are completed. Contractors are said to be on hand ready to take hold. This road will open a large and fertile country, rich in minerals of all kinds and some of the finest timber in the country. The line runs parallel with the Chesapeake and Ohio and the Baltimore and Ohio Railroads, and connects with the Baltimore and Potomac, the Shenandoah Valley, now under construction, and the Baltimore and Ohio and the Valley Railroads, at Harrisonburg, in the Shenandoah Valley. At Charleston it connects with the Chesapeake and Ohio, and with Blackwater, on the Kanawha. A branch road will be built toward Pittsburg, to connect with the Pittsburg Southern Railroad.

Detroit and Milwaukee Railroad.

From the final report of Charles C. Trowbridge, Receiver of the Detroit and Milwaukee Railroad Co., we learn that the receipts and expenses for the period from January 1, to November 10, 1878, (exclusive of Lake Michigan proportion) were:

Receipts from Jan. 1 to Oct. 18:		
From passengers		$310,810 10
" freight and live stock		488,451 95
" mails and sundries		29,895 30
" rents		2,923 34
		$831,580 69
Expenses from Jan. 1 to Sept. 30:		
Maintenance and renewal of way	$179,132 68	
Locomotive power and repairs	130,886 65	
Passenger and freight car repairs	60,803 40	
Passenger transit exp...	61,500 18	
Freight transit expenses	110,759 09	
General charges	19,682 03	
Taxes and insurance to Oct. 18	85,612 27	
	598,376 20	
Balance, net revenue		$233,204 49
Deduct interest on—		
Detroit and Pontiac Railroad bonds	$28,750 00	
Detroit River Front and Mechanical Shops bonds	6,926 66	
Short loans and receiver's certificates	9,811 87	
	45,488 53	
Balance		$187,715 96
Payments by the Receiver—		
For bills payable	$65,000 00	
For certificates of indebtedness issued	55,000 00	
For expenditures on new works	58,565 17	
	178,565 17	
Balance, absorbed in annexed statement		$9,150 79

In 1875 the rate of working expenses was 89.98 per cent; in 1876, 86.08; in 1877, 81.04; and in 1878, for the first nine months, 67.68. In one of the heaviest months of the present year it was less than 49 per cent. As the projected improvements are carried on, and the old rolling stock supplanted by new, the general rate will be further reduced—provided always that the gross revenue is not diminished.

The receipts for the period from April 10, 1875, to November 10, 1878, (being 43 months) were as follows:

From passengers		$1,311,597 59
" freight		1,958,447 65
" mails and sundries		131,498 70
" rents		21,631 88
		$3,423,175 82
Expenditures:		
Maintenance and renewal of way	$916,695 03	
Locomotive power and repairs	653,460 47	
Repairs and renewals of cars	328,236 20	
Passenger transit expenses	288,931 75	
Freight transit expenses	481,802 06	
General charges	91,131 66	
Taxes and insurance	151,424 07	
	2,911,741 24	
Balance		$511,434 58
Deduct matured interest on—		
Detroit & Pontiac Railroad bonds, accrued and matured subsequent to April 15, 1874	$120,187 51	
Detroit River Front property bonds	17,902 03	
Mechanical shops property bonds	15,208 88	
Interest on short loans and on Receiver's certificates	23,684 24	
	176,982 11	
Balance		$334,452 47
Expenditure for new work during the period from April 10, 1875, to October, 18, 1878		233,491 80
Balance to General Balance Sheet		$100,961 17

The total working expenses, as stated above, were $2,760,247 17, or 80.68 per cent; including taxes and insurance the rate was 85.06 per cent.

On the 1st of January, 1878, the liabilities of the Receiver were $658,844 11; and on the 18th of October, 1878, they were $559,610 49, all of which are duly accounted for in the annexed statement. The balance in Receiver's hands has been paid over to the purchasers of the line.

The Receiver's General Balance Sheet for the period from April 10, 1875, to November 10, 1878, being forty-three months, is as follows:

To balance brought from revenue account		$100,961 17
Stores and fuel on hand 15th April, 1875		159,559 83
Detroit and Pontiac R. R. Bond matured interest not called for		2,820 00
Unclaimed wages since the 15th April, 1875		1,555 64
Bills payable, issued for premium of insurance on through freight across Lake Michigan		600 00
S. Barker, Solicitor Great Western Railway of Canada, Hamilton, Ont.		33,099 71
Certificates of Indebtedness, issued by Receiver:		
To Cleveland Rolling Mill Co. for steel rails	$208,398 70	
For costs of foreclosure suit, by order of the Court	34,200 00	
	242,598 70	
State tax suspense account		7,556 42
Sundry accounts:		
For car mileage accounts, etc	$1,923 29	
Commissioners of Eastern Asylum for the Insane of Michigan, at Pontiac	4,719 23	
Great Western Railway Co., and other lines	4,216 50	
	10,859 02	
		$559,610 49
By General stores and fuel on hand 30th September, 1878		$35,339 80
Insurance premiums paid, chargeable to years 1878 and 1879		4,255 14
Balance of cost of steel rails laid, divisible over future years		205,074 72
Costs of foreclosure suit paid by order of the Court		60,958 84
Liabilities at 15th April, 1875, paid by the Receiver		217,690 55
Bills receivable		1,350 00
Balance in banker's hands, traffic balances, and sundry accounts due to the Receiver		34,941 44
		$599,610 49

This Balance Sheet shows the disposition of all the property coming into the Receiver's hands. The item $242,598 70 for certificates of indebtedness, was paid or assumed by the purchasers of the road, and the balance of money and traffic balances and sundry accounts were transferred to them so as to close the Receiver's accounts.

C. C. Trowbridge, Receiver.

Mining.

The Sierra Nevada Silver Mining Company has compromised with the Union Consolidated Company with regard to the former's claim for a portion of the Comstock lode now being worked by the latter. The suit commenced to test the validity of the Consolidated's patent, has been discontinued by mutual agreement.

An ingenious substitute for blasting powder is now extensively used in English mines. It consists simply of unslaked lime, either compressed into a cartridge or rammed in loose and well tamped, after being saturated with water. The expansive force exerted is prodigious and its work is effected without noise, smoke, flame or foul air.

Plumas Mine, Cal.—One of the officers of this company, Mr. Ivan Prowattain, returned this week from a visit to the works, and brings a most encouraging report of the progress and general

management of the mine. A lower tunnel (No. 2) slightly above the level of the mill is being run into the hill 300 feet below tunnel No. 1. It is now 500 feet in, and will soon intercept the ore body now being worked in tunnel No. 1. When completed there will be a clear 1,000 feet of backing of the fullest average grade ore. The new tunnel will expedite and simplify the delivery of the ore to the mill, saving the time and expense now incurred in hauling the rock from the mouth of tunnel No. 1. The mine is fully equipped for the coming winter, 1,500 cords of wood and 40,000 log are stacked ready for use and all necessary stores laid in for fifty employes. With 30 stamps crushing about 45 tons daily and new facilities, heavier specie shipments will soon be begun.

A large and handsome colored sketch of the company's works made by Mr. Prowattain may be seen at the office of the company's agents, Messrs. L. P. Bayne & Co., 54 Broad St.

Isabella Mill and Mining Co., Arizona.—We referred last week to the excellent property and prospects of this company. Since then we have learned from Mr. Holbrook, the President, that the first shipment of bullion from the mine is now on its way to this city and that a New Year's dividend will justify the faith they have had in the enterprise. One of the lodes now being worked (the Isabella) is 14 feet wide and runs $350 to the ton a thousand tons being on the dump ready for the mills.

This handsome mine promises to be one among the best of our New York companies as its dividends once begun give a reasonable certainty of being continuous, and the absence of the usual elements of speculation: namely, uncertainty and bad management, are evils from which it is happily exempt.

The Central Virginia Mining and Manufacturing Company comes before the New York public with some of the highest recommendations that a mining enterprise can possess. It covers an area of nearly three hundred acres through which 15,000 lineal feet of gold bearing veins run in parallel lines. These lodes have been developed by various shafts to a depth of from 80 to 167 feet and all the machinery necessary for raising ore, pumping, etc., is already on the ground and can with little expense be again used in working the mine.

This property shares a peculiarity that characterizes a large portion of the gold bearing districts of the South. Namely that it has been vigorously worked in former years and has given large returns even with the wasteful processes then in use; that a long term of political and social anarchy with a distruction of all records, has obliterated every written trace of what was gained and expended by the workers; and that the present owners have to begin at the beginning and ascertain by experiment and assay the facts that were practically known to their predecessors. The present company whose officers and trustees include some of the most responsible men in this city have satisfied themselves that a minimum milling average value of $20 per ton is a certainty for an output of indefinite amount, while a much higher return may be expected from many portions of the ledges. As the cost of extracting and working the ore is about $2 50 per ton or less, the margin for profit is sufficient to insure handsome dividends under reasonably good management.

The Findlay Gold Mining Company.—The fame of the Dahlonega Mines has already made the resources of Georgia as a gold producing State, familiar to the New York public; and they are not altogether unprepared to hear that there is enough gold ore on the surface of the 120 acres owned by the Findlay, to supply that company's mills with a million tons, worth ten dollars a ton at the lowest estimate.

In dealing with the low grade ores of the Southern States and in contrasting them with the wonderfully rich and refractory rocks of the Western mountains, the investing public should always bear in mind two points that completely counterbalance any apparent advantage the mines of the Sierras possess over those of the Atlantic States. These are the great accessibility and the remarkable economy of the latter as opposed to the terrific depths from which the riches of the Pacific mines have to be won, and the inordinate expense usually incurred in the operation.

Taking this Findlay property as an exemplar we find that the labor of thirteen men mined and milled seventy-five tons per day at a gross expense of twenty dollars, or less than thirty cents per ton. This was in July last when Mr. Randolph visited the property and we have his testimony for the authenticity of these figures. Put this beside the cost of extracting and working 75 tons from any of the Comstock mines, in many of which the pay rolls and expenses amount to fifty dollars per ton. This is the difference between mining a small vein of hard rock 2000 feet underground, and that of working on an incalculably large mass of pliable matter in an open cutting. A prudent man will invest in the latter even if he sees but two dollars a ton in it. At the least it is fifty per cent better than the best coal mine in Pennsylvania. We may excuse a mere speculator for preferring the Comstock mines. The fluctuations that he thrives on are impossible in Southern mining shares.

For this reason mines of the Findlay stamp—and we include with it the Central Virginia as also the Randolph and the Stringfellow properties—are certain to find more favor with the investing public, than those of the bonanza class; provided always, that the officers and managers be men of unquestioned integrity and responsibility.

We have pleasure in saying that in all the mines we have referred to above, this element of success exists in a high degree. With the head quarters of the companies in this city and the directors citizens in good standing and repute, investors have a guarantee at the outset that their confidence will not be abused. When this is more widely known we have no doubt that investments in mining enterprises will again resume that legitimate character in this city which every reasonable business undertaking is entitled to. The best feature in the revival of mining industry as connected with New York is the character of the men who are engaging in it.

Stringfellow and Randolph Mines Va. It is probable that the owners of these two handsome properties will consolidate their interests. Both of them are free from debt or incumbrance, and in the hands of parties who are able to meet every possible expense necessary to work them to their highest capacity. A steam engine of 150 horse power is now on the ground, and the present 20 stamp mill is to be increased, to 100 stamps. When this machinery is at work a new era in the mining industry of the gold regions of the Southern States will be inaugurated. These two mines are but samples of a large class. Their success, will attract southwards a large portion of the capital and enterprise which the West has hitherto monopolized. We have had several enquires as to the value of the shares. Our information is that they are not in the market the owners not knowing any other investment in which they can more profitably embark their capital.

The Cascade Mining Company.—The following gentlemen were elected Trustees for this company at its annual meeting on Tuesday last at 62 Broadway: Messrs. J. M. Leavitt, J. Warren Brown, L. Lincoln, J. Q. Pribie, Q. A. Atwood, N. A. Boynton, H. H. Duncklin. The new Board organized with the following officers: President, J. M. Leavitt, V. Pres. J. Warren Brown, Treas. N. A. Boynton, Sec. Q. A. Atwood.

Patent Mineral Wool.

The Mineral Wool Factory at Mr. Parrott's blast furnace in Orange Co., N. Y., is now worked double turn, and will have to be enlarged to meet the increasing demand. Within the past month orders have been received for covering with Mineral Wool all heating and steam apparatus in the new Capitol at Albany, also for repairs in the U. S. Assay Office and Sub Treasury, N. Y., for protecting cold water pipes on the Piers of the Pennsylvania Railroad Company in this city, for several large ice-houses in hotels, breweries and packing houses, and for lining roofs and walls of private residences.

Mr. A. D. Elbers, 26½ Broadway, N. Y., to whom all orders and inquiries for Mineral Wool should be addressed, is fully convinced from present results, that walls of *hard wood* finish, lined with Mineral Wool, will soon take the place of lath and plaster and soft brick filling in the construction of stylish and comfortable country houses. As to having the roofs of dwellings properly protected against heat and cold the result is said to be such, that from being first considered a *comfort* as regards the temperature in a house, it grows to be an imperative necessity—when once used to it.

☞ We notice that Mr. Wm. Mac Donnell, recently of the firm of Mac Donnell & Altimus, has been appointed district land agent "For certain counties in Pennsylvania and New Jersey," by the St. Louis and San Francisco Railroad Company. We congratulate the company in securing the services of so active and efficient an Agent as Mr. Mac Donnell, whose energy and integrity are of a high order.

☞ In order that no inferior Cement may be used in the work at the Mississippi Jetties Dept. J. B. Eads has purchased one of Richle Bros. improved Cement Testing Machines with new style clamps for which a patent is being applied for.

Foreign Finance, etc.

The commerce of the Fiji Islands has doubled since its annexation to the British crown in 1874. The total value of imports and exports last year was $1,380,000.

The Roumanian government is about to negotiate a loan for the purpose of purchasing the shares of its National Railways, now at sixty per cent discount. The Bonds will run 33 years, bear six per cent interest and be secured by the Railways themselves and by the tobacco monopoly of $1,800,000 annually.

The French army estimate provides for 469,310 men and 110,799 horses, exclusive of the *Gendarmerie*, and for an expenditure of $109,800,000.

For the first ten months of this year the exports of the United Kingdom amounted to $788,204,520 and the imports to $1,034,495,000. These figures compared with those of previous returns give no indication that trade depression has yet reached its worst. A high Bank rate for October brought an addition of nearly $18,000,000 in bullion to the Bank.

For every 10,000 inhabitants there are yearly in Germany 406 births and 292 deaths; in France 267 births and 231 deaths and in Great Britain 346 births and 220 deaths. It thus appears that the vitality is lowest where the reproductiveness is highest. The converse holds true with all other European nations excepting France.

Recent statistics for British India give a total population of 289,996,479. The trade with Afghanistan last year amounted to nearly $8,000,000. The silver money coined there in 1877 exceeded $30,000,000.

The average revenue of Bosnia is about $3,000,000 of which $900,000 in excess of the expenses of administration, have hitherto gone to Constantinople.

The recently issued statistics of New Zealand estimate the white population at 417,622, an increase of 18,547 for the year last past. The coasting trade of the colony engaged 1,754,158 tons of shipping. 812 deep sea vessels entered the colonial ports, of 388,568 tons. Of these, America contributed 43 vessels of 57,450 tons. The value of goods imported was $34,000,000.

The Budget of the Austro Hungarian Empire for the coming year provides for an expenditure of 240 million florins or $100,000,000. The recent adjustment of the taxes and customs duties leaves a present deficit of about two million dollars, but an equilibrium is expected to be attained two years hence. The extraordinary expenses of the Bosnian occupation will reach about $60,000,000 for which a loan will be raised, of which Hungary's proportion is thirty per cent. The general condition of the population indicates a gradual advance in prosperity.

Within the last fifty years Egypt has by successive annexations increased its population from three millions to seventeen millions, and its area from 850,000 to 2,270,000 square kilometres.

The Swiss Budget for the coming year contemplates an expenditure of $8,200,000, of which military expenses will absorb $210,000.

Finances of the United States.

EXTRACT FROM THE ANNUAL REPORT OF THE SECRETARY OF THE TREASURY.

The ordinary revenues, from all sources, for the fiscal year ending June 30, 1878, were:

From customs	$130,170,680 20
From internal revenue	110,581,624 74
From sales of public lands	1,079,743 87
From tax on circulation and deposits of national banks	6,863,052 96
From repayment of interest by Pacific railroad companies	1,366,954 36
From customs' fees, fines, penalties, &c	1,046,864 36
From fees—consular, letters-patent and lands	2,056,515 13
From proceeds of sales of Government property	249,469 88
From premium on sales of coin	317,102 80
From profits on coinage, &c	1,690,762 33
From miscellaneous sources	2,341,109 07
Total ordinary receipts	$257,763,878 70

The ordinary expenditures for the same period were:

For civil expenses	$16,551,328 16
For foreign intercourse	1,229,216 78
For Indians	4,629 280 28
For pensions	27,137,019 08
For the military establishment, including river and harbor improvements and arsenals	32,154 147 85
For the naval establishment, including vessels, machinery, & improvements at navy yards	17,365,301 37
For miscellaneous expenditures, including public buildings, light houses, and collecting the revenue	35,397,163 63
For interest on the public debt	102,500,874 65
Total ordinary expenditures	$236 964,826 80
Leaving a surplus revenue of	$20,799,551 90

Which was applied as follows:

To the redemption of United States notes, &c	$13,119,825 33
To the redemption of fractional currency	3,855,368 57
To the redemption of 6 per cent bonds for the sinking fund	73,950 00
To increase of cash balance in the Treasury	3,750,408 00
Total	$20,799,551 90

The amount due sinking fund for the year was $35,429,001 80, leaving a deficiency on this account of $14,629,449 90.

Compared with the previous fiscal year, the receipts for 1878 have decreased $11,984,796 09, in the following items: In customs revenue, $785,812 87; in internal revenue, $8,048,783 09; in semi-annual tax on banks, $215,498; in sales of Government property, $84,485 08; in profits on coinage, $1,582,476 75; and in miscellaneous items, $1,267,740 30. There was an increase of $748,088 17, as follows: In proceeds of sales of public lands, $103,489 69; in premium on sales of coin, $67,521 52; and in miscellaneous items, $577,076 96—making a net decrease, in the receipts from all sources for the year, of $11,236,707 92.

The decrease of revenue is principally due to the falling off in the receipts from internal revenue, which was probably caused by the agitation in Congress, for a long time, of the reduction of the tax on spirits and tobacco.

The expenditures show an increase of $7,781,729 08, as follows: In the Navy Department, $2,405,366 01, and in the interest on the public debt, $5,376,363 07, the latter of which was due to the large balance of $7,426,619 81 unpaid interest at the commencement of the year, and to the change from semi-annual to quarterly payments of interest on 6 per cent bonds converted into 4 per cents which would not otherwise have been made until after the close of the year. There was a decrease of $9,477,411 21, as follows; In the War Department, $4,928,588 05; in the Interior Department, $1,474,460 18, and in the civil and miscellaneous, $3,074,363 03—making a net decrease in the expenditures of $1,695,682 13.

For the present fiscal year the revenue, actual and estimated, will be as follows:

Receipts.	For the quarter ending September 30, 1878. Actual.	For remaining three-quarters of the year Estimated.
From customs	$38,868,268 10	$94,131,781 90
From internal revenue	28,572,144 46	86,427,855 54
From sales of public lands	260,765 63	789,234 37
From tax on circulation and deposits of national banks	3,868,519 03	3,381,480 97
From repayments of interest by Pacific Railway Companies	397,737 10	952,262 90
From customs' fees, fines, penalties, etc	244,833 93	705,166 07
From fees—consular, letters-patent, & lands	508,890 76	1,491,109 24
From proceeds of sales of Government property	41,127 51	208,872 49
From premium on sales of coin	5,441 23	44,558 77
From profits on coinage, etc	71,968 31	1,728,031 69
From miscellaneous sources	1,060,027 37	1,239,972 63
Total receipts	$78,399,723 43	$191,100,276 57

The expenditures for the same period, actual and estimated, will be:

For civil and miscellaneous expenses, including public buildings, light-houses, and collecting the revenue	$15,044,519 62	$39,955,480 38
For Indians	1,750,517 25	3,049,482 75
For pensions	7,802,465 63	21,497,534 37
For military establishment, including fortifications, river and harbor improvements and arsenals	10,258,900 87	28,741,099 13
For naval establishment, including vessels and machinery and improvements at navy yards	4,520,742 84	10,479,257 16
For interest on the public debt	38,967,427 06	63,032,572 94
Total ordinary expenditures	$78,344,573 27	$166,755,426 73
Total receipts, actual and estimated		$264,500 000
Total expenditures, actual and estimated		240,100,000
Leaving a balance of		$24,400,000

applicable to the sinking fund, which is estimated for the year at $36,954,607 87.

The revenues of the fiscal year ending June 30, 1880, estimated upon existing laws will be:

From customs	$188,000,000 00
From internal revenue	115,000,000 00
From sales of public lands	1,000,000 00
From tax on circulation and deposits of national banks	6,750,000 00
From repayment of interest by Pacific Railway Companies	1,400,000 00
From customs' fees, fines, penalties, etc.	1,100,000 00
From fees—consular, letters patent, and lands	2,000,000 00
From proceeds of sales of Government property	250,000 00
From profits on coinage, etc.	1,600,000 00
From miscellaneous sources	2,400,000 00
Total ordinary receipts	$264,500,000 00

The estimate of expenditures for the same period, received from the several executive departments, are as follows:

Legislative	$2,983,109 28
Executive	13,146,092 63
Judicial	391,400 00
Foreign intercourse	1,178,635 00
Military establishment	29,385,727 38
Naval establishment	14,187,381 45
Indian affairs	4,983,244 20
Pensions	29,616,000 00
Public works:	
Treasury Department	4,247,546 65
War Department	7,601,781 80
Navy Department	375,000 00
Interior Department	422,717 94
Department of Justice	18,000 00
Department of Agriculture	6,500 00
Postal service	5,907,876 10
Miscellaneous	14,846,800 80
Permanent annual appropriations:	
Interest on the public debt	95,000,000 00
Sinking fund	38,802,388 26
Refunding — customs, internal revenue, lands, etc.	4,675 900 00
Collecting revenue from customs	5,800,000 00
Miscellaneous	1,661,200 00
Total estimated expenditures, including sinking fund	$275,187,250 94
Or an estimated deficit of	$10,687,250 94

Excluding the sinking fund, the estimated expenditures will be $286,334,912 68, showing a surplus of $28,165,087 32.

By direction of the President the estimated expenditures for the next fiscal year have been based upon the appropriations made by Congress for the present fiscal year. The rule has been departed from only as to those branches of the public service belonging to departments the heads of which deem the estimated increase indispensable, or where existing law demands a greater sum than was appropriated. Such increase is estimated for as follows:

Legislative	$115,198 11
Treasury Department	319,680 18
War Department	740,848 14
Navy Department	20,949 75
Interior Department	1,462,787 70
Post-Office Department	1,685,701 38
Department of Justice	321,340 00
	$4,666,505 21
Less decrease in estimates for Department of State	111,841 35
Net increase	$4,554,663 86

☞ The directors of the Washington County, Md., Railroad Company, elected on the 20th ult. are: Galloway Cheston, David Fowler, Peter B. Small, Wm. Keyser, Jacob A. Miller, W. S. Kennedy and E. W. Mealy. The board of directors after their election deferred the election of officers to an adjourned meeting to be held on the 11th of December.

Central Pacific Railroad.

CHIEF ENGINEER'S REPORT.

CHIEF ENGINEER'S OFFICE,
San Francisco, July 1st, 1878.

Hon. Leland Stanford, President:

SIR: The following report in brief of matters pertaining to and work done under the supervision of this department, in 1877, is respectfully submitted.

The work done during the year has been chiefly that incidental to the necessary repairs of bridges, buildings, snow sheds, and track.

No extension of main line or branches has been made. Sidings have been extended, as shown in the subjoined statement of length of tracks.

Of the new buildings erected, the greater number are of minor importance, such as section houses, tool houses, &c., a detailed enumeration of which is deemed unnecessary.

New depots were erected at Decoto, Acampo, and Wells.

New coal houses, roofed with galvanized corrugated iron, have been built at the following stations:

At Sacramento, 60 by 300 feet; at Winnemucca, 60 by 216 feet; at Carlin, 60 by 216 feet; at Gridley, 22 by 112 feet; at Red Bluff, 22 by 112 feet; and coal platforms have been built at Stockton, Wadsworth, and Terrace. Additions have been made to buildings at Lathrop, Sacramento, New Castle, Carlin, Terrace, and Ogden.

The large depots at San Francisco, and the wheel foundry, at Sacramento, have been roofed with galvanized corrugated iron; and, in accordance with instructions from the board of directors, all important buildings hereafter erected are to be roofed with the same, or other fire proof material.

A new truss bridge, consisting of four span of sixty-four feet each, has been built across the Coyote Creek, on the San Jose Branch.

All repairs of bridges have been carefully and thoroughly made, and several of the larger ones covered with corrugated iron; and a similar protection to all important structures of this kind is recommended.

If properly protected there is no reason why a good wooden bridge may not last twenty years, or longer, while, if unprotected six to eight years is perhaps as long as most kinds of timber can be safely depended upon.

Ten iron turn tables were purchased in 1877, six of which have been erected, viz:

At Oakland, Rocklin, Truckee, Wadsworth, Carlin, and Terrace. The others will be put in place this year.

The Oakland ferry buildings, erected by your company, at the foot of Market Street, San Francisco, in 1874, have been moved and re-arranged to conform to the new slips built by the State Harbor Commissioners, in 1877.

One hundred and twenty-three and six-tenths (123.6) miles of track were relaid with steel rail, and five hundred and forty-three thousand, two hundred and forty-six (543,246) new ties used in repairs of track, during the year.

Length of track laid with steel rail December 31, 1877, two hundred and ninety and fifty-five hundredths (290.55 miles.

Eleven miles of pipe for water supply were laid in 1877.

The track force has been considerably reduced, without impairing its efficiency; and with the yearly changes in the track, from iron to steel, and other permanent improvements which may be made from time to time, a still further reduction of the force will be practicable.

Ten thousand tons of steel rail have been ordered for repairs for the current year, which will be placed in the track as fast as it arrives.

The losses of snow sheds by fires in 1877 were 4,821 feet, all of which has been rebuilt.

The work referred to in last report as needed at the crossing of Bear River, on the Oregon Division, has not yet been done, but should not be delayed longer.

The following table shows length of main line and branches operated December 31, 1877:

MAIN LINE.

	Miles.
San Francisco to Ogden	883.23

BRANCHES.

	Miles.	
Oregon Division—		
Roseville to Redding	151.45	
Visalia Division—		
Lathrop to Goshen	146.30	
Oakland and Alameda Branches—		
Oakland Wharf to Brooklyn	5.67	
Oakland Point to Masticks	8.80	
Alameda Wharf to Melrose	5.19	
Fruitvale Connection	0 70	
Extended in 1877	0.18	
	0.88	
San Jose Branch—		
Niles to San Jose	17.54	
		330.83
Total		1,214.06
Length of sidings, Dec. 31, 1876	164.57	
Sidings constructed in 1877	11.99	
Sidings removed in 1877	5.15	
Increase in sidings	6.84	
Total sidings, Dec. 31, 1877		171.41
Total length of all tracks, Dec. 31, 1877		1,385.47

S. S. MONTAGUE,
Chief Engineer.

Causeless Mining Scares.

The recent mining scare at San Francisco when the ore of the 2200 level of the Comstock gave out in the Sierra Nevada workings, denotes how susceptible the pulse of the mining share speculator is to passing events which the miner himself when in possession of the property he is working, philosophically accepts as one of the inevitable contingencies of his trade. Checks and faults in veins of every character are of very ordinary occurrence, and the holders of mining stocks may take it for granted that there is a vast amount of searching for clues underground of which they never hear anything, when the mine superintendent minds his own business and is not also a gambler in his company's shares.

In this case of the Sierra mine when the report was spread that the vein had "pinched out," an immediate demoralization of all the Comstock shares took place, nominal worth declining some millions in a few hours. It happened, as might have been taken for granted, that the superintendent of the mine knew his business better than the speculators knew theirs. There was clear geologic evidence to show in what direction the break had occurred. Superintendent Bonnemort, like all other men who are experts at their business, read this as readily as the speculators read their stock price lists. He caused a cross cut to be run in the direction indicated by the cleavage and again intercepted the great ore vein at the point where its continuity had been broken. Then the mines' shares went up again, but in the interim a large number had changed hands at prices which made millionaires of some men and beggars of others. The obvious moral of this is: put your money in good dividend paying mines and then stick to your shares through good or evil report.

☞ The Bloomington and Fairfax Railroad, to run from Bloomington, Garrett county, Md., to Fairfax's Store, up the North Branch, has been incorporated. The incorporators are Lloyd Lowndes, A. P. Gorman, Patrick Hamill, M. Bannon, W. T. Jameson and John Humbird. The road, when built, will be a feeder to the canal, and will develop a rich coal tract of Maryland. Its estimated cost is $14,000 per mile. The length of the contemplated road will be about 60 miles.

☞ The directors of the Baltimore and Ohio Railroad Company elected on the 18th ult. are: Galloway Cheston, Francis Burns, John Spear Nicholas, John Gregg, William W. Taylor, Samuel Kirby, John King, Jr., G. A. Von Lingen, Decatur H. Miller, Joshua G. Harvey, William Donnell and Henry C. Smith.

Statement of the Public Debt of the United States, November 1, 1878.

Debt, less amount in Treasury, on the 1st ult.	2,024,200,083 18	
Increase of debt during the past month	$3,214,242 61	
Decrease of debt since June 30, 1878	8,372,506 03	

BONDS ISSUED TO THE PACIFIC RAILROAD COMPANIES, INTEREST PAYABLE IN LAWFUL MONEY.

	Amount Outstanding.	Accrued Interest not paid.
Central Pacific bonds, 1862-64	$25,885,120 00	$517,123 00
Kansas Pacific bonds, 1862-64	6,303,000 00	157,575 00
Union Pacific bonds, 1862-64	27,236,512 00	680,912 80
Central Branch Union Pacific bonds, 1862-64	1,600,000 00	40,000 00
Western Pacific bonds, 1862-4	1,970,560 00	49,264 00
Sioux City and Pacific bonds, 1862-64	1,628,320 00	40,708 00
Totals	$64,623,512 00	$1,615,587 80

Interest paid by United States, $39,835,039 84; interest repaid by transportation of mails, &c., $10,445,916 73; balance of interest paid by United States, $29,389,123 13.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, November 30, 1878.

JOHN SHERMAN,
Secretary of the Treasury.

* This amount includes $20,000,000 Five-twenty called Bonds not yet matured, against which a like amount of 4 per cent Bonds have been issued and are embraced in this statement, and the amount included in the coin balance.

NOTE.—The increase of the debt during the month is due to the payment of $5,500,000 Halifax Award; otherwise the ordinary decrease would have been $2,285,757 39.

☞ The Yankton and Milwaukee Railroad Company has been organised to build a road to the eastern boundary of Dakota Territory, to connect with the Chicago and Milwaukee Railway, and to be contracted and constructed as far West as Algona, Iowa. They have elected Gov. Howard, Newton Edmunds, Ex-Gov. Pennington, Dr. Burleigh, George H. Hand, Gen. Beadle, Major H. D. Winn and Jacob Max directors. The capital stock of the company will be $1,000,000.

☞ H. K. French has been re-elected President of the Monadnock Railroad Co. The income of the company for the year was $11,876 53. The total corporation debt is $87,500.

☞ Ex-Attorney General Connor has been appointed receiver of the Greenville and Columbia Railroad.

☞ Work has been commenced at Utahville, Clearfield county, Penn., for the extension of the Bell's Gap railroad to that place.

American Railroad Journal.

Saturday, December 7, 1872.

Financial and Commercial Affairs.

Foreign financial advices have been generally of a favorable tenor; while reports as to American produce in the leading European markets have been less encouraging to the export interest.

In the home markets, a fair degree of activity has been reported, considering the interruptions growing out of the stormy weather, and the observance of Thanksgiving Day. Speculative manipulations of grain and provisions, especially of Wheat, have tended to impede and disturb regular trade, whether for shipment or home use.

A favorable interpretation has been giving to the financial views of the President and Secretary of the Treasury, as expressed in the documents communicated to the reassembled Congress, particularly as to the bearing on the question of resumption, which is now regarded as practically assured.

All the prominent Money markets of the country reported a decided abundance of capital, available to responsible borrowers at very low figures.

Ease has been the prevailing feature in Money, the available supply having been in excess of the current requirements of borrowers, who have not been in urgent need of aid, especially outside of speculative circles. The last City Bank Statement was deemed favorable. The City Bank exhibit of last week indicated an increase in the loan and discount average of $1,520,700, and an increase in the item of circulation of $45,100. The average of deposits was reduced $387,600.

The legal tender reserve was augmented $687,500; and the specie average cut down $447,000. The City bank net reserve of specie and legal tender notes now shows an excess over the legal requirement of reserve to liabilities of $12,513,800, against $12,206,400 the preceding week. The City bank exchanges in currency reached $368,238,660, or a daily average of $73,649,732. Call loans closed here at 2½@3½ per cent; and best discounts at 4@5 per cent per annum.

The outstanding amount of legal tender notes is $346,743,071. The National bank circulation is now $322,017,086 of currency notes and $1,468,820 of national gold bank notes. National Bank notes received at the Treasury Department last week for redemption were to the amount of $2,162,000.

The Public Debt Statement of Dec. 1, shows an increase in the aggregate of the obligations of $3,214,248 during November, which increase is due to the disbursement of $5,500,000 on account of the Halifax award, otherwise the ordinary reduction would have been about $2,286,000.

The U. S. Sub Treasury receipts in November were $67,207,830, including $6,991,919 from Customs; disbursements, $65,366,141, including $4,779,479 of coin interest.

Government Securities have been fairly active, almost wholly on investment account, and generally at stronger though somewhat variable prices, influenced in part by the fluctuations in Gold, closing on Wednesday as a rule firmly. The favorites were the 6 and 5 per cents of 1881, and 4½ per cents. At the close on Wednesday the current quotations were as follows:

United States 6s, 1881, registered, 106⅛@106¼; do. coupon, 109@109⅛; 5-20s, 1865, new, registered, 100⅛@100¾; do. coupon, 103½@103¾; do. 1867, registered, 103@103⅛; do. coupon, 105¾@106; do. 1868, registered, 106¼@—; do. coupon, 109⅛@—; ten-forties, registered, 107⅛@107¾; do. coupon, 107⅛@107¾; 5 per cents, 1881, registered, 106¼@106⅜; do. coupon, 106⅛@106⅜; 4½ per cents, 1891, registered, 104@104¼; do. coupon, 104@104¼; 4 per cents, 1907, reg., 99⅜@99½; do. coupon, 100¼@100½; sixes, currency, 119½.

The amount of U. S. bonds held by the Treasurer of the United States as security for the National Bank circulation is $348,606,700, and $13,883,400 as security for public deposits.

A fair inquiry has been noted for State Bonds which have been quoted generally steady as to values. Railway Mortgages have been more sought after, chiefly for investment account, and the favorite loans have shown much more firmness, and considerable buoyancy as to values. And in the line of Railway and Miscellaneous share property business has been quite active, but the speculation has been more or less fitful, and toward the close, quite bearish in temper, due in good part to the reports and rumors as to the renewed railway competition for passenger and freight traffic, leading, as alleged, to depression and great irregularity as to rates; and of threatening disagreements in the Coal combination. The general market wound up rather dull.

Gold has been more or less vigorously manipulated, leading in the earlier dealings to a rise in the price, which, however, was not maintained, the latest figures having been indicative of general weakness. The demand from other than speculative sources has been very moderate. The extremes during the week have been 100⅛@100¾, closing on Wednesday at 100⅛@100¼ as against 100¼@100⅜ on Wednesday of the preceding week. The specie outflow last week was only $190,408—making the total exports of specie hence since January 1, $11,723,902 against $24,521,678 the same time in the preceding year. The imports of specie at this port last week were to the amount of $71,283, and since January 1st have been $18,663,674 as against $14,288,725 same time in the preceding year. The Customs demand for gold in the local market last week reached an average of about $320,000 per day.

In the line of Foreign Exchange, a moderate movement has been reported, with rates, showing weakness, but no very important alteration. Bankers' sixty day bills on London closed on Wednesday at $4 81@$4 81½; sight bills on London at $4 86@$4 86⅛ to the £ sterling. Cable transfers, 4 86@4 87. The week's imports of Dry Goods and general merchandise were to the specie value of $5,748,683 as against $5,432,058 the corresponding week of 1877. The week's import entries of Foreign Merchandise at New York included $959,854 of Dry Goods, and $4,788,829 of General Merchandise. The week's exports of Domestic Produce and Miscellaneous Goods from this port were to the aggregate value of $7,195,710 against $6,869,561 same week in 1877; and since Jan. 1 have been $321,861,894 against $270,595,747 same time last year.

In the way of Metals, the important feature of the week's business has been the activity in Rails; of which sales have been reported to the extent of 5,000 tons Iron on p. t.; and of Steel, to the amount of 12,000 tons for New York, 42,000 tons for the Penna. R. R. and 6,000 for the Chicago, Burlington and Quincy R. R. on the basis of about $43, delivered at tide water. Tin has been in good request. Most other kinds of Metals have been very moderately sought after, yet values have been essentially unchanged. Eglinton Pig Iron quoted at $22 50@$22 75; Glengarnock, $22 50; Coltness, $23 50@$24; No. 1 American Pig at $16 50@$17 50; No. 2 do. at $15 50@$16 50. Forge, $15@$15 50. New Iron Rails at works, $33@$36. Old Rails, $18 50@$19. Wrought Scrap, $20@$21. Steel Rails on the basis of $43@$44. Ingot Copper, $15¾@$16. Domestic Pig Lead, 4 cts.

A fair degree of activity has been reported in the leading kinds of Domestic Produce, but prices have been more or less unsettled. Export dealings have been to a respectable aggregate, chiefly in Breadstuffs and Provisions. Breadstuffs closed generally somewhat steadier, Provisions weaker. Cotton has been in comparatively moderate demand, as well in the way of options, as for prompt delivery, and prices fell off slightly. Low Middlings closed for prompt delivery at 9 13-16@9 1-16; Middlings at 9 13-16@9 7-16; Fair at 11⅛@11¾. Options left off at 9.17 for December, and 9.28 for January; at 9.34 for February; 9.46 for March; 9.61 for April; 9.71 for May; 9.80 for June; 9.91 for July and 9.92 for August, on the basis of Middling quality. Naval Stores and Petroleum have been in generally limited request, through prices favored buyers. Foreign merchandise has been quite moderately sought after, and values, in several instances, have been quoted a trifle weaker.

Business in Ocean freights has been fairly active, but rates have been quoted generally weaker closing heavily. Accommodation for Grain and Provisions in most request. For Liverpool steamer rates at the close for Grain quoted at 7¼@7¾ per bushel. Flour, at 3s.@3s. 6d. Provisions, 32s. 6d.@47s. 6d.; Leather, 55s. Measurement Goods at 20s.@25s. per ton; Cotton, ⅛d. per lb. Tobacco at 35s. Liverpool, by sail: Cotton, 7 32d. Grain at 5s. 3d. per quarter; Flour, 2s.; Measurement Goods, 12s. 6d.@15s. Tobacco 30s.; Oil Cake at 20s. Grain rates on charter hence for Cork and orders left off at 5s. 9d.; for the Continent Grain at 5s. 3d.@6s. 3d, as to ports of discharge. Tonnage for Refined Petroleum at 4s. 3d. to Cork, for orders, at 3s. 3d.@3s. 6d. to the Continent, and 4s. 6d.@5s. to the Baltic.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

Redemption of Five-Twenty Bonds.

The Secretary of the Treasury issued on the 27th ult., the seventy-third call for the redemption of 5-20 bonds of 1865—consols of 1865. The call is for $5,000,000, of which $2,000,000 are coupon and $3,000,000 registered bonds. The principal and interest will be paid at the Treasury on and after Feb. 27, 1879, and the interest will cease on that day. The following are the descriptions of the bonds:

Coupon bonds, dated July 1, 1865, namely: $100, Nos. 142,001 to 146,000, both inclusive; $500, Nos. 102,001 to 104,000, both inclusive; $1,000, Nos. 197,001 to 200,000, both inclusive.

Registered bonds, redeemable at the pleasure of the United States after the first day of July, 1870: as follows: $100, Nos. 19 223 to 19,260, both inclusive; $500, Nos. 11,280 to 11,320, both inclusive; $1,000, Nos. 39,001 to 39,300, both inclusive; $5,000, Nos. 12,351 to 12,700, both inclusive; $10,000, Nos. 24,121 to 25,350, both inclusive.

☞ The directors of the Union Ferry Co., elected on the 19th ult., are: Henry E. Pierrepont, Nathan B. Morse, Charles E. Bill, Abraham B. Baylis, Abiel A. Low, Horace B. Claflin, James S. T. Stranahan, Simeon B. Chittenden, James How, Walter N. Degrauw, Bryan H. Smith, Ripley Ropes, Peter C. Cornell, Samuel McLean, Joseph A. Perry. The officers are: President, Nathan B. Morse; First Vice President, Henry E. Pierrepont; Second Vice President, C. E. Bill; Managing Directors, Joseph A. Perry and Walter N. Degrauw; Treasurer and Secretary, Joseph A. Perry; Cashier, Walter N. Degrauw; Chief Engineer, James McFarlan.

☞ The earnings of the Connecticut Central Railroad for the year ending September 30, 1878 were $84,031 against $84,918 in 1877; and the expenses were $69,841 against $72,527. The net income was $14,190 against $12,890 in 1877. The new subscriptions to stock amount to $553, and bonds were sold to the amount of $40,000, making the total receipts for the year $132,132. Coupons were taken up to the amount of $80,882, the bills payable amount to $23,289, and the amount of cash on hand is $8,283.

☞ The first train passed over the Manchester and Keene Railroad, between Keene and Greenfield, on the 2d instant. The city of Keene had voted a gratuity of $128,000 on condition that the road would be completed by the first of December.

☞ The Bridgeton and Port Norris Railroad, extending from Bridgeton to Port Norris, N. J., 22¼ miles was sold at master's sale on the 30th ult. to satisfy claims amounting to $590,235 47. The road was knocked down at $10,000, to Thomas H. Dudley, Esq., Solicitor for the bondholders.

☞ The track of the main stem of the Shenandoah Valley railroad is to be laid through Shepherdstown to the Potomac river this fall, in order to afford an immediate connection with the Chesapeake and Ohio canal at that place.

☞ The project of building the Miramichi Valley Railway is again being revived, in view of the fact that the railway subsidy will soon expire.

Bureau of Railroad Accounts.

EXTRACT FROM THE REPORT OF THE SECRETARY OF THE INTERIOR.

The act of Congress approved June 19, 1878, established a Bureau of Railroad Accounts in this department for the purpose of having all matters relating to indebted Pacific Railroad companies, and certain land grant railroad companies taken cognizance of, examined, investigated, and reported upon. The following abstract of the operations of this bureau since its organization on July 1, 1878, is presented:

The Auditor of Railroad Accounts in making his first annual report states the immediate causes which led to the establishment of the bureau, and gives a review of legislation in regard to reports and investigations of subsidized railroads had and proposed since the incorporation of the Union Pacific Railroad Co. in 1862. The government directors of the Union Pacific Railroad Co., in their report for the fiscal year ending June 30, 1877, strongly recommended the establishment of such a bureau in this department. In view of the condition of the affairs of all the Pacific Railroad companies, and the discussions relative to their indebtedness and operations, the recommendation of the government directors met with my full concurrence. The necessity that exists for some officer of the government, specially charged with such duty, to examine the books and accounts of these railroad companies, and to see that the provisions of the act approved May 7, 1878, for the establishment of a sinking fund in the national Treasury to provide for the payment of the indebtedness of the Union Pacific and Central Pacific Railroad Companies to the United States, are properly complied with, is fully confirmed by his report. Other reasons, however, demanded that it be made the duty of some officer of the government to familiarize himself with the affairs of these railroad companies, and to verify the correctness of their reports by personal examination of their books and records. The act of Congress approved June 22, 1874, by which the Secretary of the Treasury is directed to make demand upon the Pacific Railroad companies for the payment of 5 per cent of their net earnings due and unapplied, made it a necessity that the amount thereof should be properly ascertained. Under the same act the Attorney-General has instituted suits against the Union Pacific Railroad Co. and others, which are still undecided; the one, however, against the Union Pacific Railroad Co., involving an amount of nearly $2,500,000, has reached the Supreme Court of the United States—the lower courts having given judgment in favor of the government, both as to date of completion of the railroad and as to the amount claimed on account of 5 per cent of net earnings, and as soon as determined further settlements with all of these companies must be made and become the duty of some officer of the government. In this and the other suits of the same kind, the bureau just organized has been and will be able to give its assistance to the Department of Justice. It has also been of some service in the suit of the Atchison, Topeka and Santa Fe Railroad Co. vs. The United States, in which questions have arisen involving not only the rights of the United States under the condition attached to the land grant, but also what constitutes "a fair deduction for the use of a railroad as a public highway by the United States free of toll or other charge," under the recent decision of the Supreme Court.

The gathering of facts and statistics bearing upon the establishment of sinking funds for the payment of the indebtedness of the Kansas Pacific, Sioux City and Pacific, and the Central Branch Union Pacific Companies, as well as the question of "pro-rate and continuous operation" of the Pacific Railroads, and future questions in regard to cost and other matters which are likely to arise, all of which require special and careful investigation, will be better accomplished, undoubtedly, if intrusted to this bureau, the necessity of which in such regard has been long felt.

The geographical limits named in the act include all subsidized railroads, in whole or in part, west, north, or south of the Missouri River. This construction of the act is objected to by the counsel of some of the land grant railroad companies.

The land granted by the general government to certain States for railroad purposes was in most cases granted with the condition that the road should be and remain a public highway for the use of the United States, free from toll or other charge for the transportation of any property or troops of the United States. This condition has been decided by the court of last resort to give to the United States only the free use of the roadway, not to include that of the equipment, rolling stock, etc.; and the court awarded compensation for transportation over these roads subject to a fair deduction for the free use of the roadway under the law. The value of this condition, therefore, under the decision of the court, becomes a question for special inquiry and determination, involving the cost of construction, equipment, and other matters relating to the earnings and operations of a railroad.

Some companies, again, have made answer that their books are not kept in such a way as to enable them to furnish the required information. As to this, it has been, and will be for the future, the desire of this department to cause, if possible, no additional expense or trouble to the companies, so long as the information furnished satisfies the requirements of law, and is sufficient to enable an intelligent opinion to be formed in regard to their condition and operation.

The Union Pacific Railroad Co. has rendered reports to the Auditor, under a reservation explained by a letter of the president of the company, a copy of which is given in the appendix to the Auditor's report. One thousand and thirty-eight and sixty-eight one-hundredths miles of this road were subsidized by an issue of bonds, in addition to the land grant, of which five miles are leased to the Central Pacific Railroad Co. and 1,033.68 miles operated by itself. The company owns 178 locomotives, 128 passenger cars, 41 baggage, mail, and express cars, and 3,357 freight and other cars. The stock subscribed amounts to $36,783,000; stock issued to $36,762,300. The par value of shares is $100. The subsidy bonds amount to $27,236,512; the funded debt to $51,116,200; total stock, subsidy bonds, and funded debt is $115,115,012. Floating debt and interest accrued on subsidy and other bonds to June 30, 1878, amount to $17,683,394 07; bonds and stocks of and investments in other companies amount to $4,916,229 77; cash, material, and accounts due amount to $10,195,160 15. The cost of road, equipment, and Missouri River bridge, as appears on the company's books, is $120,627,064 69. The earnings for the year ending June 30, 1878, were: From passengers, $3,259,223 42; from freight, $7,573,105 21; miscellaneous earnings, $1,951,812 59; total earnings, $12,784,141 22. The operating expenses of the road were $5,803,266 95, and the net earnings, $6,980,874 27. The interest paid is $3,402,891 58. The dividends paid amounted to $2,204,700. Ten million seven hundred and sixty-four thousand nine hundred and forty-seven acres of land granted to this company remain unsold.

The Auditor further states that, under the laws in force to June 30, 1878, there will be retained probably of the amount due the Union Pacific Railroad Company, $616,066 93, as one-half of the amount due for transportation, and $352,330 17 as 5 per cent of net earnings; total, $968,397 10, applicable on account of subsidy bonds; the remainder of government transportation account for the year payable to the company being $263,736 76; and the total government transportation being $1,232,133 86.

If the sinking fund act had been in force during the last fiscal year there would have been retained, $616,066 93, one-half of transportation, and $106,660 49, cash payment on account of 5 per cent of net earnings; total, $722,727 42, which, if deducted from the above amount of $968,397 10, leaves $245,669 68 as the amount to the disadvantage of the government under the new law, so far as a direct payment for the use of the United States is concerned, although $616,066 93 being required for the sinking fund, the total payment by the company becomes more than was required under previous laws by the sum of $370,397 25.

From the statement of the Auditor it also appears that under the sinking fund act the net earnings at the disposal of the company for the last fiscal year would have amounted to $4,016,383 04, and that this sum would have enabled the company to pay interest on all its bonds, land grant, sinking fund, and bridge bonds, and dividends on par value of its capital stock of very nearly 6 per cent.

The Central Pacific Railroad Company has not complied with the law requiring reports to be made to the Auditor, and certificates as to their neglect to do so have been submitted to me. A report of this company, under section 20 of the act of 1862, and under the act of June 25, 1868, which have been repealed, was, however, received by this department, and referred to the Auditor. From this report and other unofficial sources the following facts and figures are compiled: Miles subsidized, 860.66; miles operated, 2,074; number of locomotives, 227; passenger cars, 235; baggage, mail, and express cars, 49; freight and other cars, 4,913; stock subscribed, $62,608,800; par value of shares, $100; stock issued, $54 275,500; subsidy bonds, $27,855,680; funded debt, $55,045,000; floating debt, $11,534,206 07, not including accrued interest on the subsidy bonds amounting to $15,225,431 38; total debt, $109,660,317 45; total stock and debt, $153,935,817 45. Cost of road equipment and real estate, $147,000,000; cash, material, sinking fund accounts, $7,827,987 33. For the year ending June 30, 1878, passenger earnings were $5,367,663 20; freight earnings, $10,160,055 11; no data given or obtainable as to miscellaneous earnings; total earnings, as far as reported, $15,527,718 31; operating expenses, $9,988,386 67; net earnings, $5,539,324 64; interest paid (estimated), $3,700,000; dividends paid, $4,342,040; lands unsold, 11,300,000 acres. As there appeared a great discrepancy between the sworn statement of the president of the company as to net earnings given above, and one made up from the figures given in the printed report of the officers of the company to the stockholders, an explanation has been called for by the Auditor. Correspondence in regard to this discrepancy is given in the ap-

pendix to the Auditor's report. The facts that the floating debt of this company seems to be increasing over what it ought to be; that for the calendar year 1877 this increase amounted to $5,310,169 37, and that the directory nevertheless saw fit to pay out over $4,000,000 in dividends, while the annual interest charge had increased over $300,000, are reported by the Auditor.

(To be continued.)

Railroad Safety Signals, etc.

The inter-locking system of switches and signals at the Baltimore and Potomac railroad junction and Union depot passenger switches of the Northern Central railway went into effect on Sunday, and worked successfully and smoothly from the start. The whole system is operated from a signal tower immediately opposite the Union depot passenger switches, and the work is done by a single operator. He has before him the schedule for the running of all trains, and a telegraph instrument in the room tells him whether or not the train is on time. By day green and red arms on the signal posts, moved to suit the case, are used, and at night the white light, or clear track, green light, or cautionary signal, and red light, or danger signal, guide the movements of the trains. Mr. Alfred Walter, engineer of the railroad companies, last evening, between 5:30 and 6:30 o'clock, when the trains are going and coming every few minutes, was at considerable pains to explain the system, over the success of which he is enthusiastic. He handled the 20 powerful levers in the tower with ease and dexterity, and the trains were ordered to move on or to stop with mechanical accuracy that precludes the possibility of an accident. The system controls the tracks for a distance of three-quarters of a mile. Two lights are displayed on each signal post, one above the other, the top light to control Northern Central trains, and the lower one those of the Baltimore and Potomac and Western Maryland roads. If the upper light is white, or for a clear track, the lower will be red, or for danger, and it is not in the power of the operator to show a white light or clear tracks for both the roads at the same time. It requires several of the levers to do the locking and signaling for a train, and all the levers in a combination must be in place before the work is done, and then it must be undone by commencing at the first lever in the series. A person who never saw the operation could go into the tower and pull at the levers that would move, and yet would do no further harm except to have perhaps half a dozen trains brought to a stand by the wrong signal. After a signal is set it is not possible to have another one until the whole combination is unlocked and a new one is fixed. While Mr. Walter was talking two trains were due at Union depot almost simultaneously. The one by the Baltimore and Potomac had the right of way, and in an instant the levers were in motion and the signal posts all showed a top red and lower white light along the line, telling that the track was clear. When the train had passed the levers were again in motion, and in an incredibly short space of time a Northern Central train, which had been stopped at Mount Vernon station by the upper red signal of danger, came thundering by the tower. With methodical exactness the operator kept steadily at his levers, occasionally turning to look at a large clock on the wall or at his schedule. It was not necessary for him to even take a glance out into the darkness to know if his signals were all right, because he has to perform his task by rules carefully prepared. Every precaution is taken to prevent the machinery from becoming disarranged. The operator knows the moment one of his signal lights is blown out by the wind, and if one of the switches becomes clogged with snow or dirt the lever will not lock, and the signal cannot be set until the obstacle is removed. This interlocking system is an English invention, and is in use in England, where the railroad business required such safeguards, and in time the inventor was forthcoming. The one at the Union Depot was made in England, and the entire cost was $6,500. It is the largest but one in the United States, that in use at East Newark, on the New York Division of the Pennsylvania railroad, having more levers, but an English railroad has recently put up one with 280 levers. Besides dispensing with switch-tenders, accidents by collision are positively averted at places where a bewildering maze of tracks and crossings require constant watchfulness on the part of a number of switchmen.—*Balt. Sun, Nov.* 26.

The Coal Trade.

The total tonnage of anthracite coal from all the regions for the week ending November 23d, as reported by the several carrying companies, amounted to 517,627 tons, against 556 300 tons in corresponding week last year, a decrease of 38,673 tons. The total amount of anthracite mined for the year is 15,200 536 tons, against 18 121,221 tons for same period last year, a decrease of 2,920,685 tons. The quantity of bituminous coal sent to market for the week amounted to 84,579 tons, against 77,040 tons in corresponding week last year, an increase of 7,219 tons. The total amount of bituminous mined for the year is 3,078 908 tons, against 3,107,016 tons for corresponding period last year, a decrease of 28,108 tons. The total tonnage of all kinds of coal for the week is 601,886 tons, against 633,840 tons in corresponding week last year, a decrease of 81,454 tons, and the total tonnage for the coal year is 18,279,444 tons, against 21 228,237 tons to same date last year, a decrease of 2 948,793 tons. The product of the mines of the Cumberland coal region for the week ending November 23 was 43,622 tons, and for the year to that date 1 533 141 tons, an increase of 94,031 tons as compared with the corresponding period of last year. The shipments to the Baltimore and Ohio Railroad were, for the week, 21,886 tons; for the year, 805,191 tons, an increase of 98,526 tons as compared with 1877. The shipments to the Chesapeake and Ohio Canal were, for the week, 17,974 tons; for the year, 590,859 tons, an increase of 8,851 tons as compared with 1877. The shipments to the Pennsylvania Railroad were, for the week, 3,762 tons; for the year, 137,091 tons, a decrease of 12,846 tons as compared with 1877. The quantity of coal and coke carried over the Pennsylvania Railroad for the third week of November was 128,593 tons, of which 100,418 tons were coal, and 23,180 tons coke. The total carried for the year is 4,358,235 tons, of which 3,360,858 tons were coal and 997,497 tons coke. These figures embrace all the coal carried over the road, east and west. The Reading Railroad reports a tonnage for the week ending November 30 of 194,500 tons, of which 80,000 tons were sent to Port Richmond. The shipments thence during the week amounted to 50,500 tons. During the month of November the tonnage of the Reading Railroad was 804,800, and for the fiscal year which ended November 30, the entire coal tonnage carried by this road was 5,909,632.—*Phila. Ledger, Dec.* 2.

OFFICE OF PLUMAS NATIONAL QUARTZ MINING CO., 77 CEDAR ST., NEW YORK, Dec. 3, 1878.

THE DIVIDEND FOR THE MONTH OF NOVEMBER of ten cents per share, upon the capital stock of the Plumas National Quartz Mining Company, has this day been declared payable in gold coin, on and after the 17th inst., at the office of the Transfer Secretary, No. 77 Cedar street, Room No. 15.

Transfer books will close on the 9th, and re-open on the 18th inst. By order of the Board,

A. P. MARSHALL, Transfer Secretary.

A GENTLEMAN, WITH TWENTY-FIVE YEARS business experience, desires a permanent position where ability, integrity and faithfulness will secure an adequate return; best of references; any mountainous region acceptable. The Sutro Tunnel.

The Sutro Tunnel is unquestionably the most important engineering operation that has ever been brought to a successful issue on the Pacific coast. The work of excavating a tunnel four miles into the heart of a mountain of solid syenite, cutting into and draining the deepest shafts of the great Comstock lode, is in itself a magnificent enterprise; but a work even more arduous was that of overcoming the united opposition of the owners of the great bonanzas; and in conquering these united difficulties Mr. Sutro has earned a just claim to the fame which will link his name in perpetuity to a remarkable undertaking.

The stock of the Sutro Tunnel Company has been placed this week on the New York Stock Exchange. It consists of two million shares of ten dollars each of which the company owns 108,000. The shares are fully paid up and consequently unassessable and no risk is therefore assumed by the purchasers.

The prospects of a large and constant dividend to the shareholders may be inferred from the following statistics which we gather from the company's circular: The tunnel intersects all the numerous mines on the Comstock lode at a depth of 2,000 feet below Virginia City. The cost of pumping these mines free from water is now three millions of dollars annually. All this water will be drained off through the tunnel while at the same time the heat of the mines will be diminished thirty or forty degrees and the expense of mining labor greatly reduced. A not less important item is the saving of low grade ore, millions of tons of which, worth from ten to twenty dollars per ton, are now uncovered in the deep workings but will not pay for their hoisting. These will now pass through the tunnel and will all be available. The charter of the company gives it a royalty of two dollars for every ton of ore extracted and reduced by the Comstock mines. The charge for transporting all dead weight through the tunnel, debris as well as ore, is one dollar per ton. A very large revenue is certain to accrue from this source, and to this must be added a heavy return traffic of ice, firewood, lumber, &c. In water power, mining rights and other items the company has privileges the value of which is practically incalculable, and there is every probability that its stock will soon be regarded as worth a higher price than the forty-five and a half per cent it is now quoted at.

Northern Pacific Railroad.

The Philadelphia Ledger says that the securities of the Northern Pacific Railroad Company, both stocks and bonds, are commanding increased attention, and an advance in prices is quoted, in consequence, as is believed, of the fact of the assenting holders of the Northern Pacific having agreed to convert their bonds into stock at the rate of $1,400 preferred stock for each $1,000 bond, including interest to July, 1878. This preferred stock is receivable for lands of the company at par. It is generally understood that the company's title to the land is unquestioned. Of the 47,000,000 acres given the company, only 748,498 acres had been certified to it up to June 30, 1877. Of the land granted 7,955,200 acres are in Minnesota and Dakota and 2,515,917 in Washington Territory. There had been sold up to August 31, 1877, 1,192,881 acres. These sold for $5,787,290.

New York and New England Railroad.

At the annual meeting of the stockholders of the New York and New England Railroad Company, held at the offices of the company, 224 Federal Street, Boston, on the 3d inst., the following gentlemen were unanimously elected directors for the ensuing year: Joseph K. Baker of Dennis; LeGrand B. Cannon of New York; Samuel A. Carlton of Boston; John Goldthwait of Boston; R. Suydam Grant of New York; William T. Hart of Boston, Lewis Hecht of Boston; Frederick J. Kingsbury of Waterbury; Jesse Metcalf of Providence, R. I.; George S. Monlton, of Windham, Ct.; Thomas Nickerson of Boston; Gorham P. Pomroy of Providence; George M. Rice, of Worcester; James Roosevelt of New York, and James Sturgis of Boston. The auditing committee, consisting of Henry N. Stone, Henry F. Woods and Andrew J. Greeley, were chosen unanimously.

The President, William T. Hart, Esq., congratulated the stockholders upon the encouraging prospects before them, and the possession of the Hartford, Providence and Fishkill Railroad. He referred to the improvements in the terminal facilities in Boston, and claimed that the company was paying all the rent that could be reasonably demanded by the State for the wharf property on the South Boston flats leased to this company. The land was not wanted for purposes of trade, and therefore the use to which it is now put is the best under circumstances. Not a week had followed another since the present management took possession of the road that he had not felt that the property had increased in intrinsic value.

In reply to a question relative to the lease of the Norwich and Worcester Railroad, Mr. Hart said the matter was in the hands of a committee of the directors of the two corporations. He was of opinion that the interests of the two roads could be best preserved by a joint operation of the Nor-

wich and Worcester road. The rental would, however, be less than the amount originally paid.

Richmond and Petersburg Railroad.

At the recent annual meeting of the stockholders of the Richmond and Petersburg Railroad Co., Major Fred. R. Scott was re-elected President, with the following board of directors: B. W. Haxall, Dr. W. Lassiter, H. K. Ellyson, W. T. Walters and R. R. Bridgers. The report of the President, which was presented, shows the gross receipts for the fiscal year ending September 30, 1878, to have been $140,068, against $137,116 for 1877; expenses for 1878, $77,515, against $89,844 for 1877; net receipts excluding interest paid, $62,553, against $47,271 last year. The condition of the road and property is reported as excellent.

New York, Providence and Boston R. R.

The business of this company for the year ending September 30, 1877, and for the year ending September 30, 1878, has been as follows:

Receipts:	1877.	1878.
Passengers	$380,486 44	$432,085 50
Freight	313,351 30	267,011 95
Mail service	8,885 77	10 941 05
Rents, etc	17,156 88	11,974 28
Interest account	4,058 95	
Dividends P. & S. S. S. Co.	120,735 00	112,686 00
Receipts under contract Fall River Line	9,072 50	
	$853,696 74	$834,698 78
Expenditures:		
Repairs of road	$124,078 06	$64 704 17
" engines	21,167 78	19,281 90
" cars	37,204 51	28,138 93
" bridges	8,078 83	4,191 61
" depots	6,902 42	7,788 33
Ferry	25,489 05	30,655 06
General expenses, etc	18,440 04	17,380 12
Salaries	18,508 92	17,280 00
Services	156,270 49	144,090 87
Fuel	36,411 75	50,148 10
Insurance, etc	3,443 79	2,047 10
Taxes	28,638 02	29,393 46
Oil and waste	10,115 71	7,599 41
Richmond switch accident		4,381 00
Construction account, charge to current expenses		9,052 78
	$494,699 43	$436,582 79
Net earnings	$358,997 31	$398,115 99

The number of passengers carried over the road the past two years is as follows:

	1877.	1878.
Through passengers	147,867	208,598
Local passengers	342,680	357,472
Commuters	103,626	96,672
	593,673	657,742

The amount of freight carried over the road the past two years is as follows:

	1877. Tons.	1878. Tons.
Through freight	187,162	200,933
Local freight	60,414	78,412
	247,576	279,345

Capital stock issued	$3,000,000
Seven per cent Bonds due in 1899, being the Sole Mortgage on the road from Providence to Stonington	1,000,000
Extension Road Bonds, being Sole Mortgage on Road from Stonington to New London, including ferry	50,900
	$4,050,000

The capital stock and bonded debt is represented by the following assets, in addition to the cost of the road and equipments, viz:

Stock in the Providence and Stonington S. S. Co., par value	$804,900
Three ferry boats and ferry slips at New London, costing over	250,000
Also, valuable real estate in Providence, Stonington, and Groton, value not known.	

As will be seen by the figures herewith presented, the business of the road, both through and local, as compared with the previous year, has largely increased, viz:

On through passengers...56,231 or 38 per ct.
" Local " ...14,792 or 4 8-10 per ct.
" Through freight (tons).13,771 or 7½ per ct.
" Local " "...17,998 or 29½ per ct

While the gross earnings, in consequence of the low rates which have prevailed, have decreased $18,997 96, on the other hand, the expenses are less by $58,116 64, leaving the net earnings $39,118 68 in excess of the previous year. The result is peculiarly gratifying in view of the fact that this year has been one of fierce competition, with lower rates, for both passenger and freight, than have ever before been known.

As will be observed by an examination of the statement of Liabilities and Assets herewith presented, the investment of the company in the Providence and Stonington Steamship Company, and in the Ferry at New London, is larger than the entire bonded debt; and in addition, the company owns some very valuable real estate, embracing, among other pieces, nearly an hundred acres of upland and flats bordering on the river in the City of Providence.

The report of the Superintendent, on the operations of the road for the year, and on its present condition, shows that it has been kept in most excellent order, at the minimum of expense, the total amount charged to this item being $64,704 17. This comparatively small amount is due partly to the mildness of the past Winter, but largely to the substitution of steel rails, with which nearly one half of the track is now laid. Wharves, bridges, depots, ferry boats, etc., etc., have all received the necessary repairs, and are in the usual good condition.

There have been built at the company's shop four 8 wheel "Fast Passenger Freight" cars, with the Miller platform and passenger car trucks, and we have paid our proportion of two large postal cars for service on the line between New York and Boston. The value of material on hand is $102,069 44, including about 1,500 tons of condemned iron rails, which have been sold at $18 per ton, but not yet delivered.

The Fuel account this year shows an apparent increase of $14,000. This is caused by the fact that, owing to the late delivery of the coal by the contractors in 1877, the payments were not made before the end of the fiscal year. The actual cost of coal consumed by locomotives this year is $42,777 17, or 7¼ cents per mile run.

The total length of main line of road is 62½ miles; aggregate length of sidings about 7¾ miles, Total length of track for entire road (single track) 120 miles. Total length of double track, 50 miles. Length of track laid with steel rails, 50½ miles.

The equipment consists of 24 engines: 31 passenger, 117 box freight, 12 baggage, 16 gravel and 120 flat cars, and 12 Steamboat Train baggage crates; also, 64 274ths of 13 passenger, 7 baggage and 2 postal, Shore Line cars; 64-158ths of 2 Shore Line baggage cars; and 50-94ths of 9 steamboat train passenger cars and 2 baggage flats. 17 locomotives and 78 cars are equipped with the Westinghouse Air Brake, and 53 passenger cars with the Miller Platform, Buffer and Coupler.

Miles run by passenger trains, 278,550; by freight trains, 164,012; by other trains, 110,233—total miles run, 552,795. Number of passengers carried, 657,742; do. carried one mile, 17,858,442. Tons of merchandise carried, 279,854; do. carried one mile, 10,405,601.

The receipts and expenditures for the year ending September 30, 1878, are given in the annexed—

General Balance Sheet.

Balance Cash Assets from last annual report		$88,631 55
Earnings		834,698 78
Bills payable (reduced to $75,000, Nov. 1, 1878)		200,000 00
Bonds sold, issue 1869		163,000 00
Premium thereon		25,820 00
		$1,311,670 38
Expenses		$430,582 79
Dividends		300,000 00
Interest		80,287 85
Bonds of Extension Road, due in 1878		200,000 00
Balance of bonds on Old Road		76,000 00
Balance Cash Assets carried to New Account—		
Cash in Stonington	$23,643 85

Salisbury, Providence, R. I.; Nathan F. Dixon, Westerly, R. I.; John A. Burnham, Boston, Mass.; A. S. Mathews, Stonington, Conn.

Superintendent.—A. S. Mathews.

Assistant Superintendent.—J. B. Gardiner.

Treasurer.—Henry Morgan.

Secretary.—J. P. Williams.

Scioto Valley Railroad.

We understand that overtures have been made to General Manager Chapman, looking to a connection of the Scioto Valley Railroad Company by the Columbus and Gallipolis Railroad to Gallipolis, and thence to Huntington and uniting with the Chesapeake and Ohio Railroad via the Kanawha river. This is evidently a scheme to control the trade from the Kanawha at a higher point on the Ohio river than by Portsmouth.

This alliance will open up to Columbus the coal fields at Jackson, and the iron interests of Jackson, Vinton and Gallia counties. This route would leave the main line of the Scioto Valley about ten miles below Chillicothe, and it has been stated that sufficient financial inducements have been offered to enable the establishment of all the shops of both roads at this place.

The knowledge we have that no favorable inducements have been offered at Portsmouth to enable the Scioto Valley Railroad to reach the Ohio river, gives good grounds for us to credit the foregoing rumor. It would result in a very great gain to our city, and we trust that the information may prove true. Columbus has lost very much the past few years by the removal of the Panhandle, Bee Line and other shops, and

this will tend to the recovery of lost interests.—*Ohio State Journal.*

Machinery and Mining.

The Assay Office at New York has recently awarded a contract to the Phœnix Manufacturing Company of Taunton, Mass., for upwards of 50,000 crucibles, besides a quantity of covers, dips, etc., which are wanted for immediate use.

Six furnaces in the rolling mill of the Baltimore and Ohio Railroad Company's bar mill, Cumberland, are being converted into blast furnaces. This will render them more powerful and quicker in operation, and will greatly increase the efficiency of the works.

The Erie City Iron Works has received an order from Chicago for two-forty horse power boilers. Also one from New York for a large boiler. An order has been received from Brazil for two boilers.

The Harrisburg Car Works have reduced their help one-fourth in consequence of the determination of the company to manufacture only four cars a day for the present. Work will be resumed on a large scale after the holidays.

The Dickson Manufacturing Company, of Scranton and Wilkesbarre, is building three large blowing engines for the Lackawanna Iron and Steel Company.

The Pennsylvania Diamond Drill Company, located at Pottsville, has received an order from the Government of Victoria for a diamond drill to be used in prospecting for gold in that province.

A certificate of incorporation was filed on the 29th ult. in the office of the clerk of the Superior Court of Baltimore of the Empire Silver Mining Company of Colorado and Baltimore, Maryland. The purpose of the corporation is to conduct business in Maryland and dispose of mining products. The principal office is in Baltimore city. The capital stock is stated at half a million dollars. The directors named are Augustus J. Smith, John Hill, Nathaniel W. Paynter, John H. Rogers and James H. Hoblitzell.

The Central Arizona Mining Company filed its articles of incorportion in the County Clerk's office, New York, on the 29th ult. The company is organized for mining purposes, with a capital of $10,000,000. The articles are signed by William Burd, John W. Davis and R. H. Richards. The following gentlemen are named as trustees: A. L. Hinton, L. W. Knevals, A. Mitchell, W. E. Wallace, Noah Brooks, James M. Seymour, James A. Hunt, A. L. Wheeler, L. J. Clausen, Jr., J. N. Preston and H. Sprunance.

Articles of incorporation were filed on the 29th ult. in the County Clerk's office, New York, by the Massachusetts Silver Mining Company. This company has a capital of $1,000,000 divided into shares of $10 each, and is organized for the purpose of mining lead ore in Essex county, Mass. Samuel Porter, S. B. Johnson and Charles Rendell are named as incorporators.

The Montgomery Mining Company of Baltimore City, (gold and silver, &c.), has been incorporated by J. Kemp Bartlett, Isaac S. Jones, Emmor Fawcett, Joseph C. Merritt, Caleb Winslow, Wm. S. Carroll and Charles Dodge.

The mining of Asbestos in Thetford and Ireland, County of Megantic, Quebec, is said to be making good progress. Already some sixty tons have been shipped to the United States over the Quebec Central R. R. The quality of the mineral is pronounced very fine.

The November product of Lake Superior mines was for Calumet and Hecla 1282 tons; Osceola 158 tons; Quincy 275 tons.

New York, Lake Erie and Western R. R.

The New York, Lake Erie and Western Railroad Company's mortgage to the Farmer's Loan and Trust Company, to secure a new issue of bonds, has been recorded. It provides for three series of bonds—one due December 1st, 1908, for an amount not exceeding $2,500,000 at 6 per cent interest, being prior lien bonds, for which provision was taken in paragraph 4 of the reconstruction scheme; one for $25,000,000 due December 1st, 1969, at 6 per cent interest, from 1st December, 1879; and one for $8,597,400 due in 1969, with 5 per cent interest until 1883, and afterwards to be 6 per cent, when the two latter will merge into one series. On the last two series the right of action in case of default of payment of interest does not begin until six coupons are in default. These bonds are issued in accordance with the plan of foreclosure of the Erie Railway, and the reorganization into the New York, Lake Erie and Western Company. The principal and interest are payable in gold or sterling, at 4s. per dollar.—*Satterthwaite & Co.'s Circular.*

The Value of Statistics.

A correct knowledge of the agricultural statistics of the United Kingdom will go far towards enabling our commercial community to calculate with some approximation to correctness the probable course of prices for cereals and other farm produce in this country under our normal condition of producing more than we need for our own consumption. Although England grows hardly more than half the amount of cereals required to feed her thirty-four millions of population, wheat is cheaper in her markets now than it has been for many years past and thousands of tons of grain have been raised in California that will not pay for the cost of their carriage. The labor required to produce this wheat would have been applied to more remunerative crops had our farmers on the Pacific slope better instructed themselves on the precise condition of British agriculture and trusted less to the contingencies of foreign diplomacy and to the European war that has been indefinitely deferred.

The most recent returns published show that of the total area of 77,828,947 acres of the British Islands, 47,326,615 are under cultivation. Of these, 3,881,701 were planted with wheat which returned an average crop of 33 bushels to the acre. The quantity harvested therefore was 111,596,133 bushels out of a total of about two hundred millions required for consumption. Turning now to our own production we find that up to September last no less than 286,000,000 bushels were held at or had been shipped from our Atlantic ports during the year, this quantity representing only a portion of the excess grown beyond our domestic wants. As Great Britain requires but ninety millions to complement her own harvest and has other sources of supply, every bushel shipped there beyond that amount tends to depress the price, which is now at the lowest it has touched for many years viz: forty shillings per quarter, or in our currency, $1 20 per bushel. Deduct from this price rail and ocean freights, charges, commissions, insurance and speculators' profits, and the balance will hardly pay for the cost of production. Take this country through it requires an acre of ground to produce twelve bushels. It may therefore be safely assumed that the labor and the expense of tilling eight millions of acres have been fruitlessly incurred by our agriculturists this season, and that the land has been diverted from more profitable uses simply because its owners have neglected to make any practical estimate beforehand of the capacity of the market they were preparing to supply.

European and North American Railway.

At a meeting of the bondholders of the European and North American Railway at Bangor on the 5th inst., the trustees, Hons. Hannibal Hamlin and W. B. Hayford, made their annual report, showing that for the year ending Sept. 30, 1878, the total gross earnings were $359,878 20, the working expenses, $230,350 73 and the net earnings, $129,522 47. There is no floating debt against the trustees, all purchases being for cash. The road and equipment have been greatly improved during the past year. The actual operating expenses this year are less than last year, though they appear larger, for the reason the material put in the road and the additions to the rolling stock being greater and are put in the working expenses. All the expense of changing the gauge has been paid.

☞ The Johnstown (Pa.) Tribune says that Archibald Mahan, representing Wilcox, Brown & Co., Bankers, of Baltimore, has secured from upward of fifty farmers in Somerset county, Pa., the right of way for a new railroad from Hagerstown, Md., to the oil regions. The proposed route of the new railroad is from Hagerstown, Md., to Bedford, along the Stony Creek valley through Somerset county, skirting the eastern base of Kenville hill at Johnstown, across the Pennsylvania Railroad near the iron bridge, and through Indiana county to Oil City. The agent states that $16,000,000 will build the road and that Baltimoreans will subscribe $13,000,000 and Oil City capitalists will put in the balance.

☞ The directors of the Baltimore and Cumberland Valley Railroad Company elected on the 3d inst. are: John M. Hood, Alexander Reiman, D. J. Foley, John Welty, George W. Harris and C. W. Humrichouse. Mr. Reiman was made President, John S. Harden, Secretary and Treasurer. Dacey Bros., contractors, have 200 men on the work between Stouffer's tank and Waynesboro', and expect to have that part of the road completed early in January. This road is to strike the Cumberland Valley about Chambersburg, Pa., and connect with the Western Maryland, near the present Waynesboro' station.

☞ The track of the main stem of the Shenandoah Valley Railroad is to be laid through Shepherdstown to the Potomac river this fall, in order to afford an immediate connection with the Chesapeake and Ohio canal at that place.

☞ The grading on the extension of the Hamilton and North Western Railway to Collingwood is completed,

New Railroad Line Between Boston and Nashua.

The Boston Journal says that one result of the separation of the Boston and Lowell and Nashua and Lowell Railroads will be the speedy opening of a new railroad line between Boston and Nashua, and then adds:

This will give the latter city three lines to Boston, namely, the old one via the Nashua and Lowell and the Boston and Lowell Railroads, the newer one via the Nashua, Acton and Boston and Fitchburg Railroads and the one now proposed. The Boston and Lowell Railroad Company operates the Middlesex Central Railroad, which connects at this end with the Lowell Railroad and has its terminus in the centre of the town of Concord, Mass. The Middlesex Central is to be extended to a point near the new State Prison at West Concord, the location having already been determined and filed. The new piece of road which it is necessary to build will be a fraction over three miles in length, and will run over a territory very favorable to railroad construction. Near the prison a junction is to be made with the line of the Framingham and Lowell Railroad, over the tracks of which the Nashua, Acton and Boston Company has the privilege of running, from their junction with the same at North Acton, a station some two miles beyond the prison. The road of the latter company is operated by the Concord (N. H.) Railroad Company, which by means of the new line will add twenty-four miles to the thirty-five miles of line between Nashua and Boston, along which it gathers business. The Concord Railroad Company will thus have an incentive to co operation with the Boston and Lowell. The new line will have a length of about forty-four miles between Boston and Nashua, against a distance of forty miles by the route via Lowell, but it is probable that the running time of trains will be so arranged as to make compensation for that disadvantage. Work is to be commenced at once upon the Middlesex Central extension, and it is expected that the route will be opened before spring, and it is probable that for sometime thereafter there will be cheap rates between Boston and Nashua, owing to a sharp competition for traffic. Whether the railroad people expect such a result or not, it is among the expectations of the people along the line, and they, of course, do not regard the prospect with any other feelings than those of satisfaction.

New York Elevated Railroad.

The following is the report of the New York Elevated Railroad Company, as made to the State Engineer and Surveyor, for the fiscal year ending September 30, 1878, compared with the Report made by the same company in 1877:

STOCKS AND DEBTS.

	1878.	1877.
Capital stock, by charter	$10,000,000 00	$10,000,000 00
Stock subscribed.	4,253,425 00	1,063,125 00
Stock paid in	3,190,125 00	1,063,125 00
Funded debt	4,809,000 00	1,740,000 00
Floating debt		70,000 00

Rate of interest, 7 per cent.

COST OF ROAD AND EQUIPMENT.

For lands, buildings, &c	$8,100,844 06	$2,673,690 17
For cars and engines	403,784 51	169,897 53

In this is included loss on bonds subscribed for construction, and amounts paid for legal expenses.

EXPENSES.

Repairs, road bed, &c.	$18,169 59	$10 805 00
Taxes on real estate	2,650 00	2,965 96
General superintendence operating road, and for repairs	229,907 97	175,781 83
For interest	150,972 50	99,995 50
Total during year	$401,700 06	$289,548 29

EARNINGS.

From passengers	$427,417 28	$301.097 19
Mail transportation	1,540 00	1,445 57
News privileges	780 00	405 00
Signs and advertising	251 07	260 75
Total	$429,988 35	$303,208 51

No payment for dividends reported.

DOINGS OF THE YEAR.

Number of passengers carried	4,916,322	3,021,862½
Number of persons killed	6	2
Number of persons injured.	12	6

Present length of road, 11 miles 411 feet; number of engines, 61; passenger cars, 114; time consumed in passing over the road—east, 28 minutes; west, 25 minutes.

Metropolitan Elevated Railway.

The report of this company, as made to the State Engineer and Surveyor at Albany, is for the three months and twenty-six days ending September 30, 1878, the only period in the last fiscal year when the road was running. No report was made in 1877.

STOCKS AND DEBTS.

Capital stock, by charter	$3,500,000 00
Stock subscribed	655,000 00
Stock paid in	655,000 00
Funded debt	7,500,000 00
Floating debt	

Rate of interest on funded debt, 6.6 per cent.

Cost of road and equipment, $8,155,000, being on account of first section of five miles, by issue of bonds as follows:

First mortgage, 6 per cent.	$3,000,000
Second mortgage, 7 per cent.	4,500,000
Stock	655,000

No statement of each separate item of construction is made, as the road is still under construction.

EXPENSES (OTHER THAN CONSTRUCTION.)

Repairs of road bed, &c.	$1,956 93
Taxes on real estate	
General superintendence	800 00
Officers, clerks, office, &c.	17,161 26
Conductors, drivers and engineers	36,848 24
Watchmen, starters, roadmen, &c.	35,649 74
Repairs of dummy cars	1,876 70
Fuel, gas, and lights	22,746 16
Oil and waste	1,614 81
Damages to persons and property, including medical attendance	1,473 33
Law expenses	1,020 00
Insurance	728 44
Advertising and printing	2,702 04
Total	$124,072 64

EARNINGS.

Passengers	$348,797 85
Interest	2,474 97
Total	$351,272 82

Number of passengers carried, 4,820,348; number of dummy cars, 25; number of passenger cars, 80; number of persons killed, 2; number of persons injued, 5; time consumed in passing over road, 20 minutes.

☞ Messrs. Albert B. Jewett and Albert W. Hastings, receivers and managers of the Lamoille Valley, the Montpelier and St. Johnsbury, and the Essex County Railroads have filed a petition in Chancery for permission to raise the sum of $500,000, for the purpose of improving the roads to the end of operating them more economically. The petition represents that since the roads have been in the control of the petitioners an indebtedness of $20,000 has been incurred for necessary improvements, while further improvements and repairs are imperatively necessary. The Court has ordered a hearing in the matter, and it will take place at St. Johnsbury, Vt., on the 27th of December.

Imports of Dry Goods at New York.

The imports of foreign dry goods at New York for the month of November, were:

ENTERED FOR CONSUMPTION.

	1877.	1878.
Manufactures of wool	$608,096	$679,692
" cotton	688,416	624,796
" silk	915,928	1,488,938
" flax	547,107	649,241
Miscellaneous dry goods.	481,479	489,012
Total	$3,231,026	$3,881,679

WITHDRAWN FROM WAREHOUSE.

	1877.	1878.
Manufactures of wool	$408,812	$379,101
" cotton	133,251	148,600
" silk	319,366	228,686
" flax	229,239	198,488
Miscellaneous dry goods.	68,627	208,504
Total	$1,159,292	$1,153,329
Add entered for consump	3,231,026	3,881,679
Thrown upon market	$4,390,318	$5,035,008

ENTERED FOR WAREHOUSING.

	1877.	1878.
Manufactures of wool	$385,698	$401,662
" cotton	195,815	223,305
" silk	381,881	325,142
" flax	268,101	211,760
Miscellaneous dry goods.	134,661	170,904
Total	$1 866,156	$1,382,773
Add entered for consump	3,231,026	3,881,679
Total entered at the port.	$4,597,182	$5,214,452

The imports of foreign dry goods at New York for eleven months from January 1 were;

ENTERED FOR CONSUMPTION.

	1877.	1878.
Manufactures of wool	$11,792,968	$11,127,698

☞ The nine miles of railway between Peterboro (Ca.) and Chemung Lake, built in 1872 by the Cobourg and Peterborough Railway Company, has been leased, and will be operated next summer.

Delaware and Hudson Canal.

The Delaware and Hudson Canal Company make to the State Engineer and Surveyor the following reports of the Albany and Susquehanna, Rensselaer and Saratoga, and New York and Canada Railroads, for the fiscal year ending September 30, 1878:

ALBANY AND SUSQUEHANNA, (LESSEE'S REPORT.)

	1878.	1877.
Cost of road and equipment	$3,012,174 86	$2,995,138 79
Expenses of year:		
Maintaining road-bed, etc.	$186,349 94	$234,283 21
Repairs of machinery	103,143 05	119,869 65
Operating road	290,198 92	359,476 51
Rentals	704,124 79	709,164 41
Total	$1,283,816 70	$1,422,743 78
Earnings:		
Passengers	$290,427 24	$283,874 41
Freight	811,376 78	871,891 47
Other sources	4,196 37	5,360 77
Total	$1,106,003 84	$1,161,126 65
Doings of the year:		
Number of passengers carried	304,685	304,901
Number tons freight carried	468,011	779,693

RENSSELAER AND SARATOGA, LESSEE'S REPORT.)

	1878.	1877.
Cost of road and equipment	$2,455,470 74	$2,428,550 88
Expenses:		
Maintaining road-bed etc.	$338,884 90	$407,407 40
Repairs of machinery	265,714 40	187,525 62
Operating road	575,132 76	619,923 89
Rentals	769,167 94	768,272 50
Total	$1,567,524 10	$1,705,402 07

These totals are made by certain allowances of transportation expenses to the New York and Canada Railroad, explained at length in original report.

Earnings:		
Passengers	$618,228 87	$623,866 26
Freight	769,808 80	795,263 90
Other sources	41,896 70	32,631 88
Total	$1,429,933 87	$1,451,762 04
Doings of the year:		
Number passengers carried	1,132,563	1,120,244
Number tons freight carried	589,413	554,236

NEW YORK AND CANADA, (LESSOR'S REPORT.)

Stock and debts:	1878.	1877.
Capital stock by charter	$4,000,000 00	$4,000,000 00
Stock subscribed and paid	4,000,000 00	4,000,000 00
Funded debt	4,000,000 00	4,000,000 00
Floating debt	26,988 68	262,594 43

Rate of interest on funded debt, 6 per ct., gold.

Cost of road and equipment	$8,278,118 77	$8,263,060 79
(LESSEE'S REPORT.)		
Expenses:		
Transportation expenses, being 7 per cent of earnings allowed to Delaware and Hudson for operating and maintenance	$281,875 90	$272,727 24
Interest	237,362 75	247,269 20
Total	$518,738 63	$520,096 54
Earnings:		
Passengers	$187,853 24	$189,995 64
Freight	213,225 73	199,246 48
Other sources	886 57	368 37
Total	$401,965 54	$389,610 49
Doings of the year:		
Number of passengers carried	101,344	109,825
Number of tons of freight carried	223,716	181,063

Railroad and Manufacturing Notes.

The Pittsburg and Lake Erie railroad will pass in its course one hundred and thirty-five iron and steel works, thirty-five glass works, and great numbers of other enterprises which will largely contribute to its prosperity.

Twenty-five locomotives and over 100 freight cars are among the work mapped out for the Mount Clare shops, Baltimore, this winter.

A passenger engine to burn anthracite coal waste has just been completed at the shops of the Philadelphia and Reading Railroad, in the latter place. Heretofore the patent has only been applied to freight engines.

The Reading Eagle says that the Texas Pacific Railroad scheme, if successfully carried out, would create a demand for 100,000 tons of iron annually.

The North Pennsylvania Railroad Company are steadily replacing their iron rails with those of steel, and the entire road bed, perhaps by the close of next year, will thus be improved.

The screech of escaping steam from locomotives on the Reading Railroad is to be smothered hereafter by the use of patent exhaust mufflers. The outside covers of the mufflers is composed of a fine coil of wire, and through the almost invisible interstices between each layer of wire the escaping steam quietly forces its way out.

The Philadelphia Record says that all the locomotives for the elevated railroads in New York have been constructed in that city, and now a Philadelphia firm, Messrs. Clark, Reeves & Co., have received a contract for the construction of additions to the road itself. By this contract the firm is to erect a solid section of four miles, in addition to scattering sections reaching another mile. The extension will run from Ninth avenue to 110th street, thence to Eighth avenue, thence to 159th street, ending at the Harlem river. The work will require about twelve thousand tons of iron, and is to be finished by July 1, 1879.

The Erie Car Works have just completed 400 box cars for the Lake Shore and Michigan Southern Road. The works have on hand contracts for 75 cars for the same road and 150 cars for the Buffalo and Philadelphia road.

☞ The directors of the Continental Telegraph Co. are: Amos E. Middleton, James L. Shaw, James Merritt Shaw, C. H. Middleton, A. L. Worthington, J. G. Smith and George H. Thurston. The officers are: President, Amos E. Middleton; Vice President, James L. Shaw; Secretary and Treasurer, A. L. Worthington.

☞ The Mercer, Penn., Dispatch says that the connection of the New Castle and Franklin with the Pittsburg and Lake Erie Railroad is now a fixed fact, that the frog has already been placed, making the connection a short distance below New Castle, and that by Monday next the arrangements will have been completed, and two trains will be running in each direction, making the trip from Oil City to Pittsburg in five hours' time.

Indianapolis and St. Louis Railroad.

In the case of the St. Louis, Alton and Terre Haute Railroad Company vs. the Indianapolis and St. Louis, Cleveland, Columbus, Cincinnati and Indianapolis, Lake Shore and Michigan Southern, Pittsburgh, Fort Wayne and Chicago, Indianapolis, Cincinnati and Lafayette, and Pennsylvania Railroad Companies, Judge Grisham of the United States Court at Indianapolis delivered an opinion on the 30th ult., enforcing the lease of the complainant's road by the Indianapolis and St. Louis, guaranteed by the co-defendants, and ordered the Indianapolis and St. Louis Company to pay into court, monthly, 80 per cent of their gross earnings, and enjoined them from paying any interest due on bonds held by the companies who are guarantees for the Indianapolis and St. Louis, or to pay any money advanced by them unless said 80 per cent shall exceed the minimum rental agreed to be paid the St. Louis, Alton and Terre Haute Company, this order to hold until the final hearing of the case.

Redemption of Five-Twenty Bonds.

The Secretary of the Treasury issued on the 9th inst., the seventy-fourth call for the redemption of 5-20 bonds of 1865—consols of 1865. The call is for $5,000,000, of which $3,000,000 are registered bonds. The principal and interest will be paid at the Treasury on and after the 9th day of March, 1879, and the interest will cease on that day. The following are the descriptions of the bonds:

Coupon bonds, dated July 1, 1865, namely: $100, Nos. 146,001 to 147,000, both inclusive; $500, Nos. 104,001 to 105,000, both inclusive; $1,000, Nos. 200,001 to 204,000, both inclusive.

Registered bonds, redeemable at the pleasure of the United States after the first day of July, 1870: as follows: $100, Nos. 19,261 to 19,279, both inclusive; $500, Nos. 11,321 to 11,326, both inclusive; $1,000, Nos. 39,301 to 39,304, both inclusive; $5,000, Nos. 12,701 to 12,704, both inclusive; $10,000, Nos. 25,351 to 25,700, both inclusive.

☞ The Harrisonburg (Va.) Old Commonwealth says that over 200 miles of the Potomac and Ohio Railroad have been put under contract, and that the first 20 miles from Charleston east through Kanawha will be completed not later than October next. Work will be commenced on other portions of the line at an early day and pushed as rapidly as possible. This narrow-gauge railroad is to extend from Charleston, on the Kanawha, to Quantico, on the Potomac River, a distance of about 325 miles.

☞ Wm. Keyser has been elected President of the Parkersburg Branch Railroad Co. The directors are: John W. Garrett, D. H. Miller, Thomas Swann, Galloway Cheston, T. Harrison Garrett, W. W. Taylor, W. F. Burns, of Baltimore, George R. Dennis, of Frederick, Md., and J. N. Camden and W. N. Chancellor, of Parkersburg.

☞ The section of the Victoria Railway from Kinmount to Haliburton, 22 miles, was formally opened on the 23d ult.

Steubenville and Indiana Railroad Bonds.

The holders of the Seven per cent Unregistered Coupon bonds of the Steubenville and Indiana Railroad Company, secured by the first mortgage on the undivided one-half interest in the thirty-three miles of railroad extending from Newark to Columbus, Ohio, can, if they so desire, upon surrender of the said bonds for cancellation, receive in exchange therefor the Seven per cent General Mortgage Coupon or Registered Bonds of the Pittsburg, Cincinnati and St. Louis Railway Company, secured by mortgage upon the entire property of the Consolidated Company, extending from Pittsburg to Columbus, a distance of 193 miles, by application to the Trustees, John D. Taylor and George B. Roberts, at the office of the Pennsylvania Railroad Company, 233 South Fourth street, Philadelphia.

Statement of the Public Debt of the United States, December 1, 1878.

Western Pacific bonds, 1862-4	1,970,560 00	49,264 00
Sioux City and Pacific bonds, 1862-64	1,628,320 00	40,708 00
Totals	$64,623,512 00	$1,615,587 80

Interest paid by United States, $39,835,039 84; interest repaid by transportation of mails, &c., $10,445,916 73; balance of interest paid by United States, $29,389,123 13.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, November 30, 1878.

JOHN SHERMAN,
Secretary of the Treasury.

* This amount includes $20,000,000 Five-twenty called Bonds not yet matured, against which a like amount of 4 per cent Bonds have been issued and are embraced in this statement, and the amount included in the coin balance.

NOTE.—The increase of the debt during the month is due to the payment of $5,500,000 Halifax Award; otherwise the ordinary decrease would have been $2,285,757 39.

☞ The officers of the New York and Sea Beach Railroad Company, elected on the 30th ult., are: E. T. Backhouse, President, W. H. Inman, Vice President, and S. J. Murphy Secretary and Treasurer. It was resolved to complete the road to New York Bay, and have everything including the company's hotel at Coney Island, in readiness for the beginning of next season's business.

☞ The Eastern Railroad Company of Long Island was organized at No. 61 Broadway on the 30th ult. The road is to run over the Manhattan Beach track, from Greenpoint to East New York, and to the same point from Bay Ridge over the Bay Ridge and Jamaica Railroad track. Its estimated cost is to be $300,000.

☞ French engineers are discussing the practicability of a railway across the Desert of Sahara, and think one can be built and maintained notwithstanding the heat and absence of water. The distance from Algiers to Timbuctoo across the desert is 1,500 miles.

American Railroad Journal.

Saturday, December 14, 1878.

Financial and Commercial Affairs.

Foreign advices, during the week, have been o special and immediate interest, as relating to the business position, which, in England, has been represented as much depressed and unsettled features which have been brought into more prominence by the failure of the West of England and South Wales District Bank, having deposit liabilities of equal to $17,500,000.

In the home markets, there has been a fair measure of confidence manifested in connection with regular trade, and a comparatively good demand noted, for the season, for the leading kinds of Produce and Merchandise. Money in most of the prominent cities has shown increased activity, and at somewhat stronger rates; but without seriously affecting the course of values, particularly outside of Wall street speculative circles. Stormy weather has been decidedly against free dealings, having impeded outdoor movements, on several days of the week. Of the commercial incidents of the week, in the local market, was the announcement of the suspension of the old firm of Messrs. Olyphant & Co., long of high rank in the China, East India, and South American trade; the losses and difficulties of the concern having been represented as growing out of comparatively recent ventures in South America. Reports of increased heaviness and irregularity in through freights have had an adverse influence on railway and kindred interests; having been viewed as reflecting a renewal of the competition of the trunk lines, for through freight traffic.

Money, in the local market, has been in more demand, chiefly on speculative account, and quoted dearer, though leaving off more favorable to the borrowing interest. The last City bank statement showed some marked changes, the loss of surplus reserve having been the most important, and in its influence depressing. The City Bank exhibit of last week indicated an increase in the loan and discount average of $3,377,100, and an increase in the item of circulation of $51,200. The average of deposits was augmented $261,400. The legal tender reserve was cut down $1,314,700; and the specie average $2,797,100. The City bank net reserve of specie and legal tender notes now shows an excess over the legal requirement of reserve to liabilities of $8,866,050, against $12,513,800, or a loss of $4,177,750 the preceding week. The City bank exchanges in currency reached $436,695,221, or a daily average of $72,782,537. Call loans closed here at 3@5, chiefly at 3@4 per cent; and best discounts at 4@6 per cent per annum.

The outstanding amount of legal tender notes is $346,743,071. The National bank circulation is now $321,979,126 of currency notes and $1,468,820 of national gold bank notes. National Bank notes received at the Treasury Department last week for redemption were to the amount of $1,937,000. The available cash balances in the National Treasury at the close of business on Saturday were: Coin, $227,029,430; currency, including special fund for redemption of fractional currency, $13,374,641.

Government Securities have been in generally good demand, almost wholly on investment account, at, however, variable prices, influenced in part by the unfavorable tenor of the financial advices from England, and the weakness in values in the London market. The 6 and 5 per cents of 1881, and the new 4½ per cents were the favorites, closing on Wednesday more firmly. At the close on Wednesday the current quotations were as follows:

United States 6s, 1881, registered, 106⅛@106⅜; do. coupon, 109@109¼; 5-20s, 1865, new, registered, 100⅝@100¾; do. coupon, 103⅝@103¾; do. 1867, registered, 103@103¼; do. coupon, 106@106⅛; do. 1868, registered, 106½@107; do. coupon, 109½@110; ten-forties, registered, 107⅜@107¾; do. coupon, 107⅝@107⅞; 5 per cents, 1881, registered, 106⅛@106¼; do. coupon, 106⅛@106¼; 4½ per cents, 1891, registered, 104¼@104¼; do. coupon, 104@104⅛; 4 per cents, 1907, reg., 99⅜@99½; do. coupon, 100⅜@100½; sixes, currency, 119½@120.

The amount of U. S. bonds held by the Treasurer of the United States as security for the National Bank circulation is $349,693,500, and $13,888,400 as security for public deposits.

State Bonds have been more sought after, but prices have fluctuated considerably, leaving off, however, in the instance of the more prominent loans, more firmly. Railway Mortgages have been moderately active, chiefly on investment account, but at variable prices, the favorites of the actual interest bearing loans, however, closing with more steadiness, and some show of buoyancy as to values. And in the line of Railway and Miscellaneous share property business has been comparatively moderate, with frequent and, in instances, wide changes in values; through the earlier dealings reflecting a bearish movement, but toward the close a more confident temper in the speculation.

Gold has been comparatively quiet, without notable change in price. Speculation has been devoid of spirit, and the inquiry from other sources limited. The extremes during the week have been 100⅛@100¼, closing on Wednesday at 100⅛ as against 100⅛@100¼ on Wednesday of the preceding week. The specie outflow last week was only $159,029—making the total exports of specie hence since January 1, $11,815,628 against $25,856,873 the same time in the preceding year. The imports of specie at this port last week were to the amount of $139,365, and since January 1st have been $18,803,039 as against $14,323,044 same time in the preceding year. The Customs demand for gold in the local market last week reached an average of about $375,000 per day.

Foreign Exchange has been moderately active and rates have been quoted somewhat firmer. Bankers' sixty day bills on London closed on Wednesday at $4 81⅛@$4 82½; sight bills on London at $4 86½@$4 87 to the £ sterling. Cable transfers, 4 87@4 88. The week's imports of Dry Goods and general merchandise were to the specie value of $5,736,894 as against $5,738,487 the corresponding week of 1877. The week's import entries of Foreign Merchandise at New York included $1,029,603 of Dry Goods, and $4,707,286 of General Merchandise. The week's exports of Domestic Produce and Miscellaneous Goods from this port were to the aggregate value of $6,164,702 against $6,583,197 same week in 1877; and since Jan. 1 have been $327,526,596 against $277,178,944 same time last year.

Metals have been in less request, but have been quoted generally steady in price. Pig Iron quoted for Glengarnock, at $22 50; Coltness, $23 50@$24; No. 1 American Pig at $16 50@$17 50; No. 2 do. at $15 50@$16 50. Forge, $15@$15 50. New Iron Rails at works, $33@$36. Old Rails, $18 50@$19. Wrought Scrap, $20@$21. Steel Rails on the basis of $43@$44. Ingot Copper, 15⅞ct.@16. Domestic Pig Lead, 4 cts.

Trade in the leading kinds of Domestic Produce has been of rather less magnitude, and prices have been depressed and irregular in most instances. The export call has been much lighter, even for Breadstuffs and Provisions. Breadstuffs closed generally heavy, Provisions weak. Cotton has been less sought after for early delivery, though fairly active in the way of options, with prices however again quoted lower. Low Middlings closed for prompt delivery at 8 9-16@8 13-16; Middlings at 8 15-16@9 3-16; Fair at 10⅞@11⅛. Options left off at 8.87 for December, and 8.98 for January; at 9.05 for February; 9.17 for March; 9.28 for April; 9.40 for May; 9.51 for June; 9.60 for July and nominal for August, on the basis of Middling quality.

Naval Stores and Petroleum have been sparingly sought after, in the local market, and depressed in price. Foreign merchandise has been as a rule quiet, and values, in several instances, have been again quoted a shade lower.

Ocean freights have been less active, and rates have been quoted generally lower closing heavily. Accommodation for Grain and Provisions in most request at the modified figures. For Liverpool steamer rates at the close for Grain quoted at 6@6½per bushel. Flour, at 3s.@3s. 3d. Provisions, 30s.@40s.; Leather, 40s. Measurement Goods at 20s.@25s. per ton; Cotton, ¼d. per lb. Tobacco at 35s. Liverpool, by sail: Cotton, 7-32d. Grain at 4s. 9d.@5s. per quarter; Flour, 2s.; Measurement Goods, 12s. 6d.@15s. Tobacco 30s.; Oil Cake at 20s. Grain rates on charter hence for Cork and orders left off at 5s. 9d.; for the Continent Grain at 5s. 3d.@6s. 3d, as to ports of discharge. Tonnage for Refined Petroleum at 4s. 3d. to Cork, for orders, at 3s. 3d.@3s. 6d. to the Continent, and 4s. 6d.@5s. to the Baltic. Through freights from Chicago for Liverpool by steam quoted down to 60@65cts. per 100lbs.

☞ The Southern Pacific Railroad Company are laying one mile of track per day in Arizona.

Mining.

SOUTHERN OF NEVADA.—Mr. Bean, the Secretary of this company, has received a brick of base metal weighing five pounds, the product of fifteen pounds of unselected ore received from the mines. The components of this are one ounce and fifteen dwts of silver, six grains of gold and the balance of lead. This is stated to be the average quality of the whole reef. A careful calculation puts the daily expense of extracting daily forty tons of ore at $160; of smelting the same quantity, consuming 1,200 bushels of charcoal in the process, at $760, making in all $920. The lead will more than pay the cost of carriage the result being a profit of $2,600 on a daily shipment of one carload.

KING'S MOUNTAIN.—Our recent copious notices of the claims of the gold fields of the Southern States would be incomplete were we to omit reference to the properties in the section of North Carolina of which Charlotte is the centre, and King's Mountain the type.

This property like many others in that locality was actively at work for many years precedent to the war but at that era was brought to a premature stop. Although worked most unscientifically it always yielded a good return leaving nevertheless a residue of gold in its fifteen thousand tons of tailings worth above ten dollars per ton.

This property was regenerated last year and is now fully equipped with a handsome lot of machinery, has a capable superintendent and will probably commence the New Year with a substantial dividend.

The immense masses of ore easy to extract and easy to work, are the great points of advantage which this property enjoys. An average yield of ten dollars for an average expenditure of two dollars offers results which may be looked for in vain in the obdurate syenite rocks of the Sierras whose abysmal shafts engulph as much wealth as they return.

Mr. Randolph the company's Engineer calculates on a net return of $100,000 per annum. This estimate is far too conservative as the authentic data on which it is based justify the expectation of double that amount.

One point we must add as being in our estimation of the highest importance. The company is a New York one with its books, papers and reports readily accessible and its directors are men of unimpeachable character and excellent standing. New York shareholders in many Western companies will appreciate the value of these conditions.

Above twenty thousand mines have been located in Arizona. Though all these may not have a "Happy Jack" vein or otherwise equal the Isabella property, they incontestibly prove the richness of the State.

We hope soon to report the experience of Mr. Bixby the well known Mining Engineer who will return to this city next month with a car load of bullion.

☞ The New York Court of Appeals has affirmed the decision of the General Term that the Queens County Railroad Company and the Brooklyn, Winfield and Newtown Railroad Company are both extinct corporations.

Bureau of Railroad Accounts.

EXTRACT FROM THE REPORT OF THE SECRETARY OF THE INTERIOR.

(Continued from page 1432.)

The Kansas Pacific Railway Co. have rendered and are rendering reports in conformity with law. On November 3, 1876, Carlos S. Greeley and Henry Villard were appointed receivers of this company and operated the road until removed by the United States circuit court in October, 1878. The Auditor reports the business of this road as rapidly improving; and the following facts and figures are gathered from his report: Miles subsidized, 638.34; miles operated, 672 06; number of locomotives, 89; number of passenger cars, 51; baggage, mail and express cars, 17; freight and other cars, 1,323; stock subscribed, $9,992,500; stock issued, $9,689,950; subsidy bonds, $6,303,000; funded debt, $22,180,600; floating debt, $4,755,010 22, not including $1,915,356 94 accrued interest on subsidy bonds; total debt, $35,153,967 16; total stock and debt, $44,843,917 16; cost of road, $34,359,540 66. For the year ending June 30, 1878, passenger earnings were $698,710 45; freight earnings, $2,348,388 86; miscellaneous earnings, $252,938 50; total earnings, $3,300,037 81; operating expenses, $2,125,832 80; net earnings, $1,174,205 01; interest paid, $613,316 32; lands unsold, 4,803,933 acres.

The Denver Pacific Railway and Telegraph Co. and the receivers who have operated this road since April 2, 1878, have rendered the reports required from them. This company has suffered a considerable decrease in its gross earnings, in consequence of the opening of the Colorado Central, a branch of the Union Pacific Railroad. The following facts are reported: Miles subsidized, 105.89; miles operated, 105.89; number of locomotives, 6; passenger cars, 4; baggage, mail and express cars, 4; freight and other cars, 32; stock subscribed, $4,000,000; stock issued, $4,000,000; funded debt, $2,350,000; floating debt, $189,382 65; total debt, $2,539,382 65; total stock and debt, $6,539,382 65; cost of road, $6,495,350. For the year ending December 31, 1877, passenger earnings were $106,633 32; freight earnings, $161,950 88; miscellaneous earnings, $33,262 61; total earnings, $244,727 97; operating expenses, $141,093 74; net earnings, $103,634 23; interest paid, $111,167 87; lands unsold, 950,000 acres. Complete reports as to operations and affairs for the fiscal year ending June 30, 1878, were not received in time for this report.

The Central Branch Union Pacific Railroad Co. has signified its intention to render reports. The following is from unofficial sources: Miles subsidized 100, miles operated 100, number of locomotives 6, passenger cars 6, baggage, mail and express cars 3, freight and other cars 127, stock subscribed $1,000,000, par value of shares $100, stock issued $980,600, subsidy bonds $1,600,000, funded debt $1,600,000, floating debt including $1,000,000 accrued interest on subsidy bonds is $1,567,800, total debt $4,767,800, total stock and debt $5,748,400, cost of road $2,548,707 36 to which should be added the discount on bonds and stock issued. For the year ending June 30, 1877, passenger earnings were $40,409 87, freight earnings $130,819 27, miscellaneous earnings $25,815 12, total earnings $197,044 26, operating expenses $153,206 88, net earnings $43,837 38, interest paid, $45,344 73, lands unsold, 116,165 acres. These figures differ somewhat from those given in the last annual report of the department. Business operations for year ending June 30, 1878, were not reported in time to be embodied in the Auditor's annual report.

The Sioux City and Pacific Railroad Co. has fully and promptly complied with every requirement of the law. The statement as to this road shows: Number of miles subsidized 101.77, miles operated 106.82, number of locomotives 13, passenger cars 9, baggage, mail and express cars 6, freight and other cars 218, stock subscribed $4,478,500, par value of shares $100, preferred stock issued $169,000, drawing 7 per cent interest per annum, secured by mortgage on the Missouri Valley connection; other stock issued $1,899,400, subsidy bonds $1,628,320, funded debt $1,628,000, floating debt $30,000, not including over $900,000 accrued interest on subsidy bonds; total debt $4,186,720, total stock and debt $6,255,120, cost of road $5,337,627 41. For June 30, 1878, passenger earnings were $33,600 83, freight earnings $197,309 18, miscellaneous earnings $89,755 35, total earnings $370,665 36, operating expenses $330,475 22, net earnings $40,190 14, interest paid $111,654 50.

The Texas and Pacific Railway Co. rendered its customory report to the department on October 5, 1878, which was referred to the Auditor. This officer called for explanations as to the report, so as to bring the information therein contained within the requirements of the act of 1871, and repeated his requests for reports under the act of June 19, 1878. These explanations, it is understood, will be furnished by the company, but it has so far declined to report under the act of June 19, 1878. From the report and other unofficial sources the following is compiled for the year ending June 30, 1878: Miles subsidized, 448 86; miles operated, 448.86; number of locomotives, 49; passenger cars, 32; baggage, mail and express cars, 11; freight and other cars, 986; par value of shares, $100; stock issued, $7,018,500; funded debt, $18,488,000; floating debt, $1,255,113 60; total debt, $19,748,113 60; total stock and debt, $26,761,613 60; cost of road, $26,540,289 61; passenger earnings, $594,030 84; freight earnings, $1 644,758 03; miscellaneous earnings, $77,787 88; total earnings, $2,816,571 75; operating expenses, $1,448,329 66; net earnings, $868,242 09; interest paid, $659,461 89; granted lands unsold, 18,000,000 acres.

The Southern Pacific Railroad Co. has referred the law and the requirements made under it by the Auditor to its law officers and has not made any report. The following facts and figures have been compiled from unofficial sources for the year ending June 30, 1877: Miles subsidized, 711.95; miles operated, 711.95; number of locomotives, 48; passenger cars, 69; baggage, mail and express cars, 10; freight and other cars, 1,024; stock subscribed, $38,122,000; par value of shares, $100; stock issued, $36,703,900; funded debt, $29,300,000; floating debt, $994,811 03; total debt, $30,294,861 03; total stock and debt, $67,058,761 03; cost of road, $66,495,837 04; passenger earnings, $598,529 49; freight earnings, $654,803 78; miscellaneous earnings, $2,300,171 29; total earnings, $3,553,004 56; operating expenses, $1,724,174 41; net earnings, $1,828,830 15; interest paid, $1,817,449 50; lands unsold, 12 061,206 acres.

The Northern Pacific Railroad Co. has made full and acceptable reports. The following facts are shown: For the year ending June 30, 1878, miles subsidized estimated at 2,000; miles operated, 555; number of locomotives, 48; passenger cars, 22; baggage, mail, and express cars, 24; freight and other cars, 1,196; stock authorized, $100,000,000; par value of shares, $100; stock issued, $68,488,548 11; floating debt, $820,125 50; total stock and debt, $68,758,668 61; cost of road, $20,872 051 58; passenger earnings, $818,745 82; freight earnings, $745,517 28; miscellaneous earnings, $80,502 61; total earnings, $1,144,765 71; operating expenses, $608,788 99; net earnings, $535,976 72; lands unsold, 45,000,000 acres.

The St. Louis and San Francisco Railway Co., of Missouri, purchaser of the Missouri portion of the Atlantic and Pacific Railroad, and successor of that company, has complied with the law and rendered reports. The following is compiled therefrom for the year ending December 31, 1877; miles subsidized, 292.50; miles operated, 863.50; number of locomotives, 28; passenger cars, 10; baggage, mail, and express cars, 8; freight and other cars, 738, par value of shares, $100; stock issued, $21,289,608; funded debt, $5,278,982 26; floating debt, $49,612; total debt, $5,328,594 26; total stock and debt, $26,618,202 26; cost of road, $26,784,718 15; passenger earnings, $230,242 57; freight earnings, $1,023,909 89; miscellaneous earnings, $69,791 30; total earnings, $1,323,943 76; operating expenses, $584,816 91; net earnings, $739,126 85; interest paid, $784,740 91, annual interest payment being $549,340 in gold; lands unsold, 915,654 acres.

The Burlington and Missouri River Railroad Co. in Nebraska at first complied with the requirements of the law, but, acting under legal advice, the president of this company referred further requests to the directors for a final decision.

The Oregon and California Railroad Co. has complied with the law and rendered reports accordingly. The following facts are shown for the year ending June 30, 1878: Miles subsidized, estimated at 300; miles operated, 200; number of locomotives, 14; passenger cars, 11; baggage, mail, and express cars, 3; freight and other cars, 227; par value of shares, $100; stock issued, $20,000,000; funded debt, $10,950 000; floating debt, $800,000; total debt, $11,750,000; total stock and debt, $31,750,000; cost of road $5,422,958 32; passenger earnings, $227,524 15; freight earnings, $402,286 07; miscellaneous, $37,881 18; total earnings, $667,191 40; operating expenses, $396,000; net earnings, $271,191 40; interest paid, $158,775; lands unsold, 3,000,000 acres.

The Oregon Central Railroad Co. has rendered reports to the Auditor. For the year ending June 30, 1878, the following is reported: Miles subsidized, 47.50; miles operated, 47.50; locomotives, 4; passenger cars, 2; baggage, mail, and express cars, 2; freight and other cars, 62; stock subscribed, $5,000,000; par value of shares, $100; stock issued, $4,980 050; funded debt, first mortgage bonds, $4,695,000, issued and delivered to trustees as security for $1,000,000 borrowed money; floating debt, $1,182,507 58, including $1,000,000 secured by first mortgage bonds; total debt, $5,877,507 58; total stock and debt, $10,857,557 58; cost of road, $1,201,927 97; passenger earnings, $25,337 05; freight earnings, $44,532 27; miscellaneous earnings, $2,397 07; total earnings, $72,266 39; operating expenses estimated at $72,266 39; interest paid, $98,000; lands unsold, 1,200,000 acres.

Of the railroad companies which have received grants of land from the United States through State or Territorial governments, the following have not rendered reports by reason of interruption of business during the past four months in consequence of the prevalence of yellow fever in the Southwestern States, viz: The Memphis and Little Rock Railroad Co., the Vicksburgh, Shreveport and Texas Railroad Co., the managers of Morgan's Louisiana and Texas Railroad and Steamship Co.

The following have complied in a measure with the requests of the Auditor, viz: The Hannibal and Saint Joseph Railroad Co., the Leavenworth, Lawrence and Galveston Railroad Co., the Missouri River, Fort Scott and Gulf Railroad Co., the North Wisconsin Railroad Co., the Winona and Saint Peter Railroad Co., the Southern Minnesota Railway Co., and the Saint Paul and Duluth Railroad Co.

The following railroad companies are preparing to comply with the requests of the Auditor, viz: The Little Rock and Fort Smith Railway Co., the Memphis and Little Rock Railroad Co., the Atchison, Topeka and Santa Fe Railroad Co., the Chicago, Rock Island and Pacific Railroad Co., and the Missouri Pacific Railroad Co.

Four months only having elapsed since the establishment of the bureau, most of which time has been consumed in organizing and in correspondence with railroad companies, it became questionable whether any report of its operations could be made at so early a day, and in consequence it is necessarily incomplete.

The Auditor's report is accompanied by an appendix, containing statements and compilations of facts relating to the Pacific and land grant railroad companies, the laws affecting them, official correspondence, statements of the affairs of the companies, their receipts, expenditures, and operations, the accounts between the United States and the Pacific Railroad companies, the condition of the respective land grants, and other matters of general interest in respect to railroad companies.

It will be seen from Appendix C of the Auditor's report, that about 196,424,800.68 acres of land have been granted for railroad purposes, of which to June 30, 1878, 31,014,496.7 acres were patented. The acts of Congress making these large grants were passed with conditions intended, in a measure, to repay the people for such valuable donations; but, until the passage of the act creating the Bureau of the Auditor of Railroad Accounts, the government had no certain way of ascertaining whether these conditions were complied with, nor was it possible to know what they were worth.

The recommendations of the Auditor in regard to legislation are worthy of consideration.

The Coal Trade.

The total tonnage of anthracite coal from all the regions for the week ending November 30th, as reported by the several carrying companies, amounted to 526,504 tons, against 516,387 tons in corresponding week last year, an increase of 10,117 tons. The total amount of anthracite mined for the year is 15,727,940 tons, against 18,637,608 tons for same period last year, a decrease of 2,910,568 tons. The quantity of bituminous coal sent to market for the week amounted to 78,185 tons, against 75,690 tons in corresponding week last year, a decrease of 2,505 tons. The total amount of bituminous mined for the year is 3,179 204 tons, against 3,182,709 tons for corresponding period last year, a decrease of 3,525 tons. The total tonnage of all kinds of coal for the week is 599,689 tons, against 592,077 tons in corresponding week last year, an increase of 7,612 tons, and the total tonnage for the coal year is 18,906,244 tons, against 21 820,317 tons to same date last year, a decrease of 2,914,073 tons. The product of the mines of the Cumberland coal region for the week ending November 30 was 37,582 tons, and for the year to that date 1 570 728 tons, an increase of 121,601 tons as compared with the corresponding period of last year. The shipments to the Baltimore and Ohio Railroad were, for the week, 19,503 tons; for the year, 824,694 tons, an increase of 113,941 tons as compared with 1877. The shipments to the Chesapeake and Ohio Canal were, for the week, 14,845 tons; for the year, 605,704 tons, an increase of 22,963 tons as compared with 1877. The quantity of coal and coke carried over the Pennsylvania Railroad for the fourth week of November was 100,388 tons, of which 76 098 tons were coal, and 24,290 tons coke. The total carried for the year is 4,458,623 tons, of which 3,436,456 tons were coal and 1,021,787 tons coke. These figures embrace all the coal carried over the road, east and west. The Reading Railroad reports no anthracite coal tonnage for the week ending December 7, and there was no coal sent to Port Richmond. The shipments thence during the week amounted to 48,500. The receipts at Perth Amboy for the week ending November 30 were 36,391 tons, the shipments 16,010 tons, leaving on hand a stock of 75,465 tons.—*Phila. Ledger, Dec. 9.*

☞ F. H. Oliver has been elected Vice President and Manager of the Kingston (Ca) Street Railway.

Atlantic and Pacific Telegraph Co.

At a meeting of the Board of Trustees of the Atlantic and Pacific Telegraph Company, held in this city on the 10th inst., a dividend of three-fourths of one per cent was declared, payable out of net earnings for the quarter ending November 30, 1878, to stockholders of record on the closing of transfer books December 19, 1878.

The company's financial statement November 30, is as follows:

Assets not available (stocks of other companies, patents, etc.)		$645,460 03
Cash assets	$201,209 68	
Total liabilities	35,289 23	
Net cash assets		165,920 45
Amount required to pay dividend of three fourths of one per cent		105,000 00
Leaving a surplus December 1, 1878, of		$60,920 45

The transfer books will be reopened Tuesday morning, December 31, 1878.

☞ The gross earnings of the Chicago, Burlington and Quincy Railroad for the month of October, 1878, were $1,368,348 43, the expenses $759,789 54, and the net earnings $608,558 89; for the month of October, 1877, the gross earnings were $1,290,113 89, the expenses $591,691 34, and the net earnings $698,422 55—showing an increase in gross earnings of $78,234 54, with an increase in expenses of $168,098 20, making a decrease in the net earnings of $89,863 66.

☞ The directors of the Pittsburgh and Connellsville Railroad Company, elected on the 3d inst., are: John King, Jr., Mendes Cohen, Hugh Sisson, Chas. Webb, Robert Garrett, Md.; W. S. Bissell, Wm. Baldwin, Chas. Donnelly, John D. Scully, Henry Lloyd, Pittsburgh, Pa.; W. H. Koontz, Somerset, Pa.; W. H. Markle, Greensburg, Pa. John King, Jr. was elected President, Charles Donnelly Treasurer, and J. B. Washington Secretary.

☞ A certificate of incorporation has been filed with the Secretary of State of Ohio of the Hemlock Valley Railway Company, wholly in Independence township, Cuyahoga county, capital $10,000, by John G. Moore and others.

☞ The land sales of the Atchison, Topeka and Santa Fe Railroad Co. for the month of November, 1878, amounted to $113,500, against $65,984, for the month of November, 1877, an increase of $47,516.

OFFICE OF PLUMAS NATIONAL QUARTZ MINING CO., 77 CEDAR ST., NEW YORK, Dec. 3, 1878.

THE DIVIDEND FOR THE MONTH OF NOVEMBER of ten cents per share, upon the capital stock of the Plumas National Quartz Mining Company, has this day been declared payable in gold coin, on and after the 17th inst., at the office of the Transfer Secretary, No. 77 Cedar street, Room No. 15.

Transfer books will close on the 9th, and re-open on the 18th inst. By order of the Board,

A. P. MARSHALL, Transfer Secretary.

A GENTLEMAN, WITH TWENTY-FIVE YEARS business experience, desires a permanent position where ability, integrity and faithfulness will secure an adequate return; best of references; any mountainous region acceptable. New York, Saturday, December 21, 1878.

Eastern Shore Railroad.

A decree was signed in the United States Circuit Court, Baltimore, on the 10th inst., for the sale of the Eastern Shore railroad, and appointing Samuel M. Felton, of Pennsylvania, trustee to make the sale. The bill against the road was filed in June last by the Harlan & Hollingsworth Company, Samuel Harlan, Jr., John T. Ganse and Anthony Reybold, holders of $103,400 of the bonds of the railroad issued under the act of 1866 and secured by mortgage of the road. The act authorized the issue of $500,000 of bonds at 6 per cent payable in 20 years, but only $187,250 worth was issued. Default in the interest was continued since October 1866. In 1860 the first issue of $400,000 worth of bonds was authorized by the road. Its total debt is $972,200. Its entire revenue in 1877 was only $18,772, about half the yearly interest due. In eight years the revenue was $205,041, expenses $194,847 for other than working. The State is a stockholder in the company. The road runs from the southern line of Delaware, connecting at Delmar with the Delaware railroad, and passing through Somerset and Wicomico counties to the Chesapeake bay at Crisfield, and is 38 miles long. The sale is to take place at Princess Anne, Somerset county, Md., after five weeks public advertisement, and for cash.

New Through Line Between New York and Baltimore.

For a fortnight or longer reports have been current on the street of a proposition to arrange a through connecting railroad from New York to Baltimore, the proposed line to include the Central Railroad of New Jersey, some 81 miles, to the Bound Brook Railroad, thence by that line some 30 miles to the North Pennsylvania Railroad, thence by that road some 27 miles to the Philadelphia and Reading Railroad, thence by that road and the Junction Railroad some four or five miles to the Philadelphia, Wilmington and Baltimore Railroad. So far as we have been able to learn, it has not been definitely determined whether the Reading Railroad link of the proposed line will connect with the Philadelphia, Wilmington and Baltimore Railroad near Gray's Ferry, on the outskirts of this city, or whether it will extend down the Reading's Delaware branch road to Lamokin, near Chester, some nineteen miles from that road's point of connection with the North Pennsylvania Railroad. We do not pretend to be exact in the matter of the distances between the points named. Indeed, the parties connected with the proposition that we have seen are not themselves definitely informed as to the details of any arrangement that may be arrived at, if any shall be. As yet the matter is little more than the running talk that usually precedes and accompanies negotiation. Nothing of an arrangement character has yet been committed to paper, nor has a spade been struck to make the necessary connection between the Reading and the North Pennsylvania Roads where they come nearest and most conveniently together for that purpose. The cost and labor necessary to this connection are not great, but still the little to be done has not yet been commenced. It is understood, however, that the Reading Railroad Company has assumed to do it, in the temporary fashion necessary to start the experiment. The work to do to effect a through connection from New York to Baltimore is probably the least difficulty in the way of the contemplated undertaking. The Baltimore and Ohio Railroad Company is the party supposed to stand behind the project, its object being the more effectively to compete with the connections of the Pennsylvania Railroad in the South and West for the New York market. The latter company now tickets and freights through from the Southwest, which the former cannot do. Unfortunately for the Baltimore and Ohio Railroad Company, in its purpose to effect the through route named, the Pennsylvania Railroad Company is one of three parties owning a short link of road of about a mile running through West Philadelphia, and its third part of this link it claims to own in fee. We understand that the Pennsylvania Railroad Company will resist the contemplated arrangement of an opposition line by the route named, although they say the trade aimed to be obtained by the connected through road is scarcely worth the cost of going for it. Still, if the company determines to fight the new line off it will probably use as much endeavor as though the trade was ever so valuable. From what we can gather the Reading Railroad Company has no farther connection with the proposed enterprise than that it has consented to receive all the business brought to it at the point of junction with the North Pennsylvania Railroad, or the traffic that may be given it by the Philadelphia, Wilmington and Baltimore Railroad Company from the South, and to deliver the same received from each to the other, and to prorate if carried the Reading's whole length of line thence to Lamokin, and for a fixed charge if carried the shorter distance of three or four miles from Belmont to and from the North Pennsylvania junction. It is true when the Reading makes connection with the North Pennsylvania road it establishes a winter railroad outlet for its coal in the New York market, and outside of any control of the Pennsylvania Railroad Company. This is a matter deemed of considerable importance to the Reading Railroad Company, and to the extent of this anticipated trade would it profit all the lines in the proposed line of road thence northward—the North Pennsylvania, the Bound Brook and the Central of New Jersey.—*Phila. Ledger, Dec.* 14.

New Mexico and Southern Pacific Railroad.

This enterprise is being pushed forward vigorously. Mr. Thomas Nickerson, President of the Atchison, Topeka and Santa Fe road, has received a dispatch from W. B. Strong, Vice President and General Manager, dated Raton Mountain, Dec. 2, in which he says:

We greet you from the summit of Raton Mountain, and congratulate you upon being the first to enter New Mexico. Have passed over Switchback, this day completed and regard it a success.

Raton Mountain is on the line between Colorado and New Mexico. The object in getting the rails over it is to carry the material for the con-

struction of the road beyond while the tunnel is being put through the mountain. The work on the tunnel is progressing rapidly.

Liability of Directors.

A novel case as to the liability of directors was decided by Vice Chancellor Bacon on Saturday last. The North and South Woolwich Subway Company brought an action against a Mr. Pym, lately one of its directors, to have him declared a proprietor of shares in the company. Mr. Pym had acted as a director and had received directors' fees, although he had never applied for shares, or had shares allotted to him. The Vice-Chancellor held that by acting as a director Mr. Pym had made himself liable to be entered on the register as a shareholder to the extent of a director's qualification, and ordered him to pay a call that had been made.—*Economist* of Nov. 16.

Eastern (Mass.) Railroad.

The earnings of the Eastern Railroad Company for the years ending September 30, 1877 and 1878 were as follows:

	1877.	1878.
From passengers ...	$1,384,117 15	$1,378,747 36
" freight.....	969,852 20	911,995 99
" express.....	49,440 70	62,452 74
" extra baggage	7,644 26	3,018 61
" mails	40,179 96	41,104 80
" property	35,582 44	30,541 63
" miscellaneous.	21,340 80	25,074 19
	$2,508,107 51	$2,452,935 85
Expenses, viz:		
General expenses....	$172,647 14	$155,047 17
Maintenance & movement expenses....	890,224 51	783,069 67
Passenger traffic expenses	318,742 28	330,546 94
Freight traffic expenses	327,177 27	312,461 69
	$1,708,790 20	$1,581,125 47
Earnings less exp...	$799,317 31	$871,809 88
From which deduct—		
Rent of leased roads.....	$242 017 37	
Interest for the year.....	547,316 93	
		789,334 30
Surplus, credited to profit and loss...		$82,475 58

Compared with the year 1876-'77, the gross earnings of 1877-'78, show a decrease of $55,172 16, with a decrease in operating expenses of $127,664 73, making the increase in net earnings $72,492 57. The report says:

The present financial condition of the company is a proper subject of congratulation. A comparison of the state of affairs two years ago with that of to-day is necessary to fully comprehend the very marked improvement which has taken place in every respect. The company's credit has daily been growing stronger, while the necessity for using it has been constantly diminishing. Two years ago doubts were very freely expressed of the ability of the company to work out of, within any reasonable time, if at all, the various difficulties and embarrassments which surrounded it on every side. To-day these doubts have in a great measure given place to a confidence which is believed to be well founded. Certainly the events and results of the past year have gone far to justify such a belief and confidence, and in this connection a careful examination of the accounts submitted is desired. Attention is especially called to the debt and interest statement, from which it appears, that, of the various forms of debt—amounting to about $13,500,000, which, under the Act of 1876, were made convertible into certificates of indebtedness—there remains Sept. 30, only $227,002 53 to be converted. This has been further reduced by the converting of $30,000 of debt of October; so that at this date the amount outstanding is $197,002 53. The total funded debt, including the old Essex Railroad bonds, amounts to $13,587,021 99. There has been an increase of $110,244 45 in the funded debt, which has been more than offset by a decrease of $222,733 81 in the unfunded debt. There has therefore been made within the year an actual reduction of indebtedness of $112,489 36.

The favorable decisions of the courts in several important lawsuits, and the satisfactory settlement of others by compromise, are also subjects of congratulation. There remains one suit only, yet to be tried, in which the amount at issue is comparatively small. The litigation in which this corporation has been involved during the past two years would seem, therefore, to be at an end; and it may be assumed that no new questions as to the interpretation of the Act of 1876 are likely to arise.

In the last annual report it was stated that the question respecting the rights of creditors holding ten-year notes of the company as collateral had been finally settled by the Supreme Judicial Court. Nevertheless, certain of the creditors sought by a new suit to re-open the question upon somewhat different grounds, or to secure a modification of the decision rendered, but without success. The court reaffirmed its original opinion. This decision has now been acquiesced in by all the parties to the suit, and they have all accepted certificates of indebtedness for their respective debts.

The suits brought by the Merchants' Bank and the Bank of Commerce have both been decided by the Supreme Judicial Court. These creditors held notes of the company secured by insufficient collateral; and the question raised was, whether, under the Act of 1876, they were not obliged to make their election either to go without certificates of indebtedness, and make the most of their collateral, or to surrender the collateral, and accept certificates of indebtedness. The Court decided, that, subject to certain modifications, they had the right to sell their collateral, and take certificates of indebtedness for the unsatisfied balance of their debts; and on that basis the matter has been finally and satisfactorily settled.

In the month of June last the Supreme Judicial Court rendered its decision relative to the right of the bondholders of the Portsmouth, Great Falls and Conway Railroad, to receive certificates of indebtedness by virtue of the guaranty of the bonds by this corporation. The decision was adverse to the bondholders on all points, and left them no recourse except such relief as might be furnished by the courts of New Hampshire, where proceedings had already been begun by a few of the bondholders. Their claim was, that the earnings both of the Portsmouth, Great Falls and Conway Railroad, and of the Eastern Railroad in New Hampshire, were taken and held in trust by this corporation for the payment of the interest on the bonds; and, pending the suit, a receiver of both roads was applied for.

The interests of this company demanded that all such questions should be definitely set at rest; and accordingly an agreement was made with the Portsmouth, Great Falls and Conway Railroad, by which that company was to issue a million dollars of four and one-half per cent bonds, having sixty years to run, and secured by a mortgage of its entire property, in lieu of the million dollar seven per cent bonds, due Dec. 1, 1892, then outstanding, bearing the guaranty of the Eastern Railroad; and also to make a new lease to the Eastern Railroad for sixty years in place of the one to the Eastern Railroad in New Hampshire.

The Eastern Railroad, on its part, was to pay to the Portsmouth, Great Falls and Conway Railroad, an annual rental equal to four and a half per cent upon the new mortgage bonds. This arrangement was duly approved at a meeting of the stockholders of the Eastern Railroad held Sept. 30, 1878, by a vote of 27,144 shares to 54 shares. It was also duly authorized by the stockholders of the Portsmouth, Great Falls and Conway Railroad.

In the same connection it become necessary to effect some settlement of the questions at issue in the litigation with the Eastern Railroad in New Hampshire. The prolonging of this litigation was working material injury to this company, and an adverse decision by the courts would have had very serious consequences. A compromise was accordingly effected, by which this company secured, under a new lease, the control of the property of the Eastern Railroad in New Hampshire, for sixty years, at an annual rental of $22,500. This was also duly authorized by the Eastern railroad stockholders, at the meeting in September, by the same vote above mentioned, and was also authorized by a majority of the stockholders of the Eastern Railroad in New Hampshire.

The approval of the Railroad Commissioners, and of the Governor and Council of New Hampshire has been given to the leases of the Eastern Railroad in New Hampshire, and of the Portsmouth, Great Falls and Conway Railroad, as required by the act of the legislature of New Hampshire. The whole settlement has been consummated, and all of the suits at law withdrawn.

The relations with connecting roads continue on a satisfactory basis. No change of importance has occurred during the year.

Comparative statements are given showing the results of the business of the road for the past five years that from it a judgment may be formed of the probable future of the road. The gross earnings, operating expenses and net earnings during those years were as follows:

	Gross earnings.	Operating expenses.	Net earnings.
1873–4.	$2,987,299 57	$1,998,981 63	$988,317 94
1874–5.	2 827,290 74	2,069,871 61	757,419 13
1875–6.	2 470 971 02	1,787,376 96	683,594 06
1876–7.	2,508,107 51	1,708,790 20	799,317 31
1877–8.	2,452,985 35	1,581,125 47	871,809 88

The following statement will show the number of passengers carried, and the number of passengers carried one mile, during each of the years named:

	Number passengers carried.	Number carried one mile.
1873–4	6,019,990	85,730,313
1874–5	5 386,038	75,201,867
1875–6	4,796,275	69,453,812
1876–7	4,978,255	68.502,002
1877–8	4,197,991	61,706,681

The tons of freight carried, and the number of tons carried one mile during the years named were as follows:

	Tons of freight carried.	Tons carried one mile.
1873–4	669.420	37,086 866
1874–5	661,886	35,687,888
1875–6	634,508	34,224,888
1876–7	704,810	39.099,659
1877–8	697,987	39,116,078

The passenger and freight mileage to and from other roads was as follows:

	Passenger.	Freight.
1873–4	9,286,168	18,012,840
1874–5	14,101,884	13,738,948
1875–6	12,041,110	12,777,814
1876–7	11,469,300	15,184,642
1877–8	9,414,565	12,208,730

The falling off in gross earnings has been chiefly on the freight business, and has been due in part to exceptional local causes. There has been a small decrease in the passenger earnings proper, which has been rather more than made good by an increase in express freight; so that "passenger earnings" above show a small increase.

The reduction of expenses has been effected without in any way impairing the efficiency of the administration of the road. The property of all kinds has been kept fully up to its former condition. All expenditures have been charged to operating expenses—as well those for new work,

additions, improvements, etc., as those for ordinary repairs and maintenance of the property. Nothing has been charged to construction or equipment account.

ROAD-BED AND TRACK.

Expended for—	1876-77.	1877-78.
Repairs of road bed and track	$166,157 36	$159,689 29
New rails, steel, less value of old rails taken up	65,961 16 (2,204 tons steel.)	39,819 96 (1,479 1890 2240 tons steel.)
New ties laid	$23,125 38 (68,047 ties)	$25,340 60 (86,807 ties)

In the road bed and track an improvement is everywhere manifest, as compared with its condition a year ago; and a great deal of work has also been done which is not so evident at first sight, but which is none the less important. The standard of excellence is being gradually raised. Steel rails only have been used in renewal of track. Within the year, 1,479 1390-2240 tons, equal to 16 231 miles, have been laid, making the total length of track laid with steel 123.551 miles. It is estimated that 1,600 tons will be sufficient for the coming year.

Over 86,000 new ties have been put into the track, and this is probably more than will be required next year. Considerable work has been done in re-arranging the side-tracks at several stations, with the view of increasing the facilities, and at the same time of reducing the number of cross-over tracks and side-tracks opening out of the main tracks. In this way about sixty switches have been taken out of the main track, and to just that extent the possibility of accident from misplaced switches has been entirely removed.

The expenditure for bridge repairs and renewals in 1876-77, was $41,005 89; in 1877-78, $33,535 85; decrease, $7,470 04.

Of the above amount expended for repairs of bridges, $10,422 64 was for renewals.

The policy of making all renewals of as permanent a character as possible continues to be pursued.

The item of $10,532 10 for fences, road-crossings, and signs, is again large; but it includes the building of about fifteen miles of new fence.

The expenditure for buildings, repairs and renewals in 1876-77 was $48,972 87; in 1877-78, $41,930 16; decrease, $7,042 71.

ROLLING STOCK.

There has been a still farther reduction in the expenses for repairs of locomotives and cars, as compared with the already reduced expenditure of last year, and this while the property has been well maintained.

In the repairs and operation of locomotives, there has been a decrease of $78,408 77 within the year.

Within the year, four new Mogul freight engines (cylinders 18×24 inches) have been purchased of the Rhode Island Locomotive Company, to replace four old and much smaller ones, which were condemned. A new locomotive which has been building in the shop had been finished, and put into service. The road is now equipped with locomotive power sufficient for its present business.

The length of main line of road between Boston and Portland is 108.29 miles, to which add Conway Junction to North Conway, 71.37 miles, (Portsmouth to Conway Junction 11 miles)—making total length of main line, 179.66 miles. Total length of branches, 102.306 miles. Total length of main line and branches, 281,966 miles. Double track on main line, 32.80; double track on branches, 6,396—total length of double track, 39,196 miles. Aggregate length of sidings and other tracks, 66.0425. Total length of track operated by this company, 887 2045 miles. Total length of track laid with steel rails, 123.551 miles.

The equipment consists of 97 locomotives, 136 passenger, 37 mail and baggage, 641 eight-wheel and 72 four-wheel box freight, 546 eight-wheel and 252 four-wheel platform cars. The total number of freight, coal, etc., cars, on a basis of eight wheels is 1,349. The number of cars equipped with the Miller Platform and Buffer is 136, and with the Westinghouse brakes, 175. Locomotives equipped with the Westinghouse, Brakes, 57.

Number of miles run by passenger trains, 1,083,872; by freight trains, 523,903; by working trains, etc., 519,356—total, 2,077,131.

Number of passengers carried, 4,197,991: do. carried one mile, 61,706,681. Tons of freight carried, 697,987; do. carried one mile, 39,116,073.

Gross earnings per train mile, $1 52.9; expenses, $1 01.5—net earnings, $0 52.4. Av. rate of fare, all passengers, per mile, 2.293 cents. Av. rate per ton per mile for all freight, 2.33 cents.

Av. cost in cents per mile run by engines for repairs, fuel, wages, cleaning, oil, waste, etc., 19.60 cents. Miles run to pint of oil, 20.15; to ton of coal, 53.88; to cord of wood, 35.84.

PROFIT AND LOSS ACCOUNT, September 30, 1878.

DEBIT.

To Balance September 30, 1877		$10,298,802 40
Coupons prior to January, 1876, paid		60 00
Claim prior to October, 1876, not before audited, settled		5,319 23
Bads debts charged off		11,536 53
Land damage claims, not before audited, settled		3,368 98
Depreciation in Pullman Car stock sold		1,130 00
Depreciation in real estate charged off		8,500 00
Interest prior to October, 1876, settled by trustees		1,888 52
Reduction in value of equipment for cars burned		16,900 00
Rent of roads leased (by new contract) prior to current fiscal year.		15,210 00
Operating expenses for year	1,581,125 47	
Rent of leased roads for year	142,017 87	
Interest accrued for year	547,316 93	
Total		$12,732,675 43

CREDIT.

By sundry collections from old accounts	$215 64	
Credit balances prior to October, 1876, ascertained to be erroneous, canceled	32,626 17	
Correction of interest account for fiscal year 1876 77 (debt since funded at lower rates)	3,385 23	
Insurance money collected for cars burned	16,900 00	
Gross income for year	2,452,935 85	
Total		$2,506,062 39
Balance to next year's account		$10,226,613 04

The funded debt consists of U. S. gold certificates of indebtedness, $10,080,500; U. S. gold scrip certificates, $14,844 61; sterling certificates of indebtedness, $3,070,274 85 — making total amount of new mortgage certificates of indebtedness, $18,165 619 46; the amount to be funded is $227,002 53; Essex Railroad bonds, $194,400—making total amount of funded debt, $18,587,021 99; unfunded debt, $1,488,348 73—making total debt liability, $15,075,870 72.

GENERAL BALANCE SHEET, September 30, 1878.

Construction:		
Grading and masonry		$1,600,000 00
Bridges		700,000 00
Superstructure and iron		1,800,000 00
Passenger and freight stations		313,000 00
Engine-houses, car sheds, and turntables		140,000 00
Shops, machinery, and tools		200,000 00
Land, land damage and fences		2,000,000 00
Engineering and general expenses		82,000 00

Unpaid dividends		16,817 00
Total		$20,072,970 72

* Equipment belonging to leased roads is not included in these figures.

† Reduction in value of equipment, $16,900, for cars burned, not yet replaced.

President.—ALFRED P. ROCKWELL.

Directors.—Alfred P. Rockwell, George S. Morison, George P. King, George E. B. Jackson, John Cummings, Charles H. Dalton, James W. Johnson, George W. Gill, George Ripley.

Treasurer.—N. G. CHAPIN.

Clerk.—E. C. PERKINS.

☞ The Governing Committee of the New York Stock Exchange has passed a resolution permitting the Sutro Tunnel Company's shares to be dealt in by dollars and fractions instead of percentage. This will make the quotations here correspond with those of San Francisco, London and Paris.

☞ The grading of the Hamilton and North Western (Ca.) Railway is completed from Glencairn to Collingwood, twelve miles of rails between those places are laid, and most of the stations are finished.

☞ The Lehigh Valley Railroad Company have in contemplation the construction of a branch between Pittston and Hawley, Luzerne Co., Penn.

Rights of Railroad Companies and Property Owners.

Application was made some time since before Judge Donohue, in Supreme Court, Chambers, by the New York Central and Hudson River Railroad Company to acquire title to the lands between Sixty-fifth and Seventy-second streets, extending from the company's track in Eleventh avenue to the Hudson river. The owners of the property objected to the application, except as to that portion between Sixty fifth and Sixty-sixth streets, which the company had bought and paid for. They insisted that the land was not necessary for the purposes of the corporation, and that the latter's object simply was to build grain elevators of enormous capacity, etc. Judge Donohue, before whom the matter was argued, rendered a long decision on Tuesday, granting the company's application, and directing the appointment of Commissioners to appraise the value of the land to be taken. In the course of his remarks the Judge says:

I fully agree with the respondents that it is for the company to show a necessity for the taking of these lands. Substantially they say they want and need the lands for tracks, sidings, coal-yards, storage of cars, loading and unloading and protection of freight, and if such necessity is shown they are entitled to the land. It is useless for this Court to speculate on the hardships or fairness of the taking if the case comes within the law. How far the Legislature acts wisely or otherwise in the power it bestows on corporations it is not for the courts to say. Why railroad companies may take land for depot or other purposes when steamship or sailship companies or stage companies cannot, is also not for the courts to consider. They must take the law as they find it, and the sole question is, Does the applicant company show such a case as should require the Court to exercise the right? To the point taken, that the railroad company cannot, under cover of a mere pretense of taking land for depot purposes, enter into speculations and obtain land for other uses than under its charter it is entitled to, I fully agree. A great deal of stress has been laid on the fact that a large water front is to be acquired by the company taking so much land out of the public use. The same argument holds in regard to any other land the company may take; notably so in regard to all the streets taken and closed in occupying land for the depot in Forty second street. So far as the piers to be built are concerned, with that this Court has nothing to do. No piers are by any order I can make exclusively given to this company. We are not now dealing with the question whether the company has the right to exclude ships or persons from any piers when built or to build sheds on them. The question whether the company needs the land inside the piers for the purposes claimed is the only one before me; and it seems to me that when land is needed by a railroad company good sense would imply that such land should be selected which offers the greatest facilities to its trade and shipping and for the delivery of freight. That the company wants this land because it is on the water side is no reason why it should not have it. If that adds to the facility of transportation it attains the very public object for which the company is incorporated

A great deal has been said about the alleged necessities of the company in the matter of storing freight as being a covert attempt to enter into the storage business. I do not understand the evidence as showing the view the respondents take of this. The only storage the company contemplates, as I understand it, is when laden cars accumulate and consignees' delay in removing their goods. In such case the company must either keep the freight in the cars, and so create an intolerable obstruction, or put it in some safe place, whence it may be delivered. To compel the railroad to cart this freight through the streets to storehouses out of their premises would more obstruct the public and take quite as much ground as these lands they ask for.

While the courts, in disposing of common carrier cases, speak of the relation of carrier ceasing and that of warehouseman beginning at a certain time, I do not understand that in any of those cases the courts go so far as to hold that it is not the duty of the carrier to keep the goods in a safe and proper place after his duty as a common carrier ends. If this is so, then a part of the company's duty is to provide such means of safe keeping. If I am wrong in this, the company has no right to provide passenger rooms or baggage rooms, because as the passenger only becomes chargeable to it when he gets on the train, and ceases to be so when he gets off, his comfort in getting to or from the cars is of no moment to the company and something it is not called on to provide for. Certainly a somewhat similar duty to the goods which are in its possession, and for which the owner cannot provide, exists.

So far as the elevator is concerned, the testimony, it seems to me, shows it to be an advantage in affording speedy delivery. It is undoubtedly true that no owners of water craft, whether corporate or individual, can take land by eminent domain, but that does not apply here, because this question is not as to facilities of water craft, but the railroad's facility. That the railroad should help water craft in supplying it does not change the principle. The interest of the public is to cheapen the cost of transportation and handling of goods. If incidentally those taking goods from railroad companies for further carriage by land or water are benefited that cannot be an objection to the company's acquisition of land. Though the law giving to railroad companies the great power that it does should be strictly administered, yet when they show a reasonable right under the law the hardship that may follow is a matter to be addressed to the Legislature, not to the Court. I think the applicants have shown sufficiently that the parties cannot agree by negotiation, and that brings the case to the question, Have the company shown a necessity for the land asked for?

In reply to this question, the Judge holds that it is not a question as to whether in their present space the company could put in more piers, but rather whether increased space is needed for the handling of freight cars and engines. The place for the cars and engines, outside of direct railroad purposes, tends to expedite business and make the space in use more available. Leaving the company to the handling of freight without them would take as much room as they now want. The elevator is one instance. Judge Donohue further holds, as to the increase of tracks, the question is not how small a space the tracks may be confined to, but what is a fair extent of ground on which to do business. He concludes that the company makes out a case for the taking of the ground, and shows the progressive needs of the company from the time when its Chambers street and St. John's Park depots were sufficient for its business, with the help of the Thirty-fourth street depot, to the time when the land from Fifty-ninth to Sixty-fifth street failed to be so. The evidence is uncontradicted that the company has to keep trains back as far as Albany for lack of room, and that this necessity compels the courts to grant the application when it appears. The railroad requirements would compel them, if this relief was not granted, to occupy lands belonging to others.

The Judge therefore concludes that the applicants have shown the necessity which they claim that the land is necessary, and says that an order will be entered on notice of all the parties granting the application and naming Commissioners.

Commerce and Navigation.

The National Board of Steam Navigation at its recent meeting in this city discussed at length the proposed admission of foreign vessels to the American registry, expressing very strong opinions against it, and adopted the following resolutions on the subject:

Resolved, That the National Board of Steam Navigation has heard with alarm of the introduction into Congress of various measures intended to change the navigation laws so as to admit foreign vessels to American enrolment and registry.

Resolved, That this Board earnestly protests against any such change in the navigation laws, and in this protest unite, through the various bodies represented at this meeting, the combined protest of the steam and sail navigation interests of the lakes, the inland rivers and the seaboard.

Resolved, That this Board opposes any such change because—

1. These laws have existed since the foundation of the Government, and have not only fostered American commerce but also have raised a hardy race of American seamen for the national defence.

2. Under these laws a very large vessel-owning and vessel-building interest has been created, involving over $600,000,000 of capital and employing directly or indirectly over a million and a half persons, which capital and employment would, by the proposed change, be imperilled, if not destroyed.

3. Such a change jeopardizes the interests not only of the owners and builders of vessels, but also the employment of hundreds of thousands of skilled and unskilled working people, whose trades are directly or indirectly dependent upon American navigation.

4. Fair competition at home has already depressed American commerce sufficiently to have not brought here all the idle vessels of the world to swarm on our rivers, lakes and seaboard to completely ruin it.

Resolved, That a copy of these resolutions be forwarded to each house of Congress, as our respectful protest against the passage of any law admitting foreign vessels to American enrolment and registry.

A resolution was also adopted that Congress be requested to pass a law enacting that all wrecks lying in the path of navigation and commerce shall, after the expiration of thirty days from the time of the accident or disaster causing such wreck, be treated as abandoned by the owner or owners thereof unless such owner or owners shall within that time certify in writing to the light house board of the district in which such wreck shall be, that it is the intention of such owner or owners or other persons interested therein, to at once raise or remove the same.

The next meeting of the Board will be held in Cincinnati, Ohio, on the first Wednesday in September, 1879. R. E. Evans of Buffalo, N. Y., was re-elected President, and R. H. Woolfolk of

Louisville, Ky., Vice President. Among the Executive Committee are Wm. Livingston, Jr., of Detroit, Mich., J. E. Payne, Erie, Pa., and Simpson Horner, Pittsburgh, Pa.

Virginia's Gold Fields.

The general interest which is beginning to be aroused in regard to the gold fields of the South is already taking a practical shape. Many valuable properties are being quietly taken up and purchased outright for investment purposes by our capitalists without any intention of inviting the public to share in the profits of the ventures.

It having been intimated that Mr. Alexander Taylor of the well known banking firm of A. Taylor & Sons, of Broadway and Exchange Place, had been visiting the auriferous districts of Virginia, a Reporter of the JOURNAL waited upon that gentleman and asked him on behalf of the large number of its readers interested in the subject to be good enough to favor him with the impressions he had received from his inspection. Mr. Taylor received the JOURNAL's representative very courteously but expressed his disinclination to give any definite statement until his return from a second visit he was shortly about to make. His journey had been of a purely private nature and there was nothing in it that could interest the public. The reporter explained that the Journal had recently published several notices highly favorable to the gold mining prospects of the region which Mr. Taylor had visited and that his corroboration would be highly valued. As for that, was his reply, there has been no exaggeration in the statements of the excellent character of the mining property there. I satisfied myself thoroughly on that point while on the ground, going into the shafts, breaking off pieces of the ore at different depths and having them analyzed and assayed under my own eye; the result thoroughly confirming the belief I had formed. The best proof of my conviction of its value, continued Mr. Taylor, is that I have purchased the property. The free gold alone would pay handsomely for working the ore but the sulphurets are so valuable that even if they were sent to Swansea or Germany for treatment a large return over all expenses would be received. However that course will not be necessary. Whatever they can do in this matter abroad we can do just as well here and so save all the expense of transport. Although—said the speaker with a sly twinkle in his eye—they have not let us outer barbarians into the secrets of their process, our own methods eliminate all the gold within a fraction and we ask for nothing better.

From other sources we learn that the property purchased by Mr. Taylor is that known as the Liberty mine in Fauquier County near the Rappahannock River. It is immediately contiguous to the Stringfellow and Randolph mines, the same auriferous veins passing through the three properties. Professor Sturges who has recently visited the district and carefully inspected this section gives $30 per ton as the lowest average of the whole mess of ore, his own assay of the Newman vein realizing $53 74 per ton. It is on these veins that the Randolph and Stringfellow companies are now operating. When the mills they are putting up are completed the result will probably cause an entire revolution in the popular estimate of Southern properties. Men of Mr. Alexander Taylor's acknowledged sagacity and discernment are usually a little in advance of the world in their financial operations. When they invest they do it with knowledge and those who follow them are safe in doing likewise if they find the opportunity. It must be remembered however that properties like those above named, cannot be picked up every day, even in Virginia.

FINDLEY.—The last advices report a yield of 2,246 dwts. to Dec. 1.

KING'S MOUNTAIN.—Work is being vigorously pushed. Advices to 16th report the new shaft eleven feet down.

SOUTHERN NEVADA.—The ledge now being worked is 8½ feet wide and averages over $400 per ton. Four hundred tons are now on the dump.

Silver Nugget Mining Co.

It is not generally known that there are at a moderate estimate at least twenty thousand mining claims now being worked in the State of Arizona, a very small percentage of which has been or ever will be brought to the notice of the New York public by their owners.

The reason of this is that the ore worked in these mines is of such exceeding richness that the owners gain more by retaining the property in their own hands than they could obtain by forming joint stock partnerships; it is also a necessary consequence of this exclusiveness that the want of the means required at the outset to erect the requisite machinery prevents any of these properties from being adequately worked and developed, and thus hundreds of claims that exceed the large bonanza mines in intrinsic value are returning only the smallest fraction of their wealth to their individual proprietors.

The owners of the Silver Nugget Mining Company are, however, adopting a course more in accordance with a liberal view of the subject. They possess several thousand feet of the richest silver bearing veins that have ever been discovered in that wonderful territory of metallic wealth, and instead of frittering away a small capital with inadequate results, they have associated with them some of the best known and most reputable citizens of San Francisco and this City, and with a strong Board of Trustees and a competent staff of managers are about to develope the property on a scale commensurate to its magnitude.

The investing public is not invited to join this undertaking on any speculative basis as to its value. The ledges have yielded, since their discovery two years ago, far more than enough to justify the statements of the promoters of the company; indeed, with the visual evidence of the enormous percentage of precious metal obtained from the ore already shipped to San Francisco, it would be difficult to use language that could exaggerate the simple facts. As an instance, the first shipment of ore by the discoverer Mr. Chilson to San Francisco, for treatment, weighed three thousand six hundred pounds and netted over all expenses *Eleven thousand six hundred dollars!* A second shipment which he made last year, of a somewhat larger bulk, cleared him no less than $15,000.

Mr. William Miller, an expert Mining Engineer of San Francisco, was employed to inspect the property on behalf of the promoters of the company. The summary of his report which lies before us is; "That after many years' experience on the Pacific Coast I have seen more ore of high grade from this company's mines than I have ever met with in any other district."

This from a practical mining engineer, conversant with the workings of the great bonanza mines, is remarkable testimony. Mr. Miller, while inspecting the property which he found was being worked by only six men provided with the commonest mining appliances and without any efficient machinery for hoisting, etc., made a careful inquiry into the results of the work that they had performed. He found that in addition to the shipments to San Francisco of which we have spoken, parcels were sent during last year to Globe City, at intervals of one or two months, to be milled; no distinction being made between high and low grade ores.

The returns from the seven shipments so made (which we condense from Mr. Miller's detailed report) and which aggregated 18 tons in all, were at the average of $423 per ton. This from a custom mill which fixes its own valuation on the ore, is the best evidence that can be given or required of the capacity of the property when worked with sufficient means and under competent management.

Those unacquainted with the characteristics of the silver ledges of Arizona might feel some diffidence at accepting these startling statements. They are however fully verified by other and independent sources of information. Our readers will have noticed our recent reports in our mining columns of the Isabella and other mines of the Globe District in which the Silver Nugget veins lie. Mr. F. Holbrook, an esteemed resident of this city, President of the Isabella, who has but recently returned from a visit to that section, in his graphic description of its mineral features, inspected several ledges which approximated in value that claimed by the Silver Nugget and one known as the "Happy Jack" which at least equaled it.

Yet, with all the resources of Arizona, such properties as the "Silver Nugget" are very exceptional. Mines that can pay a hundred per cent to the investors from the outset, as this is capable of doing, must always be rare. When they do occur those who go in first are the only ones who reap the full benefit.

☞ The Portsmouth Tribune says that the Scioto Valley Railroad Company have enough subscribed to their coal road into Hocking county to more than build it, and arrangements have been made in New York for every dollar of the bonds. The road will be forty miles long, and will be constructed immediately.

☞ The deed transferring the Detroit and Milwaukee Railroad to the new company has been formally recorded. Receiver Trowbridge's final account has been approved by the Circuit Court, and orders entered finally discharging him and cancelling his bond.

☞ Mr. William J. Averill has been temporarily elected President of the Ogdensburg and Lake Champlain Railroad Company.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "§."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "§."

SPECIAL NOTICE.

OUR SPECULATION.

A SUCCESSFUL INVESTMENT THROUGH THE HOUSE OF MESSRS. LAWRENCE & CO, 57 EXCHANGE PLACE, N. Y.

The man who makes a success as a publisher, must see a legitimate return before he can be induced to put up a dollar. When we learn that Mr. P. D. Drake, publisher of the Argus, has made a successful investment through a well known house in New York, we are forced to conclude that the house is a good one. As a matter of fact, he never invested a dollar in speculation previous to the present instance, which, as the result has proved, would seem to be not so much a speculation after all, but good judgment in knowing how to invest in a proper way, and in comprehending opportunities for making money with a certainty when they are offered. There are doubtless many people who, like ourselves, have heard about Wall street operations in stocks and cash securities, but whose specific knowledge of the subject is quite indefinite and not of a practical nature. For the benefit of these, as well as a matter of justice to the banking house of Messrs. Lawrence & Co., we will state the details of Mr. Drake's investment and result: While on a tour East stopping in New York city, a friend called Mr. Drake's attention to the new system of operating in stocks which Messrs. Lawrence & Co. have very successfully inaugurated. This method consists in combining or massing together the orders of thousands of customers, of various sums, into immense pools, and issuing to each member shares for the amounts invested, and these, united with the capital, skill and influence of the firm under whose direction the operations are carried on, bring large profits where no other method could possibly succeed. The plain, common sense business basis of this system commended itself to his approval at once, and he invested $20 in a combination then forming. The first notice of purchase and sale of stock in which his investment was put bears date September 9, of a turn made in Northwest preferred, on which the profit was ⅛ per cent, or $50 per 100 shares. Second notice, September 19, turn on Lake Shore, ⅛ per cent, or $50 per 100 shares. Third notice, September 27, turn on Northwest common, 2¼ per cent, or $225 per 100 shares. Fifth notice, September 28, turn on Lake Shore, ¾ per cent or $75 per 100 shares. Sixth notice, turn on Lake Shore, ¾ per cent, or $75 per 100 shares. Seventh notice, October 4, turn on Lake Shore 1 per cent profit, or $100 per 100 shares, and closing of the combination. Figuring up the profits on his investment of $20, deducting commissions and charges of all kinds, he received from his brokers, Messrs. Lawrence & Co. a total of $104 15, This was a most satisfactory profit, and he can heartily recommend this firm and their co-operative method of dealing in stocks to any of our citizens who may wish to invest in a successful way of making money—Rock Island (Ill.) Argus, Saturday, Nov. 2, 1878.

Messrs. LAWRENCE & CO'S new circular (mailed free) contains "two unerring rules for success" and full explanations, so that any can operate profitably by the combination system. Also "New York Stock Reporter," free.

☞ At the regular monthly meeting of the directors of the Chesapeake and Ohio Canal Co., held in Baltimore on the 12th inst., the report of the business of the canal for November last was received, showing the gross receipts to have been $38,381 28 and the tonnage 85,762 tons, an increase over the corresponding month of last year of 12,462 tons. The tonnage for the past year amounts to 630,016 tons, and for the year 1877 to 608,096 tons, being an increase of 26,920 tons. A resolution was passed leaving the time of closing navigation in the discretion of the president, and not later than 1st January next.

Wilmington and Weldon Railroad.

At the recent annual meeting of the Wilmington and Weldon Railroad Company, held in Wilmington, N. C., Hon. R. R. Bridgers was re-elected president, and Mr. B. F. Newcomer vice president. Messrs. William T. Walters, T. C. Jenkins, S. M. Shoemaker and B. F. Newcomer, were elected directors for the ensuing year. From the report which was presented it appears that the total receipts for the year were $487,815 86, and expenditures $312,169 78, leaving a balance in net receipts of $175,645 78, a net increase over the previous year of $18,738 20. The passenger traffic shows an increase of $10,847 66, but in freight traffic there is a decrease of $66,957 20, of which $58,101 38 was on through business. The assets of the company are $3,442 866 20, and the liabilities $3,127,531 78. Among the assets are 10,000 in stock of the Wilmington Bridge Railway Company, $3,900 in Wilmington and Weldon railway stock, $27,479 96 in cash, and $61,121 99 due from the Postoffice Department, Southern Express Company, &c.

☞ At the annual meeting of the stockholders and holders of certificates of indebtedness of the Eastern Railroad Company, held in Boston on the 11th inst., the following gentlemen were elected directors on the part of the stockholders: James W. Johnson, of Enfield, N. H., George W. Gill of Worcester, Willard P. Phillips of Salem. On the part of the bondholders the following directors were chosen: Alfred P. Rockwell of Boston, Geo. S. Morison of New York, Geo. P. King, of Boston, Chas. H. Dalton of Boston, John Cummins of Woburn, Samuel C. Lawrence of Medford. It was stated at the meeting that certificates of indebtedness had been issued to the amount of $13,275,000, leaving $225,000 to be issued.

☞ The Columbus and Sunday Creek Valley Railroad Company will receive proposals until noon of the 7th of January, 1878, for the graduation (including about thirteen thousand cubic yards of tunnel work), masonry, trestle work, timber, grubbing and clearing on about eight miles of railroad. Separate bids will be received for cross ties. Plans and specifications can be seen at the office of the Engineer on and after December 20. The office of the Company is at Moxahala, Perry Co., Ohio. J. G. Chamberlain is Chief Engineer.

☞ Mr. John W. Garrett has been unanimously elected President of the Baltimore and Ohio Railroad company. Mr. Garrett, in thanking the directors for the compliment, stated that it was the twenty first consecutive year he had been elected to the position.

☞ The Secretary of the Treasury issued on the 18th inst. a call for $10,996,100, being the remainder of the bonds outstanding under the act of March 3, 1865—consols of 1865—not included in previous calls.

☞ The Walla Walla and Columbia River Railroad, will, in January, pass into the possession of the Oregon Steamship Company.

☞ The Delaware and Raritan Canal will close on Saturday, the 21st instant.

Philadelphia Stock Exchange.

American Railroad Journal.

Saturday, December 21, 1878.

Financial and Commercial Affairs.

Foreign advices continued of an unfavorable and somewhat discouraging tenor in the financial and commercial lines, though no new event of a disturbing character was reported.

In the home markets, the events of noteworthy interest were the decline of Gold to par, (on Tuesday, 17th inst.,) the increased activity in Money, and the more liberal business in Government and State bonds, and the favorites of the Railway Mortgage loans, on investment account. Reports and rumors adverse to the trunk railway freight traffic, through competition and cutting of rates, and to the Coal carriers, as to the outlook for the coming year, tended to weaken confidence in financial values. In commercial circles, a fair measure of activity was reported for the season, with the trade, growing out of the preparations for the Christmas and New Year Holidays, especially brisk.

A livelier inquiry has been reported for Money, chiefly in the line of call loans, which served to strengthen rates, on, however, a changeable market. Lenders reported less of difficulty in placing temporarily and to more advantage, important balances, though in the way of discounts, business has been on a very moderate scale, and indicative of no urgent need of accommodation on the part of the mercantile interest. The latest City Bank Statement was deemed much more favorable. The City Bank exhibit of last week indicated a reduction in the loan and discount average of $1,768,800, and an increase in the item of

circulation of $83,400. The average of deposits was cut down $924,400. The legal tender reserve was augmented $517,500; and the specie average $713,200. The City bank net reserve of specie and legal tender notes now shows an excess over the legal requirement of reserve to liabilities of $9,827 000, against $8,366,950 the preceding week, or a gain of $1,461,750. The City bank exchanges in currency reached $380,741,511, or a daily average of $63,456,916. Call loans closed here at 3@6, chiefly at 3½@5 per cent; and best discounts at 4@6 per cent per annum.

The outstanding amount of legal tender notes is $346,743,071. The National bank circulation is now $322,046,095 of currency notes and $1,468,820 of national gold bank notes. National Bank notes received at the Treasury Department last week for redemption were to the amount of $1,665,000. The available cash balances in the National Treasury at the close of business on Tuesday were: Coin, $228,100,301; currency, including special fund for redemption of fractional currency, $11,654,807.

On Tuesday, the subscriptions to the new U. S. 4 per cent loan were up to $1,406,300 for the day.

A very good demand prevailed for Government Securities, almost wholly on investment account, and prices, though variable, were, as a rule, stronger, on lighter and less urgent offerings of the favorite issues, foremost of which were the 6 and 5 per cents of 1881, and the new 4½ per cents. The general market on Wednesday closed firmly. At the close on Wednesday the current quotations were as follows:

United States 6s, 1881, registered, 106⅛@106¾; do. coupon, 109⅜@109½; 5-20s, 1865, new, registered, 100¾@101; do. coupon, 103¾@104; do. 1867, registered, 102¾@103; do. coupon, 105¾@105⅞; do. 1868, registered, 106¼@106¾; do. coupon, 109⅛@110; ten-forties, registered, 108@108½; do. coupon, 108@108¼; 5 per cents, 1881, registered, 106½@106⅝; do. coupon, 106⅛@106⅜; 4½ per cents, 1891, registered, 104⅛@104⅜; do. coupon, 104½@104⅝; 4 per cents, 1907, reg., 99½@99⅝; do. coupon, 100⅜@100⅝; sixes, currency, 119¾@120.

The amount of U. S. bonds held by the Treasurer of the United States as security for the National Bank circulation is $349,155,000, and $18,933,300 as security for public deposits.

More demand has been noted for the favorites of the State Bond list, which have been quoted generally higher, though somewhat unsettled. Railway Mortgages have been more freely dealt in, chiefly on investment account, at firmer, though variable prices, the favorites of the actual interest bearing loans, closing in favor of holders. And in the line of Railway and Miscellaneous share property business has been to a fair aggregate but the fluctuations in prices have been frequent, and, in instances, quite sharp, due mainly to speculative manipulation, which, at times, was very obviously bearish. The resulting activity in Money, partly through shifting of loans, tended to aggravate the disturbance of values. The unfavorable reports and rumors relative to the trunk line freight competition, and the position and outlook of the Coal carriers, were also depressing. The general market wound up somewhat more firmly, though irregularly.

In the Gold line, the event of the week was the decline to par on Tuesday, the first day on which transactions were made on this basis ($20,000 sold at 100 about noon on that day) in sixteen years Apart from this practical anticipation of legal resumption of specie payments on the first of the coming month of January, little of interest occurred in the market, the speculation lapsing into dullness soon, in all likelihood, to come wholly to an end, thus removing Gold from the list of quotable commodities. The extremes during the week have been 100@100⅛, closing on Wednesday at 100 as against 100⅛ on Wednesday of the preceding week. The specie outflow last week was only $236,067—making the total exports of specie hence since January 1, $12,118,998 against $24,784,266 the same time in the preceding year. The imports of specie at this port last week were to the amount of $43,170, and since January 1st have been $18,846,209 as against $14,448,631 same time in the preceding year. The Customs demand for gold in the local market last week reached only $1,533,561 or an average of about $255,593 per day.

A somewhat freer movement has been reported in Foreign Exchange which has been quoted higher, though leaving off weaker. Bankers' sixty day bills on London closed on Wednesday at $4 82½@$4 83⅛; sight bills on London at $4 87⅛@$4 88⅛ to the £ sterling. Cable transfers, 4 88¼@4 88¾. The week's imports of Dry Goods and general merchandise were to the specie value of $7,272,070 as against $3,969,695 the corresponding week of 1877. The week's import entries of Foreign Merchandise at New York included $1,177,106 of Dry Goods, and $6,094,964 of General Merchandise. The week's exports of Domestic Produce and Miscellaneous Goods from this port were to the aggregate value of $6,331,883 against $6,319,059 same week in 1877; and since Jan. 1 have been $333,858,429 against $283,498,003 same time last year.

Beyond the further important purchase of new Rails, little of interest has been reported in Metals which have been quoted generally unchanged in price. Pig Iron quoted for Glengarnock, at $22 50; Coltness, $23 50@$24; No. 1 American Pig at $16 50@$18 50; No. 2 do. at $15 50@$17 50. Forge, $15@$15 50. New Iron Rails at works, $33@$35. Old Rails, $18 50@$19. Wrought Scrap, $20@$21. Steel Rails on the basis of $42@$44. Further sales of 35,000 tons new Steel Rails and 5,000 tons new Iron Rails were reported, for forward delivery, within our range. Ingot Copper, 15⅞ct.@16. Domestic Pig Lead, 4 cts.

Domestic Produce has been less active, and prices have shown depression and irregularity. Breadstuffs closed generally weak, Provisions heavy. Cotton has been more sought after for early delivery, and has been unusually active in the way of options, with prices however quoted lower and variable; leaving off for early delivery with steadiness, and in the way of options stronger. Low Middlings closed for prompt delivery at 8 9-16@8 11-16; Middlings at 8 15-16@9 1-16. Options left off for December basis of Middling at 9; January at 9.11; February at 9.25; March at 9.38; April at 9.51; May 9.62; June at 9.73; July at 9.81; August —@— on the basis of Middling quality.

Naval Stores and Petroleum have been in unusually limited request, in the local market, though buyers have had the advantage as to prices. Foreign merchandise has been inactive, and values, in several instances, have been again quoted weaker.

Ocean freights have further declined, on freer offerings of accommodation and a moderately active demand from nearly all sources. For Liverpool steamer rates at the close for Grain quoted at 5¾d. per bushel. Flour, at 2s. 6d.@3s. Provisions, 25s.@32s. 6d.; Leather, 30s.@40s. Measurement Goods at 20s.@28s. 9d. per ton; Cotton, 7 32d.@⅛d. per lb. Tobacco at 30s.@32s. 6d. Liverpool, by sail: Cotton, 7 32d. Grain at 4s. 9d.@5s. per quarter; Flour, 2s.; Measurement Goods, 12s. 6d.@15s. Tobacco 27s. 6d.; Oil Cake at 20s. Grain rates on charter hence for Cork and orders left off at 5s. 9d.; for the Continent Grain at 5s.@6s., as to ports of discharge. Tonnage for Refined Petroleum at 4s. 3d. to Cork, for orders, at 3s. 8d.@3s. 6d. to the Continent, and 4s. 6d.@5s. to the Baltic. Through freights from Chicago for Liverpool by steam quoted down to 50@55cts. per 100lbs.

At the auction sale of 100,000 tons Scranton Coal on Wednesday prices declined materially; the average having been $2 72, as against $3 42½ on the preceding sale. The range was from 2 87½@$3, as against $3 05@$3 75 at the previous sale. Stove went at 2 95@$3.; Grate at 2 55; Chestnut at 2 42½; Steamer at 2 87½@2 45; Egg at 2 65@2 70.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

Scales and Testing Machines.

Messrs. Riehle Bros., Philadelphia, have continued busy throughout the "hard times," which is an evidence that their Scales and Testing Machines are of a superior kind. Perhaps in no other branch of industry has there been such rapid strides made in the way of improvements, and this firm has always been foremost in this respect—always ready to make new patterns expedially adapted to the requirements of their patrons, and, maintaining their reputation of doing only the best workmanship, have gained an enviable reputation and built up a large trade. Messrs. Riehle Bros. state that they have sold more platform and wagon scales this year than in any previous year, although, of course, they have not been able to realize as good prices. They are now filling a large order for a Western road for track, depot and platform scales, and also have orders for several furnace charging scales, which is an evidence that the blast furnaces are getting busy. Testing machines for testing iron and other metals are becoming in great demand, and in this line they have the precedence over all other makers, having made it a regular branch of their business for the last ten years, and have introduced them to the Government and most of the leading iron companies, railroad companies and colleges throughout the country. Their store is at 50 South Fourth street, and the works are situated on Ninth street, above Master, and covers a large space ; having their own foundry, carpenter, blacksmith, machine and erecting shops, draughting rooms, etc., they are prepared to fill orders in large quantities at short notice. They have also steam repair shops, where they have every facility for repairing scales at remarkably low charges. Here may be found scales from a few ounces up to hundreds of tons capacity undergoing the regular routine of sharpening and adjusting to a perfect balance. Scales of other makes as well as their own are received daily, and subjected to just as much care in regulating and repairing as their own, and broken parts are readily furnished from their foundry. They employ a number of hands and have the largest and most complete scale works in the State, and are better prepared to meet the market in quality and prices than any of their competitors, who are only represented in the city by agents.

☞ The Empire Gold Mining Company will pay on the 31st, its fifth monthly dividend of ten cents in gold per share (par value $10) out of the net earnings for the month of November, at the office of the Treasurer, S. V. White, No. 8 Wall st., N. Y.

Samuel J. Reeves.

Mr. SAMUEL J. REEVES, of Philadelphia, whose death is announced as having taken place at his summer residence at Phœnixville, Penn., on the 15th inst., was the son of Mr. David Reeves, of Bridgeton, Cumberland county, New Jersey, who subsequently removed to Philadelphia. His father was the founder of several iron works. The deceased was born in Bridgeton, and was a graduate of Princeton College, and after leaving that institution he became associated with his father in the different enterprises controlled by that gentleman, which embraced, among others, the Phœnix Iron Company of Philadelphia, whose works at Phœnixville were established in 1790, and are among the largest in the country. These works came into the possession of Mr. David Reeves about 1827. They consisted in 1856 of three furnaces, but have since been greatly enlarged. The business of the company is of a varied character, embracing all sorts of constructional work, such as beams, girders, rails, ship and building iron and post columns.

Mr. Samuel J. Reeves was also a member of the firm of David Reeves & Son, successors of Reeves, Abbott & Co., and owner of the Safe Harbor Iron Works, at Lancaster, and of the firm of Reeves, Buck & Co., the owners of the Cumberland Nail and Iron Company. He was a large stockholder in the Cambria Iron Company, was President of the American Iron and Steel Association and was prominent in the direction of several other business enterprises.

The Phœnix Iron Company, besides furnishing material to a number of the prominent public buildings of Philadelphia, among which are the new Masonic Temple, the Academy of Fine Arts, the Academy of Natural Sciences, the Fidelity Insurance Company and the new post office, secured for itself a world wide reputation by the erection of a number of bridges in Canada and South America.

The Girard Avenue Bridge, in Philadelphia, one of the finest bridges in the country, was constructed by the firm, as were also the new iron bridge at Havre-de-Grace, the International Bridge at Black Rock, New York, and one at Albany. The greater part of the iron roadway of the New York Elevated Railroad was furnished by the firm. The works have been for years under Mr. Reeves' special supervision, who made himself thoroughly acquainted with every branch of the business. Some years ago he patented a column or tube, not rectangular, built of riveted sections, to be used for the cords and posts of bridges.

☞ Application will be made at the ensuing session of the Dominion Parliament for an act to incorporate a company to construct a railway from the international boundary west of the Red River, thence to Winnipeg and westward to the intersection of the line of the Canada Pacific Railway; also, a branch railway to connect therewith from a point on the Red River at or below Winnipeg, with power to construct a line of telegraph connected therewith.

☞ The officers of the New York and Manhattan Beach Railway Co., elected on the 17th inst., are: President, Austin Corbin; Secretary and Treasurer, G. S. Moulton; Managing Director, D. C. Corbin. The Board of Directors stands the same as last year.

Erie Railway.

The following is the annual report of the Erie Railway (Receiver Jewett), as received and filed by the State Engineer:

STOCKS AND DEBTS.	1878.	1877.
Capital stock by charter	$86,536,910 00	$86,536,910 00

Miscellaneous	65,389 69	141,922 62
Totals	$11,021,145 66	$14,708,889 92
Deficit	208,114 68	1,301,084 51

The earnings are reported to May 31, 1878.

New York Canals.

The following is a comparative statement of the business on the canals for the season just closed:

Tonnage for 1878	5,126,270
Tonnage for 1877	4,955,963
Increase	170,307
Tolls for 1878	$992,988 12
Tolls for 1877	880,896 42
Increase	$112,091 70

Western Union Telegraph Co.

The Report of the Western Union Telegraph Company for the quarter ending December 31, 1878, is as follows:

EXECUTIVE OFFICE,
WESTERN UNION TELEGRAPH COMPANY,
NEW YORK, December 11, 1878.

In the Report presented by the Executive Committee at the last Quarterly Meeting of the Board, held September 11, 1878, the net profits for the quarter ending September 30 (August being partially and September wholly estimated) were stated at $1,001,864 73.

The official returns for the quarter ending Sep-

tember 30) showed the profits to be $1,137,578 94, or $136 214 21 more than the estimate.

The following revised statement, based upon complete returns, will show the condition of the company at the close of the quarter ended September 30, 1878:

Surplus July 1, 1878, as per last quarterly report		$369,083 56
Net profits, quarter ended September 30, 1878		1,137 578 94
		$1,506,662 50
From which deducting—		
Dividend of 1½ per cent, paid October 15, 1878	$525,936 00	
Interest on Bonded Debt	107,350 00	
Interest on amount due for purchase of Atlantic and Pacific Tel. Stock	1,847 60	
Sinking Funds appropriations	20,000 00	
Construction account	29,112 40	
Purchase of sundry telegraph stocks, patents, etc.	3,534 63	
	$687,780 63	
Less portion of the Sinking Fund for the Currency Bonds of 1900 (which was set aside previously) returned to the Company by the Union Trust Co. Trustees, because of the drawn bonds not having been presented for redemption	40,000 00	
		647,780 63
There remained a surplus, October 1 1878, of		$858,881 87
The net profits for the quarter ending December 31 instant, based upon official returns for October, nearly complete returns for November, and estimating the business for December, reserving amount sufficient to meet the claims of the Atlantic and Pacific Telegraph Company under existing agreements, will be about		$1,014,795 53
Add surplus, October 1, as above		858,881 87
		$1,873,677 40
From which appropriating—		
Payment of debt incurred August, 1877, by purchase of A. & P. Tel. Co. Stock	$906,250 00	
Interest on Bonded Debt	107,350 00	
Construction, purchase of stock of leased lines etc.	60,000 00	
Sinking fund appropriations	20,000 00	
		1,093,600 00
Leaves a balance of		$780,077 40
A dividend of 1½ per cent on the capital stock outstanding requires		525,936 00
Deducting, which leaves		$254,141 40

In view of the preceding statements the committee recommend the adoption by the Board of the following:

Resolved, That a dividend of one and one half per cent from the net earnings of the three months ending December 31, be, and is hereby declared payable on the 15th day of January next, to stockholders of record at the close of business on the 20th day of December, instant.

Resolved, That for the purpose of such dividend the stock books of the company be closed at three o'clock on the afternoon of the 20th of December, instant, and be re-opened on the morning of the 16th of January next.

Respectfully submitted,

NORVIN GREEN, President.

The Coal Trade.

The total tonnage of anthracite coal from all the regions for the week ending December 7th, as reported by the several carrying companies, amounted to 268,084 tons, against 466 001 tons in corresponding week last year, a decrease of 197,917 tons. The total amount of anthracite mined for the year is 15,995 124 tons, against 19,103,609 tons for same period last year, a decrease of 3,108,485 tons. The quantity of bituminous coal sent to market for the week amounted to 71,545 tons, against 47,655 tons in corresponding week last year, an increase of 23,890 tons. The total amount of bituminous mined for the year is 8,250,749 tons, against 3,897,954 tons for corresponding period last year, a decrease of 147,205 tons. The total tonnage of all kinds of coal for the week is 339,629 tons, against 513,656 tons in corresponding week last year, a decrease of 174,027 tons, and the total tonnage for the coal year is 19,245,873 tons, against 22 501,563 tons to same date last year, a decrease of 3 255,690 to s. The product of the mines of the Cumberland coal region for the week ending December 7 was 28,852 to s, and for the year to that date 1 599 575 tons, an increase of 117,857 tons as compared with the corresponding period of last year. The shipments to the Baltimore and Ohio Railroad were, for the week, 22,392 tons; for the year, 847,086 tons, an increase of 107,192 tons as compared with 1877. The shipments to the Chesapeake and Ohio Canal were, for the week, 3,223 tons; for the year, 606,925 tons, an increase of 26,185 tons as compared with 1877. The quantity of coal and coke carried over the Pennsylvania Railroad for the first week of December was 107,212 tons, of which 84 020 tons were coal, and 23,192 tons coke. The total carried for the year is 4,605,154 tons, of which 3,552,546 tons were coal and 1,052,228 tons coke. These figures embrace all the coal carried over the road, east and west. The Reading Railroad carried 108,000 tons of anthracite coal for the week ending December 14, of which 36,000 tons were sent to Port Richmond. The shipments thence during the week amounted to 35,500. The receipts at Perth Amboy for the week ending December 7 were 23,069 tons, the shipments 16,125 tons, leaving on hand a stock of 83,871 tons.—*Phila. Ledger, Dec.* 16.

☞ The officers of the Rhode Island and Massachusetts Railroad Company, elected on the 11th inst., are: Harvy Chase, President; Stafford W. Ranee, Vice President; and A. B. Chase Secretary and Treasurer. The report of the directors for the year ending September 30, 1878, shows the gross earnings to have been $834,698 78, the expenditures $436,582 79, and the net earnings $398,115 99—a decrease, compared with the previous year, in gross earnings of $58,116 64, a decrease in expenditures of $92,235 83, and an increase in net earnings of $39,118 68.

NEW YORK, December 18, 1878.

THE DIRECTORS OF THE EMPIRE GOLD MINING COMPANY have this day declared a DIVIDEND of TEN CENTS in gold PER SHARE, (par value $10,) out of the net earnings for the month of November, payable at the office of the Treasurer, S. V. WHITE, No. 8 Wall-st., on the 31st day of December inst.

The books to close on December 26, and reopen January 2d, 1879.

GEO. H. HANDFORTH, Secretary.

American Railroad Journal.

New York, Saturday, December 28, 1878.

1878 AND 1879.

Time, in his eternal onward march, leaves his footprints in the years, each one marking another completed span, which men call progress if they judge that their labors in the great work of evolution have kept pace with their opportunities.

How then—gauging the present by the past—does the record of our great commonwealth of States stand? Does our annual stock taking of material accumulation and moral improvement give fresh pledges to the future by its proof of well bestowed and fruitful labor in the by gone year? We most unreservedly believe that it does do so, and that to a degree which nothing but an almost unexampled productiveness in the great staples of our soil has enabled us to attain.

Our cotton crop for the past season exceeds the largest of any previous year, and what is of yet better omen for the great Southern Section of the land the freedman shares with his former master the product of their joint efforts. This is a happy proof that independence has not necessarily begotten idleness in the emancipated slave, and that intolerance is no inherent vice in the blood of the gallant Southerner.

Despite the heavy affliction of the yellow fever, and the consequent business derangement throughout the valley of the Mississippi, which is estimated to have cost from first to last a hundred million dollars, the South has taken its longest stride since the war in the colonization of its vast territory and in the reparation of the losses it then sustained. Many miles of new and inexpensive narrow gauge railroads have been laid, and rich districts opened for commerce, with an economy of expenditure unknown to the railroad contractors of former years.

In wheat and corn and cattle, and in the rich grasses which furnish butter and cheese, our agriculturists have been blessed beyond all precedent, both East and West, and all the resources of transport by land and water have been taxed to their utmost to convey the superabundance to our seaports, whence they have been dispersed to markets in every quarter of the civilized world, at prices low enough to force a welcome reception, yet still sufficiently high to give a handsome profit to their producers. This work of moving the crops has been the salvation of our great trunk railroad lines and their numerous feeders. Many roads still languish under an undue weight of mortgage debt, and will continue to do so until their burden is swept away by voluntary or involuntary arrangement; but the great bulk of those who have already undergone the process of reconstruction show a satisfactory surplus. Business and population have grown around such as were in advance of their time a year or two ago, and solvency is now a rule where formerly it was the exception. A comparatively small mileage of new roads has been built during the past year; but the low price of steel rails, which can now be bought and laid for what was the first cost of iron rails a few years ago, has been widely taken advantage of by our railroad companies, and the roadbeds and metal of our leading lines are now for the first time truly entitled to the term of "permanent way."

Our passing review of the material progress of the country would be very inadequate were we to omit to refer to the wonderful development of its mineral wealth now taking place. What proportions this development will assume it is impossible to predict; but the new gold fields of the Southern States, and the wonderful possibilities that Arizona presents for the production of silver, point to a near future when the standard of metallic values will have to be altered.

Every medal has its reverse, and the long continued distress of our manufacturing population reminds us that the problem of the speedy and equable diffusion of prosperity has yet to be solved. The fixity that Resumption gives to values, and the diminution of existing stocks, are alike facts that will ensure a renewed activity in our manufacturing centres early in the coming year; and every concurrent sign indicates that 1879 will exceed the date to which we are now bidding farewell, in all that can add to our national contentment.

To the subscribers of the Journal, whose birth antedates the lives of many of its readers, its proprietor presents his assurance that its tabular statements will continue to be, as they always have been, a faithful synopsis of the status of every railroad on this continent; and that its reading matter, in keeping time with the progress of the day, will mirror as truly as may be every advance in the varied interests that come within its scope. Every issue of a journal whose age makes it a permanent feature in our railroad literature, like the closing year, is but a performance and a promise to which all may fitly say: *Vale et Salve.*

Northern Pacific Railroad.

Bids have been received by the Northern Pacific Railroad Company for building 205 miles of the road from the Missouri to the Yellow Stone. The directors concluded, however, to let only the first 100 miles west of the Missouri River, the bids for which ranged from $4,000 to $5,000 per mile. The work is to be paid for in cash, the money to be raised on a first mortgage bond on the new 100 miles of road. It was deemed impracticable to build the remaining 105 miles of the Missouri division without first making a better survey. These 105 miles lie across the Sioux country. During the coming year an instrumental survey will be made. This year cross-ties for the first hundred miles will be cut on the company's land; the iron will also be worked and everything put in readiness to begin grading before the spring is far advanced.

Boston and Maine Railroad.

The gross earnings of this road for the years ending September 30, 1877 and 1878, were :

	1877.	1878.
From passengers	$1,259,361 38	$1,260,673 37
" freight	836,579 16	700,248 56
" mails	22,455 82	24,446 23
" expresses	54,806 19	55,372 72

Taxes	95,672 35	90,304 90
Total expenses	$1,606,054 97	$1,446,567 72
Earnings less exp	$660,964 46	$737,891 24
Interest	245 802 78	247,642 12
Net income	$415,161 73	$490,249 12
Dividends, May and Nov.	350,000 00	420,000 00
Balance	$65,161 73	$70,249 12

Compared with the year 1877, the gross earnings of 1878 show a decrease of $82,560 47, with a decrease in expenses, including interest, taxes and rent of leased lines, of $157,747 86—showing an increase in the net income, as compared with the previous year, of $75,187 39. The report says :

The stockholders of this road have no reason to complain of its financial success in the past. Beginning with dividend No. 1 in October, 1838, we cover a period of forty years, during the whole of which time no stockholder has had occasion to mourn, because he did not receive his annual return for his investment.

Those stockholders who have held their stock from the commencement, have received, including the dividend payable on the 15th inst., $299 50 on each share ; and in addition to this sum, all taxes on this stock have been paid for many years by the corporation. This has not been a bad investment. We would have you seriously consider that these results have been obtained only by the most prudent management, with constant watchfulness and care.

Your road had a small beginning. It is now forty-two years since the first section of this road was opened, which was from Andover to Wilmington—seven and a half miles—where it made connection with the Lowell road. Some years later, it was opened to Bradford, Exeter, Dover, and Boston, but not until 1873 could you boast of running on your own iron to Portland. At first, your mileage was small, your rolling stock limited, and your receipts meagre. As late as 1862, you had but 25 locomotives, 54 passenger cars, 558 box, platform, and other cars. Your rolling stock now consists of 77 locomotives, 133 passenger cars, 25 baggage, 3 postal, 1 milk, and three express cars, and 1,690 box, platform, and other cars.

In order to show you the magnitude and progressive character of your corporation, it may be stated that in 1862 the gross revenue from all sources was $782,427 64, and in 1878 was $2,164,458 96—nearly three times greater than in 1862. This exhibit speaks well for the future. We know of no reason why, with a revival of business, with old time prosperity throughout the manufacturing districts, the receipts may not continue to increase. The increase in the next sixteen years, may not be as great as in the past, but we have no question it will be regular and permanent.

No addition, during the last year, has been made to your construction account, while much money has been expended for objects which might most properly have been charged to construction. The last payment on the betterment tax for the extension of Washington Street in Boston, the new engine house in Somerville, the new transfer station in Portland, the new passenger house in Lawrence, the passenger house at Medford (Wellington's), and 67 merchandise cars purchased, aggregating more than $45,000, and 1,669 tons of steel rails laid down during the year, have been charged to expenses.

The Legislature of the State of Massachusetts, at their last session, passed an act in reference to the flats and basin, and the creek connected therewith, of Prison Point Bay, in the city of Boston, requiring the owners thereof to fill said flats, etc., to a grade not less than ten feet above mean low water. This corporation, owning a large portion of said flats, are compelled by said Act to fill the same, and commenced this work on the fourteenth day of October last. While this property by such filling will be made more available for business purposes, it is a severe tax upon us to be compelled to perform this work within the short time named in said Act ; and the justice of an Act whereby either corporations or individuals are compelled to spend thousands of dollars in raising the flats or lowlands in the State for the benefit of the few, is very questionable.

Our floating debt has been reduced during the year, and stood at the close of business, on the thirtieth day of September, 1878, at $22,009 08, none of which sum is due and payable.

The passenger and freight business of the past year, as compared with that of the previous year, stands as follows :

1877.	
Passengers carried	4,442,019
" " one mile	61,779,576
Tons of freight carried	698,881
" " " one mile	36,036,193
1878.	
Passengers carried	4,564,171
" " one mile	64,292,723
Tons of freight carried	582,851
" " " one mile	28,949,165

Showing a net gain of 122,152 passengers, and for one mile a net gain of 2,513,147 ; and in freight a loss of 116,030 tons, and for one mile a loss of 7,087,028 tons.

Our road bed, track, and rolling stock have been kept in good condition ; without this no road can for any length of time be operated successfully. New turnouts and sidings have been made in several places during the year in order to facilitate the various operations of the road.

We have laid 16 miles and 2808 feet of steel and 2 miles and 4257 feet of iron rails during the year.

We have now 108 miles and 961 feet of steel track.

Every year new structures, or unusual repairs on the old ones, are required. The past year has not been an exceptional one in this respect. A new and convenient engine house of brick has been constructed at Somerville, with a capacity for housing ten engines ; much of the material for this structure came from the engine house at South Berwick Junction, which was no longer required at that point. A new and convenient station and dwelling house combined has been erected at Wellington's, in Medford, near the point where the Medford Branch connects with the main line. A new passenger house, and dining room has been erected on the main line in Portland at the junction of the Maine Central and Portland and Ogdensburg Railroads. By this we shall save for all time hereafter the heretofore vexatious delay and expense of running on and backing off a siding by every passenger train running in connection with the Maine Central Road. The old station at this point is conveniently located for, and will be converted into tenements for the use of our men. We are now constructing and have nearly completed a new passenger house of brick at North Lawrence, unique and ornamental in design and finish ; it will supply a much desired want at this place ; when completed we believe that it will not only please, but be entirely satisfactory to our numerous patrons at Lawrence. New sheds for sheltering passengers have been constructed on both sides of our passenger house at Lowell Junction ; also a shed and baggage room in connection with our passenger station at Old Orchard Beach. New turn tables have been constructed at Portland, Newburyport, Biddeford, and Farmington. New pumping stations have been erected at Newburyport and Bradford. A new draw has been placed in the bridge over the Mystic River in place of the old one, that began to show signs of weakness. The easterly side of our bridge over Merrimack River at Lawrence has been thoroughly repaired, with new deck and deck timbers and new track stringers and ties. By an Act of the Legislature of the State of Maine, this road is permitted to unite with the Portland, Saco and Portsmouth Railroad Company in constructing, maintaining, and using jointly a union depot at North Berwick Village. Contracts have been made for the construction of such building, and the same will be completed at an early day. This road has had no depot for passengers at this place, and by this union the public will be much better accommodated, and considerable expense saved to both companies. Such repairs, constructions, and improvements are constantly required in the operations of a railroad, and we need not flatter ourselves that because we have done everything that seems to be required at the present time, that hereafter we shall be exempt from the same class of repairs and improvements ; such is not the experience of railroad managers ; each year brings its new demands and requirements.

The equipment consists of 77 locomotives, 11 snow ploughs, 165 passenger and baggage cars, and 1690 merchandize and other cars.

Treasurer's Balance Sheet, Sept. 30, 1878.

Construction		$9,513,215 54
Equipment		1,242,280 00

Lake Shore and Michigan Southern Railway.

The statement of the Lake Shore and Michigan Southern Railway for the year 1878, (estimating December same as last year) is as follows:

	1877.	1878.
From freight	$9,476,607 00	$10,073,541 00
From passengers	3,203,199 00	3,060,825 00
From all other sources	825,352 00	868 328 00
Totals	$13,505,158 00	$14,002,694 00
Operating expenses and taxes	8,963,965 00	8,484,983 00
Per cent	66.37	60.61
Net earnings	$4,541,193 00	$5,517,711 00
Interest, leases & dividend guaranteed stock	2,775,657 00	2,750,000 00
Balance	$1,765,536 00	$2,767,711 00
Per share	3.57	5.59

Deduct—		
Sinking Fund, 1878	$250,000	
Pittsburg and Lake Erie R. R. stock	200,000	
Construction, &c	200,544	
Ashtabula accident settlements	76,019	
		726,563 00
Balance		$2,041,148 00
Less dividend, No. 15, August 1, 1 per cent		494,665 00
		$1,546,483 00
Dividend No. 16, payable Feb. 1, 1879, 3 per cent		1,483,995 00
Surplus for the year		$62,488 00

The operating expenses include 10,000 tons steel rails, all new buildings, &c. The road and equipment have been fully maintained. There is no floating debt. The funded debt has been reduced $250,000 by the operation of the sinking fund, and now stands at $35,500,000.

C. P. LELAND, Auditor.

New York, December 20, 1878.

☞ Bids for the construction of the branch of the Shenandoah Valley Railroad from Shepherdstown to Bedington have been received, examined and considered, and the necessary steps taken to put under contract at an early day the work between these points.

Michigan Central Railroad.

The statement of the Michigan Central Railroad Company for the six months ending December 31, 1878, (December being partly estimated) is as follows:

Gross earnings		$3,780,000 00
Operating expenses (55½ per cent)		2,097,500 00
Net earnings		$1,682,500 00
Interest and rentals		822,960 00
Leaves 4 58-100 per cent		$859,540 00
Paid floating debt in shape of notes of the company which were outstanding June 24, 1878, of which $326,000 were for loans at banks.		451,239 28
Balance		$408,300 72
A 2 per cent dividend was declared, requiring		374,764 00
Leaving surplus of		$33,536 72

C. VANDERBILT, Treasurer.

December 20, 1878.

Philadelphia and Reading Railroad.

Comparative statement of gross receipts, tonnage and passengers, of the Philadelphia and Reading Railroad Company, for the month of November:

	1878.		1877.	
Gross receipts:	Month.	Year to date.	Month.	Year to date.
Railroad traffic	$1,856,880 64	$11,589,592 80	$984,657 71	$12,142,910 07
Canal traffic	219,929 99	1,010,337 39	118,479 03	1,011,509 05
Steam colliers	82,870 31	570,071 71	66,080 72	652,454 87
Richmond coal barges	18,763 59	111,491 78	13,893 96	131,778 31
Total Railroad Co.	$1,678,894 53	$13,281,493 68	$1,183,111 42	$13,938,652 80
Reading Coal & Iron Company	1,129,081 86	8,192,077 99	954,385 99	10,007,021 94
Total of all	$2,807,476 39	$21,423,571 67	$2,087,497 41	$23,945,684 24
Tonnage and passengers:				
Tons of coal on railroad	803,807 17	5,909,140 04	665,480 00	7,255,317 11
Tons of merchandise	271,141 15	3,169,948 05	246,849 12	3,151,629 11
Passengers carried	471,192	6,376,413	489,635	6,674,889
Coal transported by steam colliers	48,834 00	574,991 00	56,771 00	599,368 10
Tons of coal mined:				
By coal and Iron Co.	878,590 14	2,727,606 01	372,247 13	3,794,528 16
By tenants	144,054 15	1,100,181 00	133,940 11	1,389,108 07
Total mined from lands owned and controlled by Co. & from leasehold estates	522,645 09	3,827,789 01	506,188 04	5,183,637 03

Illusory Averages.

Some remarkable illusions are current respecting the average yield of the precious metals from each ton of ore extracted from the mines on the great Comstock lode. The belief that this average rises into the hundreds is so prevalent that its comparison with mines in other sections which only claim a modest fifteen or twenty dollars per ton, is used to the prejudice of the latter, and consequently many excellent properties fail to obtain the preliminary capital necessary to work them because their owners are honest enough to base their averages on the whole body of paying ore, instead of alluring support by averages deduced from selected samples.

The fact is that fifty dollars per ton is a very high average for any large mass of ore. The total return from 6,324,210 tons of quartz and other rock extracted from the nineteen great bonanza mines from the time they were opened down to two months ago, is within a fraction of 272 millions of dollars, which gives an average of less than forty-three dollars per ton.

The highest return from any single mine of these nineteen is furnished by the Consolidated Virginia, which paid $98 10 for each of the eleven hundred thousand tons of rock taken out. Crown Point, Belcher and Ophir are the only others that exceed forty dollars per ton and the range of all the remainder is from $18 to $34. Gold Hill, which has given twenty-six millions of dollars to the total sum produced, had to crush above a million tons of rock to achieve this result, its average being $25 29 per ton. No account is taken in these figures of the enormous mass of unproductive matter removed, much of it from great depths, to arrive at the paying rock, or of the millions of tons of water pumped up at vast expense, to permit of the mines being worked. This non-paying labor does not diminish the average yield of metal in each ton of ore, but it has so appreciable an effect in reducing the profits of the owners of the mines that in many cases it is absolutely cheaper to leave twenty dollar rock in the drifts and at the bottom of the shafts than to go to the expense of excavating and raising it.

It is easy to deduce from these statements, that a mine which honestly shows any average approaching one hundred dollars per ton, is a very rare exception to the general rule; and that in fact any mine which yields the Comstock average of forty-three dollars is remarkably good property.

A comparison of dividends paid by various mines would further prove that those working low grade ores ranging from $7 per ton upwards are more to be depended on for permanent returns than those of the bonanza class, and that economy of production is at the least as important a question as the quality of the ore.

☞ Work has been commenced on the extension of the Southwest Pennsylvania Railroad to Morgantown. The route to be followed is from Oliphant to Smithfield, thence to New Geneva and up the Monongahela River to Morgantown.

☞ Engineers have surveyed the route for the proposed branch of the Pennsylvania Railroad into Frankford. The officers of the company say that the branch will be built, and the cars running before the spring of 1879.

RAILROAD EARNINGS—MONTHLY.

	January.	February.	March.	April.	May.	June.	July.	August.	September.	October.	November.	December.	Total.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "§."

Pennsylvania Railroad.

The following statement of the business of all lines of the Pennsylvania Railroad Co. east of Pittsburg and Erie, for November, 1878, as compared with 1877, shows

A decrease in gross earnings of	$63,356
An increase in expenses of	12,478
A decrease in net earnings of	$75,884

The eleven months of 1878, as compared with same period in 1877, show

An increase in gross earnings of	$755,685
A decrease in expenses of	591,047
An increase in net earnings of	$1,346,732

All lines west of Pittsburg and Erie for the 11 months of 1878 show a surplus over all liabilities of $47,809, being a gain over the same period in 1877 of $235,348.

Pittsburg, Cincinnati & St. Louis Railway.

The following is an approximate statement of results in the operations of the Pittsburg, Cincinnati and St. Louis Railway Company for the eleven months ending November 30, 1878:

Gross earnings (including interest received on equipment hired), January 1 to December 1, 1878		$2,905,333
Expenses (including interest on car trust cars and rent of Monongahela extension) for same period		1,876,666
Net earnings		$1,028,666
The interest on the bonds for these eleven months is:		
$3,000,000 Steubenville and Indiana Railroad 6 per cent	$165,000	
$775,000 Steubenville and Indiana Railroad 7 per cent	49,729	
$6,222,000 Pittsburg, Cincinnati and St. Louis Railway 7 per cent	399,245	
		613,974
Surplus		$414,692

During November the gross earnings of the railway were $289,298, the expenses $196,343, and, after paying interest, the net surplus from the month's operations was $37,139.

New York, Lake Erie and Western R. R.

The following is the report of the Erie Railway, from June 1 to September 30, 1878, after it had been reorganized under the name of the New York, Lake Erie and Western Railroad:

STOCKS AND DEBTS.

Capital stock by charter	$86,536,900 00
Floating debt (loans)	400,000 00

With regard to the amounts of stock subscribed and paid in, a note in the report says adjustments are now being made by the company, pursuant to its articles of incorporation.

The company acquired the road and franchises of the Erie Railway Company subject to the mortgages existing thereon, which are assumed by the company as part of its funded debt. Pursuant to its articles of incorporation the company proposes to create a funded debt, but is unable yet to state the amount and details thereof accurately.

COST OF ROAD AND EQUIPMENT.

Graduation and masonry	$4,449 37
Bridges	2,239 08
Superstructure	24,177 87
Station buildings	324 39
Engine houses, machine shops	378 15
Land (damages) and fences	157 50
Incidents	95 00
Third rail (east of Waverly) general fund	336,676 70
Third rail special fund	205,624 70

Until the amount of stock and bonds of this company, which are to be issued in exchange for the stock and bonds of the Erie Railway Company, is ascertained and adjusted, the total cost to this company of its road and equipment cannot be stated.

Expenses:		
Maintaining road or real estate	$722,790 48	
Expenses of repairs of machinery	530,689 91	
Office expenses	66,834 18	
Telegraph operators	34,302 90	
Agents and clerks	246,391 25	
Labor	258,390 09	
Porters, watchmen, etc.	98,570 50	
Station attendance	19,105 14	
Conductors and brakemen	377,707 60	
Enginemen and firemen	296,947 98	
Fuel	283,703 06	
Oil and waste, engines	22,307 48	
Oil and waste, freight cars	18,845 25	
Oil and waste, passenger cars	6,188 53	
Loss and damage of goods and baggage	2,524 48	
Damage for injuries to persons	656 15	
Damage to property	478 00	
General office expenses	24,973 47	
General superintendence	26,763 84	
General office, clerks	38,521 90	
Contingencies	196,057 23	
Total for maintenance and transportation for the four months	$3,272,748 77	
Other expenses, (except for construction:)		
Accrued interest on funded debt, (approximated)	$743,408 76	
On Long Dock bonds	70,000 00	
Boston, Hartford and Erie Railroad bonds	44,333 34	
Loans and mortgages	2,850 08	
Weehawken Dock mortgage	21,484 41	
Gold premiums	298 60	
Rental of leased lines	241,047 75	
Other expenses — ferries, docks, horse lines, express, etc.	108,931 28	
Total, (with maintenance and transportation)	$4,505,097 99	
Earnings:		
Passengers	$1,170,075 52	
Freight	3,827,414 81	
Express	104,266 27	
Mails	54,486 10	
Rents	5 778 36	
Ferries	75,863 40	
Pavonia Horse Railroad	7,200 83	
Baggage express	21,966 96	
Freight depot receipts	46 71	
Weehawken docks	34,172 60	
Royalty on oil	1,712 67	
Miscellaneous	30,665 58	
Total earnings for the four mos.	$5,333,644 39	
Total surplus fund	828,546 40	
Number of passengers (four mos)	1,816,085	
Number of tons of freight	2,021,562	

☞ At the annual meeting of the Boston and Maine Railroad Company, held at Lawrence, Mass., on the 11th inst., the 45th annual report of the directors was presented and adopted, and the following gentlemen elected directors for the ensuing year: Nathaniel G. White, Lawrence; Geo. C. Lord, Boston; Amos Paul, South Newmarket, N. H.; Nathaniel J. Bradlee, Boston; William S. Stevens, Dover, N. H.; Jas. R. Nichols, Haverhill; John F. Osgood, Boston; Samuel E. Spring, Portland, Me.; Nathaniel W. Farwell, Lewiston, Me.

☞ The capital of the Dayton, Covington and Toledo Railroad Company has been increased from $100,000 to $200,000. Samuel B. Smith is President of the company.

American Railroad Journal.

Saturday, December 28, 1878.

Financial and Commercial Affairs.

Foreign advices in the commercial lines are yet discouraging, especially as relating to business affairs in England, where extreme depression is the feature, with resulting distress, and more or less of demoralization. Financially, the reports are of a rather easier Money market, with the Bank of England reserve on the increase, and less of difficulty experienced in obtaining aid, collaterals being satisfactory.

Home markets are comparatively tame, as usual near the close of the year, with, however, few radical changes, and none of a disturbing character. Money is quo'ed brisker, at all the prominent business centres; partly due to the preparations now in vigorous progress for the 1st of January interest and dividend disbursements. The demand, though more active, is not, as a rule urgent, and responsible borrowers find little trouble in making prompt provision for their wants at the current quotations, whether on call, or in the discount line. The Banks are working very conservatively, as a rule, with a view to the successful inauguration of the resumption policy of the Treasury Department, at the beginning of the new year. The City Bank exhibit of last week indicated a further reduction in the loan and discount average of $2,073,100, and a falling off in the item of circulation of $64,600. The average of deposits was again cut down $2,508,600. The legal tender reserve was diminished $878,500; and the specie average enlarged $28 600. The City bank net reserve of specie and legal tender notes now shows an excess over the legal requirement of reserve to liabilities of $9,605,100, against $9,-

827,000 the preceding week, or a loss of $222,700. The City bank exchanges in currency reached $421,244,872, or a daily average of $70,206,478. Call loans closed here at 4@7, chiefly at 5@6 per cent; and best discounts at 4½@7 per cent per annum.

The outstanding amount of legal tender notes is $346,743,071. The National bank circulation is now $322,092,686 of currency notes and $1,468,620 of national gold bank notes. National Bank notes received at the Treasury Department last week for redemption were to the amount of $2,166,000.

On Monday, the subscriptions to the new U. S. 4 per cent loan were up to $2,422,300 for the day. The preceding week's subscriptions were also to an unusually liberal aggregate.

Government Securities have been in generally fair demand, almost wholly on investment account, and prices have been quoted firmer, the 6 and 5 per cents of 1881, and the new 4½ per cents and the Currency Sixes having been the favorites. The 1867 Five-twenties were exceptionally weak, because of the call for redemption of the outstanding remnant of the loan of 1865, and the prospect of rapid conversion of the controllable six per cents, through the coming year. The general market on Thursday closed steady. At the close on Wednesday the current quotations were as follows:

United States 6s, 1881, registered, 106¼@106⅜; do. coupon, 109¼@109⅜; do. 5-20s, 1867, registered, 102¼@102½; do. coupon, 105¼@105½; do. 1868, registered, 105@105½; do. coupon, 108@108½; ten-forties, registered, 107⅞@108; do. coupon, 107⅞@108; 5 per cents, 1881, registered, 106⅜@106⅝; do. coupon, 106⅜@106½; 4½ per cents, 1891, registered, 104⅜@104⅝; do. coupon, 104⅜@104⅝; 4 per cents, 1907, reg., 99⅜@99⅝; do. coupon, 100⅜@100⅝; sixes, currency, 119⅛@119¾.

The Secretary of the Treasury on last Saturday issued a circular letter to officers of Customs calling attention to the Resumption act, adding: "By reason of this act, you are authorized to receive United States notes, as well as gold coin and standard silver dollars, in payment of duties on imports on and after the 1st day of January, 1879. Notes thus received will, in every instance, be deposited with the Treasurer or some Assistant Treasurer of the United States, as are other collections of such duties to be redeemed from time to time in coin on Government account, as the convenience of the service may demand."

The amount of U. S. bonds held by the Treasurer of the United States as security for the National Bank circulation is $348,940,000, and $18,933,300 as security for public deposits.

An active inquiry has been noted for the favorites of the State Bond list, values of which have been quoted higher, though somewhat variable. Railway Mortgages of the favorite issues have met with a readier market, chiefly on investment account, at stronger prices, the actual interest bearing loans leaving off buoyantly. And in the line of Railway and Miscellaneous share property business has been less active and prices have fluctuated widely; influenced, in part, by the higher range rates on Money, in the loan and discount market, but in good part also by speculative manipulation; the general market, however, winding up stronger, with a buoyant temper apparent in the latest dealings.

With the close approach of specie resumption, the Gold speculation has been devoid of life, and measurably, of general interest; as reflected in the monotonous record of quotations during the week, which scarcely varied from par. The customs call has been on a restricted scale, and the export drain insignificant. The extremes during the week have been 100@100 1-32, the ruling quotation having been 100, closing on Wednesday at 100 as against 100 on Wednesday of the preceding week. The specie outflow last week was only $160,854—making the total exports of specie hence since January 1, $12,279,952 against $25,265,339 the same time in the preceding year. The imports of specie at this port last week were to the amount of $137,762, and since January 1st have been $18,983,971 as against $15,108,812 same time in the preceding year. The Customs demand for gold in the local market last week reached only $1,447,000 or an average of about $241,117 per day.

Foreign Exchange has been moderately sought after and quoted generally easier leaving off irregularly. Bankers' sixty day bills on London closed at $4 82@$4 82½; sight bills on London at $4 87¼@$4 88¾ to the £ sterling. Cable transfers, 4 89@4 90. The week's imports of Dry Goods and general merchandise were to the specie value of $4,393,335 as against $4,977,636 the corresponding week of 1877. The week's import entries of Foreign Merchandise at New York included $1,102,860 of Dry Goods, and $3,290,475 of General Merchandise. The week's exports of Domestic Produce and Miscellaneous Goods from this port were to the aggregate value of $7,269,771 against $6,467,126 same week in 1877; and since Jan. 1 have been $341,128,200 against $289,965,129 same time last year.

Metals have been generally dull, with values however quoted unchanged. Pig Iron quoted for Glengarnock, at $22 50; Coltness, $23 50@$24; No. 1 American Pig at $16 50@$18 50; No. 2 do. at $15 50@$17 50. Forge, $15@$15 50. New Iron Rails at works, $33@$35. Old Rails, $18 50@$19. Wrought Scrap, $20@$21. Steel Rails have been in exceptionally good request and quoted on the basis of $42@$44. Further sales of 8,000 tons new Steel Rails and 2,000 tons new Iron Rails were reported, for forward delivery, within our range. Ingot Copper, 15⅞ct.@16. Domestic Pig Lead, 4 cts.

A comparatively moderate movement has been reported in Domestic Produce with prices quoted generally weaker, though leaving off in instances more firmly. No. 2 Red Wheat buoyant, on speculative activity. Cotton has been quiet for early delivery, and fairly active in the way of options, with prices quoted higher. Low Middlings closed for prompt delivery at 8 8⅜@8⅞; Middlings at 9⅛@9¼. Options left off for December basis of Middling at 9.24; January at 9.28; February at 9.25; March at 9.60; April at 9.74; May 9.87; June at 9.97; July at 10.10; August 10.14.

Ocean freights have been only moderately active in nearly all connections, though the advantage as to rates has been generally in favor of shippers. For Liverpool steamer rates at the close for Grain quoted at 5⅛d. per bushel. Flour, at 2s. 6d.@3s. Provisions, 25s.@32s. 6d.; Leather 30s.@40s. Measurement Goods at 20s.@23s. 9d. per ton; Cotton, 7-32d.@¼d. per lb. Tobacco at 30s. Liverpool, by sail: Cotton, 8-16d.@7 32d. Grain at 4s. 9d.@5s. per quarter; Flour, 1s. 9d.@2s.; Measurement Goods, 12s.6d.@15s. Tobacco 27s. 6d.; Oil Cake at 18s. 9d. Grain rates on charter hence for Cork and orders left off at 5s. 6d.@5s. 9d.; for the Continent Grain at 4s.@10½d. @5s. 10d. as to ports of discharge. Tonnage for Refined Petroleum at 4s. 3d. to Cork, for orders, at 3s. 6d.@4s. 6d. to the Continent, and 4s. 6d.@5s. to the Baltic. Through freights from Chicago for Liverpool by rail and steam have been quoted up to equal 65@68½cts. per 100lbs. but have been inactive, shippers have been unwilling to operate to any important extent at the new combination figures.

Naval Stores and Petroleum have been in fair supply and generally slack demand in the local market, at barely steady rates. Foreign merchandise has been in light request, and values quoted somewhat depressed in price.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

☞ The certificate of incorporation of the Bloomington and Fairfax Railroad Company has been filed in the executive chamber at Annapolis, Md. The directors are Lloyd Lowndes, John Humbird and W. F. Jamieson, of Allegany county ; Arthur P. Gorman, of Howard county ; Patrick Hamill, of Garrett county, and M. Bannon, of Anne Arundel county. The termini of the road are Bloomington, on the Baltimore and Ohio Railroad, in Garrett county, and a point on the boundary line of West Virginia and Maryland, called Fairfax Stone. The capital stock is fifty thousand dollars. Articles of agreement between the railroads consolidated into the Baltimore and Delta Railroad Company have also been filed at the executive department.

Mining.

Isabella and Globe.—Late advices to Mr. Holbrook, the president, from the mines enabled him to assure a Journal Reporter that the company's first dividend will undoubtedly be declared next month.

Findley.—Under date of Dec. 18, the Superintendent writes "Expect the best report of gold for this week ever made."

Kings Mountain.—Mr. Beckwith, the Superintendent, writes on 21st that the drift is 17 feet in, and that the rock is very hard ; also that a car load of sulphates will be shipped next week, and another by January 1st.

Original Keystone.—A statement of the financial position of this company is with Messrs. Trask & Francis. It appears that after paying all debts a balance of $33,000, out of the assessment of $50,000, will remain in hand.

Vestel of Montana.—Mr. Ryan writes that the drift is being worked in good ore four feet in width and the mill is running well. The last remittance was $15,860.

Recent quotations at the Mining Board are: Plumas, $3 60 ; Kings Mt., $1 65 ; Findley, 0.63 ; Hukill, $3 50.

☞ A contract has been awarded for the grading, masonry and trestlework of the Baltimore and Delta Railroad from Great Gunpowder river to Delta to Haugh & Gantz, of Baltimore, for $33,000. The contract is that the work shall be completed in the year 1879, and will begin about the first of January. The next step, it is stated, will be the letting of a contract for the grading, etc., of the road between Baltimore and the Great Gunpowder. Subscriptions to the amount of $200,000 have been received, of which a percentage has been paid.

☞ Railroad connection was completed on the 3d inst. between the United States and the Canadian Province of Manitoba by laying the last rail of the Pembina branch of the Canada Pacific Railway, connecting with the branch of the St. Paul and Pacific Railway extending north. The last rail was laid near Rosseau River, 10 miles north of the international boundary, in the presence of a party from Winnipeg.

☞ A new tunnel company has been organized at St. Louis with J. S. Walsh as President, and N. S. Chonteau, Vice President, with a capital of $1 200,000. Judge Treat, of the United States court, has directed the Receivers to deliver possession of the tunnel property to the new company.

☞ The contractors for the construction of the grading and masonry of the 32 miles of the Baltimore and Delta narrow gauge railroad between the Great Gunpowder and Delta, Penn. are John Haugh, Henry Gantz and David L. Chamberlain. It is to be completed in one year.

☞ The Pittsburg Post states that the probabilities are that a railroad will be built from Ravenna to Warren, connecting at Ravenna with the Cleveland and Pittsburg, and at Warren with the Ashtabula, Youngst w and Pittsburg railroad

Redemption of Five-Twenty Bonds.

The Secretary of the Treasury issued on the 18th inst., the seventy-fifth call for the redemption of 5-20 bonds of 1865—consols of 1865. The call is for $10,996,100, of which $2,439,250 are coupon and $8,556,850 are registered bonds. The principal and interest will be paid at the Treasury on and after the 18th day of March, 1879, and the interest will cease on that day. The following are the descriptions of the bonds:

Coupon bonds, dated July 1, 1865, namely: $100, Nos. 147,001 to 148,720, both inclusive; $500, Nos. 105,001 to 106 695, both inclusive; $1,000, Nos. 204,001 to 210,542, both inclusive; total coupon, $2,439,250.

Registered bonds, redeemable at the pleasure of the United States after the first day of July, 1870: as follows: $50, Nos. 2,494 to 2,503 both inclusive; $100, Nos. 19 280 to 19,297, both inclusive; $500, Nos. 11,827 to 11,837, both inclusive; $1,000, Nos. 39,305 to 39,316, both inclusive; $5,000, Nos. 12,705 to 12,722, both inclusive; $10,000, Nos. 25,701 to 26,586, both inclusive; total registered, $8,556,850; aggregate, $10,996,100.

New York Central and Hudson River R. R.

The annual report, in the form required by law has been filed in Albany by the New York Central and Hudson River Railroad Company, and the following tables contain the returns for year ending September 30, 1878, together with a detailed comparison:

STOCK AND DEBTS.

	Sept. 30, 1877.	Sept. 30, 1878.
Capital stock	$89,428,300 00	$89,428,300 00
Funded debt	39,801,233 33	39,801,233 33
Bonds and mortgages given or assumed by the company upon purchase of real estate	534 212 22	632,050 56
Average rate per annum of interest on funded debt	6½ per cent.	6½ per cent.

COST OF ROAD AND EQUIPMENT.

Grading and masonry	$19,501,106 83	$19 543,814 40
Bridges	2,528,626 21	2,528,026 21

The Coal Trade.

The total tonnage of anthracite coal from all the regions for the week ending December 14th, as reported by the several carrying companies, amounted to 339,289 tons, against 420 807 tons in corresponding week last year, a decrease of 83,520 tons. The total amount of anthracite mined for the year is 16,353 173 tons, against 19,549,269 tons for same period last year, a decrease of 3,196,096 tons. The quantity of bituminous coal sent to market for the week amounted to 64,673 tons, against 50,109 tons in corresponding week last year, an increase of 14,564 tons. The total amount of bituminous mined for the year is 3,315,421 tons, against 3,294,997 tons for corresponding period last year, an increase of 20,424 tons. The total tonnage of all kinds of coal for the week is 403,962 tons, against 472,916 tons in corresponding week last year, a decrease of 68,954 tons, and the total tonnage for the coal year is 19,668,594 tons, against 22,844,266 tons to same date last year, a decrease of 3,175,672 tons. The product of the mines of the Cumberland coal region for the week ending December 14 was 20,451 tons, and for the year to that date 1 620 616 tons, an increase of 109,625 tons as compared with the corresponding period of last year. The shipments to the Baltimore and Ohio Railroad were, for the week, 18,599 tons; for the year, 865,086 tons, an increase of 102,785 tons as compared with 1877. The shipments to the Chesapeake and Ohio Canal were, for the week, 279 tons; for the year, 609,925 tons, an increase of 26,464 tons as compared with 1877. The shipments to the Pennsylvania Railroad were, for the week, 1,662 tons; for the year, 145,225 tons, a decrease of 19,785 tons as compared with 1877. The quantity of coal and coke carried over the Pennsylvania Railroad for the second week of December was 97,744 tons, of which 73,810 tons were coal, and 24,435 tons coke. The total carried for the year is 4,702,519 tons, of which 3,625,856 tons were coal and 1,076,663 tons coke. These figures embrace all the coal carried over the road, east and west. The Reading Railroad carried 123,000 tons of anthracite coal for the week ending December 21, of which 48,500 tons were sent to Port Richmond.—*Phila. Ledger, Dec.* 23.

Illinois and St. Louis Bridge.

The Illinois and St. Louis Bridge was sold at St. Louis on the 20th inst, under a decree of the Court foreclosing the first and second mortgages, and bought by Anthony J. Thomas, of New York on behalf of the bondholders for $2,000,000—$50,000 gold being paid as earnest money. After the sale is confirmed by the Court it will become the property of a new company recently organized at St. Louis, called the St. Louis Bridge Company. The Directors of this company are: Solon Humphreys, J. S. Walsh, E. W. Woodward, G. B. Allen, and Edward Walsh, Jr. The officers are: Solon Humphreys, of New York, President; Ed. Walsh, Jr., of St. Louis, Secretary; and Anthony J. Thomas, of New York, Treasurer. The capital stock of the new company is placed at $7,990,000. The contract entered into stipulates that the company will give to holders of the first mortgage new bonds, at par; to holders of the second mortgage will be issued first preferred stock, and to holders of the third mortgage second preferred stock. The arrangement also contemplates the setting apart of the earnings of the bridge until 1881, to be divided between the first mortgage bondholders and the holders of indebtedness incurred while the property was in the hands of the receiver.

A GOOD PLAN

Anybody can learn to make money rapidly operating in Stocks, by the "Two Unerring Rules for Success," in Messrs. Lawrence & Co.'s new circular. The combination method, which this firm has made so successful, enables people with large or small means to reap all the benefits of largest capital and best skill. Thousands of orders, in various sums, are pooled into one vast amount and *co-operated* as a *mighty whole*, thus securing to each shareholder all the advantages of the largest operator. Immense profits are divided monthly. Any amount, from $5 to $5,000, or more, can be used successfully. N. Y. *Baptist Weekly*, September 26th, 1878, says: "By the combination system $15 would make $75, or 5 per cent; $50 pays $350, or 7 per cent; $100 makes $1,000, or 10 per cent on the stock, during the month, according to the market." *Frank Leslie's Illustrated Newspaper*, June 29th: "The Combination method of operating stocks is the most successful ever adopted." *New York Independent*, Sept. 12th: "The combination system is founded upon correct business principles, and no person need be without an income while it is kept working by Messrs. Lawrence & Co." *Brooklyn Journal*, April 29th: "Our editor made a net profit of $101 25 from $20 in one of Messrs. Lawrence & Co.'s combinations." New circular (mailed free) explains everything. Stocks and bonds wanted. Government bonds supplied. Lawrence & Co., Bankers, 57 Exchange Place, N. Y.
